A CAUTION.—We feel it to be our duty to caution our clerical and lay brethren in respect to a female beggar, who is going about the country, representing herself as the widow of an officer of the English army. She has lately been in this city, and, we are sorry to say, has succeeded but too well in imposing upon the charities of churchmen. She pretends to be an embroideress, and professes to be anxious to obtain employment; but she is much more anxious to get *money* than to get *work*. We recommend to those to whom she applies, to test her qualifications and her character, by at once giving her the employment she pretends to seek; and if we are not mistaken, they will find that they have bit upon an expedient which will effectually develop her character, and rid themselves of an imposter.—*Christian Witness.*

The above named imposter and beggar visited this city sometime ago, and realized a pretty little sum by her ingenious fictions.

The Bunker Hill Aurora gives the following anecdote.

A prominent lawyer in this county—once a Whig—went into court on Tuesday, and was asked what he though of the election? Why, said he, if the Whig party owed me ten dollars, I should come into court and make affidavit for a commitment, on the ground that I believed it was about to leave the Commonwealth. It is not at all remarkable that this gentleman should illustrate his ideas of things or principles by a money value, and had his claim been against his own party, this proposed remedy would have been too late.

BALTIMORE, 22d.—ESCAPE OF A NOVICE FROM THE ROMAN CATHOLIC SISTERHOOD. Considerable feeling has been excited in this community in regard to the escape of a novice from the Roman Catholic Sisterhood at Emett's Bay. She was named Josephine Bankley, and had not completed her probation. She escaped at 3 o'clock on the morning of the 10th inst. She is the daughter of Joseph Bankley, Esq., of Norfolk, a protestant. Since she became a novice she has been doing duty at St. Joseph's Seminary, and has taught music there for the last ten months.

Some months since, it is reported, she wished to dissolve her connection with the sisterhood, and expressed a desire to return home. She then wrote a letter addressed to her father, and it was destroyed before her eyes, and she was compelled to write another, in a different strain, declaring the satisfaction she felt in being where she was. This letter deceived her father as to the true facts of the case, and all his letters in return to his daughter were consequently handed to her unopened. Aware, at length, that she was a prisoner, Miss Bankley determined to escape, and finally succeeded in doing so by climbing through a sash over the door of her place of confinement. She then walked ten miles to Creagerstown, where she communicated with her father, who came to her aid. These facts have been fully related by herself, and are therefore perfectly reliable.

CINCINNATI, Nov. 24.—The Know Nothing convention, which has been in secret session here for the past two weeks, adjourned. The attendance has been large, every State in the Union being fully represented. Among the representatives are Messrs. Clayton of Deleware; Ullman of New York; Brown of Pennsylvania; Lumsden, of New Orleans; Mayor Conrad of Philadelphia. The utmost harmony prevailed. Important alterations were made in the constitution of the order, a new ritual adopted, and a complete change made in the pass word, signs, &c. The matter of the presidential candidate had not yet been brought up.

ALLEGED ATTEMPT AT ABDUCTION.—The Bee narrates at length an attempt on the part of Eliza Colbert, a Catholic, living in Charlestown, to abduct from her residence with Mr. Henry. Slade, in Pearl street, Chelsea, a cousin, 14 years of age, named Mary Josephine Colbert, who recently abjured the Roman faith, and is about being united with the Methodist church, into whose communion she was, a month since, baptized. Constable Cady of Chelsea; found the girl detained at Charlestown, whither she had been decoyed in hopes of receiving a letter from her sister, who was said to be residing at Springfield, which statement, however, was untrue. Mary, who is represented as a promising convert, adheres to her Protestantism. Pior efforts had been made to change her determination.—*Boston Telegraph.*

SCENE IN KNOW NOTHING LODGE.—Question: Will you hereafter do all in your power to extend and perpetuate the *potato rot*, in order to keep the Irish out of the country? Answer: I will; and further, I will extend and perpetuate rot-gut whiskey, in order to kill 'em after they get here.—*Newburyport Herald.*

GODEY'S LADY'S BOOK, for December, 1854, is just received from Federhen & Co., Boston, via J. P. Morse of this city. It is embellished with numerous engravings, great and small; and well sustained in a literary point of view. A new volume begins with the new year. Now is the time to subscribe.

TROY, Nov. 24.—A portion of the arch over the Union Rail Road track, in this city, fell this morning, injuring three workmen, fatally, it is thought.

LOCAL.

OLD FOLKS' CONCERT.

"When whispering streams do softly steal
With creeping passions through the heart;
And when, at every touch, we feel
Our pulses beat, and hear a part;
When sounds can make a heart-string quake,—
Philosophy can scarce deny
The soul can melt in harmony."

The first meeting for preparing and rehearsing the programme for the Concert of ancient music, to be given at the Temple in this city on Wednesday evening, Dec. 13th, was held at Exchange Hall on Saturday evening last. A goodly number of the old singers were present, with some not so old. A committee of three was chosen to make selections of music, from the third edition of "Ancient Harmony Revived," just published in Boston—the first having been issued in 1848.

To answer many inquiries, we will state that the music will be that which was long since laid aside from general use—though a few of the tunes have been hashed over to accommodate organ-players, and appear in a new and inferior shape in modern books. The new collection gives them as they were originally. But few save the very oldest singers, have used this old music—though persons of middle age will generally recall as familiar, the inspiring melodies and grand old harmonies.

The choir will consist of probably seventy or more singers, with an orchestra of eight or more pieces. The ages of the performers will range from about fourscore years down to —. All the old singers who can be found in the city, with some from the neighboring towns who sung in public here from ten to thirty years ago, will be invited; with enough of the younger performers to fill in the parts well. The whole is under the direction of the gentleman who led the performances of the Portsmouth Sacred Music Society till it broke up.

☞ The meeting adjourned to Saturday Evening, Dec. 2d, at 7 o'clock, at Exchange Hall, No. 4 Exch. Buildings. All residing in this vicinity, to whom an invitation was extended for the first meeting, and who intend joining in this grand jubilee, are most respectfully invited to be present at that time and place.

LYCEUM MANNERS.

A correspondent, signing himself or herself, "One of the Gigglers," has sent us a reply to —, who wrote on the "Want of Good Manners" at Lyceum Lectures.

The Giggler thinks that if a whole audience were turning their backs to the stage and talking, it would be a sign that the lecture did not interest them, and that the lecturer himself would turn his back also.

The close of the article, the only material part of it, is as follows:

"We suppose it was no "want of good manners" for a man (?) to come in from the bar-room, most abundantly perfumed with tobacco, brandy, and all other ingredients pertaining thereto, and take his seat in the midst of the ladies; still more to keep up such a horrible, but *unmentionable* strain of music that they could not be permitted to listen to the lecture, but must be obliged to resort to the "*giggle*," though it be most *wofully senseless*. Let us, in conclusion, make an agreement with the writer, viz., that we will, in future, promise to take our seats in the lecture room, and conduct with due decorum and respect, provided he will take measures to keep all pigs and bar-room loafers outside, or else provide them with pocket handkerchefs and spittoons. Yours, very respectfully,

ONE OF THE "GIGGLERS."

Portsmouth, Nov. 24.

☞ The Hutchinson Family sing at the Temple this evening. The simple announcement is sufficient to fill the house.

If "all the world's a stage, and men and women merely players," where is the audience and orchestra to come from?

Wait till the "Old Folks' Concert" comes off.

BUOYS LOST.—The Newburyport Herald states that the black sticks, in marine parlance known as buoys, which were placed on the Merrimac by order of government, a year ago last spring, have all vanished. They were insecurely anchored, and improperly adjusted. They will probably not be re-placed until another appropriation is made by Congress.

THE CURTICE CASE.—We learn from the Manchester Mirror, that the jury in the case of young Curtice, on trial for poisoning his father, after being sent out three times without being able to agree, were dismissed by the Judge from any further consideration of the case, and the prisoner was sent to Amherst jail to await a new trial. The jury had the case under consideration twenty-one hours, during which time not one of them changed his opinion as to the guilt of the accused. They stood seven for conviction and five for acquital.

BURNING OF STEAMER OCEAN, AND LOSS OF LIVES.—The steamer Ocean, Capt. Donovan, left her wharf in Boston on Friday afternoon about five o'clock for the Kennebec river, having about eighty passengers. About half-past five, about a half a mile south of Deer Island, she was run into by the British steamship Canada from Liverpool, which struck the Ocean abaft the larboard wheel-house, cutting her down to the water's edge. The Ocean took fire immediately, from some of her stoves having been thrown over in the concussion. The steamers Forest City, for Portland, and Boston, for Bangor, and other vessels were in the vicinity and immediately [illegible] to her assistance; but several lives were lost. The Ocean was run on shore on Deer Island about a quarter of a mile south of the Hospital. She continued burning for several hours, until the fire reached the water's edge, making the destruction of the vessel complete.

The Forest City, after rendering what assistance she could, returned to the city with about twenty-five passengers, the dead bodies of a man, a woman and a child, who apparently died in the water, and several wounded persons. Among the last named were Capt. Donovan of the Ocean, hurt in the leg, Hiram L. Wing of Bath, the Express messenger for Carpenter & Co., who was badly burnt or scalded, Charles Pope, a colored man, who had his leg broken, and his wife, who is badly hurt in the breast. The wounded were taken to the Massachusetts Hospital. At the time of the collision many were seen to jump overboard, and it is not yet known what number were lost.

Capt. Berry of the boat Quarantine, brought to the city thirty-five or forty passengers who were picked up by the boats of the Canada. One of the men had his arm broken. Eight or ten ladies, and a little boy about four years old, remain on board the Canada.

The bodies of the man and woman brought up by the Forest City, were those of passengers, and apparently young persons.

The Boston rescued many, and several were taken up by boats from small vessels.

The collision is partly attributable to the fact that the four Eastern steamers, Ocean, Boston, Forest City and Eastern State, were all in close proximity between Deer Island and Long Island, on their way out, and were there unexpectedly met by the Canada, which in vain endeavored to avoid a contact.

The Ocean was a good boat, about ten years old, owned by Capt. Nathl. Kimball, of Gardner, and others. She had a full freight of goods for the merchants on the Kennebec. *Advertiser.*

Capt. Donovan, of the Ocean, says he had his lights up, and his whistle blowing; but the Canada did not see the Ocean in season.

ONE WEEK LATER FROM CALIFORNIA.

NEW YORK, Nov. 24.

The steamship George Law from San Juan, has arrived, bringing California dates to the 1st inst., and $1,568,644 in specie.

She left Aspinwall at midnight of the 15th inst., and arrived this evening, bringing 423 passengers. She connected with the steamship John L. Stephens.

There is but little news of interest from California.

The early setting in of the rains had been unfavorable for some mining operations, while to others it had proved the reverse. Still, there was no complaint from the mines generally, as to any lack of prosperity.

The taxable property of San Francisco has been ascertained to be thirty-eight millions of dollars.

All was quiet on the Isthmus. The consideration of the project for erecting the provinces on the Isthmus into an independent State, has been postponed until next year.

Matters in Peru were very unsettled, and in Lima the military had been called out to disperse a mob who were shouting "Viva Castella." A melee ensued, in which two citizens and three soldiers were killed. Five or six persons had also been killed in a disturbance at Callao.

From Australia there is no political news of any importance. Everything was very dull in commercial affairs, and many failures had taken place.

NEW YORK, Nov. 24.—A despatch from Washington says that the Spanish Minister lies very ill, and his recovery is considered doubtful.

It is reported that the President's Message will not, as heretofore, be sent out in advance, to be delivered to the Press simultaneously with its presentation to Congress; the President desiring, in the present state of affairs in Europe, to keep the Message open to the latest moment.

Rev. Dr. Spencer, an influential Presbyterian clergyman, died in Brooklyn last evening, aged 57 years.

The Evening Post says there is some trouble among the stock operators. A large outside speculator has failed to meet his contracts, and several extensions of time have been granted to-day.

FROM HAYTI.—The pressure from without has brought about a better understanding between the negroes and mulattoes of Hayti and the mulattoes of Dominica. The French consul, in order to prevent the occupation of Samana by the Americans, has suggested an agreement by which Dominicans will become a semi-independent state of the Haytien empire, reserving to itself the choice of its own rulers, and the management of its local affairs, and more especially of its religion, which has heretofore been the chief bone of contention between the eastern and western ends of the island. It this arrangement be consummated, it will nip in the bud the incipient treaty for the partial annexation of Dominica to the United States, and will bring to a premature close the mission of Mr. and Mrs. Cazneau among the free colored Republicans of the West End.—*Washington Correspondent North American.*

PHILADELPHIA, Nov. 24.—In the case of Beale, the dentist, convicted of taking improper liberties with the person of Miss Mudge, the court refused to grant a new trial. His sentence will be pronounced to-morrow.

RALEIGH, N. C., Nov. 24.—David S. Reid has been elected U. S. Senator for four years, by the Legislature of North Carolina, by a majority of 11 votes.

REASON FOR NOT DANCING.—At the close of a fair held by the Free Will Baptist Society, in Manchester, N. H., after evening's service, the pastor, Rev. Mr. Davis, was asked whether dancing would be allowed. His answer was no; for dancing did no good, it was a barbarous custom, and the first Baptist of whom we have any account, *lost his head by dancing!* The audience was satisfied with the reason.

Great Britain, according to the census returns contains 3,391,271 husbands, and 3,451,524 wives; 382,979 men who have been husbands—widowers; and 795,590 women who have been wives—widows. If we take only persons of the age of twenty and upward, the bachelors amount to 1,676,116; the spinsters to 1,767,194.

Swaim's Celebrated Panacea,

FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. " W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. T. Parke, M.D., Pres't College of Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Kourenco de Lus, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' DEPOTS,

DR. J. B. MARCHISI'S Celebrated Catholicon,

FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLOOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the URINARY CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 58 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S URINARY CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details at my case to any lady who will call on me at 67 Mill street.

TUESDAY, NOVEMBER 28, 1854.

THE NEW PARTY.—The conservative Whig journals of New York generally favor the "Know Nothing" party, and, with the exception of the Albany Register, they indirectly gave support to Ulmann for Governor. The Troy Whig, after copying from the Transcript a notice of the lecture of Bishop Hopkins at Philadelphia last week, on the naturalization laws, follows up the subject with the subjoined remarks:—

The breaking up of old and the formation of new parties, and the part the Know Nothings have played and are expected hereafter to play, are subjects of almost universal discussion. There certainly must be something at the bottom of all this. There must be a substantial reason why the public mind is thus stirred; and the question is—what is it? The report of a lecture by Rt. Rev. Bishop Hopkins affords an answer. It is simply a conviction that the machinery of our government is worked too much by foreigners, and that the Romish hierachy is gaining quite too much influence in our public affairs. The history of the world causes one fact to stand out—that Romanism seeks to usurp the state and subvert the government to itself, and that wherever it has succeeded, ignorance and a prostration of enterprise and thrift have ensued.

Although ours is a government under which all persons are protected in the worship of God by whatever forms they prefer; yet ours is not a government that contemplates its own overthrow, even though the instrument of its overthrow should wear the garb of religious toleration. Our form of government contains no such inconsistency. In whatever relates to spiritual matters the Protestant and Romanist have equal privileges; but neither, even in the name of his religion, has a right to do anything not strictly in accordance with the spirit of our government, or as such to meddle with its concerns. The very existence of Jesuitism in this country is a grand inconsistency—and contemplates the fact that either Jesuitism has changed—that the scarlet has become pure white—or that a favorable moment is but wanted when the monster, now passive, will arouse against our republican government in the hope of overthrowing it. Such has been the history of Jesuitism everywhere; and no sophistry about religious toleration can keep down the growing distrust in reference to its growth in this country. Hence the sudden and sweeping strength of the Know Nothings. There is a stern sentiment prevailing on this question. It proceeds from the true American heart. The discussion of it is going on all over the country—on the rostrum, in the pulpit, among the people in large and small congregations—it is the resurrection of old *Seventy-Six*—and, as in former times, will override parties and creeds and achieve a thorough revolution.

SOUTHERN OPINION UPON THE LATE ELECTIONS.—Both the Charleston Mercury and the Charleston News are open and loud in their objections to the Nebraska bill, and attribute to the introduction of that bill the sectionalism that now prevails, and anticipate from it much trouble to ensue hereafter. The Mercury says that the South did not care for it, except in the simple regard that it was a practical disavowal of the right of Congress to prohibit slavery in the Territories. Positive advantage from it they did not look for, and what they did gain was coupled with conditions so little to their liking as to make it quite impossible for them to become partizans of the measure. The Mercury also charges all the sectional feeling which has arisen from the passage of the Nebraska bill to President Pierce, Senator Douglas, and the Washington Union. This is either base ingratitude to the triumvirate, as partisans, or profound contempt to the whole three as politicians; most probably the latter.—*Boston Courier.*

FROM WASHINGTON.—The Postmaster General's report will speak more favorably of the working of the cheap postage system than any since the year 1851.

The report of the Secretary of the Treasury will include the statistics of commerce and navigation which are not usually furnished until the month of January.

Selders, Withers & Co. have dissolved and suspended. Seldon, Bayne, and John A. English, are authorized to settle with the creditors. Seldon, in effect, denies his responsibility.

Secretary Dobbin does not believe in the loss of the Albany.

On Sunday evening the 19th inst., eight slaves, including five men and three women, escaped from their master in Bourbon county, Ky., and fleeing across the Ohio near Cincinnati, passed through that city on their way to Canada. Their master was in hot pursuit of them at last accounts, but without much prospect of success.

The Sabbath School of the Five Points Mission, New York, is large and increasing. The average attendance in the week-day school is one hundred and fifty, and the congregation in the chapel on the Sabbath numbers about two hundred and fifty. These facts show what well-directed Christian efforts can accomplish.

PAUPERS TO BE SENT HOME.—Forty Irish paupers were brought from Deer Island yesterday, for the purpose of placing them on board a ship which is to transport them back to Ireland, whence they came or were sent to this country. There are some others who will also be provided with a free passage to "Ould Ireland."—*Boston Journal, Saturday.*

Mr. Christopher Sweeny of Manchester, N. H., complains that the Catholic priest in that city would not baptise his child, because he wanted it named Franklin, and the priest said it was *no Saint's name!*

COAL.—It is stated by the New York Times that the price of coal in that city has fallen to $6 and $7 per ton, within a few days.

LOCAL.

THE OLD FOLKS' CONCERT.

One of the *really* old folks, who enjoyed the rehearsal of ancient music, on Saturday evening last, writes thus concerning the Concert which is to come off on the 13th December:

The selections are the choicest pieces of Church music in former days; and one object of the Concert is to put these pieces in a line of comparison with the Church music of the present day. Some of the old composers, could they have been present at the excellent performance on Saturday evening, would have been highly gratified to find an improved taste for some of their choice music for divine worship. Mozart himself would have applauded the singing of the "Old Folks," after they had for years laid their musical talents upon the shelf. The old standard pieces, composed by authors whose fame will live forever, can never be superceded by the present Italian or French style, which has less melody and harmony. This *new, old* choir, which is numerous, will soon be ready to perform at the Temple.

For the Morning Chronicle.

LYCEUMS AND LYCEUM LECTURES.

There seems to be a slight discrepancy of opinion between "——" and "one of the gigglers," in regard to the mode of conducting at Lyceum lectures. We shall not dispute with either of these writers—but pass them by—and give our own ideas of lectures and lecturers in general.

A person who attends all the public lectures, with the laudable desire to acquire knowledge, and to pass a pleasant evening at all events, must, if the lecture is long and prosy, have resort to some expedient for amusement. To get out is almost impossible, unless the person wishing to do so occupies a back seat; — and to have a chat with your companion, if you can do so without disturbing others, seems the most rational method of spending the time till the orator of the occasion has closed his address. If no whispering was allowed it would be difficult to sell half the number of tickets which have been disposed of at either course this season.

We have, this Winter, two courses of lectures, occupying two evenings each week, durthe Winter. *One* of these is enough for a place of the size of Portsmouth, and would be an agreeable recreation to many who have no leisure during the day; but *two* are decidedly a bore. These lectures are both largely attended—and we have heard various reasons assigned by different individuals as inducing them to go. One goes because everybody else does—and a person might as well be out of the world as out of fashion; — others go because they like a crowd, and hope to have a "good time," and a *few* go expecting and desiring a literary treat. We have also heard of a number of persons who would *not* go to hear particular lecturers, generally because they were opposed to the lecturers in politics or religion.

The *popular* lecturers, so called, are generally so *deep* and *muddy*, or so exceedingly visionary and inflated, that were the subject not announced at the commencement of the lecture, it would puzzle a Philadelphia lawyer to tell what it was. Some of them after having spoken an hour and a half have not established a single principle, new or old—the lecture consisting entirely of pretty words and poetical phraseology. Many of the audience are in raptures about the lecture, but ask them what the lecturer said, and 'tis "Oh, ah, really, I cannot recollect his exact language." Ask them what he advanced that was good and original, and they will nine times out of ten tell you—*nothing*. Another will soar above this mundane sphere and be lost in the clouds, where, to say the least, it is quite *impracticable* to follow him. Another still, reads off long columns of figures which no living mortal could remember, even after having taken three lessons in mnemonics. When a good joke is read by the lecturer, a universal laugh runs through the hall; but on reflection or inquiry, it usually turns out that the anecdote first appeared in some old book or newspaper, which the distinguished orator thinks, perhaps, was never seen in this benighted region.—There are some noble exceptions to the lecturers we have spoken of, but they are rare.

A person who expects to derive from lyceum lectures a knowledge of the best literary and intellectual course to be pursued in the journey through life, will be as much mistaken as the one who goes about listening to ministers of different denominations, hoping thereby to learn the true meaning of some obscure passage of scripture, without any thought or study on his own part. One minister takes one view—and the next he hears exactly the reverse—the constructions put upon the passage are both positive, but quite opposite, and the seeker after truth is left nearly where he started. The same holds good with regard to lyceum lecturers. The true course is for each one to have a judgment and a taste of his own, by which he may justly estimate the value of such lectures as are worthy of any consideration. WOODLAND.

THE JEWS.—Rev. Dr. Burroughs addressed his people, on Sunday afternoon last, upon the condition and prospects of the Jews, and the bearing of the present bloody struggle in Eastern Europe, upon the great question of their restoration to their fatherland. It was an eloquent discourse—discovering the familiarity of the preacher with the condition of this despised race—his strong sympathy for them as the chosen people of God; also, showing great research and erudition with regard to the history and relative position of the nations at war, and their immediate neighbors.

The free discussion from our pulpit of the causes, the objects, and the justice or otherwise, of this, the most sanguinary war that has disturbed the world for centuries—its physical and moral results would be attended with good—and would serve, in the words of the eloquent preacher: to enlarge our views—enlighten our principles, and to extend our philanthropy. A HEARER.

NAVAL.—The activity at present prevailing in our Navy Yards, is said by the Washington Star to be caused by the demand for ships to take the place of the Mediterranean and East India Fleets which are to return next spring, and which will be laid up for repairs. At the Navy Yard near this city, the Santee is progressing very rapidly, though it would seem almost impossible to get her into the water at the time fixed—the 15th of December. The outside planking is all on; the caulking completed up to the water line, and that part of the ship is nearly ready for the copper. The launching ways are also being placed under her. With her additional length she is a beautiful and sharp ship.

The Franklin is progressing very fast—about two-thirds of her frames being up. She is probably farther advanced than any of the new steamships, except that at Charlestown. This difference is accounted for by the fact that the Merrimack is built under the "six steamship appropriation bill," while the Franklin is built under the general naval appropriation bill, which did not pass until several months after the first named.

The addition to the ship house in which the Franklin is building, is going on well, and when erected will make it one of the largest buildings at any of our yards.

☞ The Hutchinson Family were greeted with an overflowing house, at the Temple, last evening, many scores leaving the hall without obtaining even standing room. They sung beautifully, and were heartily applauded.—They sing again next Monday evening.

LAUNCH.—Will be launched from the yard of Messrs. Tobey & Littlefield, to-morrow, Nov. 29, at 8 o'clock A. M., a brig of about 275 tons burthen.

☞ Rev. Thos. Starr King is to lecture this evening at the Temple, before the Mechanic's Lyceum. We are informed that there are for sale a very few season tickets for the course.

☞ See the Advertisement headed "Wanted" in another column. The article offered is well spoken of by the press and others.

THE NEW HAVEN RAILROAD OVERISSUES. The Journal of Commerce of Saturday afternoon states that a good deal of importance was attached, in the street that day, to the decision of Judge Hoffman in regard to the legality of what is called "bogus" stock of the New York and New Haven Railroad Company, though his decision is not final. The Judge held that all certificates of stock are *genuine*, one as much as another, and that the company cannot repudiate one class more than another where each has the proper official form and signature; and that the proper method of settlement is for the company to recognize all of its issues, and then cut down the per value of each to bring the aggregate within the limits assigned to the capital stock by the charter. The Judge was also very severe upon the directors of the company for their negligence, and inattention to the company's affairs.

HOLMES HELD FOR MURDER.—The grand jury to-day indicted John P. Holmes (who was a candidate for Alderman at our recent election) for the murder of police officer Gonsley. He was held to bail in the sum of $10,000.

Much distress now prevails among the laboring population at Richmond, Va., in consequence of the high rates of provisions and the great depreciation in labor, consequent upon the completion of the ship lock and other works, which, during last winter, afforded employment to hundreds who are now idle.

GAS AT PLYMOUTH, MASS.—The first appearance of gas at Plymouth was not very favorable. the gas was let into the pipes from the gasometer, on Tuesday evening, and for a few moments many citizens had gas light to illuminate their buildings; but Union Hall building was soon found to be full of gas, and one of the workmen imprudently entering with a lamp, to ascertain the difficulty, the gas was ignited and the whole building was instantly in danger of being destroyed. The fire was extinguished with only a damage of a hundred dollars.

Old Folks' Concert.

NOTICE.—The next Rehearsal for the Old Folks' Concert, will be held at EXCHANGE HALL, No. 4 Exchange Buildings, on SATURDAY Evening, Dec. 2, at 7 o'clock.

All who were invited to the first meeting, who intend to take part in the Concert, are invited to be present on this occasion.

W. F. LAWRENCE: DEAR SIR,—

It gives me pleasure to state that your CHERRY PECTORAL has given utmost satisfaction wherever it has been used. Some of the most distinguished physicians of the state, are in the habit of purchasing it in bulk, and profess themselves highly gratified with its remedial effects. I can recommend it with confidence as a very superior medicine, and have no doubt that it will earn for itself an enviable reputation. E. H. ROLLINS.

CONCORD, Sept. 20, 1854.

Mr. Rollins is one of the most extensive dealers in drugs and medicines in New England. As the Cherry Pectoral was first introduced in Concord, we subjoin the certificate of John F. Brown, formerly bookseller and publisher, and now city clerk of Concord, N. H., our former agent:

This certifies that I have been an agent for the sale of the medicine, now extensively known as Lawrence's Cherry Pectoral; that so far as I know it has given good satisfaction; that I have repeatedly sold it to physicians in quantity; that I am acquainted with the manufacturer of the Pectoral; that he is a physician of good repute, and that I believe him qualified to conduct the complex operations necessary for the manufacture of this medicine. JOHN F. BROWN.

CONCORD, N. H. April 6, 1854.

The above are but few of the many testimonials in favor of Lawrence's Cherry Pectoral. It is used under the sanction and approbated at Dartmouth College by Prof. Dixi Crosby, and the most eminent of the Medical Faculty of the N. E. states. It is

THE GREAT REMEDY

For the rapid cure of coughs, colds, influenza, croup, hoarseness, pulmonary and bronchial irritations about the throat and chest; and may be had of all apothecaries, and in at least one store in every town in N. H.

Reader, recollect that more than half of all those who die of disease, die of consumption. Here you have a remedy used and sanctioned by the most eminent among the Medical Faculty. Are you troubled with a cough, or cold, bronchial, or pulmonary complaint? try it immediately, and do not neglect your cough and cold. o6ieatf

FOUR DAYS LATER FROM EUROPE.

ARRIVAL OF THE BALTIC.

NEW YORK, Nov. 26.—The Collins steamship Baltic, Capt. Comstock, from Liverpool 15th inst., reached her dock at half past nine this morning, bringing 148 passengers, among whom were Hon. Reverdy Johnson, and the Secretary of Legation at Paris and bearer of despatches.

The news by this arrival is extremely interesting. The news of the massacre of the English light cavalry under Lord Cardigan is mainly confirmed. They charged upon a Russian battery of 30 guns, and no less than 400 were killed outright, only 200 returning. Since then there has been incessant and sanguinary fighting. The allies, in point of numbers, are now overmatched, and urgent requests have been sent for instant reinforcements. Fifty thousand French troops are to be instantly sent to Sebastopol, and every available steamer has been taken by the French and English governments, including the Europa, Alps, Indiana, New York and others.

On the 4th of November there was a sanguinary engagement, and on the 5th, a terrible combat, including a sortie and general attack by Menchikoff's whole army. The battle lasted from daybreak until 4 P. M. Both sides claim the victory. The English took some hundred prisoners. The Russians stormed several batteries and silenced the guns. The loss of the allies was 5000; that of the Russians 8000. The Czar's two sons were in the battle. On the 6th, the battle was resumed by the Russians, but the result is yet unknown.

The allies are preparing to storm Sebastopol before the Russians can recover their losses, and a practicable breach has been effected.

After the action it was decided by the allies to abandon the position at Balaklava, and to retire to the hills overlooking the town, in which case their depot would have been established at Arrow Bay or Kherson. Advices of the 27th, however, state that it had been recided to retain Balaklava.

Gen. Canrobert's official report of the battle of the 5th of November is published in the Moniteur of the 13th. He says:

"The Russian army, swollen by reinforcements from the Danube, as well as by the combined reserves of all the southern provinces, and animated by the presence of the Grand Dukes Michael and Nicholas, attacked yesterday, Nov. 5, the right of the English position before Sebastopol. The English army sustained the attack with most remarkable firmness and solidity. I supported it by a portion of Gen. Bosquet's division, which fought with admirable vigor, as well as by the troops which were nearest to the English position. The enemy, who far outnumbered our force, beat a retreat, with a loss estimated at from 8000 to 9000 men. The struggle lasted the whole day. At the same time Gen. Forey was forced to repulse a sortie made by the garrison, and under his energetic command the company was driven back again into the place, with a loss of 1000 killed and wounded.

The brilliant day, which was not purchased without considerable loss to the allies does the greatest honor to our arms.

The seige continues with regularity.

CANROBERT."

The Russian account—a telegraphic despatch from St. Petersburg of the 12th—states that Menschikoff reported, under date of November 6, from Sebastopol, that on the 5th the garrison made two sorties, one against the right flank of the allies, which was successful, and resulted in the capture of one of their batteries, the guns of which were spiked.—There was a great loss on both sides. The other sortie was also completely successful, the Russians having spiked fifteen guns. Immediately after, a French infantry division, pursuing the retiring Russians, attempted to mount to the assault, but was thrown back with immense loss.

It is reported that Lord Raglan has suspended Lord Cardigan from his command, for rashness in the charge which proved so disastrous at Balaklava.

The British Parliament is further prorogued to the 14th of December.

Fifty thousand French troops are to be sent to the Crimea, England paying half the expense.

Chas. Kemble, the great tragedian, died at London on the 14th, aged 79.

UTICA, Nov. 52.—The Globe Cotton Mills in this city, were sold by auction to-day, and bought in by J. C. Bailey, formerly one of the directors of the company owning them, for $40,250. These mills were built five years ago, at a cost of $100,000. A new company will be formed to carry on the business.

BENNETT'S LIBEL CASE.—The libel suit of Fry versus J. G. Bennett, of the New York Herald, for $10,000, was settled on Thursday, in the Supreme Court, by the refusal to grant a new trial on the application of Bennett,—The $10,000 will now have to be paid.

THE WHEAT CROP IN UTAH.—A letter from Great Salt Lake city, of a late date, says: "The wheat crop has been abundant the present harvest, though holders are not very anxious to sell, there being a prospect of high prices. Wheat is now selling at $2,00 per bushel. Corn and oats are much injured by the grasshoppers."

NEW AND ATTRACTIVE BOOK.
TOWN AND COUNTRY:
OR
LIFE AT HOME AND ABROAD,
WITHOUT AND WITHIN US.
By John S. Adams.
The Undersigned will publish, early in December, the above work, with 12 Illustrations from Original designs, in one elegant 12 mo volume of about 400 pages.
It is a book suited for all times and places, and is distinguished by its living, earnest style, boldness of expression, and originality of thought.
The SKETCHES OF LIFE,—true to the originals, exhibiting the various phases of Town Life, its Temptations, Trials, Conflicts, and Conquests of Mind or Heart, amid diverse circumstances, together with rich and pleasing Pictures of the Country, the sinless heart, and the happy home, cannot but deeply interest the reader, and at the same time touch a cord of the heart that will vibrate in strong sympathy with all those who are battling for the right.
Of the Stories, 'Saved by Kindness,' 'The Hope of the Fallen,' 'Better than Gold,' and 'The Disinherited,' will not fail to impart a salutary influence.
Of the shorter Sketches and Essays, 'Little Nelly,' 'The Old Tree and its Lessons,' 'Letters and Letter Writing,' 'What is Truth?' 'A Text for a Life-time,' and the 'Immensity of Creation,' will be found to contain many a fine thought, incentive to an independent action of mind in the pursuit of Truth. Of the Humorous articles may be noted, the 'Autobiography of an Automaton,' 'Bandbox Movement,' and 'Not made for an Editor.'
Interspersed throughout these pages are many genuine POEMS, not a mere jingling of rhyme, with more regard to sound than sense, but veritable poems; brilliant, soul-electrifying thoughts, clothed in simple words, yet intense in style and earnest in expression, bearing in every line a text for a volume. Of these poems, the accomplished Editors of the "Home Journal" speaks in high terms. George P. Morris, whose judgment in such matters is unexceptionable, says, "Some of them are exquisite, and all of them have merit; their publication in a volume will be a valuable contribution to the stores of American literature." N. P. Willis fully coincides with Mr. Morris in his opinion, and adds, "Those that I have read are *true* poetry: they are well worth publishing." A distinguished literary gentleman of Philadelphia writes as follows: "I have read several of these poems with much pleasure; that they have been praised by two of the most gifted poets of our country is sufficient indication of their merit."

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called
FEMALE COMPLAINTS.
Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.
Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.
A WORD TO THE LADIES.
Should any entertain doubts as to the efficacy of the URINARY CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.
MRS. S. GAIT, 38 South street, Boston.
I feel it my duty to make known to the afflicted the virtues of MARCHISI'S URINARY CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.
HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.
This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.
CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DEATH OF AN OLD MERCHANT.—Thomas P. Cushing, Esq., one of the oldest merchants in Boston, died at his residence in Mount Vernon street on Thursday morning, after a brief illness of six days. The deceased will be remembered by the older generation of our citizens, as one of the partners of the firm of Tuckerman, Rogers & Cushing; while to the younger members of the mercantile profession, he has been known as the senior member of the house of Cushing and Wilkinson. Mr. Cushing retired from business a few years since, with an ample competency, the fruit of a long and laborious business career, which was always conducted upon high and honorable principles. The deceased took deep interest in the success of the Franklin Monument in this city, and was one of the most efficient members of the committee having the subject in charge. He was much interested in the welfare of young men, and within a short time has made several donations of money and books to the Mercantile Library Association. Last January the occupant of a counting-room in Milk street, presented each person on the premises where his office was located, with a copy of Sargent's Life of Franklin, and accompanied the gift with some wise counsel. That donor was Thomas P. Cushing, Esq. The deceased performed many deeds of benevolence and charity in a quiet way, and many a poor and worthy person will feel that in his death they have indeed lost a benefactor. Mr. Cushing married a sister of President Wayland of Brown University, who survives him.—*Boston Transcript.*

Young Dennis Bryan died recently at Moreau, Va., from having his legs crushed by the cars. After his limbs had been amputated, his mind aroused, to the consciousness that he must die, he implored the bystanders to send for his Lucy. "Where is she? I must see her before I die—let me see her and I can die in peace," were his ejaculations.—His parents knew nothing of the person he named as Lucy. After his death it came to light that he had been married about three months to a lady belonging to one of the first families in Lansingburg. His wife's parents had opposed their marriage, and the couple were clandestinely united. Byrau had placed all his earnings, $550, in the hands of his wife, it being their intention, when $600 had been accumulated, to publicly announce their marriage.

PRIVATE BANKS.—The failure of banking houses at the South and West has been a source of severe calamity to many poor people who deposited in them. The New Orleans Delta, after refering to the failure of one of its citizens, who has enjoyed a large share of the confidence of its people, having been the custodian of a large amount of money deposited in his private bank up to the very moment of his failure, mentions another of these lamentable occurrences. Matthews & Finley, private bankers and dealers in exchange, have failed to pay depositors, and have since, contrary to expectation, continued to afford no assurance of their intention to resume payment. Their deposits are very large, and, like those of their predecessors in misfortune, are mostly of all persons of small means, who preferred private banks on account of the interest paid by them on deposits.

At the late session of the Methodist Conference in Cincinnati, Rev. Mr Langhard was tried for believing in the annihilation of the wicked, and deprived of his ministerial position. The reverend gentleman was allowed to be heard in a long argument in his defence, in which he cited some two hundred texts to prove his doctrine.

Sch. John G. Faxon, from Philadelphia, with a cargo of coal, of and for Newburyport, was fallen in with on 18th inst., Sandy Hook bearing NW 75 miles distant. She was in a sinking condition. The crew, who were quite exhausted from pumping four days, were taken off by the ship Tuscarora, and carried to Philadelphia. The schooner was seen to go down head foremost soon after the crew left her.

There are 80 grog shops in Manchester, N. H. That accounts for the rodwyism and murders by which it has been disgraced. When they get 100 grog shops, they will want more than the profits of them all, to sustain an inlarged alms house for the paupers they will make, an insane asylum for lunatic drunkards, insane wives and mothers, and the extra police required to keep the peace.

REV. HORATIO POTTER was ordained Provisional Bishop of N. Y. diocese, 24th, in Trinity Church, with imposing exercises. Bishop Brennell of Connecticut, the senior bishop, presided at the consecration, and the sermon was preached by Bishop Fulford of Montreal. Numerous other high dignitaries of the church assisted at the ceremonies.

Rev. Dr. Woods, for about thirty years pastor of the Congregational Church at Newport, has recently removed to Fitzwilliam, his native place. The Claremont Eagle says, "he commenced preaching at Newport in 1813.—During his ministry in that town he preached between four and five thousand sermons. Between four and five hundred were added to the church during his ministry with that people."

A wood and freight train on the Michigan Central Railroad, came in collision on Saturday, 18th inst., about noon, near Decatur. The freight train was going east, and the other coming west. The locomotives were piled one on top of the other, and six laborers on the wood train were killed. The accident is attributed to the engineer on the wood train not obeying the signals.

WAR AND PEACE.

Some London papers and English speak plainly against the European war.

The Chronicle scolds at the annual exhibition and performances of Lord Mayor's Day in the face of the sad news of loss of life at the seat of war, and as a comparison says—"Nero fiddled when Rome was burning, and all Athens was enjoying a burlesque farce at the very crisis of the Sicilian expedition." The spectacle of the show this year is declared to be a simple insult to the inhabitants of London, which defied the commonest dictates of propriety.

A more serious source of quarrel than that of the Lord Mayor's Show, however, is a letter from Mr. Bright, the great peace man, and member of Parliament from Manchester, in which Great Britain is told in very plain language that the present is one of the most iniquitous wars in which she was ever engaged. Thus Mr. Bright says:—

The question of this present war is in two parts—first, was it necessary for us to interfere by arms in a dispute between the Russians and the Turks? and, secondly, having determined to interfere, under certain circumstances, why was not the whole question terminated when Russia accepted the Vienna note? The seat of war is 3000 miles away from us. We had not been attacked—not even insulted in any way. Two independent governments had a dispute, and we thrust ourselves into the quarrel. That there was some ground for the dispute is admitted by the four powers in the Vienna note. But for the English Minister at Constantinople, and the Cabinet at home, the dispute would have settled itself, and the last note of Prince Menschikoff would have been accepted; and no human being can point out any material difference between that note and the Vienna note afterwards agreed upon and recommended by the governments of England, France, Austria, and Prussia. But our government would not allow the dispute to be settled. Lord Stratford de Redcliffe held private interviews with the Sultan, did his utmost to alarm him, insisted on his rejection of all terms of accommodation with Russia, and promised him the armed assistance of England if war should arise.

The letter is, of course, subjected to the most vehement attacks of the British Tory press, of which it may be said that the Times was coarse and feeble, the Chronicle illogical, and the Globe merely flippant. Mr. Bright's sentiments will find an echo it the hearts of many British people, and will be likely to tell against the ministry at the next meeting of Parliament.

The above remarks, which we copy from the Boston Courier, will do very well for us to make on this side the water, when the war in question is on the other side of the flood. But if any man in this republic of free speech, dares to call in question the justice or propriety of any war in which we have been, are, or expect to be engaged, he is forthwith denounced by a certain class of newspapers, as a traitor to his country.

We can see plainly enough, across the Atlantic, that somebody must be to *blame* for all the blood shed, and the treasures wasted, and the homes desolated. But when any one dares here, to blame the swindling demagogues who seek to make fortunes by plunging the country into war for trifles, he must give up at once all hopes of political advancement, except as the result of mere accident.

GOVERNOR BAKER.—It is currently reported in the papers, and nowhere as yet denied, so far as we have seen, that Governor Baker of New Hampshire, has joined the Know Nothing party. The papers are also raising the question, How can Governor Baker support the present federal administration, which has ten per cent. of foreigners in all executive offices—and at the same time belong to an American party, which says "Place none but Americans on guard"?

Such a question is too hard for us to answer; but we may suggest, that the administration at Washington some time ago denounced the Know Nothings in its newspaper organ.

The whole position of affairs, at Washington and in New Hampshire, make it more difficult now than it is commonly, for any man here to sit on two stools.

Gov. Baker is a candidate for re-election by the Democratic party, which in his case includes the Old Guard men as well as those who support Pres. Pierce's administration. But he hears the "Bell Ring" in Massachusetts, and sees the Know Nothing locomotive engine coming down upon the track with a full head of steam. He thinks it somewhat better to "look out" and get on the train, than be crushed beneath it,—and so, it is said he has joined himself to the ruling party that *is to be*.

Perhaps somebody can give us some more light on this matter. Some have suggested that the Governor may decline his present nomination in favor of the K. N.; but this does not appear likely. Perhaps he will stand as he is, and have the American or K. N. platform slipped under him.

We shall see.

DISTILLING GRAIN.

Messrs. Editors:—Will you allow me through your paper to give a word of advice to the friends of temperance. Instead of encouraging and causing broils and lawsuits, like the one referred to in your Saturday's paper, allow me to refer you to a late act of the French government, viz.: a *prohibition of distilling* all kinds of *breadstuffs*. This one simple act of the French government, will accomplish more good in the way of temperance, than all the temperance societies in America have accomplished since their formation. It also leaves the enormous amount of breadstuffs in the market, that is now distilled and disposed of both in and out of the country.

Allow me to recommend to the friends of temperance in this country, to draw up suitable papers and distribute them through the country, until a sufficient number of signatures shall be had to prevail on Congress to pass such acts, either by way of duties on distillers, or otherwise, as that breadstuffs may not be by distillation placed above the reach of the poor, and that drunkenness may thereby be diminished, both at home and abroad.

This may be objected to as unconstitutional; the lawyers may tell you that no law can be enacted to prevent distilling grain; and at the same time will recommend enforcing the law to prevent the selling of it after it is made into liquor.

This seems to me to create two evils: one is that it encourages the pettifogger to create suits and cost at law, out of which he obtains the most of his subsistence. The other is, it makes more hypocrites and causes more deception and hidden traffic than is used in any other business in the country, and it also serves to bring a stigma on all law.

The Maine Law, so called, has not caused the distilling of one bushel of grain less than otherwise would have been. What liquors have not been sold at home, have been shipped to other parts, doing the same amount of evil as though the law had not been passed. The amount of grain distilled both in this and other countries, would astonish the world, could it but be laid before the people. The island of Great Britain does not raise a sufficient quantity of grain to supply their own distilleries. N.

The friends of temperance will please to take as much of N.'s advice as they see fit; ponder his statements; and avail themselves of his knowledge of the trade in liquor and grain.

His statement that the Maine law has *not diminished* distillation, may be true or untrue, we cannot say which. But of one thing we are certain, the Maine Law has not *increased* distillation; neither has it increased drinking, though the jug-men and jug papers have asserted it over and over again. The authentic records of crime and pauperism in Maine give them the lie.

DEATHS BY THE OCEAN.—Hiram L. Wing, clerk for Carpenter & Co.'s Express, died at the hospital in Boston, on Saturday afternoon. Mr. Wing was very seriously burned and bruised on board the Ocean, and of these injuries he died.

The body of the young woman drowned at the time of the disaster to the steamer Ocean, has been identified as that of Miss Mary E. Haskell, of Lowell. She has been employed in one of the factories, and took passage in the Ocean for Bath, to proceed thence on a visit to South China, Me., her native place. Her body was identified by her sister who worked with her in the factory at Lowell.

Some responsibility for these deaths should exist among those whose carelessness or recklessness occasioned the disaster. One or two accounts say that the Ocean was unnecessarily and improperly trying to cross the Canada's bow. This should be proved or disproved. One steamer ought not to run down another in Boston harbor before daylight is gone.—There ought to be a searching investigation.

THE NATURALIZATION LAWS.—The practical operation of our naturalization laws is very generally misunderstood. Under those laws, alone, the right to vote is not acquired. The right to define the qualifications of an elector, is left with the States. An unnaturalized person may be allowed to vote; and they were so allowed in Michigan, when it came into the Union as a State. Naturalization, under the federal constitution, simply confers the right of citizenship—placing the person naturalized on the same footing with the native born citizen, in regard to holding and transferring property, paying taxes, performing jury and military duty, &c., &c., leaving it to the State to say who shall and who shall not vote. No one, we presume, wishes to take away from foreigners coming among us these privileges, or to release them from these burdens.—*Albany Eve. Journal.*

If these definitions are correct, then the Naturalization laws need no essential change. But the States, if they see fit, may pass new election laws, by which no *new* citizens, coming in hereafter, or becoming naturalized hereafter, shall have the privilege of voting. Those who are now voters, ought not to be deprived of their elective franchise, and we suppose cannot be, by an *ex post facto* law.

Thomas P. Cope, the Quaker merchant at Philadelphia, who died last week, at the advanced age of 87 years, has left a fortune it is said of seven millions of dollars. His standing advertisement for many years in the Philadelphia papers, was simply "Thomas P. Cope sells Tobacco in Willing's Alley."

LOCAL.

☞ Rev. T. Starr King, of Boston, delivered the lecture before the Mechanics' Lyceum at the Temple, on Tuesday evening.. His subject as he announced it, was the Law of Disorder: but if we had been called upon to give it a title after the hearing, we might have styled it the Harmony of Diversity. His treatment of the subject was philosophical and moral; giving some of the best views of natural religion, and offering one of the best antidotes to atheism, which we have heard for a long time.

The lecture was one of Mr. King's most successful efforts; one of the best lectures of the season so far, and was very favorably received by the audience.

☞ We learn that B. F. Chandler, Esq., the able and efficient Civil Engineer at the Navy Yard, is about to proceed to Pensacola Navy Yard, as one of the Board of Engineers to test the new balance dock just completed at that Station.

☞ To-morrow being Thanksgiving day—no paper will be issued from this office on Friday morning.

☞ A grand Ball will be held this evening—Thanksgiving eve—at Congress Hall.—Some alteration has been made in the arrangements. See advertisement.

CITY MISSION.—The city missionary acknowledges the receipt of $5 from a Friend, $5 from T. F. L.—also, two barrels of apples for distribution—which have been distributed.

☞ The Hutchinson Family, who discoursed their melody to so large an audience on Monday evening at the Temple, sing tonight to the good people of Portland. They will pass Thanksgiving at Lowell, and return to this city on Monday evening and sing again, to accommodate those who were unable to obtain seats at their first Concert, and to all others who may attend. The house will be undoubtedly crowded again.

FATAL ACCIDENT.—We learn from South Berwick, that on Monday, as an engine was coming down on the track from Great Falls to the Somersworth Junction, the engineer saw something on the track, which he supposed to be a buffalo skin; but on running over it, sad to say, it proved to be a man in a buffalo coat. It is hardly necessary to say, he was instantly killed. We have not heard his name.

PIANOS.—The N. H. Patriot in noticing a newly enlarged piano forte manufactory in Concord, says:

With the exception of Boston, we believe no other cities in New England, but Concord and Portland, have piano manufactories.

This is a mistake. Barton & Cobb, piano forte makers, of this city, have carried on the business here for a number of years, and make excellent instruments.

SALE OF BONDS.—On Tuesday at 12 1-2 o'clock, on Tuesday, $750,000 worth of Eastern Railroad Bonds were sold by auction, in Boston.

The bonds were divided into ten equal lots, running from 1855 to 1864—$75,000 being due annually on the 1st of December, at 6 per cent. with coupons attached.

The bidding at first was not very spirited, but became quite brisk after the prices were established. The first year's lot was started at 83 per cent., and after considerable "drumming" was running up to 94, at which price nearly the whole were sold.

The remainder were mostly sold at prices varying from 80 to 94 per cent.

The sale, upon the whole, was considered a very satisfactory one.

JOHN MITCHELL ON THE KNOW-NOTHINGS. The "Citizen" of last week utters many terrible groans caused by the indications of strength shown by the new political organization which has just appeared in America. We quote the opening sentence:

There is no longer any doubt that the "Order" is going to rule these United States for certain years. In the course of human events, and the progress of the species, it has come round that the paltriest, meanest, falsest and most ignorant (though far from the most dangerous) form of popular delusion which has ever troubled nations, now rises to an ascendency well nigh absolute over the freest, wisest, strongest and best country upon earth.

A paper maker says—"If our people would only raise flax instead of importing their linseed and oil for their own use, we should soon have paper stock in abundance."

The vote for county commissioner in Middlesex, Mass., is—for Leonard Huntress 11,374, Joseph Whitney 4440, scattering 190. Thirteen towns made no return, and the votes of ten towns were rejected for informalities.

A man by the name of Peter Grandy, who keeps an oyster cellar in Pittsburgh, Penn., was arrested for passing counterfeit half dollars, and on searching his premises, large quantities of the same coin were found, also a complete apparatus for coining.

☞ The Boston Mail nominates Edwin Forrest as a candidate for the president of the United States.

MASON BROTHERS, publishers of the New York Musical Review, announce in preparation a new novel by Fanny Fern. It is entitled "Ruth Hall," and will be a homely tale of real life. The subject is happily chosen, and appeals to a wide circle of readers, and the authoress' extraordinary powers of observation and description, and her exuberant wit, pathos, and fancy, will enable her to clothe it with uncommon interest. Price, $1.25.

Also, a "Life of Horace Greely," by James Parton, forming a duodecimo volume of 450 pages—well got up and illustrated in the best manner. Price, $1.25. It is dedicated to the "Young Men of the Free States." The preface states that Mr. Greely had nothing to do with the idea of the book, or its composition, the author never having spoken to him till he had determined to write it. "Day and night in the Tribune office," is the title of one chapter, in which the writer has endeavored to give an insight into the routine and mystery of the daily press.

NEW YORK, Nov. 27.—The bills of the Government Stock Bank at Ann Arbor, Mich., were not received at the Metropolitan Bank to-day. The bills of the Merchants' Bank, Bridgeport, N. J., were also refused.

Bank Defalcation.—It is reported that a defalcation to the extent of $70,000 has been attempted by one of the tellers in the National Bank. No particulars have transpired.

In the Peverelly arson case, Judge Beebe has postponed passing sentence until the December term, in order to give counsel time to present a bill of exceptions.

BUFFALO, Nov. 27.—The steamer Mayflower went ashore at Point au Pelee, on Friday night. The passengers were all saved by the steamer Ocean. Last night a violent gale prevailed on the lake, and there is a report current this morning that the Mayflower has gone entirely to pieces.

Patrick Cane, a soldier in the United States army, murdered his wife last night, by cutting her throat, and then committed suicide by the same means.

WASHINGTON, Nov. 27.—The Star says it is believed in the London and Paris diplomatic circles that Mr. Soule will not be received at Madrid again. Mr. Pratt, Secretary of the United States Legation at Paris, has arrived here, and brings with him important despatches from Messrs. Mason and Buchanan, and also letters from Mr. Soule. He has been closeted to-day with the Secretary of State and the Secretary of War.

A HORRIBLE PICTURE.—The Boston Bee says, that about half past 5 o'clock on Friday afternoon, an abandoned girl, fair looking and quite young, was rolling about the gutters at the lower end of Leverett street, near Cragie's bridge, in a beastly state of intoxication. She was magnificently and fashionably attired in a black watered silk dress, embroidered crimson cashmere long shawl, a rich straw bonnet, and costly furs. Her companion finding it difficult to keep her quiet amid the mud, called to her assistance an officer of the police, upon whom the fair frail one immediately commenced a free fight. A crowd soon gathering, it was found necessary to remove the girl, and a wagon was procured for that purpose. It took two or three police officers to hold her in the wagon while being conveyed to the Centre Watch House, and her writhings and screams of agony were heart rending, exciting the pity of a vast concourse of spectators. Her dress, furs and shawl were completely saturated with mud, and the unfortunate girl presented an appearance of the most deplorable character.

THE FIRE AT LEMPSTER.—Several days since the extensive shoe shop of Alvah Smith & Son, in Lempster, N. H., was destroyed by fire, causing a loss of $25,000, of which only $5,500 was covered by insurance. The Claremont Eagle says that the citizens of Lempster have with commendable generosity contributed towards repairing in some measure, the loss of Messrs. Smith & Son. They have subscribed to the amount of $600, and have set a gang of twenty or more men at work to erect a new building, which will be completed without drawing from the funds of the losers.

ALBANY, Nov. 27.—SENTENCE.—Phelps, who was convicted of the murder of his wife at West Troy, was sentenced this morning to be executed on the 19th of January.

FATAL ACCIDENT.—Michael Donavan, while engaged in oiling the machinery connected with the elevator at Symonds axe factory at Cohoes, this morning, was crushed to death by the elevator being let down upon him by mistake.

ROCHESTER, Nov 27.— An intense excitement is now prevailing here, caused by the rumor that the dead body of a female has been found in the river, at Hanford's Landing two miles below here. It is supposed to be that of Miss Emma Moore, who so suddenly disappeared two weeks since. The mayor and the police are now investigating the matter.

NEW CHURCH IN CONCORD, N. H.—We learn from the Concord Patriot that the sum of $11,000 has been subscribed in that city towards the erection of a Unitarian church, in place of the structure recently consumed by fire. J. S. Abbott, Esq., has made a subscription of $1,000, and his son, Mr. E. A. Abbott, has given $200 in aid of the object. The Patriot says: It will require $15,000 to cover the expense of the building in accordance with the designed plan. The edifice is to be of brick, and the architecture similar to that of the late church, but with a greater extent of accommodation."

GOV. Johnson, of Virginia, who is a native of New York, having doubts of his authority in matters of religion, abstains this year from appointing a day of religious thanksgiving. The 23d instant was named for that purpose by the churches in that State.

TOLEDO, Ohio, Nov. 27.—The Commercial Bank, a branch of the State Bank of Ohio, in this city, closed its doors to-day.

Swaim's Celebrated Panacea,

FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. W. P. Dewees, M.D., Prof. of Mid. Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. T. Parke, M.D., Pres't College of Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Eourenco de Lux, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain.

J. Chipman, Member Royal College Surgeons, London. Sir Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA.;"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the easiest and cleanest of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need mending, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S Celebrated Catholicon,

FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, and usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the URSININE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

SELF POSSESSION.—Years ago an unknown correspondent to a city paper gave the following anecdote of the olden time:

When the town of Woodstock, Connecticut, first began to be settled, there was a time when the few and scattered families were filled with the dreadful apprehensions of being taken and perhaps killed or carried off by the Indians. No man retired at night without first having his gun well loaded, and placed over his head where he could seize it instantly. With these and other precautions, one of these brave men, and his no less courageous companion, on a certain night retired to bed. In the dead of night they were simultaneously awakened by an unusual noise around the house. They listened;—presently they heard it again; it sounded like a slight knocking against the window shutter at the opposite end of the house. The man seized his gun, and boldly entered the apartment whence the noise proceeded, and in thunder tones demanded:

'Who's there?'

A gentle voice, which he well knew, replied: 'I am your neighbor, and have come to get some medicine for one of my children that is sick.'

He lowered his gun, and turned to go and replace it over his bed, almost in vain struggling as he went to let his courage down and to calm his perturbed feelings. As he entered his bed room, he discovered his wife deliberately changing her inner garment.

'Pray, what are you about,' he exclaimed, 'at such a time as this?'

'Why,' she replied, 'you see what I am about, don't you? I wasn't a going off among the Indians without clean clothes on, I would have you to know.'

HOW ABERNETHY GOT MARRIED.—Have I mentioned the recent death of the widow of the late John Abernethy, the great surgeon? She was on for eighty. There is a story of the way in which Abernethy got this woman to marry him. Once upon a time he went to church, and was shown into a pew where there were two ladies. He had no prayer book, and the young lady handed him one. They walked out of the pew together, and found, at the porch, that it was raining heavily. Abernethy offered to take them home in his carriage which was waiting. They had some chat, in the course of which it came out that they were mother and daughter, not very well off, and widow and daughter of an officer in the army. Abernethy set them down at their humble dwelling.

As he stood at their door he handed his card to the daughter, and said—"Young lady, I am Mr. Abernethy, the surgeon. I have never married, for I never could spare time to court. I should like to marry you. If you will have the goodness to write me a line on Tuesday, saying whether you will have me, I shall call the next day and take you to church."

Mamma asked him to walk in. He said he could spare only fifteen minutes, and he came out, within that time, the accepted of a very pretty woman. They were married on the Tuesday, and he drove home with her, to the stately mansion of which she thus became the mistress.

"My dear," said he, after he had introduced her to some of his friends assembled to receive her, "you must excuse me until three o'clock, for I have to give my lecture at Bartholomew's Hospital, which I cannot omit on any account."

They were a very happy couple, and when Abernethy died in 1831, his widow came in for all his wealth, estimated at something like one hundred thousand pounds.—*London Sunday Times.*

'Mr. Witness, you have said that while walking with an umbrella over your head, you fell into this reservoir and were badly injured. Did you break any bones, sir, at that time?'

'I did sir.'

'What bones?'

'Whalebones, sir!'

THE TYRANNY OF FURNITURE.—It is a folly to suppose, when a man amasses a quantity of furniture, that it belongs to him. On the contrary, it is he who belongs to his furniture. He is bound hand and foot by it—he is tied by the leg to his own mahogany. He cannot move anywhere without dragging his furniture after him; he cannot go abroad without previously finding a home for his furniture; he cannot be absent for any time without first taking every precaution that his furniture will be properly provided for in his absence. If he projects any little trip, the thought that always stops him at the door is, "What shall I do with my furniture?" Many a man who boasts of his freedom is the secret slave of his furniture. No man can call himself perfectly free, who, whatever he does, or wherever he goes, has always to carry in his mind so many chairs and tables.—*Punch.*

CHILDREN are conquerors. Whether they contend with pigmies or whether they contend with giants, the issue is the same. Jesus was but an infant when the Magi did him reverence. When the hero of Corioli was advancing towards the Eternal City—far back amid the dust and cobwebs of distance—Veturia, his mother, and Volumnia, his wife, came forth to meet him, bearing with them the children of his love. Then the warrior's heart was subdued, his wrath appeased, and the city saved. Thus a child vanquished a conqueror. And so it is still. Though a man may withstand every other influence, he cannot bar his heart against the genial sunlight of a childish smile, or shut his ear to the delicious witchery of a childish voice. And it is well; for children are Love's ministers—are the ministers of Deity. A child's head is like a lilly, but its aid has carried many a soul to the heights of Zion.

Morning Chronicle.

THURSDAY, NOVEMBER 30, 1854.

To New Subscribers.—To all new subscribers who pay us $3 in advance for the Daily Chronicle for the year 1855 — or $1 for the Weekly Chronicle for the same time — we will furnish either paper subscribed for, from this time to January 1st, *free of charge.*

THANKSGIVING.

We have no idea of bestowing a Thanksgiving sermon upon our readers, when they can all find seats in the churches to-day, and hear discourses which have cost the writers more labor than we commonly bestow on a leader.

We would remind them, however, that the manly, New-England idea of Thanksgiving, is not a day of swinish gluttony or beastly drunkenness—but a day of generous feasting, when not only the noble household dined well in the old homestead, but the decayed family, the desolate widow and penniless orphan, had a feast of fat things, not begged from their wealthier neighbors, but sent in spontaneously.

Then there were family reunions—glad, if they could be; sad if they must be; and sad enough some surely cannot fail to be to-day. But through the veil of sadness let their glance a gleam of gladness,—for though some loved ones are absent, and others have left a vacancy no more to be filled on earth,—yet the Father lives and they live with Him; both the distant and the departed.

The family and the feast—these remain. The intellectual and moral repast at the churches, however, has been greatly neglected in later years, insomuch that the extra music for the day has been in great measure discontinued, partly for want of hearers, and partly from the consequent lack of interest in the performers. Let us retrace these steps, if possible.

TEMPERANCE POLITICS.

The Albany Atlas says—"The operation and course of the temperance leaders in regard to politics, has been from the beginning little else than a fraudulent conspiracy against the democratic party, and in behalf (we will not say of the whig party, but) of a designing class of whig politicians."

If the Atlas asserts these things of New York State, we cannot say they are untrue, though we do not believe them. But if they are said of Maine, we know them to be erroneous. The Maine law has no better nor firmer friends than some who have been and still are of the democratic party. The law was not made there by a *party* movement of any sort, but by an act of *popular sovereignty*, by the true democracy; and it is sustained to-day, in that State, by a popular will and pleasure, founded on experience of the benefits derived from the law. It is expected that Gov. Morrill, the new Democratic Governor, will be so much in favor of enforcing that law, as to appoint Sheriffs and Justices who will do their best to administer the law impartially.

Rev. William D. Hitchcock, pastor of the Second Cong. Church in Exeter, and whose recent death has already been announced, was settled over that church, October 5th, 1753. He was just thirty years of age. He was a native of Rutland Co., Vermont; and graduated at Vermont University, Burlington, and subsequently at the Theological Seminary in Andover. The Sermon at his installation over the Exeter church, was preached by Rev. Dr. Child, of Lowell, and not by Rev. Mr. Moore, of this city, as has been announced—the latter having given him his charge on that occasion. In compliance with his dying request, Rev. Mr. Moore preached his funeral sermon on Saturday last.

Mr. Hitchcock, previous to his sickness, commenced the preparation of a Sermon from the text—"That which I do, ye know not now, but ye shall know hereafter;" a text upon which a sermon might well be left unfinished.

He was a simple-hearted, earnest minded, and faithful Christian minister; and had greatly endeared himself to his charge and the community, who now mourn with great affliction, his early removal from them.

The Pollock fishery, which was formerly thought not worth pursuing, will be more vigorously pursued the coming winter, than before.—There are already quite a fleet engaged in this pursuit. Nearly all the cod and pollock, are taken within ten miles of the shore which prevents the necessity of remaining long at sea. The catch thus far, has been very good, and no difficulty in experienced in disposing of their fares, at a remunerating rate. During the winter, large quantities of these fish are frozen and placed on board the vessels, where they are packed in ice for the Southern markets, and usually pay a good profit.—*Newburyport Herald.*

Dr. P., who is attached to a Parisian theatre in the quality of a physician, expressed his astonishment that a man and woman were not created at the same time, instead of the latter springing from the rib of our first parent. A young actress standing by, remarkable for the graceful turn which she ever gives to the expression of her ideas, said—"Was it not natural, sir, that the flower should come after the stem?"

LOCAL.

MECHANIC ASSOCIATION.

At the annual meeting of the "Associated Mechanics and Manufacturers of the State of New Hampshire," held in this city at the Court House, on Wednesday evening Nov. 22, the following list of Officers were chosen for the ensuing year:—

Jonathan Barker, *President;* Thomas Norton, *Vice President;* Alfred T. Joy, *Treasurer;* Wm. Tucker, Frederick W. Fernald, *Trustees;* Samuel W. Moses, *Secretary;* John Knowlton, 2d, *Dep. Secretary;* Benj. M. Parker, *Marshal;* Wm. G. Nowell, *Dep. Mar.;* N. B. Dame, *Standard Bearer;* Charles W. Brewster, E. M. Brown and Samuel Kingsbury, *Auditors.*

The funds of the association amount to $5,491.85. Within the year it has lost seven members—paying $35 to the family of each; and have also paid about $100 to the unfortunate.

The following resolution was presented and unanimously adopted.

Resolved, That the Committee of Arrangements for the course of lectures now being delivered before this association, be directed to make all necessary arrangements for a course to be delivered next Winter.

For the Chronicle.

GOOD MANNERS.

Messrs. Editors:—An anonymous writer, "A Giggler," and "Woodland," have each contributed to the columns of the Chronicle certain articles, within a few days, the 1st on the "Want of Good Manners;" the 2d on "Lyceum Manners"; and the 3d on "Lyceums and Lyceum Lecturers."

The first article commends itself to every true lady and gentleman; the second is ill-bred, low, and exceedingly vulgar; and the third in his attempt "not to dispute with either of these writers—but pass them by"—passes between them, and, assuming a self-love and self-omniscience, seeks to cover up his own vulgarity speciously by an "if":—"*if* the lecture is long and prosy" he must "have resort to some expedient for amusement," and "have a chat with his companion *if* he can do so without disturbing others"(!), and "*if* no whispering was allowed it would be difficult to sell half the number of tickets"(!)

Now in this matter of good manners we believe that we shall be fully sustained in saying that the "Giggler" in her (it strikes us as being the first production of "a wofully senseless" school girl) or his article, appears very much like the pot calling the kettle black.—Whatever may be the vulgarisms of "all the pigs and bar-room loafers," in any assembly, ladies and gentlemen *never* lose their own self respect nor dignity by indulging in giggling or chatting, but rather manifest a *silent contempt* for every expression of indecorum.

The "Giggler" and "Woodland" seem to forget that the lecturer is a gentleman, and that he has been invited to address not only them, but a genteel audience. The lecturer acknowledges the honor of the invitation, and comes before them with whatever talents he possess, "to deserve well of them." His reputation is known to be that of a gentleman. If, perchance, he may incidentally speak upon the 'peculiar institution,' 'democracy,' 'know nothingism,' 'intemperance,' or 'religion,'—subjects which may be obnoxious to some, but grateful to others—true ladies and gentlemen, not forgetting the claims of the lecturer, and that there are others in the assembly besides themselves, who may be interested, are always respectful.

Is inattention, amusement, whispering, chatting, to have "a good time" thereby, respectful? No! by no means, Miss Giggler and Mr. Woodland: do you not think it would be far better for you to remain at home, and not expose your vulgarity, your ill breeding, and your "woful senselessness?"

Before the course of lectures commenced and your ticket was purchased, you well knew for what you was bargaining. You are not obliged to listen to any one of these lecturers, if he is objectionable to your sensitive minds; but having come into the lecture room and taken your seat, your ill manners are unpardonable if not only your next neighbor and others around you are disturbed, but the lecturer himself is annoyed and insulted thereby.

Do you invite a gentleman into your own house to injure his feelings or insult him?—Have you so far abandoned all self respect as not to be respectful to those who merit the same? Think you that fashionable finery, the opera glass et cetera, with the senseless giggle, characterizes you as a true lady, any more than the coarse vulgarisms of a barroom loafer stamp him as a true gentleman? Good manners always have proper respect for the claims, merits, and feelings of others in high or low degree, and good sense suggests civility and refinement in every condition of life. *Hoc iter Elysium Nobis.*

CHESTERFIELD.

☞ This being Thanksgiving day—no paper will be issued from this office on Friday morning.

The Old Folks' Concert.—This will be one of the most agreeable entertainments of the times. No concerts are more popular than these have been, wherever given. The musical gentleman in Portland, under whose direction two concerts of this sort have been given in that city, and others elsewhere, within a year or two—Nathaniel Haley, Esq., writes us that "the fervor and enthusiasm respecting these concerts in Portland, was greater than ever before known at any other concerts—hundreds were turned from the doors of the hall, after every seat was filled." In connection with other able singers from abroad, this gentleman will probably aid in the performances in this city. At the Portland concerts, one hundred and forty singers took part—of all ages: youth, middle age, and especially the old folks.

The largest choir ever heard at a concert in Portsmouth, will doubtless be gathered on the occasion of the approaching Concert—probably more than a hundred performers—including representatives of nearly every class in the community.

Lectures at Kittery.—On Sunday evening next, *Deo Volente*, Rev. T. H. Miller, of this city, will deliver a Lecture on the Life, Character and Times of Joshua Moody, at the Church in Navy Yard Village, commencing at half-past 6 o'clock.

And on Monday evening next will deliver the same Lecture in the Freewill Baptist Church, at Hutchings' Corner, at half past 6.

A Beautiful Painting.—In the window of Mr. Albert Laighton's store, in Market street, we noticed on Wednesday, a refreshing painting of fruit and flowers, executed in colored crayons, by Mr. T. P. Moses, at his picture-gallery in Market street. It excels by far anything of the kind we ever saw, and shows as much taste in the grouping, as skill in the pencilling. The design was his own, from the natural fruit of the tree and bush.

* Subscribers in Rye, who have heretofore received their papers by the baker who has circulated bread and papers in that town on Saturday—will hereafter find their papers at the Rye post-office—unless other disposition of them is preferred and made known to us. Jos. T. Walker, Esq., late the excellent postmaster of Rye, will act as our agent—also, Messrs. Chesley, at their store.

Stop Thief.—A Scotchman calling his name Robert Wilson, a printer, about 40 years of age, stole from the Granite House in this city, on Wednesday morning, a silver watch, $40 in gold, and a two dollar bill; also a pair of boots and other clothing,—and left town.

This fellow has been in this city but a short time, and has been at work in the Journal of office, the proprietor of which has also been slightly "taken in." He represented himself as having just arrived from Scotland, and that in New York his baggage, which contained among other things, several hundred dollars, was stolen; and that he was working his way to Halifax, where he had friends.

A reward of $20 is offered for his arrest.

Vegetable Pulmonary Balsam.—Our advertising columns, this morning, proclaim anew to the world in which the Chronicle circulates, that this old favorite remedy is still much used, and a standard remedy for curable lung affections, &c. We have known the effects of this Balsam when used through a long sickness—at least greatly alleviating the sufferings of consumption's victim, and apparently preventing much pain.

AYER'S CATHARTIC PILLS.

PILLS THAT ARE PILLS!

PROF. HAYES, State Chemist of Massachusetts, says they are the best of all Pills, and annexed are the men who certify that Doct. Hayes knows, viz:—

Lemuel Shaw, Ch. Justice Supreme Court of Mass.
Emory Washburn, Governor of Mass.
W. C. Plunkett, Lieut. Gov. of Mass.
Edward Everett, Ex-Sec. of State and US Senator.
Robert C. Winthrop, Ex-Speaker House Rep. U.S.
Abbot Lawrence, Minister Plenipo. to Gt. Britain.
John B. Fitzpatrick, Catholic Bishop of Boston.

MEN THAT ARE MEN!

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its junctions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

Agents in Portsmouth, W. R. Preston, J. H. Thacher, and D. Kimball, and sold by the Druggists throughout the United States. 2m n30d&w

THE BURNS RIOT.—*Arraignment of Theodore Parker.*—At the opening of the U. S. Circuit Court, Boston, Rev. Theodore Parker was brought in, to answer to an indictment, charging him with wilfully obstructing Watson Freeman, U. S. Marshal, in serving a certain warrant to apprehend Anthony Burns. Also, in opposing the Marshal after Burns was arrested, and wilfully obstructing him in the discharge of his lawful duties.

Mr. Parker waived the reading of the indictment and gave bail in $1,500 for his appearance for trial on the first Monday in March next, Mr. Samuel May becoming surety for his appearance at that time.

FROM WASHINGTON.—Washington despatches intimate the probability of the dismissal of Mr. Mason from the French Court, and Mr. Soule from that of Madrid.

It is said that despatches have been received at Washington, brought by the Baltic, that very unfavorable news had been received from Sebastopol by the French Government, bearing date on the 10th inst., and that it was not permitted to be published.

"MORAL REFORMERS."—Gray, who has been arrested at New York for throwing vitriol on women's dresses, says he began the business by burning the clothes of women of bad repute, and got so fascinated with the business that he could not help following it. Wilson, the incendiary, who was arrested at Ogdensburg, N. Y., in the act of setting fire to an unoccupied building, and who is suspected of having set fire to other buildings which have been burnt in that village, appears, like the vitriol man in New York, to have been engaged in carrying out his peculiar views of moral reform. He states that he was apprehensive that the building would be occupied by women of bad repute, and thought that the best way to prevent this would be to burn it. Stolen goods were found in his house, and his wife, who was sick in bed, was bandaged with pieces of Irish linen, flannel, cassimere, &c., which were wound round her body and legs.

SYMPATHY—BY MRS. PARTINGTON.

"What is sympathy?" asked Ike, who had not got very far in the humanities. Mrs. Partington was at the little white pine table, busied with her Thanksgiving pies, with her gown pinned up to a festoon behind, that upholstery might in vain try to imitate, and she stopped short as the pie crust she was rolling, to answer him. "Sympathy," said she, sublimely, holding the rolling pin in her left hand, "Sympathy is that feeling that enters into a man and warms the cockerels of his heart, and leads him to send round turkeys to bless the hearts and other in'ards of the poor at Thanksgiving, God help 'em, while those that have no sympathy act as if there was a perdition wall between them and everybody else, for whom the poor never says God bless you." Ike was deeply engaged with what she said, at the same time engaged in trying the quality of the meat for the mince pies.—*Post.*

INVALUABLE REMEDIES.—Here are a few simple remedies for very prevalent disorders, which we have no hesitation in recommending as infallible:

For sea sickness—stay at home.
For drunkenness—drink cold water.
For health—take "Ayer's Pills."
For accidents—keep out of danger.
To make money—advertise.
For Coughs and Colds—take Cherry Pectoral.
To keep out of jail—pay your debts.
To please all—mind your own business.

THE PROSPECT FOR PORK.—The Quincy (Ill.) Whig says it unable to gather anything decisive in reference to the pork market this fall, and fears that there will be less money invested in this line this season than usual. Packers state that $ 3 50 per cwt. is the highest price that would now be given for prime hogs.

NO MORE FOREIGN MARINES.—By a recent order from Washington, the enlistment of foreigners into the Marine Corps, now stationed at the Charlestown Navy Yard, is to cease. It is believed that the same order has been sent to all our military posts.—*Times.*

Miss Mudge of Philadelphia, whose chloroform experience with Dr. Beale has occasioned that eminent practitioner some state service, recently married the man of her choice, Mr. Throckmorton, and the nuptials were celebrated in the city which claims the citizenship of all the parties.

DEATH OF A WELL KNOWN CITIZEN.—Samuel Tenney, Esq., Assistant President of the Merchants' Insurance Company of Boston, for the past twenty eight years, died at his residence in Salem street, on Saturday morning, at the advanced age of 78 years. Mr. Tenney was born in Newburyport, 1777, and has been for the past half century connected with the business of Insurance. He was highly respected by all who knew him, for those qualities that constitute an honest man and faithful officer. For more than twenty years past, Mr. Tenney has been the senior deacon of Salem street church, and until very near the close of his life, with unabated interest, performed the duties of his office.—*Boston Transcript.*

Swaim's Celebrated Panacea,

THE GREAT REMEDY FOR
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. " W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. T. Parke, M.D., Prof. College of Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Eourenco de Luz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spaine. Chipman, Member Royal Col. Surg., London. Sir Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different diseases, has been engraved for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S Celebrated Catholicon,

FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is commended, and usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLOOR ALBUS, or White; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use: together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 88 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

A SAFETY CABIN.—We saw last evening a plan of a detached cabin for sea-going vessels, invented by Mr. William R. Jackson, of this city, for which he has filed a caveat and will procure a patent. It is so constructed as to stand on the deck of a ship, to which it is secured by iron rods, attached either to the floor timbers or the beams of the deck. This cabin is held in its place by cleets, to prevent its moving in any direction. A strong iron band passes over it which attaches to the iron rods on either side, by hooks and chains, and by a key rod which is secured by a ring to the main rod. In the event of a vessel being about to sink, it is only necessary to give two or three heavy blows upon the ring confining the key rod, when the cabin is ready to be removed from the deck. There is then an arrangement by which, with the rolling of the vessel, it may be launched in about ten minutes' time. The cabins may be constructed so as to afford safety for several hundred persons, or they may be of smaller size, and the number on the vessel's deck increased. The lower portions are made of heavy timber, while the upper works are of light wood, so that a ballast is always had to prevent it from capsizing. The facility with which it can be launched from the deck of the ship prevents the danger of its being carried down in the vortex caused by the sinking vessel. Should it be found of practical utility, it will certainly prove a most valuable invention, and one which it is likely no ship will go to sea without.—*Baltimore Patriot.*

PERSONAL.—The Hon. C. C. Washburn, M. C. elect from Wisconsin, passed through this city on Saturday on a visit to his relatives in Maine, intending to pass our New England festival in his native place. Mr. Washburn is the youngest of the three brothers elected as members of the House of Representatives in the next Congress. His oldest brother is the Hon. Israel Washburn, Jr., of the Fifth District of Maine. The gentleman is elected for his third term. Hon. E. B. Washburn, of the First District in Illinois, is another brother, elected for his second term, and the younger brother is elected in Wisconsin for the first time. These gentlemen are of the old New England stock; they were born in Farmington, Me., and have many relatives in various parts of Maine and in this city. The eldest of the three is about 42 years of age. They are educated men, and all belong to the legal profession. They are of the progressive Whig school in politics, and have the proper elements of character to fulfil all their trusts with credit to themselves and honor to their constituencies —*Boston Transcript.*

SECOND ADVENTISTS.—Many of the Second Advent people continue strong in the faith, and still look forward to the coming of our Saviour and the end of the world. Elder Cummings says:—"Brethren, take not one step back to Egypt, neither put off the coming of the Lord to *next spring,*' but continue to go out to meet the Bridegroom. Finish up the work that is to be done, as fast as you can, that you may be ready to be presented before the Father blameless." The editor of the World's Crisis, the publication of which has been resumed after a few weeks' suspension, remarks, "We have been severely tried and sorely disappointed in not meeting our blessed Savior in the seventh month of this Autumn."

THE VITRIOL THROWER.—The New York Commercial Advertiser thinks that Theodore Gray, the young man who was arrested in that city for throwing vitriol upon the clothing of ladies, is laboring under religious insanity. The prisoner himself says that being bitterly opposed to evil doers he first began to commit these assaults upon the common street walkers of New York. At length, however, he became convinced that the frequenters of theatres were almost as bad, and he accordingly made a regular business of standing in the doorways of such establishments and sprinkling vitriol upon their dresses. More than a dozen persons were present at his examination to enter affidavits against him.

A case has been decided in the U. S. Circuit Court, at Baltimore, against a railway, for not transporting live stock by the earliest freight train to the market, by which much loss was sustained in the falling of the market price. The court held that when a railway company agrees to transport live stock, it must be done by the earliest train, or they are liable for the damages that may occur.

TO NEW SUBSCRIBERS.—To all new subscribers who pay as $3 in advance for the Daily Chronicle for the year 1855 — or $1 for the Weekly Chronicle for the same time — we will furnish either paper subscribed for, from this time to January 1st, *free of charge.*

CATHOLICS *vs.* KNOW NOTHINGS.

Rev. Thos. Quinn, a priest of the Roman Church, has lately delivered a Lecture on the Know Nothings, which is reported in the Pilot, whence we make the following brief extracts:

Know-nothingism is not a merely political or social organization, but is only the existing form of the protest which the world never ceased, and never will cease to utter against the church of God. * * *

Like some know nothings who call themselves Catholics, but are really renegades, fighting on the side of the enemy, they profess to be content if Catholics will content themselves with asserting the spiritual supremacy of the Pope, and define that supremacy so as to mean the total independence of politics and temporal concerns generally as regards religion. The Pope, with his powers thus defined, and the sphere of his action thus limited, would not be the Vicegerent established by Christ to govern the Church, he would be a personage very harmless to the world, the flesh, the devil and the know-nothings, including *our* radicals. He would be almost a myth, a venerable relic of old times preserved because it *is* a relic,—he would be a patriarch of Constantinople,—an old man, long ago dead, of the forgotten mountain.

As we read this, it means that if the Pope has no *temporal* power he has no power at all. If it does not mean this, will somebody please to explain it?

Know-nothingism, in its new form as we find it here, does not, then, profess to meddle with theology. That is left to the conscience or whim of the individual, of course. If he thinks foolish things, only he is accountable for them to *himself.*

Americans claim the right of private judgment—but the Roman Church says No: no: will judge for you.

It takes the form of Nationality—of Patriotism. It declares that the State is not only independent of the Church, but that the Church, if she wishes to live, must be the slave of the State. She must confine herself to spiritual concerns. She must learn from the State what those spiritual concerns are. She must manage even them in such a way as to please her master, the State.

The Americans choose to manage their own political affairs, without priestly dictation; and hold even the Church (i. e. the priests,) amenable to the law.

In this sense, know-nothingism is a political movement, because it denies political rights to all who believe in the kingdom of Christ on earth. It is also, in one sense, a social movement, because it denies social rights to all who assert that the social as well as the political order is ordained of God and therefore subordinate to religion.

The Roman Catholics, who assert this, mean by it, that they will place our State at the footstool of their Church, the moment they get the power. And we have no doubt they tell the truth in the matter.

But will Americans let them? That is the question.

For the Chronicle.

THE MAINE LAW, &c.

Messrs. Editors:—A writer in the Chronicle of Nov. 29th, who signs himself "N.," indulges in prognostications which we think will never be fulfilled. He says the act of the French government in prohibiting the distillation of breadstuffs, will do more good than all the temperance societies in the United States have done since their formation. How does he know this, pray? In our humble opinion it is a most improbable supposition.

He then goes on and advises the friends of temperance to get up a petition to Congress for the passage of a similar edict in this country. This is supremely ridiculous:—even if a sufficient number of signatures could be obtained to attract the attention of Congress, temperance men know better than to expect anyfavor from such a source. Members of Congress have not generally been celebrated for their abstemious habits, and it is not expected *they* will do any thing to help along the temperance cause.

Most of our temperance men want a law somewhat similar to the Maine Law, and it seems highly probable that such an one, with slight modifications, will be passed in every State of the Union in the course of the next five years. There are thousands of men in New Hampshire who would vote for such an enactment, and help enforce it if need be, that drink occasionally themselves; but who, seeing the beneficial results of a prohibitory law in Maine, are determined it shall be no fault of theirs if the citizens of this State do not have one as effective in its operation as that of our neighbors. Bring the question to the polls, and the people will throw a vote for it that will rejoice the hearts of temperance men and completely astound those who are opposed to it.

The last and most preposterous statement of "N," is, that the island of Great Britain does not raise grain enough to supply their own distilleries. This assertion is incredible, and needs confirmation; but even allowing it to be true, what does it prove? Why, simply that the inhabitants of Great Britain stand in need of a prohibitory liquor law. When the *sale* of liquor is interdicted and checked as effectually as it is in Maine, *distillation* will not long continue.

For the Chronicle.

LYCEUM ETIQUETTE.

"Off hats! off hats! for lo! upon the stage,
The Aristarchus of this scribbling age."

The great "Chesterfield" hath spoken, and all Portsmouth is presumed to acquiesce with reverential awe in his opinion. This eminent man, in the Chronicle of Nov. 30th, uncorks a vial of wrath and pours it upon the devoted heads of two other correspondents of the same paper, who, a few days previous, had expressed views in regard to behavior at lyceums differing somewhat from his own. As the most of the philippic was aimed at Woodland, that individual will attempt a reply, though such a formidable undertaking may be deemed fool hardy.

After having delivered himself of some personalities irrelevant to the subject, Chesterfield says, "the lecturer acknowledges the *honor* of the invitation, and comes before them with whatever talents he possess." We beg leave to correct the gentleman here, and substitute—the lecturer acknowledges the *receipt of fifty dollars;* which is a consideration of more weight with him, we opine, than the *honor* to be derived from lecturing before even such distinguished characters as Chesterfield. Of course the lecturer comes before them with "whatever talents he possess," but it sometimes happens these are very few, and not much improved by culture.

Chesterfield appears to think the great moral questions of the day—anti-slavery, democracy, know nothingism, temperance, and religion, are subjects obnoxious to us;—if he does, we say to him, "be thou undeceived;"—they are all very agreeable, and we shall do what we can conveniently for the spread of them. By the way, we must not omit to mention that *one* good thing, at least, will come of our lyceum lectures this winter, if *talk* can bring it about, and that is, the furtherance of more liberal sentiments respecting slavery. Nearly every lecturer has a thrust at the peculiar institution, either open or disguised; and by next spring we should think those who are open to conviction would be brought over to the true faith.

"You are not obliged to listen to any of *these* lecturers, if *he is* objectionable to your sensitive minds;" says Chesterfield. Allow us to suggest an alteration in this sentence, making it read *they are* instead of *he is:* as it now stands it is a gross violation of the rules of grammar, and every school girl will laugh at it. However, feeling grateful for the information he gives, we will say no more about his bad English, merely remarking that no good lecturer is objectionable to us, even if we do not agree with him in opinion. We care not how eccentric a man may be;—he may advocate women's rights, mormonism, spiritualism, socialism, or any other ism he chooses; and if he handles his subject in a masterly manner, the discourse is always interesting: but if the theme is an old or hackneyed one, and the speaker not original or pleasing, it cannot be expected an audience will be *very* attentive. Of one thing we feel certain;—nearly every person who attends public lectures indulges more or less in the practice of whispering, be it disrespectful or otherwise. "When you are among the Romans, do as the Romans do:" acting on the advice contained in this old adage, and not wishing to appear essentially different from those with whom we associate, we have had the audacity on several occasions to make a casual remark on the lecture to some friend who sat near; but after being so nearly annihilated as we were by the article in Thursday's Chronicle, it behooves us to remain silent.

"Do you invite a gentleman into your own house to injure his feelings or insult him?" asks the writer with the long name. Most assuredly not, we answer; neither do we look upon a public lecturer, who is hired and well remunerated for his services, in the same light that we do a friend whom we invite into our house; and we venture to say there are few who do, notwithstanding Chesterfield's sophistry. A lecturer should be treated with all *due* respect; but because a man is a lecturer, it does not follow that he is also an eloquent speaker—he may have mistaken his vocation. It is when such an one is addressing them, that those whose proclivities are that way claim the privilege of a chat with their companions.

The said article closes in this wise: "*Hoc iter Elysium Nobis;*" which being interpreted meaneth, "this is our heavenly way." Now what this has to do with the matter under consideration, the "great expounder" himself, were he alive, would be at a loss to determine; therefore it is impossible to comment upon it.

LOCAL.

MR. MILBURN'S LECTURE.

The lecture before the Mercantile Library Association was delivered on Friday evening in the Temple, by Rev. Wm. H. Milburn, chaplain of the U. S. Senate.

The subject was the Rifle, the Axe and the Saddle-bag.

The *Rifle* was characterized as the hunter, the *Axe* as the farmer, and the *Saddle-bag* as the preacher. The lecture was devoted to reminiscences of Western life, illustrated by graphic personal sketches, and telling anecdotes. Commencing at 1761, the speaker traced the successive epochs of Western history, eulogizing the brave and chivalrous men who labored, dared and suffered in the early times. The traits and adventures of Daniel Boone were set forth in a truthful, effective and interesting manner. A portion of the lecture was devoted to a description of the famous *Red Men's Hunting Ground* in Kentucky. In this connection the Indian character, its greatness and meanness, its humanity, and also its cruelty, were descanted upon.

The adventures of McLellan and White, two scouters, a character known in Indian countries, formed an interesting part of the lecturer's remarks. Those were the days, said the lecturer, for Young America. The Indian wars were glanced at. Some of the early laws of Kentucky were also alluded to, and their features delineated in a humorous manner. There was formerly a law against idleness. Whoever was known to lead a life of laziness for some time was notified to leave the parts. If present three days after, he was put up at auction and his services for a given time sold to the highest bidder. Kentucky marriages in the early time gave great amusement to the audience.

The lecturer closed with a most earnest and energetic eulogy upon the pioneer men of the West, and more particularly the clergy, who form an important part of progress of civilization.

A STRIKE.—We learn that on Friday morning the ship carpenters and blacksmiths employed on the Navy Yard near this city, were informed that their wages from that time would be cut down twenty-five cents per day, leaving the ship-carpenters $2 per day, and the blacksmiths about the same. When the roll was called after dinner, not one carpenter answered; and in was said that all the blacksmith were to quit work last night. The carpenters are to hold a meeting to consider the matter, this forenoon, at 10 o'clock, at Mr. Hayes' on Foreside.

A MISTAKE. — On Thanksgiving Day, about dinner time, a fellow who had been drinking, entered an Irishman's house in Fleet street, and demanded some brandy. Not receiving any, he attacked the Irishman, but was beaten off by his wife, who used the axe on the interloper's head to so much purpose as to send him bleeding away.

SNOW.—On Wednesday we were visited by a heavy rain storm which lasted through the day and evening; late in the night it turned into snow, of which about half an inch fell. A few miles back in the country it snowed all day on Wednesday, so that in Concord and its neighborhood about 8 inches fell, and there is now good sleighing in that vicinity. Also in the upper part of Strafford County and in Hillsborough County, sufficient snow fell to make excellent sleighing.

☞ Rev. John Stevens, of Wayne, Me. will preach at the F. W. Baptist Chapel on Hanover street, to-morrow.

☞ No business of importance except the approving of bills, was done in the Board of Aldermen last evening.

MONEY RECOVERED.—Robert Wilson, who decamped on Wednesday, after stealing from the Granite House in this city, was pursued by Mr. W. S. Hadley, the landlord of that house, who overtook him in Newburyport, recovering the watch and most of the money;—but the thief escaped and is now at large.—He is about 40 years old, stout built, light complexion, and quite intelligent.

RAILROAD CHANGES.—On and after Monday Dec. 4, we are to have three trains per day between this city and Boston, and two between this city and Portland.

Trains will leave Portsmouth for Boston at 7 and 10.45 A. M., and 5.15 P. M.

Trains will leave Portsmouth for Portland at 9.45 A. M., and 5.15 P. M.

Thus it will be seen that the evening trains between Portland and Boston, meet in this city.

Some one having stated that the best way to preserve apples from rotting is no pack them in salt, the editor of the *Albany Knickerbocker* tried the experiment. He says they have kept for three years, and they would keep to all eternity, if they waited for him to eat them. The saline particles so mix with the apples that you can't eat one of them without fancying you are chewing a piece of Lot's wife!

NEW YORK, Nov. 29.—The examination of the parties charged with being engaged in the Williamsburg election riot, was concluded yesterday, and resulted in fourteen of them being obliged to give bail in one thousand dollars each to await the action of the Grand Jury.

The notorious case of Samuel Drury against George Wilkes and others, for trespass committed in 1849, was decided yesterday in the Circuit Court of Queen's County, the jury rendering a verdict for the plaintiff in the extraordinary sum of forty thousand dollars, to which the Judge added two thousand more as costs, in consideration of the vexatious nature of the suit.

NEW ORLEANS, Nov. 30.—The ship Shakspere of Boston, which cleared at this port yesterday, for Liverpool, took out an immense cargo—the largest ever shipped from any of the Southern ports, consisting of six thousand four hundred and thirty bales.

WHEELING, Nov. 39.—The river here is in fine navigable condition, and the steamers are arriving and departing freely. The resumption of navigation has given our streets an unusually lively appearance, and a very large business is going on.

Old Folks' Concert.

NOTICE.—The next Rehearsal for the Old Fols's Concert, will be held at EXCHANGE HALL, No. 4 Exchange Buildings, on SATURDAY Evening, Dec. 2, at 7 o'clock.

All who were invited to the first meeting, who intend to take part in the Concert, are invited to be present on this occasion.

For any information respecting the Concert, apply at the Chronicle Office. Per Order.

City Missionary Society.

THE Annual Address before the City Missionary Society will be on Sunday evening next by Rev. H. D. Moore, at the Stone Church. A report will be read by the City Missionary. Services will commence at 7 o'clock.

AYER'S CATHARTIC PILLS.

PILLS THAT ARE PILLS!

PROF. HAYES, State Chemist of Massachusetts, says they are the best of all PILLS, and annexed are the men who certify that Doct. Hayes knows, viz:—

LEMUEL SHAW, Ch. Justice Supreme Court of Mass.
EMORY WASHBURN, Governor of Mass.
W. C. PLUNKETT, Lieut. Gov. of Mass.
EDWARD EVERETT, Ex-Sec. of State and US Senator.
ROBERT C. WINTHROP, Ex-Speaker House Rep. U.S.
ABBOT LAWRENCE, Minister Plenipo. to Gt. Britain.
†JOHN B. FITZPATRICK, Catholic Bishop of Boston.

THEY ARE THE MEN

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

FOREIGN NEWS.

By the Africa, at New York, we have Liverpool dates to Nov. 18. The war news is not decisive, but leads us to look with anxious interest to the next arrivals.

A pause has ensued in the field fighting before Sebastopol. Despatches from both English and Russian sources say that the seige is proceeding with regularity, and that preparations are making for the assault. Both parties are in want of reinforcements, the besieg-rs more so than the beseiged. The Russians begin to want ammunition. The Allies are reduced by battle and disease to fifty-four thousand men, which causes much alarm in England and France; the utmost efforts were making to send instant reinforcements. All the Mail steamers are chartered to carry forward the troops for the relief of the Allies.

Cotton has declined 1-8d, sales 39,130 bales. Wheat declined 2 a 3d for the week, and Flour 1s. Corn unchanged.

The great hospital at Sebastopol was set on fire by the shells of the allies, and was burnt to the ground with all its inmates, 2000 sick and wounded. This frightful occurrence is passed over as lightly as possible by the English and French papers.

This is horrible; and almost incredible.

NEW YORK, Nov. 28.—*From Havana.*—The steamship Empire City arrived here today, bringing Havana dates to the 23d inst. Reports of risings in various parts of the island were quite plentiful, but it is believed they were all without foundation.

It is said that a court martial at Baracoa condemned nineteen of the recently returned Creoles to be shot, and that the sentence was duly carried out.

The gay season had commenced, and brilliant festivities were taking place at Havana.

Schools are to be established at Havana in which all the arts and sciences will be taught gratis.

A new set of rules had been issued for the suppression of the slave trade.

Trouble was anticipated at Havana on the 20th, the proclamation of the Constitution being expected from the troops, but all passed off quietly. The city guards were all doubled on that day.

FROM TEXAS.—We have received New Orleans papers of Tuesday, with Galveston dates to the 19th inst. A brisk newspaper war was raging between Gov. Pease and Treasurer Raymond, with reference to the acceptence of the securities offered by Messrs. King & Walker. The Governor persists that the stock offered is insufficient security.

Much excitement existed in Narano County, caused by the arrest of a man named Wells, charged with negro stealing. He was taken in charge by a mob, and immediately hung, while his body was mutilated in the most barbarous manner.

The reason why the allies have not succeeded, the world is assured through the official despatch of the French general, is owing to the "rocky nature of the soil and the heavy calibre of the enemy's artillery;" in other words, that Sebastopol is strong in position, and that the Russians fight with big guns. "This explains the delay," says the New York Courier.

The Council Bluffs (Mo. Territory) Bugle, of the 31st ult., says accounts from the villages of the Otloe Indians go to show that they are dying in great numbers. It is supposed that the pork or bacon received as annuity, becoming musty or tainted, is the occasion of this mortality. What number has already died we have not been able to learn.

DR. CARL V. MEYER'S
GERMAN
HOMEOPATHIC BALSAM

THE discovery of this remarkable sensative medicine was obtained by means of a thoroughscientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. The medical properties of these waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owning to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,
SUCH AS
Scrofula, White Swellings, Scorbutic Eruptions, Ulcers, Erysipelas,
Paralytic and Nervous Affections,
CANKER,
AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,
AND THE
RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS,
COUGHS,
SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief.—IT MAKES YOU EXPECTORATE FREELY, AND NEVER VISITS YOU A COLDS.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

Swaim's Celebrated Panacea,
FOR THE CURE OF
INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
D. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Luis Vallis, Prof. of Medicine, Havana.
Jose Eourenco de Lus, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c. &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name Wm. Swaim stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Drayer & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

ATTENTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed, that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UNIQUE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UNIQUE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

TO NEW SUBSCRIBERS.—To all new subscribers who pay us $3 in advance for the Daily Chronicle for the year 1855—or $1 for the Weekly Chronicle for the same time—we will furnish either paper subscribed for, from this time to January 1st, *free of charge*.

COPERNICUS A CATHOLIC PRIEST.

We must bear in mind that this man, who thus introduced to the world the present system of astronomy, was a Catholic priest, and not only a priest but one whose name was forwarded to Rome as one of the resident Canons qualified by piety to fill the vacant see of Emesland, nor is it any reproach that another was named to wear the mitre. In fact he was appointed on several occasions of the absence of the bishop to act as his vicar; and this commission required both probity and courage, for he had to defend the rights of the see against the encroachments of the Teutonic Knights, who at that time were very powerful. He did not allow himself to be dazzled by their authority, nor to be intimidated by their menaces. These details may seem unconnected with, and foreign from, the scientific glory of Copernicus, but they show that in his character the spirit of study and contemplation was united with firmness and constancy, qualities not less necessary than genius to attack and upset prejudices consecrated by the belief of centuries, and, besides, they serve to place prominently before you that Copernicus was a priest of the Church of Rome, for though we hear and read so much of Galileo and the Inquisition, and of the *apparent* antagonism of the Church and science in his day, we may open histories of astronomy, and peruse biographical sketches of men of science without number, without once meeting a single word of allusion to his sacerdotal character.—*Pilot.*

We have italicised the word *apparent*, in the above extract, and would thank the Pilot or any one else, who will show us the *apparent* or *real* harmony, between the Church which *denied* the earth's motion in Galileo's time, and yet confesses and dares not deny it now.

The story of Galileo is familiar to our school boys. He avowed the doctrine of the earth's motion: the Church compelled him to recant,—or die. He chose to recant: and having recited the nonsense which the Church (i. e. the priests) put into his mouth, he rose up from his knees, and said to a friend,—The earth does move, after all.

We should think this was *apparent* antagonism, to say the least of it.

THANKSGIVING DISCOURSE.—The Boston Telegraph reports the Rev. Theodore Parker as having used the following language on Thanksgiving day:

Yesterday, continued Mr. Parker, I had the honor to be arrested and brought before the Fugitive Slave Bill Court. I have had several honors in my life; but I believe this is the greatest and best of all. There stares me in the face a fine, I believe, of a thousand dollars, and imprisonment in the common jail for the period of six months. Massachusetts has already been disgraced by a Grand Jury—the like of which could not be found in our fathers' time—which calls in question the utterance of the rights of man and the inestimable truths of humanity in Faneuil Hall! Lastly, a Massachusetts Grand Jury finds a bill of indictment. It remains to be seen if a petit jury will find a conviction—for which I am to wait the three months that are to come.

The Boston Mail says:

This bitter and mischievous fanatic is now in a fair way to get his deserts for stirring up treason.

Treason is it, to speak as every free man thinks, against slavery and the fugitive slave act? Treason, against whom? or what?—Against one of the meanest, most unjust, oppressive and contemptible bills that ever blotted the statute book of any country.

Columbia, land of liberty! In thee, it is treasonable and actionable, for any man to speak against the minions of the most detestable oppression. Parker is indicted in Boston, for speaking—and half a dozen fanatics are held to bail in Worcester for acting against some branches of the same bitter root.

Why does not somebody bring out the old Union-saving Question, What has the North to do with slavery?

RAILROAD DISASTER.—The Friday morning Train, on the Atlantic and St. Lawrence Railroad, near the station in Stark, N. H., was stopped by snow, and soon run into by the freight train, which came up with considerable speed, and smashed the passenger car badly, upset the stove and injured more or less seriously, ten of the 20 or 25 passengers who were in the car. The fire from the stove immediately communicated to the wreck of the car, which in a brief space was in a blaze. The person most seriously injured was Mrs. Taylor from N. H., on her way with two children to visit friends at Norway village. She was bruised and very badly burned, so that it is feared she may not recover. She was seated near the stove and was so wedged into the wreck that she could only be extricated by cutting away the side of the car.

Charles Lever was coming over to the United States in the Arctic, the trip that she was lost, and was persuaded by his wife to defer his visit on account of a very remarkable presentiment that she had against it.

THANKSGIVING AT SOUTH BERWICK.

SOUTH BERWICK, ME., Dec. 1. '54.

This good old town is famous for its hospitality and fat turkeys; and at no time are these characteristics more abundantly proved to be hers, than when, at the annual return of our time honored New England Thanksgiving, her absent sons and daughters come home again. All strict formality and ceremony is thrown aside, and their hearts are made glad with real, genuine hospitality. In such reunions there cannot fail to be pleasure to all participators, old and young.

"Pleasure flows from eye to eye,
And joy from heart to heart."

Such a gathering was there last evening, at a social Tea Party, given by the ladies of South Berwick, in Central Hall. Considering the short space of time in which every preparation was made, it was surprising that they were so complete. Long tables extended through the centre of the hall, (which was tastefully dressed for the occasion) and were covered most bountifully with every thing nice in the shape of eatables, which were arranged with much care and in exquisite taste. At an early hour the hall was well filled with promenaders, "and bright the lamps shone o'er fair women and brave men."

A select company of singers were provided for the occasion, under the direction of J. G. Tompson, Esq., and discoursed some very acceptable music. A fine quintette of male voices from Dover, added also to the festivities, and sang some of the popular airs of the day with guitar accompaniment.

At about half past 9 the meeting was called to order by the chairman, who introduced to the company Rev. Mr. Moulton. He made some very happy remarks, closing with prayer, after which was sung an ode written for the occasion by Miss Sarah L Huntress. [It may be found in another column.]

The company were then invited to turn their attention to the refreshments, and they did so with a hearty good will. Remarks were made by Mr. Lyman of Dover, and Rev. Mr. Wilde of Topsham, who certainly did *his* part toward creating a pleasant feeling in every heart. The post office attracted much attention, and was a source of great amusement to the young.

After an auction of the "ring cakes," an original poem was read by Mr. Odell, and "I'm going home," a song and chorus, beautifully sung by a family of five brothers and sisters. The company dispersed as it drew toward the small hours, having passed a very pleasant evening. The proceeds are to be devoted to the comforts of the poor. T.

WRECKS NEAR NEWBURYPORT.—The Herald says the schooner Comet, which went ashore on the South Breakers, on the afternoon of the 29th, drifted off during the night, and was driven on to the beach by the Relief Station, about three miles from where she first went ashore. Her masts, bowsprit, house on deck, deck load, are all gone, and she remains a wreck. She had on board a meeting-house frame, for the Universalist Society of Haverhill, which was washed ashore. The Comet was a good Eastern built vessel, of about 80 tons burthen, 7 years old, and there is no insurance on vessel or cargo. The captain and his wife with the crew were landed in safety.

The same evening the schooner Rio Grande, Capt. Gulliver, of Bangor, for Boston, left Portland in the morning, made the Shoals about dark, to the leeward, and being unable to run for Portsmouth, headed for the Cape; during a heavy blow, split jib and foresail, broke gaff, and fore boom broke from the mast. Finding it impossible to make a harbor near the cape, run for the bar. She first struck on the North Breakers, and after pounding for some time, and losing part of her deck load, she came off and run in. After getting inside and dropping anchor, which wou d not hold, she was driven on the extreme point of Plum Island. She remains high and dry.—She was loaded with railroad sleepers. Had the buoys been placed upon the bar, by the vessel which visited our harbor for the purpose, last week, both vessels would probably have run in in safety.

THE AMERICAN PARTY.—The Fitchburg Reveille has come out American. It says there is nothing left of the whig party. We had much rather that paper and its editor had remained whig. These eleventh hour folks that rush into the new party after having suffered annihilation and defeat, can be of no benefit; and will be as ready to desert in trying times. Give them a cold shoulder, and feed them not.—*Charlestown Adv.*

The body of a female, a wherry boat and binnacle, drifted ashore at Southport, Me., lately, and the supposition is that a sch (name unknown) John Pierce master, from Boston, with a freight of chains, &c., for Southport, is lost with all hands. The binnacle was recognized by a person at Southport, as belonging to the vessel of which Capt. Pierce was master.

A few days since, a gentlemen of New Albany, opposite Louisville, Ky. while amusing himself by throwing sticks into the river for his dog to swim after, noticed that the animal acted as if he had got a heavier load than he bargained for. He succeeded in reaching shore, however, bringing with him a large salmon that had seized upon his hind leg for a "bite."

Rev. N. M. Gaylord, formerly of Columbus, Ohio, has accepted an invitation to assume the pastoral charge of the First Universalist Society (Rev. S. Streeter's) in Boston, and will enter upon the duties of his care on the first Sunday of January next,—[as colleague pastor, we presume.]

LOCAL.

RAILROAD CHANGES.—The time of the starting of the trains on the various roads change to-day; the outside of this days paper was printed before we received notice of the alterations.

On the Concord road, the first train starts at 8:50 A M, and runs only to New Market. The second and third trains, for Concord, start at 10:35 A.M. and 4:30 P.M.

Trains will leave Portsmouth for Boston at 7 and 10.45 A. M., and 5.15 P. M.

Trains will leave Portsmouth for Portland at 9.45 A. M., and 5.15 P. M.

Thus it will be seen that the evening trains between Portland and Boston, meet in this city.

THE "OLD FOLKS'" CONCERT.—Arrangements are nearly completed for this interesting performance, to take place at the Temple on Wednesday evening Dec. 13th—and probably another concert will be given on Thursday or Friday evening of the same week, with a different programme of the same rich old music. About one hundred performers will take part in the singing; the orchestra, which is a most excellent one, will consist of at least nine instruments—clarionet, two violins, two flutes, two single and two double bass-viols. The singers form a rich chorus, of treble, counter, tenor, alto and bass voices—from various classes in this community and from neighboring towns; and if on this occasion they much eclipse the usual performances of "the dear young folks," these latter must attribute part of the success of the "Old Folks" to the inspiriting effect of the sublime old poetry set to music no less sublime, over and above the fashionable milk-and water psalmody of more modern times.

A notice to all the old singers, will be found in another column.

COURTESY.—One lecture on Good Manners at the Temple, would probably put to rest the newspaper discussion. But as that lecture may not be given, we have sufficient confidence in the discernment of those who attend the lyceums that they will profit by a text from the 15th chap. of Ecclesiastes:—"When thou sittest in the temple, be courteous to the speaker and to the hearers. Let no one pass thee in thy seat, but move in and give him place."—*Journal.*

If the reader is not aware that this text is Home-made Scripture, perhaps it is not worth while to tell him of it,—at least not until he takes the advice. A lecture on good manners, and one on good writing also, might not be amiss in the lyceum. All important points of Lyceum etiquette, and some not very important, have been discussed by our numerous correspondents, while we, editorially, have said nothing. Uncle Toby, however, would just remark, that the boys and girls had better keep still, in Church and Lyceum, saving their courting and giggling for some other places; and also, that if any lecturer brings a dry discourse to market, he must not feel greatly surprised if some people fall asleep, and others chatter or giggle among themselves. He has been somewhat amused by the criticism of the writers, especially with Woodland's misquotation of Chesterfield, on which misquotation he makes some learned remarks.

The whole controversy has seemed to the old gentleman much like the effervescence of sparkling spruce or root beer: quite bright and pretty, but not very nourishing or substantial.

☞ The strikers at the Navy Yard were set at work again on Saturday afternoon, at the old rates, satisfactory evidence being presented to the Commodore, that their wages were no higher than was paid in private yards. The pay roll of the yard contains about 750 names.

THANKSGIVING.—In company with the Mayor, Overseers, and editors of the city, we visited the Alms House at noon on Thanksgiving day, and saw the tables spread for the inmates. The females dine in the basement of the west wing, and the males in the east wing. The tables were bountifully supplied with all that is necessary to satisfy even an epicurean appetite. Roast turkies, (we counted fifteen fine ones on the tables,) plum puddings, pies, apples, pickles, potatoes, bread, &c. were liberally displayed. The city usually provides some extras for that day, and the income of the fund bestowed by Ex-Mayor Toppan will provide the turkies for all future time.

The above simply truthful statement from the Journal, shows an ample feast for 77 inmates, which was the whole number on that day,—and exhibits one way in which a moderate amount of money may confer a great amount of comfort on many people.

CONCERT.—The Hutchinson Family give another of their Concerts this evening, at the Temple. This company have always been greeted with large audiences, and have pleased the multitude. There is such a naturalness and beauty in their melody, that one cannot but be pleased with their songs, even though he may object to the sentiment.

☞ A slight alarm of fire was raised on Saturday night at about 12 o'clock, by the burning of a bed in the house No. 14 McDodonough street. It was extinguished without the aid of the fire department.

Old Folks' Concert.

NOTICE.—The next Rehearsal for the Old Folks' Concert, will be held at EXCHANGE HALL, No. 4 Exchange Buildings, on TUESDAY Evening, Dec. 5, at 7 o'clock.

All who have been singers in time past, whether they have received invitation to attend the two previous rehearsals or not, are most cordially invited to be present at the above time and place.—The programme will then be announced, and all details arranged.

For any information respecting the Concert, apply at the Chronicle Office. Per Order.

THE LATE REV. DR. LEONARD WOODS, Abbott Professor of Theology in Andover (Mass.) Theological Seminary, wrote the Proprietors, as follows: "From a long use of the VEGETABLE PULMONARY BALSAM *for Coughs, Colds and Consumption*, in my family circle, and in some instances among Theological students, I have been led to regard it as a safe and efficacious medicine." AYER'S CATHARTIC PILLS.
PILLS THAT ARE PILLS!

PROF. HAYES, State Chemist of Massachusetts, says they are the best of all Pills, and annexed are the men who certify that Doct. Hayes knows, viz:—
LEMUEL SHAW, Ch. Justice Supreme Court of Mass.
EMORY WASHBURN, Governor of Mass.
W. C. PLUNKETT, Lieut. Gov. of Mass.
EDWARD EVERETT, Ex-Sec. of State and US Senator.
ROBERT C. WINTHROP, Ex-Speaker House Rep. U.S.
ABBOT LAWRENCE, Minister Plenipo. to Gt. Britain.
†JOHN B. FITZPATRICK, Catholic Bishop of Boston.

MEN THAT ARE MEN!

Among the diseases this Pill has cured with astonishing rapidity, we may mention
Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

New York, Dec. 2.—While the passengers of the Africa, from Liverpool, were leaving that vessel on Wednesday evening last, the revenue officers discovered a large quantity of jewelry, &c. secreted in some trunks belonging to them. The further debarkation of the passengers that night was prohibited, and the strictest search was instituted before they were permitted to leave the ship next morning. Property to the value of $75,000 was seized, but no arrests have been made.

The bank defalcation, before reported is said to amount to $200,000. The particulars have not transpired.

The Washington correspondent of the Tribune says that Senator Adams, of Wisconsin, will at an early day introduce a bill extending the term of residence of foreigners desiring naturalization to 21 years.

New Orleans.—The Picayune complains of the backwardness of trade in New Orleans this season, which partly arises from the fears which accompany the summer sickness, and which keep people away; but more particularly to the important effect of the low water in the upper rivers, which is seen in the greatly reduced quantity of country produce arriving seeking a market. This effect tends to delay business to a late day, cripples the resources of merchants, and creates much loss to producer and dealer. The stage of water in our rivers has a most important effect.—The necessary daily wants of every family are much augmented in prices. Coal, corn, potatoes, meats, and a hundred other articles indispensable to comfort are held at high prices, while the up country abounds with them at proportionably low costs.

Tremendous Salutes.—The Philadelphia North American states, that "arrangements are making to have a grand explosive display to-morrow (Thursday) in honor of the late astounding victories gained by the American party. Five hundred guns will be fired from a wharf on the Delaware, and another five hundred from the steamer Eclipse, which has been chartered for the occasion. The firing will be commenced at sunrise, and all day long will be delighted with this thundering glorification. Now if each of the gunners and all who expect to be near the guns, will think of their families, and get their lives insured before Thursday, we shall rest perfectly satisfied."

Gov. Baker, of New Hampshire, is an active member, and chairman of a board of directors of a Kansas Emigration Society, in Concord, the design of which is to save the new territory from slavery. When the Democratic standard bearer in New Hampshire is a Know Nothing, and thus openly acts with the opponents of slavery; and when an anti-Nebraska man, like Morrison, is unanimously renominated for Congress, at a convention presided over by Moses Norris, there is something in the wind that was not announced in the original programme of the party. We shall see in March next what these things mean.—*Newburyport Herald.*

THANKSGIVING ODE.

[Written for and Sung at the Celebration at South Berwick, Nov. 30, 1854.]

Father, who ruls't the earth and skies,
We come before thy face,
And bear an humble sacrifice
Of gratitude and praise.
Another year hath rolled away
With choicest blessings crowned;
And still thy mercy guards our way,
And plenty smiles around.

We thank Thee, whose paternal care
Hath made these blessings sweet,
And safe from every lurking snare,
Hath led our wandering feet.
We bless Thee, whose all bounteous hand
Hath all life's mercies given,
And scattered o'er our sunny land
The richest gifts of heaven.

While war hath reared his blood stained crest,
In lands beyond the sea,
Our happy shores and homes are blest—
From every tumult free;
And for this precious boon of thine
We praise Thee, Heavenly King,
Well may our hearts and voices join,
Thy power and grace to sing.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal thereof within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Mortus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing the *semewhat* similar name, well calculated to deceive.

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of any Steel Pen at present extant, obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that every article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of any Steel Pen at present extant, obviating the only objection that has hitherto existed against the use of Steel Pens.

DR. J. B. MARCHISI'S Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the WOMB; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that, by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GATT, 88 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Morning Chronicle.

TUESDAY, DECEMBER 5, 1854.

TO NEW SUBSCRIBERS.—To all new subscribers who pay us $3 in advance for the Daily Chronicle for the year 1855—or $1 for the Weekly Chronicle for the same time—we will furnish either paper subscribed for, from this time to January 1st, *free of charge*.

PRESIDENT'S MESSAGE.—We expected to be able to present the Message to our readers this morning, but the elements prevented its arrival in Boston in season for their evening papers. At the last accounts it was stuck in a snow drift, near Hartford.

FOREIGNERS.—The Bible affords us about as good lessons in morality as the mushroom Solomons of our day. In Leviticus, 19th ch. 33d and 34th verses, we find the following directions on the proper treatment of foreigners:

"If a *stranger* sojourn with thee in your land, *ye shall not vex him*; but the stranger that dwelleth with you shall be unto you as one *born among you*, and thou shalt love him as thyself, for ye were strangers in the land of Egypt. I am the Lord your God."

The know nothings think they can patch up something better than this.—*Post.*

No doubt some know nothings would say—Take the stranger and make him your Governor,—let him rule over you,—let his priests manage your schools,—and let his law, by and by, when he gets strong enough to make it, forbid you to worship in your own fashion, and compel you to worship in his.

Those Americans, however, who know something, prefer, for the present, at least, to keep the government in their own hands.

While we are looking at the scriptures, we may as well copy another text from Deuteronomy, 23d chapter, 15th and 16th verses.

Thou shalt not deliver unto his master the servant which is escaped from his master unto thee: he shall dwell with thee, even among you, in that place which he shall choose in one of thy gates, where it liketh him best: thou shalt not oppress him.

Perhaps some know nothing can improve this text, also; but we think it stands very well as it is. It does not follow at all, however, that I ought to employ a runaway servant to make laws, or elect him Governor, to rule over me. The text says, I must let him stay, and not oppress him; but it does not say I must let him oppress me, or suffer him to break up society, or to change our laws or customs.

PRIESTLY DOINGS.—A ceremony not quite in accordance with our age, recently took place in the church of Niederbrechten, Germany:

"A young Catholic, having married a Jewish girl, was solemnly excommunicated. The church was dressed in black, and so crowded with curious spectators, that many fainted and were taken away. The curate ascended the altar, and with a sorrowful voice explained to the faithful the nature and cause of the excommunication which was going to be pronounced. Afterwards the bishop appeared in the pulpit, and exhorted the curate to fulfil with courage and firmness, the painful duty imposed upon him by his sacred ministry.—The curate, who was more christian and humane than his lordship, confused and his eyes full of tears, read the episcopal anathema, and pronounced the excommunication against the husband and against all those who took part in the wedding ceremony."

SUSA, Sardinia, October 28.—Three fat bishops arrived here yesterday from Savoy; they inquired for the best hotel. After dinner they went to visit our bishop, and spoke of the Immaculate Conception. One was in favor of it, another disbelieved, and the third said nothing on the subject. When the theological conversation was over, they drank some bottles of the best wine, and finally started in the evening for Rome.

OSEGLIA, Oct 27.—Father D. Calvi has been arrested for libelous language used from the pulpit before his congregation.

NICE.—The Consul of the Pope has been arrested, and will be duly prosecuted for improper conduct with females in the streets.

THE PRIEST DENOUNCES THEM.—A correspondent at Milford, Mass., states that Priest Farley denounced from the pulpit last Sunday, in that place, Meagher, Mitchel, editor of the Citizen, and Col. Doheny. The priest stated that any person having connection with these individuals would be excommunicated from the church. We guess Farley won't hurt any body's folks.—*Crusader.*

RUM'S DOINGS IN NEW YORK.—The New York Mirror says, "We are having at least one rum-murder a week in this city. It is a fearful fact. Our opposition to an arbitrary Maine Law has not been disguised, but we will as openly confess that something must be done to decrease the facilities of drunkard-making, or we shall soon have to chronicle a murder daily. The license laws are not enforced and too many licenses are granted.—Reform in these directions must be had, or more stringent measures to meet this evil will be insisted on by the better portion of the community. Prior to the elections a number of liquor dealers called on one another to rally against the Maine Law, as threatening to invade their houses at midnight—for consistency sake, liquor dealers should be careful not to send forth drunken mad men, to violate the safety and peace of the community—as has been done at all hours, day and night. Over forty murders and man-slaughters instigated by rum in our midst since January first, is a terrible record, let alone the lesser crimes, pauperism, and misery resultant from the cause. Let us have the license laws enforced, and fewer low grog-shops licensed.

THE RULING PASSION.—It is seldom that the 'ruling passion' is seen so 'strong in death' as in this instance, narrated by the *Courier de la Granda*:

An old soldier, feeling his end approaching, and wishing to die like a good Christian, sent for a clergyman to administer to him the rights of the church. After having attentively listened to the exhortations of his confessor, he asked him with a feeble voice, 'Can you tell me, reverend father, if Sebastopol is taken?'

The clergyman, astonished at such a question from a dying man, answered as yet there was no positive account of its fall. The sick man continued, 'The reason I ask the question is, as I am about to depart for the other world, it would have given me great satisfaction to be able to announce the good news to Marshal St. Arnaud.' At these words he fell back on his pillow, and after half an hour's suffering the poor soldier breathed his last.

SINGULAR CASE.—On the evening of the 23d ult. an aged, and at that time an unknown man, was knocked down and run over in 42d street, by one of the 3d avenue cars, and died the same night at Bellevue Hospital. The day following an inquest was held upon the body, and no one appearing to recognize it, it was interred as that of an unknown man, in Potter's Field, at the expense of the city. It has since been discovered to be that of Mr. John L. Norton, a resident of Pearl street, nearly 85 years of age, and worth about half a million of dollars. It appears that on the 22d ult. he left his residence, and not returning to it again, his relatives feared he had met with some accident, instituted a search, which proved unavailing, until they called at the Coroner's office, and upon looking over the book discovered, by the description of the dress and articles found upon his person that he had been buried as an "unknown man." Mr. Brock Carrol, late a police officer of this city, and grandson to the deceased, has been willed the bulk of his property.

A FEARFUL SCENE.—At the Centre Market this morning, a little boy nine or ten years old, a son of Mr. Stanley, who resides on the Island, was seized in the crowded market place by an angry bull dog, from which he could not be rescued until the animal was killed by blows from a number of cleavers, which cut open his head and nearly severed it from his body. Fortunately, the child, protected by the thickness of his clothing, was not dangerously hurt. The owner of the dog was fined three dollars for permitting him to go into the market place.—*Washington Globe, Nov. 30.*

POOR 'CITIZENS.'—If John Mitchel doesn't like the way that Americans rule America, the world is before him and he can go elsewhere, if he chooses. While, however, he makes our land an asylum, good taste and good manners suggest that abusive language towards the majority of our people and the rulers whom they choose should be very sparingly bestowed. While we criticise each other with great freedom, we are apt to show small favor to interlopers.—*Lowell Courier.*

SHIPPERS OF PRODUCE.—The shipments of American produce from New York have been on a large scale for the last few days, embracing about 125,000 bushels of corn, 3000 bales of cotton, and some parcels of flour and provisions. The aggregate value of these shipments has probably amounted to about $100,000 for the corn, $126,000 for the cotton, and about $30,000 or $40,000 for other articles, giving a total of about $256,000 or $266,000 for the last two business days of the past week. This movement must tend to depress the price of sterling bills, and to check the export of specie.

LIQUOR SEIZED.—Sheriff Baker and officer Huse made a seizure of about 40 gallons of different kinds of liquor at the house of Mr. Wm. Eldridge, in Westbrook, Thanksgiving day. Upon being told by the officers their business at his house, he declined telling where the liquor was, and when in the course of the search they approached the place of concealment, he took an axe and walked into the room where it was kept, and succeeded in smashing several casks, demijohns, decanters, &c. very materially. It was thought about a hundred gallons of liquor were in the room, of which about forty were seized by the officers.—*Portland Adv.*

THE CATHOLIC CHURCH DIFFICULTY.—The quarrel between Bishop O'Reilly on the one hand, and the priests and laity on the other, growing out of the Hartford difficulty, has been settled at last. The Bishop concedes to the people the privilege of managing their own financial affairs, and the laity appoint a committee to take future charge of the revenues of the church, pay the amount allowed to priests, with other necessary expenses, and render proper vouchers and ample statements.—*Boston Journal.*

THE BURNING OF THE OCEAN.—The Bangor Journal learns from persons who are intimately acquainted with all the facts in the case, and with a gentleman who conversed with Hiram L. Wing, express conductor, a few hours before he died, that the instantaneous conflagration was caused by the breaking of demijohns of ardent spirits which the express conductor had in his room to carry, to parties on the Kennebec ordering the same.

NOVEL SIGHT.—The Lockport Courier says much excitement was created in their midst on Monday afternoon by the appearance of some half a dozen young women, who promenaded Main street with cigars in their mouths, puffing them with a zest that would have done credit to more masculine lips.—where these ladies came from, or where they were going to, is a matter of mystery.

CALDERON DE LA BARCA.—We learn that though the mob did not sack the residence of this gentleman during the late revolutionary scenes in Madrid, the forcible change of the Spanish Government drove him forth from Spain, practically an exile. Very recently he was in Paris with his family, and was in exceedingly straightened circumstances, having been deprived by the chances of the revolution of nearly all his available means.—*Washington Star.*

At a temperance meeting, at the Mariners' Bethel, Boston, on Tuesday, 200 sailors signed the pledge.

LOCAL.

SNOW STORM.

The cold weather of Friday and Saturday was succeeded by a storm on Sunday evening, which lasted nearly through the night. About six inches of snow fell in this city, well mixed with rain.

During the night, the wind blew violently. In the lower harbor, the schooner Banner, Capt. Chambers, which had anchored in Pepperell's Cove, dragged her anchors, and went ashore on Oliver's Island, on the Newcastle and Portsmouth side of the harbor. The Banner was bound from Bangor to Lynn.

Sch Meridian, Elliot, from Gardiner, Me., for Haverhill, Mass., drove ashore at New Castle same night, in the snow storm, about 11 o'clock, and has bilged and is full of water. Cargo (lumber) will be saved. The vessel will probably be a total loss.

There are also two other vessels ashore near by—their names not known. One belongs to Deer Island and the other to Bangor.

The storm also caused much detention of the mails and trains, and put a stop to telegraphing for a short season.

The storm was very severe in Boston, and several vessels were injured at the wharves.

A gentleman who reached Boston by the N. Y. Central Railroad, says that he counted as many as twelve vessels sunk in that harbor. They were mostly of small size.

Brig Matanzas, of Boston, is on South Boston flats, full of water.

In Boston but little snow fell. In Lowell they had about 8 inches; and in Fitchburg sthe snow was about a foot deep.

A despatch dated Springfield at half past 11 o'clock Monday morning, says that the mail train, which left New York Sunday evening, had not arrived thrre. [This train had the President's Message on board.]

TEMPERANCE CONVENTION.

It will be seen by an advertisement in our columns, that a Temperance Convention is to be held at the Temple in this city, on Monday and Tuesday of next week. No observing man among us, can doubt that the prevailing intemperance in our midst is one of the greatest evils that afflict our community. It is, therefore, greatly to be desired that a good attendance of our own citizens should be given at this convention, which will doubtless embody some of the best and wisest friends of temperance in the country.

POLITICS AND PARTIES.—A Know Nothing correspondent of the Manchester "Stars and Stripes" newspaper, writing from Portsmouth, respecting the course of the various presses here on the American movement—when he comes to us, says:

The Chronicle, which claims to be independent in politics, has generally, but with moderation, favored this movement since its origin; and even before the existence of the party, was quite strong in its opposition to Catholicism.

Certainly—the Chronicle is always in favor of the largest liberty, just so far as the indulgence of that liberty interferes with no one else. We dislike tyranny and despotism of any sort—whether of church or state, individuals or communities, clans or sects. And while we *do* "claim to be independent *in* politics," we do not wish to be independent *of* all political opinions. Our motto is "Independent of *party* in politics, and *sect* in religion."

"OLD FOLKS'" CONCERTS.—The managers of the entertainments to come off at the Temple next week, have just received a description of a similar entertainment at Albany, N. Y., from a gentleman who was present. He says, "a choir of two hundred was gathered, of all ages, from old ladies and gentlemen of eighty-three years, with snow-white caps and silvery locks, down to blooming girls of eighteen years. The old church was crowded, at 50 cents a ticket. One old gentleman was asked how he liked the concert, and replied that he had lived over fifty years of his life in two hours. The entertainment was closed by choir and audience singing Old Hundred. The entertainment was the most grand, splendid, glorious and pleasing it was ever my lot to attend."

HOSPITALITY.—Business called us in the vicinity of the Atlantic House, on Rye Beach, a day or two since; and we followed our inclination to dine with mine host of that excellent and popular hotel,—John C. Philbrick, Esq. Though the wintry blasts have long since blown away all his boarders, yet the cordial hospitality with which he always greets his guests, chills not, but only shows the brighter, in contrast with the cooling out-of-doors influence.

DEATHS IN NOVEMBER.—The number of deaths in this city during the month of November, was 8; the ages were as follows:

Males—85, 58, 81, 52, 68, 78 years.

Females—33, 23 years.

☞ There is to be no Lyceum lecture this evening at the Temple; but there is to be, at the same place, a free lecture on Phrenology and Physiology, by Prof. Townsend.

BOSTON DAILY ADVERTISER.—This old and truly respectable journal has come out in an entire new typographic dress, and has also added various improvements to the previous excellent arrangement of the paper.

☞ Silas W. Wilder, formerly one of the propietors of the Carpet Bag, and of the Railway Guide, of Boston, died at Toledo, Ohio, on the 25th of November.

The Washington correspondent of the N. Y. Tribune telegraphs that the prospects are that Kennett Rayner, of North Caroline, will be the Know Nothing candidate for the Presidency.

AYER'S CATHARTIC PILLS.

PILLS THAT ARE PILLS!

PROF. HAYES, State Chemist of Massachusetts, says they are the best of all PILLS, and annexed are the men who certify that Doct. Hayes knows, viz:—

LEMUEL SHAW, Ch. Justice Supreme Court of Mass.
EMORY WASHBURN, Governor of Mass.
W. C. PLUNKETT, Lieut. Gov. of Mass.
EDWARD EVERETT, Ex-Sec. of State and US Senator.
ROBERT C. WINTHROP, Ex-Speaker House Rep. U.S.
ABBOT LAWRENCE, Minister Plenipo. to Gt. Britain.
JOHN B. FITZPATRICK, Catholic Bishop of Boston.

MEN THAT ARE MEN!

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain attending them, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

8 DAYS LATER FROM CALIFORNIA.

ARRIVAL OF THE STAR OF THE WEST.

The steamship Star of the West, Capt. Turner, arrived at New York on Saturday afternoon from Punta Arenas, 24d ult., with 260 passengers and $750,000 in specie. She brings California papers to the 9th of November.

The Alta California of the 9th says:

Since the sailing of the steamer of the first, business has been remarkably active. A disposition to take advantage of the present fine weather, the low rates of freight, and a desire to procure the necessary supplies in anticipation of further advances, have probably induced the present activity in trade.

There is every reason to believe the depressed condition of the business, which has been complained of for the past year and a half, has at last ceased, and high hopes are now entertained that the voice of complaint will not be heard for a long time to come.

The present animated condition of business, the brisk demand for new goods, causes the greater portion of the cargoes of vessels now arriving to pass immediately into the hands of sellers, instead of store-houses, as formerly. Speculation, that sure indication of brisk trade and moderate stocks, is now rife, and outside capital freely employed.

In commercial matters, little or no change had occurred. A fair business had been done. Gallego and Haxall flour closed at $12.50 a $12.75.

Money manners continue pretty stringent, nor should we expect any immediate relief. The bulk of the business thus far done, the present season, has been on credit, and some weeks must elapse before our jobbers realize returns from country dealers.

The operations of the San Francisco mint amounted in October to about fifty-four thousand ounces of gold in coins and bars.

The official returns of the recent State elections are published, and show the combined democratic majority on the Congressional vote to be 12,345.

The mining news is of a favorable character.

The Mormons have been ordered to leave San Francisco by the first of May next.

The Alta California was urging the establishment of a stage and mail route across the plains.

The arrival of overland immigrants was large; nearly all had encounters with the Indians.

The bark Swan, of Baltimore, on the passage to Pernambuco, came near being lost by a singular accident of a chisel having been carelessly dropped into the pump. The constant use of the pump drew the chisel up, and in its falling it every time cut away a piece of the skin, and finally went through the copper, digging out a hole, which caused the vessel to leak so that she had five feet of water in her hold when she got to Pernambuco.

A SNOWY WINTER.—The weather seers predict that the coming winter will be remarkably stormy, and marked by many heavy storms of snow. They take the ground that the average amount of water falling to the earth is nearly the same each year; and as we had only one fourth the usual amount during the summer, a sufficient quantity will fall this winter in the shape of snow, to make up the required average.

THE SUGAR-CROP.—The accounts of the Louisiana sugar crop, published in the New Orleans papers, are all unfavorable. They say the amount of sugar produced will fall short at least one third, compared with last year, owing to a deficiency in the juice of the cane, but the quality of the sugar manufactured is described as being much better, as the juice is richer. Planters are busy, grinding and rolling.

EXEMPLARY DAMAGES.—The Springfield (Illinois) State Register says:—"A verdict of ten thousand dollars was rendered in our Circuit Court on Saturday against a resident of our county for the seduction of a girl thirteen years of age. The suit was brought by the father."

Theodore H. Grey, the vitriol thrower, was taken before the Mayor of New York on Friday, and committed to prison for examination on fifteen charges, in default of $500 bail in each case. There were several persons ready to make additional complaints.

Some lovers of the ardent broke into the town agency at Buckfield, Me., on Sunday evening, and decamped with the whole assortment of liquors—winding up the affair doubtless, with a glorious drunk.—*Oxford Dem.*

SAMUEL COOPER,

Late Chief Examiner in the United States Patent Office,

Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be required in lieu of the sum in advance to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
F. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Vallo, Prof. of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spain.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric frame work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1855," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

LAWRENCE'S

CHERRY PECTORAL.

W. F. LAWRENCE: DEAR SIR,—

It gives me pleasure to state that your CHERRY PECTORAL has given utmost satisfaction wherever it has been used. Some of the most distinguished physicians of the state, are in the habit of purchasing it in bulk, and profess themselves highly gratified with its remedial effects. I can recommend it with confidence as a very superior medicine, and have no doubt that it will earn for itself an enviable reputation. E. H. ROLLINS.

CONCORD, Sept. 20, 1854.

Mr. Rollins is one of the most extensive dealers in drugs and medicines in New England. As the Cherry Pectoral was first introduced in Concord, we subjoin the certificate of John F. Brown, formerly bookseller and publisher, and now city clerk of Concord, N. H., our former agent:

This certifies that I have been an agent for the sale of the medicine, now extensively known as Lawrence's Cherry Pectoral; that so far as I know it has given good satisfaction; that I have repeatedly sold it to physicians in quantity; that I am acquainted with the manufacturer of the Pectoral; that he is a physician of good repute, and that I believe him qualified to conduct the complex operations necessary for the manufacture of this medicine. JOHN F. BROWN.

CONCORD, N. H. April 6, 1854.

The above are but few of the many testimonials in favor of Lawrence's Cherry Pectoral. It is used under the sanction and approbated at Dartmouth College by Prof. Dixi Crosby, and the most eminent of the Medical Faculty of the N. E. states. It is

THE GREAT REMEDY

For the rapid cure of coughs, colds, influenza, croup, hoarseness, pulmonary and bronchial irritations about the throat and chest; and may be had of all apothecaries, and in at least one store in every town in N. H.

Reader, recollect that more than half of all those who die of disease, die of consumption. Here you have a remedy used and sanctioned by the most eminent among the Medical Faculty. Are you troubled with a cough, or cold, bronchial, or pulmonary complaint? try it immediately, and do not neglect your cough and cold. o5eod1y

Morning Chronicle.

WEDNESDAY, DECEMBER 6, 1854.

PRESIDENT'S MESSAGE.

We have carefully read the President's Message, and now present our readers with the following abridgment of it, which we think will fairly give the author's ideas within a brief compass, and as far as possible in his own words. This we have aimed to do, by selecting the most important paragraphs, giving a brief notice of others, and prefixing proper heads to every topic.

Fellow citizens of the Senate and of the House of Representatives.

The past has been an eventful year, and will be hereafter referred to as a marked epoch in the history of the world. While we have been happily preserved from the calamities of war, our domestic prosperity has not been entirely uninterrupted. The crops, in portions of the country, have been nearly cut off. Disease has prevailed to a greater extent than usual, and the sacrifice of human life, through casualties by sea and land, is without a parallel. But the pestilence has swept by, and restored salubrity invites the absent to their homes, and the return of business to its ordinary channels. If the earth has rewarded the labor of the husbandman less bountifully than in preceding seasons, it has left him with abundance for domestic wants, and a large surplus for exportation. In the present, therefore, as in the past, we find ample grounds for reverent thankfulness to the God of Grace and Providence, for His protecting care and merciful dealings with us as a people.

Although our attention has been arrested by painful interest in passing events, yet our country feels no more than the slight vibrations of the convulsions which have shaken Europe. As individuals, we cannot repress sympathy with human suffering, nor regret for the causes which produce it.

Our Foreign Policy.

Our present attitude and past course give assurances, which should not be questioned, that our purposes are not aggressive, nor threatening to the safety and welfare of other nations. Our military establishment, in time of peace, is adapted to maintain exterior defences, and to preserve order among the aboriginal tribes within the limits of the Union. Our naval force is intended only for the protection of our citizens abroad, and of our commerce, diffused, as it is, over all the seas of the globe. The government of the United States, being essentially pacific in policy, stands prepared to repel invasion by the voluntary service of a patriotic people, and provides no permanent means of foreign aggression. These considerations should allay all apprehension that we are disposed to encroach on the rights, or endanger the security of other States.

Some European powers have regarded, with disquieting concern, the territorial expansion of the United States. This rapid growth has resulted from the legitimate exercise of sovereign rights, belonging alike to all nations, and by many liberally exercised. Under such circumstances, it could hardly have been expected that those among them, which have, within a comparatively recent period, subdued and absorbed ancient kingdoms, planted their standards on every continent, and now possess, or claim the control of, the islands of every ocean as their appropriate domain, would look with unfriendly sentiments upon the acquisitions of this country, in every instance honorably obtained, or would feel themselves justified in imputing our advancement to a spirit of aggression or to a passion for political predominance.

Commerce.

Our foreign commerce has reached a magnitude and extent nearly equal to that of the first maritime power of the earth, and exceeding that of any other. Over this great interest, in which not only our merchants, but all classes of citizens at least indirectly, are concerned, it is the duty of the executive and legislative branches of the government to exercise a careful supervision, and adopt proper measures for its protection. The policy which I have had in view, in regard to this interest, embraces its future as well as its present security.

The President, looking at the danger of injury to our trade by the European War, desired to establish by treaties with all European powers, the doctrine, that *"free ships make free goods."*

At the commencement of the existing war in Europe, Great Britain and France announced their purpose to observe it for the present; not, however, as a recognized international right, but as a mere concession for the time being.

Russia acted promptly in this matter, and a convention was concluded between that country and the United States, providing for the observance of the principles announced, not only as between themselves, but also as between them and all other nations, which shall enter into stipulations. None of the other powers have as yet taken final action on the subject.

The King of Prussia entirely approves of the project of a treaty to the same effect, submitted to him, but proposes an additional article providing for the renunciation of privateering.

The proposition to enter into engagements to forego resort to privateers, in case this country should be forced into war with a great naval power, is not entitled to more favorable consideration than would be a proposition, to agree not to accept the services of volunteers for operations on land.

Should the leading powers of Europe concur in proposing, as a rule of international law, to exempt private property, upon the ocean, from seizure by public armed cruisers, as well as by privateers, the United States will readily meet them upon that broad ground.

Reciprocity Treaty.

Since the adjournment of Congress, the ratification of the treaty between the United States and Great Britain, relative to coast fisheries, and to reciprocal trade with the British North American provinces, have been exchanged, and some of its anticipated advantages are already enjoyed by us.

Under this head, the President recommends the passage of a bill refunding the duties paid on fish, and other articles imported from the provinces.

Foreign Relations.

In relation to Great Britain, a little boundary question at the Northwest is to be settled, and we are to buy off the Hudson's Bay Company from the Columbia River.

The President thinks it not best to go to war with France, over Mr. Soule's affair, as he deems it about a fair offset for the French consul's trouble at San Francisco.

The position of our affairs with Spain remain as at the close of your last session. Internal agitation, assuming very nearly the character of political revolution, has recently convulsed that country. The late ministers were violently expelled from power, and men of very different views in relation to its internal affairs have succeeded. Since this change there has been no propitious opportunity to resume, and press on, negotiations for the adjustment of serious questions of difficulty between the Spanish government and the United States. There is reason to believe that our minister will find the present government more favorably inclined than the preceding to comply with our just demands, and to make suitable arrangements for restoring harmony, and preserving peace between the two countries.

The President recommends giving notice to Denmark, that we will pay no more Sound tolls, and that we will terminate our treaty with her—to make a better one.

The President makes favorable mention of the treaty with Japan, and wishes to have it ratified; and speaks in a pacific strain of Mexico, Paraguay, &c.,—alluding, however, to some new claims against Mexico, which need to be adjusted.

Greytown.

Central America comes in for a good share of attention, and the Greytown affair is discussed somewhat at large. The President defends the Transit Company throughout, and condemns the Greytowners. He says:

A number of adventurers had taken possession of the old Spanish port at the mouth of the river San Juan, in open defiance of the State or States of Central America, which, upon their becoming independent, had rightfully succeeded to the local sovereignty and jurisdiction of Spain.

These adventurers undertook to change the name of the place from San Juan del Norte, to Greytown, and though at first pretending to act as the subjects of the fictitious sovereign of the Mosquito Indians, they subsequently repudiated the control of any power whatever, assumed to adopt a distinct political organization, and declared themselves an independent sovereign state.

The president considers them as a band of robbers, and says of Mr. Borland,

While parleying with them he was wounded by a missile from the crowd. A boat, despatched from the American steamer "Northern Light" to release him from the perilous situation in which he was understood to be, was fired into by the town guard, and compelled to return.

The president fully sustains Commander Hollins, of the Cyane.

It certainly would have been most satisfactory to me if the objects of the "Cyane's" mission could have been consummated without any act of public force; but the arrogant contumacy of the offenders rendered it impossible to avoid the alternative, either to break up their establishment, or to leave them impressed with the idea that they might persevere with impunity in a career of insolence and plunder.

This transaction has been the subject of complaint on the part of some foreign powers, and has been characterized with more of harshness than of justice. If comparisons were to be instituted, it would not be difficult to present repeated instances in the history of states, standing in the very front of modern civilization, where communities, far less offending and more defenceless than Greytown, have been chastised with much greater severity, and where not cities only have been laid in ruins, but human life has been recklessly sacrificed, and the blood of the innocent made profusely to mingle with that of the guilty.

Treasury.

Revenue, last fiscal year	$73,549,705
Expenditure, do.	$51,018,249
Public debt, and int. paid, do	$4,336,380
Balance in Treasury Jan. 1	$21,942,892
do. at close of year	$20,137,967

Although, in the opinion of the Secretary of the Treasury, the receipts of the current fiscal year are not likely to equal in amount to those of the last, yet they will undoubtedly exceed the amount of expenditures by at least fifteen millions of dollars.

I shall, therefore, continue to direct that the surplus revenue be applied to the reduction of the public debt.

On the 20th of November, 1854, we owed a balance of outstanding debt, of $44,975,456, redeemable at different periods within fourteen years.

There are also remnants of other government stocks, most of which are already due, and on which the interest has ceased, but which have not yet been presented for payment, amounting to two hundred and thirty three thousand one hundred and seventy-nine dollars. This statement exhibits the fact, that the annual income of the government greatly exceeds the amount of its public debt, which latter remains unpaid, only because the time of payment has not yet matured, and it cannot be discharged at once, except at the option of public creditors, who prefer to retain the securities of the United States; and the other fact, not less striking, that the annual revenue from all sources exceeds, by many millions of dollars, the amount needed for a prudent and economical administration of the government.

The president recommends a reduction of the duties on imports; and the passage of a law, obliging officers of the Customs and others, to leave the business books and papers in their offices, when they resign or are relieved, and also making it penal to insert false entries or exhibit false accounts.

Army and Navy.

He recommends an increase of the Army, to keep in order the Indians on our extended frontier; favors a retired list of officers, and an increase of the officers' pay; and suggests some improvements in organization.

He recommends the increase of Navy; the adoption of the apprentice system; and improvements in the order and discipline of seamen, agreeably to a plan by the Secretary of the Navy.

More stringent laws are also recommended, to regulate steam and sailing merchant ships, so as to prevent waste of life.

Post Office.

The expenditure of the year ending June 30, 1854, amounted to $8,710,907. The gross receipts during the same period amounted to $6,955,586; exhibiting an expenditure over income of $1,755,321, and a diminution of deficiency, as compared with the last year, of $361,756. The increase of the revenue of the department, for the year ending June 30, 1854 over the preceding year, was $970,399.

No proportionate increase can be anticipated for the current year, in consequence of the act of Congress of June 23, 1854, providing for increased compensation to all postmasters. From these statements it is apparent that the Post Office Department, instead of defraying its expenses, according to the design at the time of its creation, is now, and under existing laws must continue to be, to no small extent, a charge upon the general treasury. The cost of mail transportation, during the year ending June 30, 1854, exceeds the cost of the preceding year by $495,074.

Public Lands and Railway Grants.

These subjects are discussed with a caution worthy of the magnitude of the interests involved. The president is evidently opposed to grants of land by Congress to aid Railways.

Is it not the better rule to leave all these works to private enterprise regulated, and when expedient aided by the co-operation of States? If constructed by private capital, the stimulant and the check go together, and furnish a salutary restraint against speculative schemes and extravagance. But it is manifest that, with the most effective guards, there is danger of going too fast and too far.

Internal Improvements.

It was my intention to present on this occasion, some suggestions regarding internal improvements by the general government, which want of time at the close of the last session prevented my submitting on the return to the House of Representatives, with objections, of the bill entitled "an act making appropriations for the repair, preservation, and completion of certain public works heretofore commenced under authority of law;" but the space in this communication already occupied with other matter of immediate public exigency constrains me to reserve that subject for a special message, which will be transmitted to the two houses of Congress at an early day.

Judiciary.

The judicial establishment of the United States requires modification, and certain reforms in the manner of conducting the legal business of the government are also much needed; but as I have addressed you upon both of these subjects at length before, I have only to call your attention to the suggestions then made.

District of Columbia.

My former recommendations, in relation to suitable provision for various objects of deep interest to the inhabitants of the District of Columbia, are renewed. Many of these objects partake largely of a national character, and are important, independently of their relation to the prosperity of the only considerable organized community in the Union entirely unrepresented in Congress.

Having thus enumerated the most important items of business, the president sums up the political duties of Congress in the following sentences of glowing and beautiful rhetoric.

We have to maintain inviolate the great doctrine of the inherent right of popular self-government; to reconcile the largest liberty of the individual citizen, with the complete security of the public order; to render cheerful obedience to the laws of the land, to unite in enforcing their execution, and to frown indignantly on all combinations to resist them; to harmonize a sincere and ardent devotion to the institutions of religious faith with the most universal religious toleration; to preserve the rights of all by causing each to respect those of the other; to carry forward every social improvement to the uttermost limit of human perfectibility, by the free action of the mind upon mind, not by the obtrusive intervention of misapplied force; to uphold the integrity and guard the limitations of our organic law; to preserve sacred from all touch of usurpation, as the very palladium of our political salvation, the reserved constitutional powers of the several States and of the people; to cherish with loyal fealty and devoted affection, this Union, as the only sure foundation on which the hopes of civil liberty rest; to administer government with vigilant integrity and rigid economy; to cultivate peace and friendship with foreign nations, and to demand an exact equal justice from all, but to do wrong to none; to eschew intermeddling with the national policy and the domestic repose of other governments, and to repel it from our own; never to shrink from war when the rights and the honor of the country call us to arms, but to cultivate in preference the arts of peace, seek enlargement of the rights of neutrality, and elevate and liberalize the intercourse of nations; and by such just and honorable means, and such only, whilst exalting the condition of the Republic, to assure to it the legitimate influence and the benign authority of a great example among all the powers of Christendom.

A Boston paper says one hundred and fifty paupers left that port for Liverpool, in the ship John Eliot Thayer. They were sent back by order of the courts.

LOCAL.

"Old Folks."—When Gen. Jackson was called "a hero of the Revolution," an old veteran remarked, we had no young boys there. There are some who are looking forward with great interest to the "Old Folks' Concert," soon to come off, and hope that the Old Folks will feel as much jealousy for the credit of their *antiquity* as the old veteran of '76. The age which divides the old and young is between forty and fifty.—*Journal.*

The idea of this sort of entertainment, is not so much to have the old singers exclusively, as the old music. Wherever these concerts have been held, singers of all ages have joined in grand chorus. None but the very oldest living singers, have used the old fugue tunes much—and it would be very difficult to collect a chorus of such in the land. All that can be found in this vicinity, have been and are invited to join in the performances; with as many of their younger friends as the managers have deemed advisable.

Clubbing.—By our advertisement it will be seen that we will furnish the Weekly Chronicle and the American Phrenological Journal, or the Water-Cure Journal, for the year 1855, for only $1.50; or all these for only $2—*in advance.* These Magazines are very valuable to farmers, mechanics, and in fact to everybody—treating of every variety of useful knowledge. And these are very low prices for so much news and good reading matter. Any person procuring us five advance-paying subscribers to the Weekly, will receive a sixth copy gratis.

To New Subscribers.—To all new subscribers who pay us $3 in advance for the Daily Chronicle for the year 1855 — or $1 for the Weekly Chronicle for the same time — we will furnish either paper subscribed for, from this time to January 1st, *free of charge.*

Accident.—We learn that Mr. John Paul, a ship carpenter at the Navy Yard, fell through a lower deck hatchway into the hold, on board the frigate Santee, on Monday, breaking his collar bone, as is supposed.

☞ The Phrenological Lecture which was postponed last evening by the non-arrival of the lecturer on account of a delay of the train, will take place this evening, at the Temple.

Ancient Sacred Music.

The next Rehearsal for the "Old Folks' Concert," will be held at Exchange Hall, No. 4 Exchange Buildings, on SATURDAY Evening, Dec. 9, at 7 o'clock. Per Order.

For any information respecting the Concert, apply at the Chronicle Office.

PILLS THAT ARE PILLS!

PROF. HAYES, State Chemist of Massachusetts, says they are the best of PILLS, and annexed are the men who certify that Doct. Hayes knows, viz:—

Lemuel Shaw, Ch. Justice Supreme Court of Mass.
Emory Washburn, Governor of Mass.
W. C. Plunkett, Lieut. Gov. of Mass.
Edward Everett, Ex-Sec of State and US Senator.
Robert C. Winthrop, Ex-Speaker House Rep. U.S.
Abbot Lawrence, Minister Plenipo. to Gt. Britain.
†John B. Fitzpatrick, Catholic Bishop of Boston.

MEN THAT ARE MEN!

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question, we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

New York, Dec. 3d.—The steamship Black Warrior, with four days later intelligence from Havana arrived this evening. She left Havana on the 28th ult. Among the passengers was Hon. Charles Eames, our Charge d' Affairs at Venezuela. The U. S. steamer Princeton was at Havana when the Black Warrior left. She had been cruising along the Florida reef in search of the U. S. sloop-of-war Albany, and after coaling, was to continue the search on the Mosquito Banks.

A cargo of negroes had been landed from a Spanish vessel on the south side of the Island.

Congress.—On Tuesday, in the Senate, Hon. Lewis Cass, of Michigan, was appointed President *pro. tem.*, Hon. David R. Atchison having resigned. In the House, the Message vetoing the River and Harbor Bill, which was not read last session, a quorum not being present, was read and ordered to be printed. Further consideration of the subject was postponed until Wednesday. A resolution was offered instructing the committee on Ways and Means to bring in a bill for the removal of the duty on foreign coal.

Tragedy.—The Louisville papers of Saturday morning contain a report in regard to a negro who kept a grog shop on a flat boat at Cairo. He, having been sued for $60 and judgment rendered against him, threatened to shoot the magistrate if he refused to let him off, and then armed himself and took a stand in his boat for the purpose of doing so. A great crowd of people surrounded his boat, when the negro fired into them, wounding four persons. The boat was then fired and cut loose, and when out in the river, the negro tied a weight to his neck, jumped overboard and was drowned.

Effects of Hard Times.—The New York Times says:—"We heard yesterday that a large number of workmen had been dismissed from the great manufacturing establishments of the city. One of the principal iron works, near the Dry Dock, discharged five hundred men at once. It formerly employed nearly six hundred. The cause assigned was the scarcity of money, the difficulty of closing contracts, and a general depression in the manufacturing interests. What the men are to do who are now out of employ, cannot be told.

New York, Dec. 3.—Two mesmeric operators, Mr. George McFarland and Dr. Hoffmann, went to a house in Church street last night, and succeeded in putting an inmate named Amanda into a mesmeric state, from which they could not awaken her, and she was not restored to consciousness until after eight hours had elapsed. The operators were in the mean time arrested, but were discharged when consciousness was restored.

Discovery of the Remains of Sir John Franklin by Dr. Kane.—It is reported by way of Lake Superior, that Dr. Kane, of the American Exploring Expedition, has discovered Sir John Franklin and his whole party, frozen to death, but in a good state of preservation.

Rev. H. R. Hitchcock and wife, Rev. George Pierson and wife, and the Rev. Wm. O. Baldwin and wife sailed from Boston Nov. 25th, on the Ocean Pearl, Captain Sears, for Honolulu.

Henry A. Wise, sometimes called Mr. Otherwise, receives a great many hits for his interminable lucubrations against the Know Nothings;—

To use up the Know Nothings a Wise man essayed,
And with oceans of ink, words on paper arrayed;
He figured and wrote till convinced they would fail,
And of Know Nothings proved himself greatest of all!

SAMUEL COOPER,

Late Chief Examiner in the United States Patent Office,

Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. KENRICK, I. DITMAR, J. H. LANE, *Principal Examiners.*
T. R. PEALE, THOS. ELDRIDGE, F. SOUTHGATE SMITH, WM. CRANCH LAMPSON, *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS instead of *twenty*, as paid back by others,) will be retained by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY, *Solicitor of Patents.*

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business at the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most faithful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, *Late Commissioner of Patents.*"

"PATENT OFFICE, ———.

"R. H. EDDY, Esq., Boston, Mass.

"SIR—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK, Commissioner of Patents."

MEXICAN MUSTANG LINIMENT—

Every land has failed with
Xnay this preparation whose
Intrinsic worth has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Stood a red for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the description of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. " W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. T. Parke, M.D., Prof. College of Physicians, Phila. Dr. Del Valle, Prof. of Medicine, Havana. Jose Lourenco de Lux, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different scenes, have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks, and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S

Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIPIENT CANCER; Excessive Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIL, 68 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Morning Chronicle.

THURSDAY, DECEMBER 7, 1854.

THE KNOW NOTHINGS.

THE AMERICAN PARTY is as much anti-catholic as it is native. We have no objections to a man's holding such opinions in religion as seem to him best. He may believe in no pope or a dozen—in one God or a Trinity, and it should not interfere with his political rights; but there is such a thing as churches assuming temporal and spiritual power at the same time—of being a religious organization and a political league, and of caring more to govern men's actions, purses and property, in this world, than to save their souls in the next. Such an association is destructive of rights, and dangerous to the well being of society. There are many reasons for justifying the action against the Roman hierarchy, that would not exist against a simple Catholic church, and which will continue a wide breach between the religionists of this land.

First, our Catholic population are wrong in their acknowledgement of a foreign head—a power out of the country, despotic in its nature, and claiming to direct them infallibly. It is vain to say that they acknowledge him simply as a spiritual head, for every true Romanist desires his temporal, as much as spiritual dominion to extend over the world; and a hundred times have they admitted its extension over their actions. This acknowledgement of a foreign head can never be palatable to republicans; it is anti-American. All other churches have thrown off such vassalage, and it will be demanded of Romanists.

The Americans are right, also, in their complaint against the systematic political action of Romanists. It is not that they act actively as politicians—for that they have a right to do—but that they act as Romanists and not Americans. This does not hold against Protestants, since they act as individuals, and not as drilled soldiers by the order of priests whose sworn duty is to the church in all things—and that a foreign church—and not to the State; and who are moved by a prince claiming infallibility against mountains of error, ignorance, vice and crime, that have accumulated in his own day and the days of his successors. This is a dangerous power that may be used to subvert our liberties it an occasion presents.

Again, the Romish church is objectionable as seeking pecuniary aggrandizement inconsistent with American views. We hold to individual rights and property. The Romish church knows no such things. The priests exk tribute of the people; the bishops claim to have the accumulated property vested in them, and they admit themselves to be the mere agents of the Pope and bound to obey his mandates. This is worse than highway robbery. There it is only "your money or your life;" here it is "your money or torments forever." We have had a remarkable case of this kind lately, that ended in the death of Father Brady, at Hartford.

In this country we want no vested rights of priests and popes in the people's property.—The accumulation of wealth in the hands of any church is an injury to the community, and increases power in persons strong enough from their position. It is robbing God's poor, whether done by the Catholic or Protestant.

Another important objection to the Romish church, is their interference with the education of the country. This should be opposed in any and all sects. Where universal suffrage is had, intelligence is the only safeguard of the people, and that never has or can prevail where education is controlled by the priesthood. It is not for them to say what books shall or shall not be read; and least of all should they be allowed to banish the Bible, taking the ground of Dr. Cahill in England, that he would rather they should read the worst book of immorality than the Protestant Bible. How they have acted in this matter is well known to all.

We repeat that we have no objection to a man's entertaining opinions of religion to suit himself, but no religionists should be countenanced in combining a spiritual and temporal power that will enslave body and mind, violate private rights and endanger public liberty; and unless the church of Rome modifies her policy here, the opposition to her will never be less than to-day.

The acts we have named are not isolated. They are in accordance with the settled policy of her councils, and the decision of the Vatican, that presumes to regulate affairs here as it does in Rome and would, if it had the power, make us the slaves the Italians are. There are many virtues in the Catholic church; it is the old church that preserved the truths, and light of Christianity from the days of Christ, and spread them over the world.—There is much that would bear a favorable comparison with our Protestant sects; but so long has it been sunk into, and associated with arbitrary government, that its policy is at war with democratic ideas, and can never be tolerated, and never should be, in a free country.—*Newburyport Herald.*

SOME LINKS IN THE APOSTOLIC SUCCESSION.—These links are a little rusty, but they will bear rubbing up. We suppose Mother Church don't "know nothing" about them.

John XXII. denied the Immortality of the Soul.

John XXIII., Gregory XII., and Benedict XIII., were all three Popes at once, and were cashiered by the Council of Constance, as illegitimate. The Council of Basil convicted Pope Eugenius of both schism and heresy! Pope Anastasius was excommunicated by the Roman clergy as a heretic. It is a matter of historical record that Pope Sylvester sacrificed to the devil; that Pope Formosus obtained the papal chair by perjury; that *his holiness*, Sergius III., caused another Pope's body to be digged up out of his grave, the head to be cut off and thrown into the Tiber; and that Pope Boniface imprisoned his infallible predecessor, and plucked out his eyes.

THIRD ANNUAL REPORT
of the City Mission of Portsmouth.

It is a matter which calls for gratitude and thankfulness, that the past year has been one of uncommon prosperity, in most departments of business in this city, so that the poorer part of the community, who have had the physical strength and the inclination to earn their bread by the sweat of the brow, have been fully occupied, and have been able to provide comfortably for the support of their families. To the aged, the infirm, the sick, to widows with family cares and duties who have little or no time for work that will yield any income, the past year has been one of uncommon trial. The exorbitant prices for food and fuel have fallen upon such persons with great severity. Those who have squandered their time and wages the past season, have of course been miserably poor, and during the months of coming winter, must be more miserable still. A good deal has been done the past year, to alleviate the suffering, and measures have been pursued which have tended to reduce the number of dependent poor. The board of overseers have been careful and judicious in rendering aid to persons out of the alms house. Many of the vicious poor who have friends in other places, have been furnished with the means of going to their friends, and in this way much expense has been saved to the city, and the community benefitted in other respects. A careful inquiry into the actual condition and circumstances of the vicious poor, has led some others of them also to leave the city.

It is believed that up to the present time there is a less number of dependant poor in the city than there has been for a number of years past, and at the same time there is a less number in the alms house. Street begging has also greatly diminished, and with the cooperation of the community generally, might be almost entirely suppressed.

For the past year, there has probably been not one fifth as many strangers soliciting charity from door to door, and at the shops, as in former years. Two or three years ago, the number of such strangers had become quite a nuisance, and the tax paid out by our citizens in quarters and ninepenny pieces could not have been less than three or four hundred dollars a year. It was a common operation for a beggar to raise in the course of a day, from one to five dollars, and hardly a week passed without a visit from several of them. It is hoped that those who are thus relieved from such unworthy applicants, will see to it that an equal amount of funds shall be so appropriated that they will reach the worthy poor.

Among those who have been aided by the city, out of the alms house, and by the different benevolent societies, a little less than one sixth part are Irish. The proportion of foreigners in the alms house has been about one fifth.

While we can speak encouragingly in regard to the improved condition of the poor, we cannot report so favorably in regard to the morals of the city.

There has doubtless been less intemperance the latter part of this year than the last, and there has been a great improvement in some American families, where intemperance was the cause of poverty. It would seem that intemperance continued to increase upon us till the middle of summer, since which time it has been much less. The returns of our police show the same fact, as intemperance and crime usually go together. Not more than half the number of arrests have been made since July that there were the same amount of time previous. This improvement may be partly owing to the application of the law, but principally, no doubt, to the encouragement to labor that there has been the past year.—There is therefore, probably no permanent improvement, but as the season for active labor passes, intemperance will increase upon us. Our grog shops continue to enjoy unmolested prosperity, destroying the health and happiness of many families, and burrying many of our fellow beings to the grave, who would otherwise have now been useful and active citizens. There are a number of shop keepers in this city, who can boast of dealing out to their customers, not what they call for, nor what they desire, but a spurious article, a poisoned article that has proved fatal to some of our *young* men as well as old, the past year. And as they secure to themselves the property of their victims and then tumble them into their graves, every inducement is held out to entice others, and particularly the young, and they are successful. It is no uncommon thing to see in certain localities in this city, boys in a state of intoxication, and some of these quite young, from ten years old and upwards. It is truly astonishing that any one can so quietly submit to be thus defrauded, thus murdered. Should the same amount of deathly drugs be incorporated into any thing else by dealers, (in our flour for instance) and similar results follow, the dealer would at once be indicted for murder, and these rum dealers themselves would feel a satisfaction in seeing the extreme law executed upon such. We have high minded and honorable men in this city, who are eloquent in contending for the majesty of the law, and argue with great force, that even a bad law must be faithfully executed till we can get it repealed, but in case of intoxicating liquor, how different their position.

There seems to be a mysterious influence about rum, so that it sanctifies every thing that is connected with it. And while these dealers in drugs seem to be destitute of the fear of God and man, the friends of temperance seem to have the fear of both God and man, and so equally proportioned that they neutralize each other. They look upon the evil with regret, but do not give proof of the sincerity of their regrets.

This being the case, where shall we look for a remedy. If no one else will move in this matter, all who are in the habit of using intoxicating liquor should either agree to abandon its use altogether, or insist upon a law that would punish with severity those who defraud them by selling to them a spurious and poisonous article.

There is another vice, which however unpleasant to speak of, demands the serious consideration of this community. I allude to licentiousness. If this vice is not increasing to a very alarming extent, it is at least manifesting itself in a more obtrusive form, and reveals a laxity of morals that should fill every virtuous person with a righteous indignation, developed in a form that would check this most ruinous vice.

There are houses of ill-fame in this city, well known, and a great nuisance to the neighborhoods where they are located; but either from fear of persons who are implicated, or from the uncertainty of the application of law, these neighbors make no formal complaint, and the licentious are left to pursue their course of iniquity unmolested.

The report also alludes to depraved females, some quite young, who promenade the streets both day and evening, to ensnare and entrap the unwary, and are but too successful. The Missionary then says:—

No doubt some of the parents of these girls and boys I have described, have never even suspected that their children have ever been drawn aside from the path of virtue. What shall be done with these depraved females who are corrupting the morals of the young? Shall they be suffered to run about our streets? If they can be reformed, shall not some measures be taken in that direction? If they cannot be reformed, shall they not at least be restrained by the strong arm of the law.

In order to work a thorough reformation, this and other vices must be checked in their incipient state, and parents should know what the first steps in this ruinous course are. To the careful observer they are too plain to be mistaken. First, children acquire a love to be in the street; next they become impatient of moral restraint; they then become truants from school, and spend their evenings upon the street. This introduces them to companions that will lead them further on in their downward course. Then there is the Sabbath strolling, which opens the way to every form of Sabbath desecration, and brings them in contact with the godless part of the community.

I verily believe if parents would do their duty in seeing that their children were kept from idleness upon the street, and would furnish them with employment and amusement at home, that a prolific source of rowdyism and licentiousness would be dried up. And if parents cannot bring their children thus under their control, they must either send their children away from the city, where there is less temptation, or they must make up their minds to experience nothing but anxiety from their children, who would otherwise be a solace and comfort to them. Many such children might be saved from infamy by sending them, when young, to some godd country home.

Even good children may derive great advantage from being sent from home.

Good places have been found for eleven children the past year, not including those who have gone out for wages. Most of them are doing well. Some of them have been visited in their country homes the past summer, and it was truly gratifying to see how much their condition had been improved. Could many of the poor families in this city, who are struggling hard for a subsistence for their numerous family, have witnessed the contrast, they doubtless would be induced to send their children where they would be improved in almost every respect, and be enabled to take a position in society, that they never can it brought up at home.

Letters have been received from persons who have taken charge of she children above mentioned, which show the condition and character of the children, and also show the feeling of those with whom these children live.

The Missionary here read extracts from several letters received from the persons with whom these children live.

One little girl was put to several places, but was not contented. She had a most wretched home; her parents intemperate, and extremely filthy. We at last succeeded in finding a family where she is perfectly satisfied. She cannot be persuaded to go home and see her parents. She is living with excellent people, who treat her as an own child, and have expressed the belief that there are but few girls of her age so capable and so well behaved.—The little girl has urged upon her friends with whom she lives that she might be called by their name.

Pains have been taken in every instance, to inquire into the character of those in whose charge young children have been sent, and we do not know of an instance where those children have been abused.

In endeavoring to secure the various objects of the Mission, the afternoon has been principally devoted to visiting, and the forenoon to business connected with the office. The number of calls at the office for aid in the summer months is limited. They are more numerous in the winter months. Frequent calls through the year are made by those wanting employment. Many families have been supplied with help, with washer-women and with nurses.—Clothing to some extent has been distributed from the office to the necessitous. Bibles and testaments and tracts have been furnished to families and put on board the ships that leave our port.

The number of visits made to families properly under my charge, has been about 1074.—Other visits and calls on business in other families would probably be as many more.

In visiting the poor, pains have been taken to ascertain their real necessities, and these have been supplied to the extent of the means placed at my disposal, which was $130.81.—These funds have of course been altogether inadequate to supply the wants. The deficiency has in a measure been met, by being allowed to send applicants to the Howard Benevolent Society and the Ladies' Humane Society. Many other applicants have been refered to the Overseers of the Poor, who always have promptly attended to cases brought thus to their notice.

The amount of aid to the poor through the Howard Society and the Humane Society, probably amounted to about $450 the past year. The funds of these societies, by their present arrangement, subserve the interests of the Mission as much as though they were placed in the hands of your Missionary. Still a much larger amount of funds might be bestowed to great advantage, and would add much to the comfort of many families.—There are a number of honest poor with large families, who are obliged to keep their children from school and church, for want of suitable clothing. A little assistance to prepare for winter, would be very desirable. There are other families to whom such assistance would be worse than thrown away.

In efforts for the spiritual welfare of the poor, the kindness with which they are met has been very gratifying. And in visiting the sick particularly the hope is entertained that the religious instruction has in some instances been blessed to them. A goodly number of families have been gathered into the churches, and children have been gathered into Sabbath schools.

Unsuccessful efforts have been made to establish and sustain prayer meetings in the out-skirts of the town; only one has been successful, and that has received but little personal aid, owing to other engagements.—Religious services at the Alms House have continued as heretofore.

During the summer of the present year, a religious Society and Church have been organized at the south part of the city enjoy; the stated preaching of the Gospel, and have been increasing in members since the organization. A Sabbath School has also been organized, and between thirty and forty children gathered into it.

Many of the families that worship at the Old South, and most of the Sabbath School scholars, are those who were not in the habit of attending Church and Sabbath School anywhere. The society wish their field to be still regarded as Missionary ground. Their means of supporting the Gospel is limited, and we trust that they will continue to receive liberal aid from our citizens. We think much good has been accomplished there, and much remains to be done.

The evening school, the last year, owing to some unfavorable circumstances, and perhaps owing somewhat to a defect in the system, was not so successful as its friends anticipated; it has been opened this autumn upon a different plan, which promises thus far, better success. The scholars number some hundred and twenty, and most of them are of that class for whom such a school is designed to benefit.

The duties of a city Missionary are so multifarious that a full report would be tedeous to listen to.

Individual cases of poverty and distress might be related which would be interesting, and perhaps expected on an occasion like the present; but such cases are so personal that they can rarely be mentioned without doing an injury to the parties concerned.

Most of the duties connected with the Mission are pleasant, and are generally appreciated by those for whom services are rendered.

Some of the duties are extremely unpleasant and trying, but the consciousness that they *are* duties, and that in the discharge of them, I have the confidence and sympathy of the community generally, makes even the most unpleasant duties tolerable.

Personal favors, as expressions of interest in this work, and confidence in their agent, are most gratifying and encouraging, and they are here most gratefully acknowledged. And in behalf of the poor in the city, I would also sincerely thank all those who have contributed funds towards ameliorating their condition, and trust that these charities will abound more and more, and thus call down upon the giver the blessings of the poor.

FIRE.—The inhabitants of this city were exceedingly loth to turn out at an alarm of fire on Wednesday forenoon—being somehow impressed with the idea that there was no fire at all. It seems, however, that an unoccupied house in Jackson st, owned by the late firm M.&S. Green, was ignited by a hot brick, which was used to thaw out the aqueduct.—The one story addition on the back of the building had a space about a foot in width, opened through its side from the floor to the roof by means of fire and axes. Damage about $100—insured in the N. H. Mutual.

SHIP MIDNIGHT.—By recent news from California, we notice the arrival of this ship at San Francisco, from Boston June 30, and of her sailing from Calcutta Nov. 6. On her outward passage she beat all the ships sailing about the same time;—the Grace Darling 26 days; the Climax, from New York, 26 days; and the John Land, that sailed the day after the Midnight, has not yet arrived.

The ships thus beaten by our unassuming half clipper, are first class clippers, built in the vicinity of Boston. The Midnight was built on this river by Fernald & Petigrew, and sailed hence May 10.

THE LATE STRIKE.

The ship carpenters at work on the Navy Yard, at Kittery, Me., who were notified that their wages were to be reduced 25 cents per day, met pursuant to notice at Hayes's Hall, on Saturday, Dec. 2d, at 10 o'clock, A. M.

The meeting was called to order by John Remick. M. W. Post was chosen President, and J. E. Hammond Secretary.

The following resolutions were unanimously adopted:

Resolved, 1st That we consider the reduction in our pay unjust and uncalled for, and we will not submit to it.

Resolved, 2d That we view with contempt the conduct of those who continued work.

Resolved, 3d We render thanks to the brother mechanics not employed at the Navy Yard, for their sympathy and efficient aid in our behalf.

Voted, To chose a committee to inquire into the expediency of establishing a rate of wages for the future, and report to a subsequent meeting; and Charles Stimpson, Joseph Williams, and Elisha Clough, were chosen.

Voted, To chose a committee to wait on the Naval Constructor and inform him that we would resume work at 1 o'clock P. M., at our former rate of pay, as proposed by him. R. C. Newsom, T. Shapley, and J. Remick, were chosen.

Voted, That the Secretary cause the proceedings of this meeting to be published in the Portsmouth, N. H., papers.

☞ Rev. Mr. Cogshall, of Connecticut, is expected to preach, on the subject of Temperance, in two or three of the pulpits in this city, on the next Sabbath.

MEN THAT ARE MEN!

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

CONGRESS.

TUESDAY, Dec. 5.

House.—Mr. Soller's resolution, offered on Monday, calling upon the President for information concerning the objects of the late conference of American Ministers at Ostend, and whether it was held in pursuance of instructions from the State Department, was taken up. Mr. Sollers said he did not wish to strike a blow at a helpless administration, but he asked for information in order that the public curiosity might be satisfied. He trusted that the Ministers did not meet for the purpose of fillibustering; and if for patriotic principles, let it be shown.

A spirited discussion ensued, and the House refused to send the resolution to the Committee on Foreign Affairs, by a majority of one.

Pending the question of the adaption of the resolution, the House adjourned.

ALLEGED OUTRAGE.—On Sunday afternoon, a savage assault was commited upon Joseph Oldridge, an unoffending citizen living at No 194 East 26th street. Capt. Heart of the 17th Ward police says, in a report made to-day to the chief of police, that "Oldridge was quietly distributing tracts on Tompkins square, (his usual avocation on Sundays) when the congregation of the Roman Catholic church in the vicinity came out. Robert Bernard and others belonging to the above named church, seemed to be possessed of some other spirit than the spirit of christianity, as they emerged from their place of worship and violently attacked Oldridge, knocking the poor man down, and kicking and jumping upon him until he lay bleeding upon the ground and almost lifeless. Policeman White of the 17th Ward came up in time to save Oldridge from further injury by the bloodthirsty crowd that surounded him."

Bernard, after some difficulty, was arrested and taken to the station house. This morning he was taken before Justice Welch, and committed to prison for examination. The injured man was conveyed to his residence, where he lies in a critical conditon. The police are said to be unanimous in pronouncing the Roman Catholics the sole aggressors in this occasion.—*N. The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Phrenological Journals, for $2 per year. The regular subscription price of each of the above mor thlies is $1 per year.

SAMUEL COOPER,

Late Chief Examiner in the United States Patent Office,

Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of this Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS.—The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted to him in case of failure to obtain a patent, and no withdrawal from the application within 15 days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications in the most reasonable terms, but also here avail themselves of the experience of 20 years practice, the extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most faithful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE,
"R. H. EDDY, Esq., Boston, Mass.

"SIR,—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

MEXICAN MUSTANG LINIMENT—

Every land has hailed with
Xtacy this preparation whose
Intrinsic merits have introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cankers, contorted joints,
Ulcerated and swollen limbs that have
Staggered for years under the weight of disease,
Turn by its application to soupleess and health.
A remedy of such general usefulness that can
Release nerves of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.
Let the rheumatic, halt, lame and palsied
Use this wonderful quantifier, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over disease,
No matter of how long standing—sold at
The agents in all parts of the Union.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, Venereal Disease, White Swelling, Rheumatism, Diseases of the Bones and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
I. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Vallo, Prof. of Medicine, Havana.
Jose Eonrenco de Lux, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA."

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person living *somewhat* similar name, well calculated to deceive.

HERTS BROTHERS

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elastic and pleasantness of the quill, with at the same time the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need mending, also to Bank and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public spurious imitations, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' DEPOTS,

DR. J. B. MARCHISI'S Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the URERNE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Morning Chronicle.

FRIDAY, DECEMBER 8, 1854.

For the Chronicle.

GRAIN DISTILLATION.

Messrs. Editors:—When "Woodland" wrote his reply to "N." he probably had not seen the statements of Mr. Magna, Minister of Agriculture in France, nor his remarks to the Emperor on the high price of breadstuffs, notwithstanding the abundant crop raised in the kingdom. These were followed by the subjoined decree, viz.:

Napoleon by the Grace of God, and the national will, Emperor of the French, to all present and to come, greeting.

On the report of our Ministers, Secretary of State for the department of agriculture, commerce and public works, we have decreed, and do decree, as follows:

1 Until it shall be otherwise ordered the distillation of all kinds of breadstuffs is prohibited.

2 Our ministers, secretaries of state for the department of agriculture, commerce and public works, and also the minister of finance, are charged, each as it may concern him, with the execution of the present decree, which shall be published in the Bulletin.

Done at the palace of St. Cloud, the 26th of October, 1854.

The Minister Secrctary of State,
P. MAGNA.

Woodland in his reply to N., says it is in the highest degree ridiculous to petition Congress to use means to prevent grain from being made up into liquors, so that it may be reduced in price, that the poor may not suffer. It seems to me that W. must be either interested in law or lawsuits, or else he must be destitute of any forecast, otherwise he could not ask how N. knows that the prohibition of distilling all kinds of grain throughout the kingdom of France will accomplish a greater amount of good than has been accomplished by the Maine Law.

The French law was enacted to reduce the price of breadstuffs. What has the Maine Law done to bring about this? Not a whit. Never since my recollection has there been such a call for liquors and so large an amount of grain distilled, as at this time, both in America and England.

The French government does away the means of intemperance at one stroke, by a single decree, and without cost or bloodshed; while the Maine Law has not the slightest tendancy to reduce the price of breadstuffs, and besides it creates all the evils spoken of in N.'s previous remarks. The French law, could it be passed by all nations now working up grain into liquors, would in all probability reduce the price of breadstuffs nearly or quite to one half of its present price. But what are the facts? For forty years past distilling grain has never paid such a profit as it pays at this time, in our own country.

What has the Maine Law accomplished towards reducing disillation? Not one jot. What has it accomplished to compare with the act of France in reducing the price of breadstuffs? Nothing; for all the distilleries and breweries are active; and a larger profit is paid at this time than I have ever known paid before.

As it regards the using up grain on the island of Great Britain, there are in the city of London 17 large brewers; one of which uses yearly 1,200,000 bushels of grain; and for this privilege pay $800,000 into the public treasury.

Corn and Grain of all descriptions imported into London and Liverpool

In the year 1853,	*bushels*	76,000,000
In 9 months of 1854, there were imported		
Wheat	*bushels*	33,000,000
Flour equal to	"	10,000,000
Corn & grain of all kinds	"	63,000,000

Therefore, in the year, it would amount to 80,000,000 bushels.

About 16,000,000 bushels of this importation in 9 months, or about 20,000,000 a year, are from the United States.

This is a vast importation. And I do not hesitate to say, that the breweries and distilleries in England, consume twice as much grain annually, as is raised on the island of Great Britain. N.

COURTS OF RECORD.—Judge Curtis of the U. S. Supreme Court, has decided that the Police Court of Lynn is not a court of record within the contemplation of the act of Congress for the naturalization of aliens. This Police Court was organized similar to those in New Hampshire. Therefore the aliens who have made their declarations before our Police Courts have not only lost their money but their time also. We understand that the Police Justice of this city has uniformly declined taking such declarations:

1st, Because he had no common law jurisdiction.

2d, Because no act of the Legislature had declared it to be a court of record; the act of the last session merely authorized him to appoint *himself* clerk.

3d, Because no official seal was prescribed by law, for the use of the Police Court.

But we also understand that the Police Court at Manchester has taken hundreds of declarations.

THE ALBANY.—The sloop-of-war Albany, about whose fate much painful solicited is felt, was one of the six large sloops whose keels were laid in 1843, and which were intended to develop the best models that six naval constructors could produce. She was built at the Brooklyn Navy Yard, and her dimensions were as follows: Length, 148.7 feet; beam 34.4 feet; hold, 17.4 feet; 6 8-inch, 16 32-pr. guns; tonnage 1064. She was launched in 1846, and the following account of her performances at sea since that time, taken from that time, taken from Lieut. Emmons's statistical history of the navy, show her official character:

"Steers and works readily, rolls easily and pitches heavily. 1847.

Steers well, but sails and works badly, and makes a great deal of lee way, on a wind.—Under the most favorable circumstances, never makes more than eight knots per hour.—*Rolls and squats dreadfully*, and requires low sail. 1849.

Lower masts were shortened several feet previous to 1849.

Leys to well rolls deep. 1852."

Captain Samuel L. Breeze, in a letter to Mr. Joseph Francis, published in Francis's testimonials, says: "In consequence of the *leanness* of the Albany aft, she scuds so deep in a heavy sea, or becalmed, that she often dips up her stern boat full of water." A writer in the N. Y. Evening Post remarks that "should it unfortunately prove to be a fact that the Albany has been lost at sea—is it not reasonable to suppose that her extreme leanness, without a corresponding floor, combined with her narrow beam, being 3 3-4 feet less beam than the Portsmouth—though bearing the same armament, has been the cause of her loss?"

MESSRS. COLLINS AND DORIAN.—The N. Y. Times states that the differences between Mr. E. K. Collins, of the Collins line of steamers, and Mr. Dorian, late 3d mate of the Arctic, have been at length mutually explained and satisfactorily adjusted. They were the results of misunderstandings on both sides; and if Mr. Collins's treatment of Mr. Dorian was needlessly abrupt and harsh, it is attributable rather to haste and carelessness than a desire to wound his feelings. Capt. Luce has given Mr. Dorian the certificate of good conduct which he requested, and Mr. Collins acknowledges the manliness of Mr. Dorian's conduct, and the value of his services at the time of the wreck.

Mr. Dorian's offence was, that he indiscreetly let out some unfortunate truths about drinking strong drinks by the crew, after the accident.

NEWBURYPORT MUNICIPAL ELECTION.—On Monday evening it is reported that the Know Nothings of this city made the nomination for Mayor. There were between two and three hundred of them in Washington Hall, and Elder Daniel P. Pike was nominated.—*Herald.*

A capital nomination. When he is elected, won't the reforms be put through?

A call for a "citizens' meeting, without distinction of party, to nominate a candidate for Mayor," is published in the Herald. There's fun ahead, there. We go in for the good Elder.

SOUTHERN FISH FOR THE NORTHERN MARKET.—A letter dated Key West, Nov. 26, says:

Schooner Banner, of Gloucester, Mass., Capt. Griffin, arrived on the 16th inst., from Boston. Capt. Griffin, an experienced mackerel fisherman, will be engaged this season in the fisheries of the Florida coast. He will go on to the Mullett Grounds at Tampa Bay, and there catch his fish, caring in pickle as mackerel are treated. He is fishing for the Boston market. We see no reason why the whole fleet of mackerel vessels should not come out to these waters (which are literally alive with fish) during the winter season, and employ themselves until spring.

PROSPECTS FOR NEW HAMPSHIRE.—The editor of the Patriot speaks thus, of the prospects of the Democratic party in this State:

"Our friends must plainly see that victory is within their power; and if they labor with the same zeal, tact and energy, that have characterized them in past contested elections, they are sure to win a signal victory—one as important in its results as any which has been achieved by them during their long career of triumphant success."

SPRINGFIELD ELECTION.—The municipal election in Springfield, on Monday, resulted in the choise of Eliphalet Trask (Know Nothing) for Mayor—he receiving 871 votes to 467 for E. D. Beach, the Citizens' candidate, and 9 scattering. The same party elected their ticket for Aldermen and other city officers. Mr. Trask is in favor of a rigid enforcement of the liquor law.

LAWRENCE ELECTION.—At the election for municipal officers in Lawrence on Monday, the Know Nothing ticket was triumphant over all others by a majority of 850. A salute of 31 guns was to be fired on the Common last evening and other demonstrations made.

NEW YORK ELECTION.—The official returns have been made at last, and Clark is announced to be 319 votes ahead of Seymour. If defective ballots on both sides were counted Clark's majority would still be 150.

A firm at Albany, N. Y., received from Chicago, Ill., a few days ago, and forwarded, a cargo of "Extra Indiana Mess Beef," weighing 110 tons, consigned to a firm in London, and intended for the Crimea. It was packed at Chicago, and the charges paid on it for transportation to Albany amounted to over one thousand dollars.

A duel in Texas between Col. Woodlief and Achilles Kewen was occasioned by the former calling the latter a "—— Know Nothing." Kewen then assaulted Woodlief, when friends interfered, and the result was a challenge from Woodlief. The duel was fought in the presence of one hundred and fifty people, and Woodlief was killed at the first fire, being shot through the heart. Mrs. Woodlief accompanied her husband to near the scene of contest.

LOCAL.

☞ The Mercantile Association Lecture, on Thursday evening, was by Rev. Prof. Hitchcock of Brunswick, on the Race, or Races of Man. The Lecture was an able argument in favor of the Unity of the Race, and of course opposed to the modern theory of Prof. Agassix and others, who maintain a Diversity amounting to fifteen or even to sixty varieties.

This lecture was evidently an abbreviation of a course, and presented the opposing arguments in a summary and imperfect manner, yet without unfairness. The lecturer sustained the usually received interpretation of the Mosaic account in Genesis, and that given by Paul at Athens; and illustrated his positions with a good variety of well selected examples.

IN BOARD OF ALDERMEN, Thursday Evening Dec. 7th,—The Ladies of the North Church asked for the use of the Jefferson Hall in which to hold a Fair during Christmas week; which was granted. Sundry bills were approved. In executive session the following Watchmen were appointed for the next term:

Ward 1.—David Twombly, Amos H. Twombley, Samuel Sherburne, Ira Emery, Nathaniel Pindar, George Woods, John Shannon, jr.

Ward 2.—Oren Banks, C. A. Hodgdon, Abram Holmes, A. J. Ayers, Oliver Dennett, R. W. Webster, Daniel H. Willey, John Tibbetts.

Ward 3.—John E. Abbott, John J. Nutter, Wm. Jenkins, Geo. J. Smart, Nathaniel Foster, Freeman Peverly, Daniel Walker.

THE OLD FOLKS' CONCERT—The programme will be found in another column. It is a grand one, and the performers will do it justice. As has been customary on such occasions, the Concert will be opened with prayer—and Rev. Israel W. Putnam, D. D., has accepted an invitation to officiate, if his health permits. Rev. Dr. Dwight officiated in Portland.

LECTURE ON MUSIC.—Mr. Moses advertises in this day's Chronicle, a proposal to publish his Lecture on Music and the kindred Arts. This lecture, as we recollect its delivery, was an able performance, containing many valuable suggestions, and exhibiting its author as a true artist, inspired with the enthusiasm which ensures success.

PORTSMOUTH CITY MISSION.—We published in Thursday's Daily, the chief portion of the City Missionary's Report, read at the Stone Church on Sunday evening last. The able and appropriate discourse preached on the occasion by Rev. Mr. Moore, is in course of publication by Wm. B. Lowd, at whose store subscriptions are being received.

PROF. TOWNSEND gave an interesting and amusing lecture at the Temple, on Wednesday evening, introductory to a course on Phrenology and Physiology to be given by him at the same place. As the Temple had been previously engaged Prof. T. is obliged to postpone the remainder of his course until the first part of January. He presents his subject in a very pleasing manner, and we would advise all to go and hear him.

The bonds offered by the Eastern Railroad, a few days since, have all been sold, those not disposed of at the auction, having since been taken at private sale at auction prices. The principal portion has been taken by the largest and shrewdest capitalists of Boston. Among the heaviest purchasers were William Appleton, Phineas Upham, Lee, Higginson, & Co., Stimpson & Co., Samuel Hooper, and John Jewett.

The Springfield Republican says:—"The Frank Granger proposal to re-organize the national Whig party is abandoned. Its friends think the Know Nothing organization will answer the same turn."

EXPLOSION.—A steam boiler in a Machine Shop in Harvard Place, Boston, exploded on Wednesday night, about midnight, damaging the building, but not destroying any lives.

[ADVERTISEMENT.]

THE STRIKE AT THE NAVY YARD.—*Messrs. Editors*: The mechanics at the Navy Yard who remonstrated against having their wages reduced, a few days since, wish to correct a misstatement made in your editorial columns, the next morning after they left work, and repeated by "Trim, Jr." in a letter published in the Saco Democrat. The statement in both instances was that when the afternoon-roll was called, not a man of those branches whose wages were reduced, appeared; but there were a few who did go to work, against the wish of the great majority—and whose conduct in so doing was strongly censured by the meeting afterwards. Their names were Charles Williams, Wm. W. Brooks, Alpheus Brooks and Ira Delano.

The Bells; A Collection of Chimes.
BY T. B. A.
One 12mo volume. Price 75 cents.

We have seen an autograph letter from Prof. Longfellow, in which, speaking of this volume, he says: "I feel the pulse of Poetry beating thro' the book; and there is a young warm heart in it." This is high praise from high authority.—*N. Y. Journal of Commerce.*

His "Chimes" have the ring of the true metal in them, and we find here and there a gem that time and labor could hardly polish or improve.—*N. Y. Evening Mirror.*

Mr. A. has borrowed his inspirations from Hood and Moore, and Longfellow and Tennyson. But his imitations are so excellent that they may almost be said to rival the originals.—*N. Y. Com. Advertiser.*

AYER'S CATHARTIC PILLS.

PILLS THAT ARE PILLS!

PROF. HAYES, State Chemist of Massachusetts, says they are the best of all Pills, and authoxed are the men who certify that Doct. Hayes knows, viz:—

LEMUEL SHAW, Ch. Justice Supreme Court of Mass.
EMORY WASHBURN, Governor of Mass.
W. C. PLUNKETT, Lieut. Gov. of Mass.
EDWARD EVERETT, Ex-Sec. of State and US Senator.
ROBERT C. WINTHROP, Ex-Speaker House Rep. U.S.
ABBOT LAWRENCE, Minister Plenipo. to Gt. Britain.
†JOHN B. FITZPATRICK, Catholic Bishop of Boston.

MEN THAT ARE MEN!

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

CONGRESS.

WEDNESDAY, Dec. 6.

SENATE.—The Ocean Mail Service bill, after some debate, was postponed until Monday next.

The bill to relinquish to Wisconsin certain saline lands was taken up, the House amendments agreed to, and the bill passed.

Adjourned.

HOUSE.—In the House, among other proceedings, the standing committee of last year were continued, the Speaker filling vacancies.

Mr. Chastain of Georgia moved that Mr. Soller's resolution be unanimously laid on the table. Negatived—yeas 72, nays 90.

Mr. Skelton of New Jersey moved a reconsideration of the vote whereby the House refused to send the resolution to the Committee on Foreign Affairs.

Mr. Washburne of Illinois moved to lay Mr. Skelton's resolution on the table. Negatived—89 to 84.

Mr. Skelton's motion was then agreed to—94 to 83.

The resolution was then referred to the Committee on Foreign Affairs—92 to 83.

The House then proceeded to the consideration of the River and Harbor bill, as returned last session with the President's objections.

After some general debate, Mr. Wentworth of Illinois moved the previous question.—Agreed to—82 to 73.

On the question being put, will the House pass the River and Harbor bill—the President's objections to the contrary, notwithstanding—it was decided in the negative—95 to 80—the constitutional majority of two-thirds being required.

Adjourned.

BUSINESS BEFORE CONGRESS.—The Washington Intelligencer enumerates the more important business upon the tables of the two Houses of Congress, left incomplete at the close of the last session. The following are among the bills which have already received the sanction of either one of the Houses, and which will, of course, be amongst the first business now claiming attention:

The homestead bill, which is now before the House with Mr. Hunter's substitute as an amendment.

The Texas debt bill, as passed by the Senate.

The Senate bill to provide payment for French spoliations prior to 1800.

The ocean mail steamers bill, with the amendment of the House directing notice to be given of the termination of the contract.

The bill to establish a mail line to Shanghae by way of the Sandwich Islands.

The bill establishing the Ramsay mail route from New Orleans, by way of Vera Cruz, to Acapulco.

The bill to establish a subterranean line of telegraph to the Pacific.

The bill to provide a weekly mail to California.

The bill to increase the rates of postage, and require prepayment of letters.

The Senate bill to provide for half pay to revolutionary officers or their legal representatives.

The bill to extend the benefits of the bounty land system to the officers and soldiers, seamen, &c., of the war of 1812.

Various bills granting lands for the construction of railroads; and

Mr. Bennett's land bill, granting lands equally of the several States, to aid the construction of railroads, and for the support of schools.

WASHINGTON, Dec. 6.—The Caucus at which Mr. Bright was nominated for the Presidency of the Senate was not harmonious, Mr. Butler considering that Mr. Atchison presided *pro tem*, and that this was the opening question between the North and South.

The caucus came near breaking up in a row before a selection was made. But for the firmness and persuasion of the northern senators, the most unpleasant results to the business of the Senate then in session would have taken place. Much bitterness is still manifested by some of the southern Senators that Mr Bright should have been elected without limitation of time.

THE WALKER PACIFIC RAILROAD.—Senator Rusk, of Texas, sustains Gen. Pease in his refusal to receive Messrs. Walker and King's "securities" for the construction of the Pacific Railroad.

Patents.

AMERICAN AND FOREIGN OFFICE.

Agency for business with U S Patent Office, Washington,

76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

DR. CARL V. MEYER'S
GERMAN
HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thorough scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. The medical properties of these waters are particularly effective in eradicating from the system every species of Humor—particularly of a scrofulous nature—and for that reason have become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owning to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,
SUCH AS
Scrofula, White Swellings, Scorbutic Eruptions, Ulcers, Erysipelas,
Paralytic and Nervous Affections,
CANKER,
AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,
AND ALL
RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS,
COUGHS,
SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief.—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully AS AN ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE
SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metallic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during the time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 58 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

. . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

For the Chronicle.

WANTED,

Seventy-five able bodied men, to tread out sheep-paths on the city side-walks and crossings, after every snow storm during the winter. None need apply whose boots are not twelve by four and a half inches. All paths must be at least *nine* inches wide, so that one person at least may creep along without falling more than once in every twelve steps.

The city will guarantee the safety of all heads and legs at this literal squatting of the snow. A *fine* will be imposed upon those who shovel a path more than a foot wide, fronting their dwellings—and in no case must a neighbor push off one pound of snow or ice more than falls on his own immediate premises.—No ashes, saw-dust or sand must be thrown upon slippery places. The music of broken craniums sounds best on clean pure ice. Public benefactors will not be encouraged. For further information, apply to

JOE HAILSTONE.

Snow Bank Town, Dec. 8.

WHAT BECOMES OF THE SPECIE? This is a question asked by almost everybody, and has become a newspaper them. The answer is, that it has gone to the "seat of war," where the belligerents are killing each other by the thousand, to "spread christianity" among the benighted! This state of things is likely to continue for some time to come, the pride of Kings and emperors being involved in the controversy.—*National Intelligencer.*

The above touches the secret of the "hard times," about which everybody is groaning. Our financial philosophers who asserted the fallacy that a state of war in Europe would be a commercial benefit to this country, begin to find out that a state of peace is far more conducive to all sorts of prosperity the world ever. England and France are not only drenching the plains of the East with blood but they are sowing them with gold. The scene of battle is always the scene of extortion and every serf who has a bullock or a loaf of bread to sell in the Crimea, is bagging the mint drawn from Western Europe and the United States. In the meantime, both England and France are producing *less* and consuming *more* than in a state of peace; and, instead of selling goods abroad, are selling largely to their own governments. In other words are selling to *themselves*—a rather profitless operation.—*N. Y. Mirror.*

THE MORMON VOTE, MICHIGAN.—Strang, the leader of the Mormons who occupy Beaver Island, has been elected to the Micigan Legislature by the votes of his people. He has also returned 605 majority for Bingham, the Fusion candidate for Governor, while the entire Mormon vote has been cast for all the other Democratic candidates, among them being Peck, Nebraska Democrat, for Congress, for whom he has returned 695 votes. There are but 240 houses on the island, in which it would be impossible to crowd all the population answering to such a vote, and it is believed that Strang, having everything his own way, has returned 450 illegal votes. He had a personal grudge against Barry, the Democratic candidate for Governor, and hence he returns but 45 votes for him. The Detroit Tribune says that it is more than suspected that there was no election at all on Beaver Island, and Strang went through the farce by himself.

DEATH BY RUM.—We are informed, that a man by the name of Enos Prescot, living in the outskirts of Pembroke, was found dead in his house a few days since, with a jug of rum by his side. He had been to Manchester, obtained 12 gallons of liquor—four for himself and four each for two others. He drove his wife from the house and died of delirium tremens. O how long shall such a state of things exist? When will the people of New Hampshire learn wisdom?—*Phœnix.*

POISONING BY VISITING CARDS.—In a recent journal we have observed reports of four cases of poisoning in children, by the introduction of visiting cards into the mouth. They all recovered, though the symptoms were of an alarming character. It should be generally known, that in the manufacture of cards—in the ennamelling and coloring—which are capable of producing very serious sickness and even death. Children should not be allowed to play with them.—*Newark Advertiser.*

Nearly all the population of the globe indulge in narcotics and poisons of some kind. Tobacco is used among at least three quarters of all the race of man, and the annual consumption is said to reach 4,480,000,000 pounds. Opium is used among 400,000,000 people. Hemp, which is very common in the East, by 250,000 men; Betel-nut, among 100,000,000 men; and Coccoa among 100,000,000. The total value of these articles is estimated at three hundred million dollars a year.—*Newburyport Herald.*

AMERICAN AND FOREIGN OFFICE.

Agency for business with US Patent Office, Washington,

76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal brought him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished, consisting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"R. H. Eddy, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

MEXICAN MUSTANG LINIMENT—

Every land has hailed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism, Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the URRINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S URRINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Patents.

AMERICAN AND FOREIGN OFFICE.

Agency for business with US Patent Office, Washington,

76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———.

"R. H. Eddy, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Morning Chronicle.

MONDAY, DECEMBER 11, 1854.

SLAVERY IN KANSAS.

The most reliable information received from Kansas is to the effect that a considerable majority of the people are opposed to the legalization of slavery there, and Whitfield's election, as we look at the circumstances, is not inconsistent with that proposition.—*Buffalo Commercial Advertiser.*

The Advertiser couples the above with the remark that Whitfield is "in favor of leaving the people to say whether or not slavery shall be permitted in the territory." It forgets to add that he is also in favor of *permitting* slavery in the territory; that he was supported by the Kansas Pioneer explicitly upon that ground, and that his Committee, in their Address before the election, appealed in his behalf expressly to the pro-slavery population. We admit, with the Advertiser, that "the influence of a delegate in Congress is of little account," but small as it is, David Atchison and his gang of perambulatory voters, determined to have it on the side of slavery. At the risk of being thought very fanatical by newspapers of the new National Know Nothing kidney, we must say that there is great danger that slavery will be legalized in Kansas, and the danger is the greater because sundry dough-faced journals at the North are studiously misrepresenting the real condition of affairs in the territory.—*Boston Atlas.*

We add the following from the St. Louis Republican, of Dec. 3d:

"Whitfield (pro slavery) is elected by an overwhelming majority over Mr. Flenniken, ex-Minister to Denmark, and the Abolition candidate for Congress in Kansas. Whitfield was elected, whatever others may say to the contrary, on the slavery question and no other."

FOUR DAYS LATER FROM EUROPE.

ARRIVAL OF THE UNION.

New York, Dec. 9.—The steamship Union, from Havre, via Southampton, Nov. 22, arrived this morning.

The Cunard line of steamers between Liverpool and New York has been withdrawn for Government service, and the Liverpool and Boston line only will run during the winter. The Collins steamers will leave Liverpool hereafter on Saturdays.

THE WAR.—Sebastopol had not been taken up to the 14th ult. The siege and bombardment continued. The assault had been postponed for the arrival of reinforcements, which were coming in rapidly. The details of the battle on the 5th of Nov. shows four English Generals killed and four wounded; 38 officers killed and 96 wounded; 442 privates killed, 1900 wounded and missing. The Duke of Cambridge was wounded. The French loss was smaller.

Lord Raglan has been created a field marshall. It is stated that Prince Gortschakoff had intimated to the Austrian cabinet that Russia is prepared to negotiate peace on the basis of the four guaranteed conditions.

The despatch of troops for the reinforcement of the allies on the Crimea continues without intermission. Every available steamship has been taken up by the government for that purpose.

The alarm in England relative to the position of the allied armies in the Crimea seemed to be subsiding, and the reinforcements which were constantly joining were deemed sufficiently strong to carry out the objects of the campaign successfully. A winter campaign in the Crimea will evidently take place, and wooden barracks for 20,000 men had been shipped by the British Government.

The allies had been obliged to form counter mines, the Russians having constructed mines commanding some of their works. The mines of the town had been strongly barricaded.—Russian accounts state that 15,000 men of the garrison of Kichenoff had been marched to Odessa, and Prince Paskiewitch had ordered another corps of 20,000 men to the Crimea.

Consols closed on the 21st at 91 3-4. Cotton declined 1-8 d. Flour and wheat unchanged. Corn 1 s lower. Market dull.

FROM CALIFORNIA.

SEVEN DAYS LATER, BY THE NORTH STAR.

Steamship North Star arrived at New York from Aspinwall, on Saturday noon, bringing 309 passengers and $1,384,000 in specie; she brings California dates to the 16th ult.

The Panama Railroad is progressing finely.

The Golden Gate arrived at San Francisco on the morning of the 30th Oct, in 23 days and 10 hours from New York—the quickest time on record.

The English and French squadrons still remain at anchor in San Francisco harbor.

The news from the mines is cheering, and most who labor are doing well.

The people of Carson's valley, numbering about 800, have sent a delegate to the California legislature, to apply for liberty to be set off from Utah and be added to California, if Congress should agree.

Emigrants are arriving almost daily from the plains, and report great hardships and some losses of their stock on the route.

BLACKWOOD'S MAGAZINE, for November, 1854, contains an interesting article on Turkey and its Population; an amusing paper on Civilization; and also—The Secret Agent—Color in Nature and Art—Latin Versification—The Influence of Gold upon the Commercial and Social Condition of the World—Peace and War—The War and the Ministry.

Leonard Scott & Co., New York, are the publishers.

HUNT'S MERCHANT'S MAGAZINE, for December, 1854, contains the seven following articles, viz: Commerce of the United States—A Statistical View of the State of Illinois, No. 1—Progress of Population in the United States, No. 1—The Profits and Wastes of Agriculture—Commerce of the China—The Usury Laws—The Cotton Trade.

Besides these, there is a large body of useful and curious information, statistics, tables, &c.

For the Chronicle.

PORTSMOUTH AND CONCORD R. R.

Mr. Editor,—Permit me through the medium of your paper, to address a few remarks to the Stockholders of the P. & C. Railroad. In consequence of the storm, the few individuals present on the 4th, decided to adjourn the meeting to the third Monday of December; as appears, by a notice in your paper. This meeting will not be considered, of course, by the directors, as legal; because the By-laws of the corporation, as they now stand, do not authorise it. But this is of no consequence. It is not our purpose to violate the constitution of the company; but, by the prescribed legal course, so to amend it, that twenty-three stockholders, at least—the number by which this meeting was called—should have the power to call special meetings at any time, with or without the authority of the directors. It is not the object of this meeting to censure and condemn the directors unjustly; although we might have very serious objections to urge against their policy and management, in some particulars; such, for instance, as regards the appropriation of the present revenue of the road, in the payment of debts; and, also, the expenses. We want a just rule adopted, in the payment of debts, and the strictest economy in expenditures. What are the facts in reference to these two points? Have they not paid some debts which might have been left outstanding without inconvenience, and neglected others, against the most urgent necessity of the creditor? Should they have considered the claim of a creditor, who has loaned the company credit, only by a promise to pay, before one, who has actually paid the cash? Should the debts due themselves take precedence of all others? Why pay to one man, the principal, and refuse to pay another the interest of his debts. Should not the interest on all debts of equal claim, be first paid, and the principal gradually extinguished by a fund reserved for this purpose. By this policy, a dividend might soon be paid on the preferred stock, and the interest on the bonds. And how is it, as to expenses; cannot retrenchment be made here? Any extravagance on this head must be particularly offensive to stockholders, who have received nothing in the form of dividends. These are matters which the company should consider without delay; and also, whether some change in the board of Directors might not be made at the proper time—for they have sustained a very heavy pressure of duties, and no doubt some of them would like to retire from office. The design of the original projectors, in forming this company, was to accommodate the public by opening railroad communication along the *shortest* line between Portsmouth and Concord; and furnish to individuals a safe and profitable investment for their capital. No doubt, greater temporary advantage might have been realized by a different location of the road; either farther north or south; but then, the road could never have been capable of that oceanic and inland flow of trade, which it is now fitted to sustain. Let it be extended to the wharves, with a branch to Manchester, and if the enterprise be not crowned with the most complete success; then we are willing to be classed among visionary projectors. And yet, but for what has often been termed the visionary calculations of mere theory, the New York Canal, that sublime conception of genius, would never have seen the light; the line which marks the P. & C. Railroad, had never been explored; the dense forests and peaceful towns through which it passes, would not have been disturbed by the wild neighing of the iron horse; and the tenants of Rattlesnake Hill would have lived forever in primeval solitude and quiet.

RICHARD PICKERING.

NEGRO MINSTRELSY.—The New York Musical Review rejoices very loudly and very long, that "Negro Minstrelsy is dead." It says this sort of music commenced about thirty years ago, in very low places of amusement; and has been taken up by more respectable people, with more and more refined music and sentiment—till the love for the real African burlesque singing and accompaniments is gone—improved into a higher and better taste. The Review says that the fact that all the troupes who continue to blacken their faces, have introduced instead of their "negro melodies," burlesque operas, travesties upon spirit-knocking, &c., indicate that their chief reliance is upon good music and scenic and dramatic effect. The music they sing is Italian, German, English or American—not negro.

The New Second Advent Church, on the corner of Hudson and Kneeland streets, Boston, was dedicated on Wednesday afternoon. The sermon was by Rev. Joshua V. Himes, the Pastor, from 2d book of Chronicles, 6th chapter and 18th verse.

SINGULAR VOCAL ABILITY.—In one of her 'Suburban Letters' to the Worcester Palladium, Stella says:

There is in the State of Vermont, a lady noted for her musical abilities, which are often displayed for the gratification of the people of Windsor and the surrounding places. This lady has two distinct throats; and, it is supposed, two pairs of lungs. She is broad-chested, but quite slender around the waist, and says she can sing three hours with more ease than she can talk with a friend for one hour, and have that friend do two thirds of the talking. At the age of twelve years she could sing two distinct parts at once, but has since, from want of cultivation or some other cause, lost that power. These facts of the case may be relied upon as strictly true; and they furnish a remarkable field of investigation for the physiologist, and of wonderment for those who are interested in the freaks of nature, of which this may be considered one of the most curious.

It sounds, to our left ear, very much like a tough story. A lady with two throats, who could sing two parts at once, would be a fortune to Barnum and herself.

LOCAL.

CITY GOVERNMENT.

We understand Mr. Andrew J. Beck, Ex-City Marshal, has petitioned to the Superior Court of Judicature to be holden at Concord the 12th inst., for a writ of Mandamus, whereby he may obtain certain articles of city property which he voluntarily surrendered up to Oliver Hanscom, the present City Marshal. Enough "points of law" are raised in this case to require the serious consideration of the Court for a long period—provided they do not immediately decide the Ex-Marshal's official term expired on "the last day of March" last past, and hence that the Ex-Marshal is not now in such an official capacity as to enable him to petition said writ. The action is instituted by *that part* of the Board of Aldermen who *neglected and refused* to go into Convention in June last for the purpose of the election of city officers, after such Convention had been voted by both Boards. As we view it, this portion in this refusal neglected and refused to do their *duty*, and now seek to take advantage of their own wrong doing.

In this case, Wells and Bacon are engaged for the Petitioner, Hatch and I. B. Claggett, city Solicitor, for the Respondent; and the citizens of Portsmouth are to be blessed with a lawsuit, and to be taxed to pay the damages and costs on both sides.

POWER LOOM HOSE.

We have before us two pair of yarn hose, one of which is wove on a hand loom, and the other on a new power loom devised by Mr. John Pepper, late of this city, now employed at Franklin in the manufacture of hosiery and in perfecting or improving machinery for the same.

We are told that hand loom hose cost 50 cents per dozen for the weaving, while those by the power loom cost 10 cents only.

This, if other things are equal, is an important saving, and deserves the attention of manufacturers.

THE OLD FOLKS' CONCERT.

"—— Shouldered his crutch
And showed how fields were won."

The old veteran whom the poet had in view had lively reminiscenses,—but the marshalling again of the heroes of the old choirs brings back recollections of the past as stirring, although of a different nature.

The "Old Folks' Concert," to be given at the Temple next Wednesday evening, is a novelty which more will desire to witness and hear than can probably find admission. Who that can look back into our Portsmouth choirs as they were forty years ago, when, with the exception of the excellent instrument at the episcopal church, there was no organ to aid any choir—when for the deep base the most rotund in the choir was selected, and the notes were rolled out in sub base tones when needed in harmony with the bassoon. There were singers then, and we believe some of them are alive now, and if not required to "shoulder the crutch," they will do better by taking their "harps from the willows," and sounding again in that harmony which was the joy of their earlier days. We understand that a large number have been engaged in rehearsal, and that many from abroad are expected to be present to take part at the Concert. Rev. Dr. Putnam of Middleborough, formerly of this city, is expected, in an appropriate manner, to open the services of the occasion. Go early, if you wish to secure seats.—*Journal.*

This will be an original musical entertainment, which cannot fail to attract a great many people. The music sung will be confined to the old cast-aside tunes of half a century ago, and the choir composed largely of the old folks, gathered from far and near, who used to raise their voices in harmony and praise upon the same programme that is presented for this concert. "Young America" will be suitably interspersed among the choir to give a pleasing effect, and the old instruments will be introduced by the old musicians. As has been customary on such occasions, the Concert will be opened with prayer. —*Gazette.*

Just look at the advertisement of "The Old Folks' Concert." Won't it be a treat?—*Messenger.*

TEMPERANCE CONVENTION.—The Rockingham County Temperance Convention will meet at the Temple in this city, this morning at 10 o'clock, and is expected to continue in session two days. It is expected that good delegations will be present from other towns; and the people of this city are all invited to attend.

COURTS IN DECEMBER.

Dec. 12, Superior Court, Concord.
Dec. 13, Probate Court, Exeter.
Dec. 19, U. S. District Court, Exeter.

LAUNCH AT NEWBURYPORT.—A beautiful ship of 1000 tons was launched yesterday from the yard of Mr. John Currier, of Newburyport. She is called the "Moses Davenport," named in honor of the present Mayor of Newburyport. She is owned by Wm. Lambert, Esq., of Portsmouth, and others.

CHARLESTOWN.—The Know Nothings of Charlestown have nominated Kendall Bailey, Esq., now an Alderman, as their candidate for Mayor. Mr. Bailey, besides receiving the Know Nothing vote, will probably receive the support of the temperance men and the anti-annexationists, as he is opposed to a union of Charlestown with Boston, and in favor of the Maine Law.

Some hogs in Kenosha, Wis., lately eat up a man who was lying dead drunk in the road.

THE FROST KING.—The Hudson river is closed against navigation for full thirty-five miles below Albany. The navigation of the Connecticut is also closed,—so is the Saco River.

The Bangor Democrat of the 8th, says the ice in the river went out again yesterday morning. The tow boats took out two vessels, leaving but one in the harbor which winters over.

THE HOMESTEAD BILL.—According to the correspondent of the Philadelphia Ledger, Hon. John L. Dawson, of Pennsylvania, standing up manfully to his solemn promise to report the Homestead Bill, from the Senate, with his amendments, has obtained the floor of the House, reported the bill, (which has been entirely remodelled, and is in fact his own,) and has been ordered to be printed. This, certainly, looks like business.

A REVOLUTIONARY SOLDIER DECEASED. Died, in Yarmouth, N. S., on the 29th October last, Mr. Robert Robertson, aged 104 years and 5 months. He was a soldier under General Burgoyne in the American Revolutionary war, and has resided in Yarmouth since the close of the war. He carried with him to his grave scars on his head, breast, and hands, from sword wounds received in different battles, and also a musket ball in his leg. He leaves three surviving sons and a daughter.

NEW YORK, Dec. 8.—James Conklin, formerly of New York, who was sentenced last August to two years imprisonment in the State Prison, for attempting to obtain money by fraudulent pension claims, has been pardoned by President Pierce.

Mechanics Discharged.—Between two and three hundred mechanics have been discharged from the Navy Yard at Brooklyn, during the present week, and many more will be discharged on Saturday.

The Great Republic.—The Secretary of the Navy has permitted the ship Great Republic to be taken into the U. S. dry dock, and she will be floated into it to-morrow.

Naval.—The frigate Sabine will be launched on the 19th inst.

The repairs of the frigate Congress have been completed, and she will be ready for sea this month.

Swindling Law.—An application will be made to the Legislature of New York, for a law to punish persons for the over-issue of stocks, and for banking frauds, as criminals.

SPRINGFIELD, Dec. 7.—The boiler in the establishment of the Ames Manufacturing Company at Chicopee, exploded this morning, instantly killing the engineer, A. R. Hoyt, and breaking the legs, and otherwise injuring a machinist named Lummis, who is not expected to recover. The small brick building containing the boiler was completely demolished, and the portions of the boiler were projected through the wall of the adjoining brick building used as the machine shop. The cause of explosion was a lack of water in the boiler.

BALTIMORE, Dec. 6.—A prominent house carpenter, who has just erected a large female seminary building, has been discovered to have perpetrated forgeries to the amount of $60,000. The seminary has been seized under the lien law, but no names are given.

The Ashland Cotton Factory at Gunpowder Falls, Baltimore County, was destroyed by fire this morning. Loss $50,000; fully covered by insurance.

NEW ORLEANS, Dec. 7.—FAILURES.—The following firms have suspended payment:—Messrs. McRae, Hoffman & Co.; Smith, Johnson & Scott; James H. Mulford; Bullett, Millet, Miller & Co., and Armstrong, Harris & Co.

STEAMER BURNED.—The steamer Gipsey was destroyed by fire at the mouth of New River, this morning. Dr. Hackers, of Plaquemine, his son and daughter, and several other persons, perished in the flames.

Dec. 8.—BROKER ARRESTED.—James M. Lee, money-broker in this city, was arrested to-day, for having fraudulently overdrawn his account at the Canal Bank, by $30,000.

THE LATE SNOW STORM.—The New York Journal of Commerce says, the delay in the trains west of Syracuse, occasioned by the snow storm of last Sunday, kept back upwards of a million of money, which should have been delivered in Wall street Wednesday morning.

ALBANY, Dec. 8—COLD WEATHER.—Several people crossed the Hudson River on the ice today, and the thermometer stood at 10 deg above zero.

At Sharon Springs, this morning the thermometer stood at zero.

WASHINGTON, Dec. 8.—RECESS OF CONGRESS.—Everything is quiet here, and a number of Members of Congress improved the opportunity of the recess to visit home.

GEORGE BEACH, Esq., of Hartford, Conn., has erected in that city a large brick building which is called the "Home for Widows." This is a living charity.

Thomas M. Yates, one of the jurors who granted a verdict of "not guilty," in the Ward case, is now on trial before the Hardin county circuit court, at Elizabethtown, Ky., for perjury.

Fifty three slaves, freed by the will of the late Dr. Charles Everett, of Virginia, have left Petersburg, Va., for Pennsylvania, where they are to be located with an outfit valued at $1500 for each.

The following is cut from an Ohio paper: "Notis is hear By Given that now pursen is pur Mitted to take Ene Nuts of Enc kind out of Mi Woods My hogs Must Live Look oute."

Louis Lewisson, of Providence, gave to the poor on Thanksgiving day, who came to him in consequence of his proclamation, about 1000 loaves of bread and 2000 pounds of meat of various kinds. Far better are the blessings of the poor than the flatteries of the rich.

Judge McLean of the U. S. Court, recently stated, in giving his judgment in a maritime case, that "Rum has sunk more seamen than all the tempests that ever blew."

CONSECRATION.—On Tuesday morning, Dec. 6, in Grace Church, Providence, the Rev. Thomas March Clark, D. D., was consecrated Bishop of Rhode Island.

BALTIMORE, Dec. 7.—We have no mail beyond Washington. The navigation on the Chesapeake and Ohio closed by ice for the season.

CINCINNATI, Dec. 7. The river is low and the weathe very cold. Hogs declined to 4.50. Exceange dull.

Daguerreotypes.

EVERY body and their friends are now having their Pictures at

Boutelle's Saloon on Hanover street,

And that all may have a chance, he will stop a short time longer. To parents he would say—bring in their little ones and get a type of them that shall show in after years the tiny features of their infant days; and to the beaux and sweet hearts who have exchanged many a token and merry glance—come now and exchange faces and have something to wink at when alone. A fine assortment of CASES and LOCKETS, all of which will be sold cheap. o16

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

DR. CARL V. MEYER'S

GERMAN

HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thoro' scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to the rocks, some are chiseled fairly on the rocks, some are painted on wood, and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. All medical properties of these waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owing to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,

SUCH AS

Scrofula, White Swellings, Scorbutic Eruptions, Ulcers, Erysipelas,

Paralytic and Nervous Affections,
CANKER,
AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,

AND ALL

RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS,
COUGHS,
SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE
SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

Extensively used, tested and approved in New England, Canada, and the British Provinces during a period of THIRTY YEARS by *Eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men,*—and, in fact by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. Dr LYMAN BEECHER, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. LEONARD WOODS, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. DANIEL P. THOMPSON, Secretary of State of Vermont.—N. F. WILLIAMS, Esq., formerly Collector of the Port of Baltimore, Md.—Rev. JOSIAH LITCH, Philadelphia,—and many others.

HOW ESTEEMED BY PHYSICIANS.—JOHN A. BERRY, M. D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that YOUR VEGETABLE PULMONARY BALSAM is best, and I hope will be better known and more generally used."

☞ *Beware of Counterfeits and Imitations!!*

HERTS BROTHERS

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinnest paper, and are warranted anti-corrosive.

EXTRACT.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S

Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIL, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

. . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more ability, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

Morning Chronicle.

TUESDAY, DECEMBER 12, 1854.

For the Chronicle.

ENVIRONS OF DOWNINGVILLE, DOWN EAST, MAINE STATE OF THE UNION, 25th day of November, A. D., 1854.

Dear Uncle Toby:—Unto thee I send Greeting.—Now and then I am, all at once, taken with an all-overness to write, ad libitum, to old friends and cronies, not forgetting to remember your very respected self. Occasionally, when thus the spirit moves me, the recipients of these missives of mine have, without my advice or consent, taken the responsibility to Chronicle and otherwise publish these affectionate epistles. I recollect that once 'pon a time I had occasion to have a little private correspondence with you; and as true as Gen. Jackson affirmed "By the Eternal!" *somebody* got the letter and sent it forth to the four winds of heaven, via your newspaper—how many other ways deponent saith not. Well, that's not the first time that I have been anonymously exposed. I don't like to be too personal in my inferences or insinuations, but as you or somebody else, have already played that trick on me in the aforesaid paper, to your certain knowledge, I now give you and your "printer's devil" the largest liberty to dispose of this as seemeth unto you good.

Now as to my "whereabouts," the above heading plainly showeth: as to what I'm about is evident from this present writing; what I've been at, and what I'm going at; not one in ten thousand, if any of the Know Nothings know, and would'nt if I belonged to their lodge. But I don't, and don't mean to. Not but that their professed object is all well enough; but as some body said of his mother's cleverness, they have got a queer way of showing it, that—I don't believe in.

Perhaps, by this time, you expect some news from this squatter sovereignty. The telegraphic wires pass through here, to be sure; but as they have no way station in this immediate diggin', they afford but little service in the way of "logging" or "driving."

As to the geography of this place, it is bounded on all points of the compass by the adjoining towns and plantations. The native products are principally an occasional granite boulder, lumber, wood, 'smugglers,' and some garden sance. The scenery is all perfectly natural, consisting of green and burnt lands, hills, dales, swamps, bogs, rocks, stumps, pond and *Swine* Bay.

"Above, below, where'er you gaze,"
all are sixes and sevens.

The swinish cognomen of the aforesaid Bay, reminds us of the striking resemblance there is between the public thoroughfares—vulgarly called roads—in this corporation, and the streets of New York city. There, as you are aware, little pigs and big are the street scavengers—and their number is legion. Here they vie in numbers with their kind in the Empire city pro rata to the demand for their multiplication, and the consequent aid and comfort they afford to the pork market.

As to the dear people, natives and naturalized, they look out of their eyes, with one or two unfortunately blind exceptions—are generally peaceable, mind their own business sort o'folks; industrious and sober: though with some of them, as with some others in creation, a little rum is not considered objectionable; and now and then you'll run across of some old stagers, and some younger ones, who like and take a good deal when they can get it.

Politically, religiously and socially, they are of various shades, from the straight forward, sober first and second *thoughters*, to the "don't know" non committalist: thence on, on to the most inveterate "wild cat," and morally, it is, with an elect few, considered no wrong whatever, to steal stumpage, provided they do not get found out! Then they consider themselves under the ban of an almost nopardonable sin. Still, there is a sufficient sprinkling, I hope, of "the salt of the earth" herein, to save the place from going "down below."

I should have said before that venison, alias deer meat, as well as pork, abounds here: and occasionally a moose becomes the hunter's victim. Buck and Moose victuals, with the requisite "fixings," are by no means bad to take even as a medicine; and are palatable as Preston's Catholicon, which, by the way, is said to be an excellent digester. Lest, however, you should doubt the superior virtues of Deer meat, I intend, ere long, to lay the temptation before you; and if you can withstand the temptation of discussing its merits, you are more of a Grahamite than a good Christian ought to be—my word for it.

But this gunning business often makes sad havoc with human as well as brute life. Last week, a few miles from here, one hunter shot another: the former seeing the latter sitting down with his dog, at a distance, mistaking the man and dog for a Buck, took deliberate aim, and shot his friend. The ball entering his back, passed through one lung and thence out through his breast bone. His recovery is considered very doubtful.

I have long been a gun and gunpowder hater, and the reading of sporting disasters in almost every week's papers, makes me more and more so. Whether, therefore, that peaceful time is near or far distant when swords are to be beaten into ploughshares, I heartily wish that some inventive genius would speedily contrive and give the sporting world, without a patent, (that the sales might be more lively and universal,) some substitute to take the place of the present fire-arms, that will have neither stock, lock, nor barrel, and that won't explode, nor do any body harm. Vain wish, unquestionably—but 'tis passing strange that so many people will be so careless with fire-arms as they continually are.

Aside from the above named accidents, nothing special has occurred in these parts, to disturb our nerves for some months past, worth naming here.

Three days ago, 22d inst., the first snow storm express for this season arrived, and in about twenty-four hours discharged four inches freight. Nobody was alarmed, but all took it coolly, perfectly so. Sleigh runners and associates had a good time about one day, but last night's and to-day's rain storm sent all that sport to "Davy Jones' locker."

(*Concluded to-morrow.*)

Yours, Truly, DOWN EAST.

A DIALOGUE.

Boston Mail.—We call it treason for a man to get up before a mob of excitable negroes and black-hearted fanatics, whether in Faneuil Hall or elsewhere, and urge them to pull down the Court House, and rescue a man from the legal custody of United States officers.

Portsmouth Chronicle.—We call it treason for a man to get up before a mob of excitable Yankees and black hearted revolutionists, whether in Faneuil Hall or the Old South, and urge them to resist the British soldiers, violate the Stamp Act, and to throw the Tea overboard.

Mail.—The more especially, when that advice is followed and an officer in the discharge of his duty is murdered in the Court House by the mob thus incited by the traitor.

Chron.—More especially when poor Mattocks, the negro, the first martyr to liberty in Boston, was shot down by British soldiers; and when the bloody battle of Bunker's Hill followed, wherein many an officer in the discharge of his duty to his king and country, was murdered by the mob of rebels and traitors who stood at the top of the Hill.

Mail.—The Chronicle has a wonderful deal of sympathy for Parker, who is responsible for that murder—how much has it for Batchelder, the victim of the mob?

Chron.—Little sympathy; but much pity or compassion; nearly the same as we feel on reading that the poor hired minions of British tyranny were shot down and murdered by the Yankees. Parker deserves no more sympathy than Warren and Hancock and other mobocrats.

Mail.—Verily, "Ye strain at a gnat, and swallow a camel."

Chron.—Exactly!

THE WHITE HOUSE.—The Washington Globe comes to the defence of the White House, which it pronounces "A most abused and most calumniated edifice." Against two Presidents who have died, it places three or four who have lived in that fatal tenament longer than the two in question, and yet attained to the age of eighty or ninety years.—It is true that Gen. Pierce has had an intermittent fever, but the Globe says facetiously:

"This season has been uncommonly unfavorable to the health of all Democratic functionaries, and of all Democrats—we are ourselves of that party that has been getting small by degrees, and beautifully less, lately, and we must confess that the October and November elections have not at all improved our health."

On the other hand the proprietor of the Globe differs from the editor. He thinks the President's House unhealthy in the latter part of July, the whole of August, September, and October, until there is a heavy frost. Its unhealthfulness is increased every year, owing to the increase of the mud-bar in the Potomac, which is bare twice in every twenty-four hours. The miasma from this bar is wafted over the square in which the White House is located. The "editor" responds to the "proprietor," and the contest still vexes the Globe. Neither of them says anything of the fever of ambition or the paralysis of principle to which the tenant of the fatal mansion is so often subjected.—*Atlas.*

DOMESTIC FELICITY.—An Irishman living in Moulton street, Charlestown, having imbibed rather too freely of rum, on Thursday, upon going home commenced abusing his wife who, being rather too smart for him, gave him a flogging, after which he was taken to the watch house. In the course of the fracas he received a deep cut in his head, from which he bled profusely. A physician was called and dressed his wound.

The New York Mirror does not publish the message. It says:—

"We are determined this year to set an example that we hope to see generally followed, and shall spare our readers the infliction of having *nothing better to read than a President's message.*"

In four of the principal nothern roads of Vermont, New Hampshire and New York, Boston holds the chief part of a perfectly dead property which has sunk twenty-five millions of dollars, and now pays nothing at all, either on their stocks or bonds."

CONUNDRUM FOR THE KNOW NOTHINGS.—What is the best pepper for foreign sauce? Answer—*K. N.*

LOCAL.

TEMPERANCE CONVENTION.

An adjourned meeting of the Rockingham County Temperance Convention, commenced in this city on Monday. In the morning, as the weather and walking were unfavorable, the meeting was thin; in the afternoon the attendance was more numerous; and in the evening the audience was large.

Interesting statements were made by gentlemen from Maine and Connecticut, of the workings of the new laws in those States; and by delegates from other towns, of the defective operation of our New Hampshire law, when attempted to be enforced.

The Convention continues in session: public meeting in the Temple, at ten o'clock this morning.

FIRE.

At 7 o'clock on Monday morning, the cry of fire was heard in our streets; the bells rang, and with much labor and toil, and some delay, the Engines and Fire Department wended their way to the scene of destruction, which proved to be the Cordage Manufactory of Messrs. Johnson and Handy, near the South Mill Pond. The fire began at the tar house by accident, and in a few seconds there was a smoke and flame which baffled any effort at speedy extinguishment.

The Engine House, Cordage Store and Head House were saved; the balance of the ropewalk and part of the machinery destroyed.

There was about $3,000 worth manufactured cordage ready for delivery, which was saved. They had also about $20,000 worth of Hemp, Cordage, and Yarns, in their Storage Store, on a wharf, which was saved without moving, as it was entirely disconnected from the factory. Their valuable engine and machinery connected therewith was saved without any damage. The loss on the walk was about $5,000, and on stock in process of manufacture, about $8,000, which was nearly covered by insurance in the Hartford, Howard of New York, and Columbia offices. About 40 hands are turned out of employment by the fire, but we hope soon to see the building restored.

MIDNIGHT EARTHQUAKE.—At about half past 12 o'clock on Monday morning, many of our citizens were awakened by a smart shock of earthquake, followed by a lower rumbling. Some supposed the noise to be occasioned by the slide of snow from roofs, others that it thundered: perhaps some might think an angel spake to us. We have heard of none such—but we have no doubts whatever, it was the voice and the act of our Heavenly Father and Friend.

The shock was also felt at Greenland.

☞ Among the list of patents just published, we notice one to John Pepper, Jr., of this city, assignor to the "Franklin Mills," of Franklin, N. H., for improvement in knitting machines.

HYDROPATHY.—Cold water applications to the feet, *for* colds, can be procured at the crossing, head of Vaughan street, gratis.

SIX FINGERED JACK.—A curious specimen of the masculine gender, about two months old was yesterday placed in care of the City Fathers. He has upon each hand six well formed and perfect fingers, in connection with a perfect thumb. Each foot was also furnished with six toes, and as the real name of the youngster could not be ascertained, it was suggested that he be called six Fingered Jack.

AYER'S CATHARTIC PILLS.

PILLS THAT ARE PILLS!

PROF. HAYES, State Chemist of Massachusetts, says they are the best of all PILLS, and annexed are the men who certify that Doct. Hayes knows, viz:—

LEMUEL SHAW, Ch. Justice Supreme Court of Mass.
EMORY WASHBURN, Governor of Mass.
W. C. PLUNKETT, Lieut. Gov. of Mass.
EDWARD EVERETT, Ex-Sec of State and US Senator.
ROBERT C. WINTHROP, Ex-Speaker House Rep. U.S.
ABBOT LAWRENCE, Minister Plenipo. to Gt. Britain;
†JOHN B. FITZPATRICK, Catholic Bishop of Boston;

MEN WHO ARE MEN.

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous Complaints, Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgic affections, Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

A SAD AFFAIR.—The Cincinnati Enquirer relates a distressing occurrence which recently took place at Osborne, Ohio. It seems that three years since a farmer of that town, named William Ricketts, left his family to seek a fortune in California. Seven months ago a man named William T. Gaylord, representing himself as having come direct from San Francisco, visited Mrs. Ricketts, bringing false intelligence of the death of her husband. Mrs. Ricketts was much distressed. During her affliction, Gaylord frequently called upon her, and at length made her an offer of marriage, and was accepted. In the meantime he had abstracted from the Post Office all letters directed to Mrs. Ricketts, and had perused and destroyed one from her husband stating that he should not return for several years. The two were married, and Gaylord came into possession of a farm valued at several thousand dollars. Soon after their marriage they resolved to sell out and move to Kansas. Their farm was advertised for sale, and Mr. Ricketts, seeing the advertisement in San Francisco, hastened home, making himself acquainted with the facts, he repaired to his house at a late hour of the night. The door was opened by his wife, who fainted upon seeing him. Gaylord rushed out to see what was the matter, and was immediately stabbed in the side by Ricketts, who then stabbed his wife slightly, and made his escape. At last accounts Gaylord was expected to die, and no traces had been discovered of his murderer.

FINANCIAL.—The Boston Transcript says the money market has been very tight during the past seven days, and loans have been negotiated at what are termed "high rates" even in these times, when money commands about double the legal rate, and the standard of interest is at a much higher figure than we have known for ten years. Nine per cent. interest was once regarded as "high," while *double that rate* at this time, is not when the same word is used. The New York Evening Post of last evening says:

The Wall street money market presents undiminished stringency, and several failures are reported. A large retail clothing house has asked for an extension of time, and the proprietor of a well known hotel—being partner also in another—has suspended payment.

LARGE FAILURE.—The business community in this city were surprised this morning to learn that one of the largest and most extensive dry goods houses in Pearl street, enjoying a high reputation in all sections of the United States and the Canadas, had failed and gone into chancery. The liabilities of the firm are between $1,900,000 and $2,000,000. They are reported to owe one commission house in Milk street $176,000; another, $151,000; and there are several others who are creditors for about $50,000 each. The failures at the South and West, and the utter impossibility of collecting the vast sums due them, is the cause assigned for this susdension. It is the largest failure of the season in Boston. —*Boston Transcript.*

CHICAGO, Dec. 8.—FUGITIVE SLAVE EXCITEMENT.—Seventeen slaves have escaped from Missouri and arrived here. There are a number of men from St. Louis here, attempting to arrest the fugitives. The U. S. Marshal attempted to call out the *posse comitatus*, and summoned three military companies, only one of which responded to the call. A great excitement was occasioned by the presence of the slave catchers, and, intimidated by the great crowd of people, the Commissioner dismissed the proceedings, and the excitement is now abating.

MAYOR OF BOSTON.—Votes on Monday, at 2 o'clock, P. M.:—Smith, 4755; Upton, 2820; Adams, 392; Scattering, 64. This looks like Smith's re-election by the K. N.

LIBERAL.—A valuable gold watch and chain, lost a few days since between Dorchester and this city, was yesterday found by a poor woman named Mrs. Ryan, living in Bennett street. She returned the same to the owners, Messrs. Bond & Sons, in Congress street, and received the liberal reward of $20.—*Boston Atlas.*

It is stated that a confidential clerk of Robert Schuyler has just come out in the Baltic on his master's business, and stated on the passage, that Schuyler is living on the Rhine, where he has bought a "place" and sent for his family to join him.

DEATH FROM SEA SICKNESS.—Robert Murphy, the young man who was brought into New Bedford in the whaleship Trident, very much reduced by sea sickness, died on Thursday.

Plutarch, in his life of Themistocles, says that husbandmen and rustics are more friendly to nobility than mariners and merchants.—This question would furnish a pregnant theme for discussion now-a-days.

In California a man named Bennet, from Massachusetts, from 25 to 30 years old, was found dead in the road in the vicinity of San Francisco, supposed to have been killed by a fall from a horse.

N. P. Banks, Jr., voted in Congress on Wednesday, that the house pass the river and harbor bill in spite of the President's objections.

People who are so independent as to say what they like, will be sure to hear what they don't like.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above mor thlies is $1 per year.

DR. CARL V. MEYER'S

GERMAN

HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thoro' scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. Thus they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. All medical properties of these waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owning to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,

LIVER COMPLAINT,

Piles, Costiveness, and

WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,

such as

Scrofula, White Swellings, Scorbutic Eruptions, Ulcers, Erysipelas,

Paralytic and Nervous Affections,

CANKER,

AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,

PILES,

PIMPLES ON THE FACE,

Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,

AND ALL

RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS,
COUGHS,
SORE THROAT,

AND ALL AFFECTIONS OF THE

THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief—If you find you EXPECTORATE EASILY, AND NEVER TIGHTEN A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE

SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metallic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

HERTS BROTHERS

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinnest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S

Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites; Chronic Inflammation of the Womb; Incidental Hemorrhage or Flooding; Painful, Suppressed, and Irregular Menstruation, &c., with all their accompanying evils, (none excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, to my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 33 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

A CONTEST BETWEEN TWO DEERS.—The Mansfield (O.,) Banner, relates a queer breach of the peace which occurred in the vicinity of that place a few days since. A young lady, Miss Harriet Brown, was returning alone from a visit to a neighbor, when a pet deer belonging to the gentleman whose house she had left, leaped over a fence and attacked her, striking her with his horns with sufficient force to cut through her clothing and draw blood. The Banner says:

"As Miss Brown fell, she courageously took the deer by the horns, and clung to him, sometimes being dragged on the ground, and at others regaining her feet—the animal all the time striking and cutting her with his feet. The deer, finding himself foiled by the courage of the girl attempted another mode of attack, and endeavored to push her up against trees and thus shake her from her hold on his horns. But it was no go—she held on; but in the course of the struggle the deer dragged Miss Brown near to a fence at a point where there was a large stack of straw placed against it on the other side; the poor girl, being unable to make herself heard in her cries for help, and finding herself much weakened from loss of blood, cast about her for some source of escape and looked upon the straw stack as the only safe retreat—and manœuvreing so as to get the deer near up to the fence, let go of his horns with her right hand and tried the "gouge game"—putting her thumb into his eye, gave it a hard punch; this so hurt and frightened the beast that as quick as lightning he bounded back some fifteen feet from her, and before he had recovered from his fright sufficiently to renew the attack, his fair antagonist had gained the top of the fence and from thence the top of the stack, completly foiling her adversary. From her high position she succeeded in attracting the attention of a neighbor who came to her relief.

The fight lasted near an hour, and at its close Miss Brown's clothes were nearly all torn off her, and she was cut in almost every part of her body by the hoofs of the animal.

"WHAT A FALL WAS THERE, MY COUNTRYMEN!"—George J. Adams, formerly somewhat noted as the "Mormon Elder," but who has more recently renounced that doctrine and proposed to become a convict to the Methodist faith, was before the Police Court this morning and fined $3 and costs, ($6.26,) for being drunk last night. Mr. Adams positively denied having drank any intoxicating liquor for the last five years, but the proof of his intoxication was full as positive as his assertion to the contrary, and for want of the necessary funds, he was committed to the lock-up. Subsequently, two benevolently disposed gentlemen paid his fine, and he was released from custody.

Immediately following Mr. Adams, a venerable man named Charles E. Buonaparte, belonging in Portsmouth, N. H., was called to the stand and pleaded guilty of being drunk last night, and was fined $3 and costs. —*Boston Journal, Saturday.*

Who is Charles E. Buonaparte? We never heard of him.

One of the religious newspapers says that Madam Pfeiffer did not deserve Mr. Collins's liberality in providing her with a free passage to Europe, because when she was among the American missionaries in Turkey, the return she made for their hospitality was to represent them in one of her books, as a pleasant sort of people, living at their ease, and save their absence from home, making no sacrifices whatever in pursuing their work.

AMERICANS AT THE TABLE.—Robert Chambers, in his recent volume on "Things in America," remarks, that a person accustomed to visit among the middle classes in Great Britain, is astonished at the profusion at table in all quarters of America. There is," he says, "no stinting as to food." He adds, "It was often pressed to my notice in the United States, that the hired laborers in the fields are provided with better fare than falls to the lot of thousands of the *'genteel'* classes in England.

THE SOUTH DEMANDING THE RESTORATION OF THE MISSOURI COMPROMISE.—A writer in the Daily South Carolinian, over the signature of 'Calhoun,' strongly urges the reestablishment of the Missouri Compromise Line. The South, he thinks, was badly duped in the passage of the Nebraska-Kansas bill, and without in the slightest degree censuring those Southern members of Congress who voted for the ill-advised obliteration of the line, he advises that they retrace their steps at the earliest opportunity.

The late avowals of some of the leading Northern Democrats, says the National Intelligencer, that the breaking down of the line was to have the effect of preventing the creation of any more slave states, were certainly not calculated to give Southern politicians any very encouraging prospect.

Morning Chronicle.

WEDNESDAY, DECEMBER 13, 1854.

The whole of South Florida, now occupied by Indians, is to be penetrated and surveyed under the authority of government, and emigrants invited to settle the same. The war department is determined to make surveys, roads, &c., and protect them by stationing troops in close proximity. The savages are to be removed.—*Exchange papers.*

Remove the savages, indeed! Why, these savages have been about "to be removed" from Florida ever since Uncle Toby was a youngster. General Jackson hung Arbuthnot and Ambrister, (by reversing the sentence of the Court Martial,) because they had, as he supposed, stirred up the Indians of Florida, as well as marauding whites, to harass our frontier.

We bought Florida from Spain, afterwards, partly that we might handle the savages better in our own territory than in the Spanish; and partly that negroes might not flee thither from Georgia, and other States.

Then we had the Florida War, costing $40,000,000, more or less, to remove the savages;—then a treaty with Billy Bowlegs,—and yet the savages are now *to be* removed.

MAYORS IN MASSACHUSETTS.

In Boston, Mayor Smith is re-elected, by a vote of 6,427, being supported by the K. N. party. Upton, whig, had 4,435; Adams, democrat, 703; scat., 59.

Lowell, Ambrose Lawrence, K. N., by 1500 majority.

Worcester, George W. Richardson, K. N.

Roxbury, James Ritchie, K. N., 675. J. S. Sleeper, people's candidate, had 303.

Charlestown, Sawyer, annexationist, and anti-K. N., was elected by 1,219 votes; Bailey, K. N., had 861.

Newburyport, Moses Davenport, citizen's candidate, had 810 and is re-elected; Pike, K. N., had 767.

Lynn, Andrew Breed, K. N.

BARNUM'S AUTOBIOGRAPHY.—The Life of P. T. Barnum, written by himself, price $1,25, copiously illustrated by Darley: Redfield, publisher.

We have received this book from the publisher, via Mr. J. P. Morse of this city, who has it for sale. Barnum's portrait is a good likeness of him; and he has some good looks in common with John Pierpont.

The matter in the book is not only readable, but piquant—containing much amusement and not a little instruction. It will sell and be read.

NEW YORK, Dec. 11.—Henry C. Bronson, son of our late Collector, was last week removed from the Cashiership of the Custom House.

Intelligence from Assumption, Paraguay says, President Lopez has withdrawn the exequatur of our Consul, Mr. Hopkins. The cause was the correspondence growing out of a difficulty between a brother of Mr. Hopkins and a dragoon. This brother was connected with the Paraguay Company, and had invested $150,000 in the enterprise, and it is feared the relations between this country and Paraguay may be disturbed.

Disappearance.—It is rumored that Chas. F. Loosey, Austrian consul at this port, sailed for Europe in the steamship Baltic, on Saturday last, under mysterious circumstances, and it is said that officers were on the alert to arrest him, on a charge of being implicated in an extensive fraud or larceny, but they missed him.

Audacious Robbery.—Mr. H. J. Coleman, a deputed agent of the Freemasons, Odd Fellows and Know Nothings, who was on his way to establish lodges of these Orders in Nebraska and Kansas, had a trunk stolen at the railroad depot in Jersey City, on Thursday last. It contained the documents of those lodges and valuable clothing and jewelry belonging to his wife.

11 o'clock P. M. No signs of the Pacific from Sandy Hook. Sandy Hook telegraph closed.

A HOME.—On Monday, in the Boston Police Court, a boy of sixteen years named Walter Whitney was complained of as a common vagabond. He stated that his father and mother had separated, and that his mother having three children younger than he to take care of could not support him. The Court sentenced him to two months in the House of Industry. The boy thought, this was not enough; he did not like to come out in cold weather. The Court made it four months, with which the boy seemed satisfied.

CINCINNATI, Dec. 11.—The New Orleans house of Taylor & Cassedly suspended payment to-day, and are involved largely by the failure of Geo. Milne & Co. They show a large excess of assets. Eastern Exchange sells at par to 1 per cent. premium.

WASHINGTON, Dec. 11.—No business of importance will be done by Congress until after the holidays. Henry A. Ford has been appointed commercial agent at Gaboon River, Guinea.

LOUISVILLE, Dec. 11.—Mr. Rosenthal, Senior, residing here, charged with obtaining goods under false pretences to the amount of $60,000, in Philadelphia, left here this morning in charge of a Philadelphia Sheriff, upon a requisition from the Governor of Pennsylvania.

ENVIRONS OF DOWNINGVILLE, DOWN EAST, MAINE STATE OF THE UNION, 25th day of November, A. D., 1854.

(*Concluded.*)

A few days since, I noticed your announcement and approval of a new Post Office established at Kittery Point, Me. The *approval* appeared to me to smack a little, *per se*, of interested counsel, not to say *legal* advice—unsuspectingly and innocently swallowed by you, I doubt not.

That Uncle Jo is both respectable and responsible, and that he will honestly discharge his obligations as P. M., I verily believe.—But the necessity of this new office, or desire of the mass of the people, or of the great majority of the principal correspondents in that vicinity, to have it, *remains to be seen.*

This movement, I opine, savors strongly of a clandestine usurpation by a few, (say half a dozen, more or less) of the rights and authority of the "sovereign many;" and too, with an "I am the State," therefore "I take the responsibility" air about it, that indicates something wrong "right across there," and somewhere else.

Uncle Toby, I have now before me a letter received by yesterday's mail, and written on the 21st inst., in the very vicinity of this new office, which says, "This" (the establishment of this new P. O.) "was rather sudden news to us, as the first word we had heard for a long time about it was after Mr. S.'s commission had come. It appears that *the Squire* has a friend in Washington; and by his writing to him, obtained the office and appointment without any petition from the people that is generally known, if there was any at all—a sort of "Know Nothing" operation. Many in the immediate vicinity of the new office are displeased with the liberty which he has taken upon himself."

Now, Uncle, for a brief history of the *daily* mail in Kittery. As you are aware, I have been in the woods some time, but if my memory serves me right (and if it don't I'll bravely and cheerfully stand corrected) that history runs thus: Some half dozen years ago the business men of Kittery Point were wont to receive and deliver their mail matter at the Portsmouth P. O., because that was then, the nearest *daily* mail office. The business men at Kittery Fore Side being about that time desirous of having a mail in Kittery, asked the co operation of the Kittery Pointers to have it. This they assented to on the following conditions:—They would join the Fore-Siders in a petition to the General P. O. Department for said daily mail, provided the Fore Side P. M. would establish a Branch office at K. Pt. Bridge Toll house, and appoint the Toll-keeper his clerk—send the mail matter belonging in that section to the Toll-keeper, pay the transit expenses of the K. Pt. mail out of the net earnings of the offices, and give the said Toll keeper for his services one third of the net Branch commissions. All this was acceded to by the said parties—the daily mail was consequently secured—has thus been continued on "the full tide of successful experiment"—still continues to be, and as I just learn, will be sustained in good faith and *frankly*, as the best arrangement that can be made for the convenience of the people *generally*, as well as for that of a majority of those who mostly need the facilities of a *daily* mail—besides the superior pecuniary advantage it gives to the General P. O. Department, is obvious, the K. Pt. Toll house mail costing only twenty dollars extra, yearly, for transportation, while *two* daily offices directly subordinate to the parent department, are, or will ere long, be subject to two equally costly carrying contracts.

The general government P. O. laws, we believe, require all subordinate offices to be self-sustaining, otherwise they are generally discontinued. Can Kittery Point alone, or Fore Side alone, sustain a *daily* mail? If so, we are glad of it, for it must look like unwonted prosperity, and progress. And we have no sectional jealousy whatever, in the matter; but hearty good will towards all the people in each and every locality there. And we do and will heartily rejoice with the new Postmaster and all his, in whatever honorably promotes his and their interests—knowing that it will not be likely to harm others; but may tend to the general advancement, even as all the members of one body suffer and prosper together. Hoping then, that Uncle Jo. will test his experiment fairly, and have a good time with it as long as it lasts—and may he live a thousand years, and enjoy the fruit of his labors, if he can without the usual infirmities of the flesh.

Trusting also, soon to shake hands with all of you, with "sentiments of distinguished consideration" for your honorable self and all yours, I remain, cordially, all along shore, at home and abroad,

Yours, Truly, DOWN EAST.

NEW YORK, Dec. 12.—It is said that upon the return of Mr. Atchison to Washington, there will be a contest between his friends and those of Mr. Bright, relative to the Presidency of the Senate.

The Washington correspondent of the Courier and Enquirer says that the Committee of Ways and Means will consider the tariff next week, and thinks there is a probability of some action being taken upon it this session.

The Express editorially urges the city government to carry forward such municipal improvements as are now needed at once, as a means of furnishing employment to unemployed mechanics and laborers, thereby preventing pauperism and crime.

In Chicago, a few days since, a man was found hanging by the heels to the top of a fence. His face had turned black and he was dead. While climbing over the fence he had slipped and caught his foot between two of the pickets. In his struggles to release himself, he had torn off his coat and vest. The muscular contractions all over his body were very great. He had probably hung there several hours.

LOCAL.

THE "OLD FOLKS' CONCERT"

Is to come off this evening, at the Temple. The programme is composed exclusively of old folks' music—and a large proportion of the singers have reached that age when people cease to talk themselves young, and take pride in their age rather than their youth. A gentleman now residing in a neighboring town, who is to take part in the performances, writes us as "One of Sam Holyoke's Singing School," that after trying over the programme, it is his opinion "that the tune 'Portland,' is the richest and most beautiful, and will richly repay all for attendance at the Concert." He closes with the hope that "the revival of these stirring melodies and quaint harmonies of by-gone days may tend to the renewal of that inspiring musical feeling which once pervaded our churches—which elevated the feelings and affections, and kept alive the flame of devotion—and to awaken a brighter life, and rescue the churches of New England from the long night of darkness which seems to sit like an incubus upon them."

Rev. Israel W. Putnam, D D, will open the Concert with prayer.

☞ Rev. Dr. Neale of Boston, delivered the lecture on Tuesday evening, before the Mechanics' Lyceum of this city. His subject was Professional Enthusiasm; and in handling it, the orator showed no small share of that enthusiasm which he described in such eloquent and beautiful languag, as few men are able to use. This enthusiasm he characterized as belonging to every honest calling—as tending to and ensuring success; as conferring enjoyment on its possessor; and as laying hold on immortality. The lecture was closed with a notice of Webster and Woodbury, and a fine reffereuce to the two Adams, John and John Quincy, the former of whom rejoiced to ascend as in a chariot of fire on the 50th anniversary of our Declaration of Independence; and the latter, when his head was whitened by the frosts of eighty winters, stood up like a man, and with his trembling hands touched a cord of the nation's heart, which has not yet ceased to vibrate in favor of liberty.

The next lecture of this course will be delivered by Rev. E. H. Chapin, of New York, on Tuesday evening next.

☞ We understand that orders have been received at the Portsmouth Navy Yard, to discharge all those persons who were publicly mentioned by name in the proceedings, as officiating at the late meeting held by the Carpenters after their late strike.

We are informed that, after the reading of the above order at the muster on Tuesday afternoon, most of the carpenters declined to answer to their names at the calling of the roll; and that a meeting was held to consider the matter. At this meeting a committee was appointed to wait upon the Commandant and inform him of the reason of their declining to answer, viz, the issuing of the above order.

COURTS IN DECEMBER.

Dec. 19, U. S. District Court, Exeter.

MR. GREELEY'S ACCOUNT OF HIS "WHITE COAT."—The forthcoming life of the Chief Editor of the Tribune has the following passage:

"As I passed the hat stand in the hall, I said, 'Here is that immortal white coat.' Mr. Greeley smiled and said, 'People suppose it is the same old coat, but it isn't.' I looked questioningly, and he continued, 'The original white coat came from Ireland. An emigrant brought it out; he wanted money and I wanted a coat, so I bought it of him for twenty dollars, and it was the best coat I ever had. They do work *well*, in the old countries—not in such a hurry as we do.'"

LAWRENCE'S

CHERRY PECTORAL.

W. F. LAWRENCE: DEAR SIR,—

It gives me pleasure to state that your CHERRY PECTORAL has given utmost satisfaction wherever it has been used. Some of the most distinguished physicians of the state, are in the habit of purchasing it in bulk, and profess themselves highly gratified with its remedial effects. I can recommend it with confidence as a very superior medicine, and have no doubt that it will earn for itself an enviable reputation. E. H. ROLLINS.

CONCORD, Sept. 20, 1854.

Mr. Rollins is one of the most extensive dealers in drugs and medicines in New England. As the Cherry Pectoral was first introduced in Concord, we subjoin the certificate of John F. Brown, formerly bookseller and publisher, and now city clerk of Concord, N. H., our former agent:

This certifies that I have been an agent for the sale of the medicine, now extensively known as Lawrence's Cherry Pectoral; that so far as I know it has given good satisfaction; that I have repeatedly sold it to physicians in quantity; that I am acquainted with the manufacturer of the Pectoral; that he is a physician of good repute, and that I believe him qualified to conduct the complex operations necessary for the manufacture of this medicine. JOHN F. BROWN.

CONCORD, N. H. April 6, 1854.

ABBOT LAWRENCE, Minister Plenipo. to Gt. Britain;
†JOHN B. FITZPATRICK, Catholic Bishop of Boston;

MEN WHO ARE MEN.

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

CONGRESS.

MONDAY, Dec. 11.

SENATE.—Mr. Adams of Mississippi introduced a bill to establish a uniform rule of naturalization throughout the United States. The bill extends the term of residence necessary for naturalization, and acts prospectively to only those foreigners who may arrive after the passage of the act. Mr. Adams argued that in one hundred years every inch of the continent would be wanted by the American people. He denied all connection with the Know Nothings, disclaimed any hostility to foreigners, but thought immigration dangerous, because foreigners ranged themselves with the Abolitionists. When he heard that a band of Germans had burned a United States Senator in effigy, he determined to introduce the bill. He agreed with the Know Nothings in the desire to extend the term for naturalization, and in their preference of American Protestants to foreigners or Catholics.

Mr. Adams's bill was read and referred to the Committee on the Judiciary.

Mr. Chase of Ohio gave notice of a bill to abolish franking privileges.

Mr. Brodhead of Pennsylvania, reported back the bill to establish a Board of Accounts.

The last session bill for the support of ocean mail steamers was then taken up. The bill stands as follows:—At the last session it was passed by the House, with a clause requiring the Postmaster General to give notice of his intention of discontinuing the contracts. The Senate amended the bill by striking out the clause. The two houses failed to agree. Mr. Brodhead now moved that the bill might be referred to the Committee on Post Routes.

Mr. Hamlin of Maine, moved that the matter be laid over until after Mr. Rusk should arrive.

Mr. Hunter of Virginia, said he was willing to wait until that time. He denied that the bill at this stage could be referred.

The Chair decided that the bill came up as unfinished business.

Mr. Weller of California, moved to postpone the matter one week.

Mr. Seward of New York, moved that it be laid on the table. Agreed to. Adjourned.

HOUSE.—Mr. Clingman of North Carolina asked leave to offer a resolution, tendering the mediation of the United States, in such manner as the President deem most proper, to lead to pacification between the allied armies and Russia.

Mr. Hamilton of Maryland objected to the introduction of the resolution, from a sense of duty.

Mr. Sollers of Maryland, asked if it would be in order to move to lay it on the table.

The Speaker said it was not yet before the House.

Mr. Clingman moved a suspension of the rules. Not agreed to—yeas 47, nays not counted.

Mr. Florence of Pennsylvania, asked leave to introduce a joint resolution for providing, manning, and equipping a steamer and transport vessel to carry relief to Commander Kane's expedition, now in the Arctic Seas, in search of Sir John Franklin, and for accepting such volunteers as the President may deem proper, to be paid for from the United States Treasury. He requested that the resolution be referred to the Committee on Naval Affairs.

Objection was made, and the House refused to suspend the rules.

Mr. Stanton of Tennessee, offered a resolution requesting the President to communicate information relative to the re-establishment of the Memphis Navy Yard.

Mr. Hunter of Alabama, from the Committee on Ways and Means, reported bills making appropriations for a military academy and for the support of the army. Referred.

On motion, the Pacific Railroad bill was postponed until the second Tuesday in January, in order to get the reports of the engineers concerning the routes surveyed.

Mr. Bocock of Virginia, introduced a bill for more efficient discipline in the navy. Referred.

The House went into Committee of the Whole on the State of the Union on the President's message.

Mr. Houston of Alabama, moved a series of resolutions, distributing the various branches of it to the different standing committees.

Mr. Giddings of Ohio, desired that the resolutions should not be passed without proper discussion. As to the bombardment of Greytown, he agreed with the President in all his apologies for the destruction of the place, but wished he could blot the transaction from history. He considered that the President had entirely receded from the great principles laid down in his inaugural address.

Mr. Wheeler of New York offered an amendment to the pending resolutions, prefaced by declaring in effect that in the destruction of Greytown the President had violated his constitutional powers, and that a select committee of thirteen be appointed to report the facts relative thereto, with powers to send for persons and papers. The amendment was rejected—yeas 54, nays not counted. The committee then rose, and the resolutions referring the message were adopted.

The Mail Steamship Bill of last session was referred to the Committee on the Post Office. Adjourned.

The Bells; A Collection of Chimes.

BY T. B. A.

One 12mo volume. Price 75 cents.

We have seen an autograph letter from Prof. Longfellow, in which, speaking of this volume, he says: "I feel the pulse of Poetry beating thro' the book; and there is a young warm heart in it." This is high praise from high authority.—*N. Y. Journal of Commerce.*

His "Chimes" have the ring of the true metal in them, and we find here and there a gem that time and labor could hardly polish or improve.—*N. Y. Evening Mirror.*

Mr. A. has borrowed his inspirations from Hood and Moore, and Longfellow and Tennyson. But his imitations are so excellent that they may almost be said to rival the originals.—*N. Y. Com. Advertiser.*

AN AGED SCHOOL MA'AM.—Died, in Newburyport, (Belleville,) Dec. 1, very suddenly, Mrs. Anna Fowler, aged 96. A large portion of the life of the deceased was spent in the house in which she died. On the day of her death her attendant prepared her dinner, and left her to partake of it alone. After a brief absence she returned and found her speechless; and in a few moments she expired. For some thirty-five years, Ma'am Fowler taught a school in her own dwelling, and almost all the residents of the village, between the ages of forty and seventy-five, received the first rudiments of their education from her. Very many of her pupils preceded her into the world of spirits, and the living are scattered through the length and breadth of our land. Among her scholars may be numbered a President of a College, lawyers, doctors, merchants, and persons of wealth and respectability, in all the walks of life.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing interest bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, intrigues and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

Patents.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837,) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THREE DOLLARS instead of twenty, as paid back by others, will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in the and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries—sidestepping travel and loss of time. Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

THE GREAT STANDARD REMEDY
FOR ALL PULMONARY DISEASES.

Containing neither Prussic Acid, Tartar Emetic, nor any other deleterious drug. Extensively used, tested and approved in New England, Canada, and the British Provinces during a period of THIRTY YEARS by *Eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men,*—and, in fact by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. Dr. LYMAN BEECHER, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. LEONARD WOODS, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. DANIEL P. THOMPSON, Secretary of State of Vermont.—N. E. WILLIAMS, Esq., formerly Collector of the Port of Baltimore, Md.—Rev. JOSIAH LITCH, Philadelphia,—and many others.

HOW ESTEEMED BY PHYSICIANS.—JOHN A. BERRY, M. D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope will be better known and more generally used."

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or WHITES; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *excruciating* and at last was *entirely disabled from attending to my usual pursuits.* . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

THE DAILY MORNING CHRONICLE

is published by

FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,

At No. 4 Exchange Buildings,

Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning. TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.

For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated.

Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.

Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping; on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.

☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found, 50 cts. if found.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

Patents.

AMERICAN AND FOREIGN OFFICE.

Agency for business with US Patent Office, Washington,
70 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on more reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Morning Chronicle.

THURSDAY, DECEMBER 14, 1854.

FATHER GAVAZZI COMING AGAIN.—It is announced, on what is said to be good authority, that Father Gavazzi, whose lectures excited so much interest throughout the country a year or so since, is to return to this country and resume his lectures on Romanism. It may possibly be thought that the Romanists are now in the hands of those who need no stirring up to actual hostility. The overwhelming strength of the Know Nothing movement is to be traced back to the latent and deep-rooted opposition of American Protestantism to all the politico-religious machinations of the Church of Rome.—*Boston Trav.*

The last quoted sentence is true; and it should also be remembered that this opposition has been stirred up by the officious meddling and domination of the priests of the Roman Church.

As to actual hostility to the Romanists,—if Father Gavazzi, or any body else stirs this up, he does a grievous wrong. We, as Americans, should be tenacious of our own opinions, principles, rights and privileges; we should be, and we trust are, willing that the foreign immigrant should share the blessings with us, as fast and as far as they are fit and able to do so, but no faster and no further.

Not one particle of hostility do we cherish towards a Romanist, or a foreigner of any sort; but we are hostile to the delusions and oppressions of Romanism, Royalty, Aristocracy and Anarchy.

Americans should govern America in the Democratic manner, on principles of equity and sound American policy.

SLOW AND SURE—THE LAST NOT LEAST.—Immediately after the election last month, the friends of Gov. Seymour held a meeting in the Park to celebrate their victory; and the Know Nothings had their meeting, and also shouted before they were out of the woods. The Whigs, taught by sad experience, were content to wait for the official canvass, and finding that Myron H. Clark was "counted in," they last evening exploded one hundred guns on the Battery to celebrate their victory.—*N. Y. Courier and Enquirer.*

We notice in another paper, that the salute was fired in honor of the election of the entire Whig State ticket. The Democratic Seymour Club organizations are to be kept up in N. Y. city, only changed in name to Union Clubs.

Seymour was the governor who vetoed the liquor law. He lost some votes, and gained others, by that measure. Whether these Union clubs propose to unite drunkenness with the slave trade, or sobriety with freedom, does not yet appear.

A SWEET MORSEL.—The Petersburg (Va.) Intelligencer, of Oct. 21, contains the following amiable paragraph:

DEMONISM.—We observe a paragraph in one of our exchanges, which states that that notorious emissary of Satan, who goes under the name of *Rev.* Henry Ward Beecher, preached a sermon at the Plymouth Church, on Sunday last, in which he alluded to the loss of the Arctic, and ascribed it to the wrath of the Almighty, thus poured out upon the heads of the shipping merchants, for supporting the Fugitive Slave Law. If he did give public utterance to such a sentiment, and left the pulpit without bodily injury, it must only have been because he addressed a gang of devils like himself. Such a monster in human shape deserves to have a millstone fastened around his neck, and pitched into the middle of the Atlantic ocean.

Mr. Beecher replies thus, in the N. Y. Independent:

This elegant extract should be preserved. When Virginia shall have become a *free* State, and her lands shall have risen in value from five dollars an acre to a hundred; when her now comparatively useless rivers shall be made to work their way from the mountain to the ocean over innumerable wheels; when there shall be schools and academies enough to educate their children at home without sending them north; when men shall no longer take slaves for concubines, and raise their sons and daughters for exportation; and the Old Dominion, after her long degeneracy, shall have come back to a condition worthy of her former history; then such a paragraph as this will become an antiquarian gem. In the *then* civilization men will point back to the barbarism of ideas now prevalent, and measure their growth proudly by the distance which they shall have traveled from such vulgar and impotent tyranny as this expresses.

But we cannot forbear presenting our compliments to the editor of the Petersburg Intelligencer, and inviting him to our pew when next he comes to New York. We cannot promise him very smooth things, nor things very consolatory to his present condition; but we shall be most happy to show him what hospitality can exist among that "gang of devils" of which Plymouth Church is made up; and then, if he will accept the poor service of a bed and plate at the house of that "notorious emissary of Satan, who goes under the name of *Rev.* Henry Ward Beecher," we shall hope to change his ideas in respect to demoniac agency, and send him back at length with kinder feelings and with a better stock of ideas than he seems now to have on the subject of the liberty of speech and toleration of opinions. At any rate, he need not fear that he will be any *worse* for his visit;—that would seem impossible.

SUPREME COURT—CRIMINAL TERM.—Judge Cutting presiding. The grand jury got up on Tuesday, after nearly a week's labor, reporting between forty and fifty bills of indictment, many of which were for violation of the Liquor Law.—*Bangor Journal, 8th.*

ATTEMPT BY A FEMALE TO BURN THE CATHOLIC CHURCH IN WATERTOWN.—On Thursday evening last an attempt was made to burn the Catholic Church in Watertown, of which the Rev. Mr. Flood is pastor. This church is surrounded by wooden buildings, which are occupied by a large number of families. During the evening a person, on his way to the church to attend a rehearsal, met an Irish girl named Ellen Keenan coming from the direction of the church, and soon after discovered that the church had been fired in two places, in the rear and in front. The fire was put out without much damage, and the Keenan woman arrested. After her arrest she was asked what induced her to commit the act, and replied that she had no particular motive, but acknowledged that she left the house where she was employed as a domestic, filling her apron with kindling wood, and after placing it about the building, set it on fire.

Yesterday she was taken before Justice Bemis, when three witnesses were examined, viz: the man who saw her going from the building and found the fire, a neighbor who was called to help put out the fire, and the Constable who arrested her. She called no witnesses and made no defence, and in default of bail in $2,000 was committed to East Cambridge jail for trial hereafter. When asked if she could obtain bail, she replied that she could not, and offered to save the officer the trouble of taking her to East Cambridge by going there herself. She is said to be a bright, active girl, but of intemperate habits.—*Trav.*

TEXAS AND THE RAILROAD SPECULATORS. The wags of Texas are making themselves merry over the R. J. Walker, Butler King and Matt. Ward Pacific Railroad speculation, and the "*securities*" which they offer for the purpose of binding their contract. One paper says that by the acceptance of the Sussex stock by the Treasurer, Texas has become the owner of a *paint mine* in New Jersey, and designs going into the white-washing trade; but as the Governor has been obstinate, a new company has been organized, who propose to deposit, as a guarantee, a certificate for the same amount of stock in a *soap mine*, which may be used for the cleansing of the *great unwashed*. Another editor suggests that in the event of the continued contumacy of the Governor, so that he even reject the "soap mine" stock, that he would be induced to accept a deposit of stock from the great "Shoestring Company."

ARREST OF FORGERS.—A day or two since a young man named Joseph H. Owens, was arrested by the Cashier of the Bank of North America, Boston, in the attempt to pass a forged check for $100, purporting to have been drawn by S. L. & W. D. Bickford, on that bank. Upon his arrest Owens made a confession, charging Thomas R. Safford and Henry Cunningham, of Salem, with having committed the forgery, and employed him to get the check cashed. The bank had previously cashed a forged check for $300, bearing the signature of the same firm. Safford and Cunningham were waiting for Owens outside of the bank, and when they saw him come out in custody they decamped. The city police were immediately put in possession of the facts, and officers were sent in pursuit of the fugitives. The police of Salem were also notified, and succeeded in arresting the rogues in Exeter, N. H., whence they were carried to Boston.

NEW YORK STATE ELECTION.—The board of State Canvassers closed their labors yesterday. We give their plurality of each of the candidates elected, all Whigs:—Myron H. Clark, for Governor, 309; Henry J. Raymond for Lieutenant Governor, 28,533; Henry Fitzhugh, for Canal Commissioner, 35,796; Norwood Borne, for Inspector of State Prisons, 20,163.

REDUCTION OF WAGES.—The ship owners and agents held an informal meeting on 'Change yesterday, and came to the resolution that in consequence of the present depression in their line of business, to reduce the wages of carpenters on board of ships from $3 to $2.50 per day.

FOUND DEAD.—On Thursday morning a teamster, in the employ of Abiel Littlefield, named Augustus Gates, was found dead in the stable on Polk street. Gates belonged to Rygate, Vt., and had resided in this city a number of years. Coroner Sumner was called, but it being evident that his death had been caused at his own hands by taking opium, he did not deem it necessary to hold an inquest. Gates was an unmarried man of intemperate habits, and about 29 years old. A piece of opium the size of a hen's egg was found on his person.—*Charlestown Adv.*

The oyster panic in New York seems to be over. In investigating the cause of the death of a gentlemen from eating oysters, among other statements drawn out, it was stated by a keeper of an oyster saloon, that this gentleman, with five others, feasted themselves with oysters raw, roasted, broiled, stewed and fried, besides ale, brandy, champagne, cabbage, and other usual condiments, to the amount of *fourteen dollars.* After this, the wonder is, not that the sick man died, but that all the well ones lived.

The whole number of boats of all sizes employed in the oyster trade in New York, is said to be fifteen hundred, and the amount of sales between five and six millions of dollars a year.—*Manchester Am.*

MUSIC BY STEAM.—The Boston Journal says:—In a short time the bellows of the great organ in Tremont Temple is to be worked by steam. The engine and shafting are already set up, and the connecting machinery is all that is necessary to *raise the wind* by means of steam. This is something new in this country, and we are informed that the machinery is simple but ingenious.

GREAT SALE OF SHIPS.—Advices by the steamer Union report that the sale of the ships, *sixty seven* in number, belonging to Mr. Oliver of Liverpool, was fixed for the 1st of December. His dishonored paper will be taken in payment at par, and the sale will therefore virtually amount to a division of the property among the creditors.—*Transcript.*

LOCAL.

TEMPERANCE CONVENTION.

An adjourned Convention of the friends of temperance in Rockingham county, convened at the Temple, in Portsmouth, on Monday, Dec. 11, at 10 o'clock. The Secretary being absent, James Nowell was chosen Secretary *pro. tem.*

It was *resolved*, 1, That a committee be appointed to draw up an address to the people of this county; and that the address be read to this Convention for approval, and subsequently printed in as many of the papers of the State as are willing to print it.

Resolved, 2, That past experience has demonstrated the inefficiency of our present law for suppressing the evils of intemperance; that a prohibitory law, with stringent penalties, is necessary to eradicate them; and that we will be satisfied with no other.

Voted, That Rev. Messrs. Comings and Lamson of Portsmouth, and Rev. Mr. Burt of Raymond, be a committee to prepare an address in accordance with the first resolution.

The Convention was addressed by Rev. Mr. Holmes of Candia, Rev. Mr. Comings of Portsmouth, Rev. Mr. Coggshall of Conn., Rev. Mr. Jackson, Rev. Mr. Burt of Raymond, Rev. Mr. Chase of New Market, Rev. Messrs. Lamson and Rines of Portsmouth, and others. Adjourned to 7 o'clock.

The evening session was opened with prayer by Rev. Mr. Spaulding, and with singing.—The Convention was then addressed by Rev. Mr. Coggshall of Connecticut, and Rev. Mr. Merrill from Maine, on the operation of the prohibitory laws in those States.

Adjourned to Tuesday morning at 10 o'clock.

Tuesday A. M. Opened with singing, and with prayer by Rev. Mr. Lamson.

Resolved, That we heartily approve of the financial plan tried in Massachusetts, and adopted by our central committee, and that we pledge ourselves to co operate in it.

Voted, That the address be adopted, and published in as many papers as are willing to insert it.

Afternoon Session.—Portion of Scripture read—prayer by Rev. Mr. Fisk of Kittery—singing.

Voted, That the county committee appoint one or more person in each town to obtain subscriptions to the State fund, and to act as town committee of concert and correspondence.

Voted, That the Convention adjourn.

JAMES NOWELL, *Sec. pro. tem.*

THE STRIKE.—We have already stated that the Ship Carpenters at our Navy Yard had struck for their old wages, and been restored; that they had held a meeting after the restoration, and published the names of those who did not join the strike; and that the officers of this meeting were discharged.

This was followed by another strike on Tuesday, which we noticed on Wednesday morning. We now learn from the Messenger, that the discharge of these men for such a cause aroused the indignation of their fellow workmen, who have, generally, ceased from their labor on the yard, and refuse to return until the proscribed men are restored. They held a meeting on Wednesday morning, which was participated in by the blacksmiths and joiners, and a committee of one of each trade—Chas. W. Stimson, Theodore F. Rowe and Acanthus Young, was appointed to repair to Washington to ask justice at the hands of the Secretary of the Navy.

MISTAKE ON THE LIBERAL SIDE.—It would appear from the following paragraph in the Washington Star, that Congress at the last session provided for the payment of a private claim to the amount of seven thousand dollars which was not due. Instances in which Congress has neglected to provide for the payment of just claims are sufficiently numerous; but those of the opposite kind seldom occur.

Among the acts of the last session of Congress, was one for the relief of the legal representatives of Samuel Prioleau, deceased, late of Charleston, S. C., authorizing the payment of $6,928.60 to them, "being in full compensation for property taken from the said Prioleau, at Charleston, for the use of the United States, during the war of the Revolution." It turned out, on full investigation, that Prioleau had been paid in full by the Government, under the act of 1795, under which the debt in question had been funded. Mr. Comptroller Whittlesey found conclusive evidence of the fact, and, of course, took the necessary means to protect the rights of the Government, as involved in the case. The heirs of the late Mr. Prioleau, on becoming satisfied that the claim *had* been adjusted by the Government, at once came forward, we hear, to renounce all claim to the payment which Congress, at its last session, ordered to be made.

CORONER'S INQUEST.—Coroner Stedman's jury, at Boston, in the case of Hiram L. Wing, who died of injuries received on board the steamer Ocean, found that he "came to his death at the Massachusetts General Hospital on the 25th of November, 1854, from burns and the inhalation of hot air and steam caused by the combustion of some alcoholic liquid on board the steamer Ocean on the 24th of November, said steamer having been set on fire by collision with the steamship Canada near Long Island Lighthouse."

John A. Hussey, who was in the cabin with Mr. Wing, the expressman, at the time the steamer Ocean was burnt, died at the hospital on Sunday, from the effects of the burns and bruises which he received. He was 35 years of age, and a native of Damariscotta, Me.—*Courier.*

MR. JOSIAH LEWIS, of York, was found dead Dec. 1st, behind the new town school house in that town, by some of the scholars. It is supposed that he perished from exposure, as he came from Portsmouth on the 29th ult. He was 56 years old.

On the same day—Dec. 1st—Mr. Aaron Perkins, aged 65 years, was found dead in his house at Pine Hill, in York. It is supposed he died in a fit, as he had previously been attacked by the palsy and was paralyzed on one side. He had for sometime lived alone.—*Saco Democrat.*

J. Silliman Ives, LL.D., (late Bishop of North Carolina) is announced to deliver a lecture before the Catholic Institution at St. Louis. He is to be followed by Hon. R. Chandler of Philadelphia, and other eminent Catholics, and also by Thomas D'Arcy McGee of New York.

President Pierce reached his 50th birth day on the 27th ult., the thanksgiving day of the District of Columbia. Among his special guests on that occasion was Gen. Scott.

HALIFAX, Dec. 12.—The Reciprocity bill was passed yesterday by the House of Assembly, 32 to 10.

A Sioux chief, at the late conference with Gov. Ramsay, expressed an earnest hope that in future the Great Spirit would send the red men more beef and less thunder.

CONGRESS.

TUESDAY, Dec. 12

SENATE.—Mr. Jones of Tennessee gave notice of a bill extending to three years the time for the collection of duties on railroad iron imported by railroad companies.

Mr. Butler moved that the bill for the reorganization of the Judicial System of the United States be made the special order for Jan. 2. Adopted.

Mr. Seward's joint resolution for the election of chaplains of different denominations by the two Houses was taken up.

Mr. Dodge of Iowa moved to strike out "different denominations." He considered this a blow at the present chaplain, because of his sentiments upon the question which has divided his (the Methodist) church into North and South.

Mr. Mason said if the Senator from New York had any such object he should disclose it.

Mr. Seward disclaimed any such intention.

After some debate, Mr. Seward moved an amendment to the resolution, by providing simply for an election of a chaplain to the Senate for the present session.

Mr. Dodge of Iowa said he disdained a hidden warfare, and deprecated the attack upon the present chaplain. He said that Mr. Slicer had been denounced by the Abolition press all over the North as the paid tool of the South, and all because he prayed for the preservation of the Union.

Mr. Seward's resolution was adopted, and the Senate balloted, with the following result: Slicer, 24; Stanton, 9; Pyne, 1; Hodges, 2; Sunderland, 1; Beecher, 3. Mr. Slicer was declared elected, when the Senate went into Executive session. Adjourned.

HOUSE. — Mr. Peckham of New York moved a reconsideration of the vote of yesterday, referring various parts of the President's message to appropriate standing committees. The reconsideration was opposed, and the motion laid on the table.

Mr. Fuller of Maine, from the Committee on Commerce, reported a bill for the better preservation of life and property on the Long Island and New Jersey coasts.

Mr. Smith of Virginia moved the reference of the bill to the Committee of the Whole on the State of the Union.

Messrs. Fuller of Maine and Skelton of New Jersey pressed early action in the matter, on the ground of economy and humanity.

Mr. Campbell of Ohio wanted to know whether the bill came within that class of expenditures which the President meant to veto.

Mr. Skelton of New Jersey said he should vote for the protection of life and property on the Northern Lakes and Western waters as cheerfully as he should vote for it on the coast of New Jersey, and for the protection of foreign lives as well as those of natives.

Mr. Campbell asked if Mr. Skelton voted on the bill irrespective of the President's veto.

Mr. Skelton said that he did his duty irrespective of the President's views.

Mr. Campbell—Did you vote for that bill last week?

Mr. Skelton—No, I did not deem it constitutional.

After some further colloquy, Mr. Smith of Virginia remarked that when he moved the reference of the bill he had no idea that the question of constitutional power would arise as to the improvement of rivers and harbors. He thought the gentleman from Ohio had voted consistency an old fogy, and driven it from political action.

Mr. Skelton, in reply to a remark from Mr. Smith, warmly denied that Jerseymen ever plundered the victims of marine disasters.

Mr. Chandler of Pennsylvania agreed with what was said by Mr. Campbell as to lakes and rivers, but would not pretermit protection of the Atlantic coast, which of late has become a Golgotha, and demands legislation on behalf of humanity.

Under the operation of the previous question, the bill passed—yeas 126, nays 45. The bill authorizes the Secretary of the Treasury to establish additional stations along the coast of Long Island and New Jersey, and to change other stations; provides for the appointment of keepers and a general superintendent.

Mr. Greenwood of Arkansas offered a resolution instructing the Committee on the Judiciary to report a bill at an early day providing punishment for forgery and depredations on the United States mails in the Indian territories. Adopted.

The Coal Duties.—The bill for the abolition or reduction of the duties on foreign coal came up.

Mr. Walbridge of New York spoke in favor of the bill.

Mr. Ritchie of Pennsylvania denied that the coal producers in his State had combined to keep up the price of coal. The supply brought to market over the Reading Railroad was 25 per cent. more than that of last year. Increased mining rates and transportation on railroads enhanced the price of coal. He expressed his views in opposition to free trade.

Mr. Witte of Pennsylvania thought that the Anthracite coal men had been ungenerously charged with combination. That charge more properly applied to New-Yorkers and Eastern men, who sought to buy coal so low as to prevent the miners from bringing it to market.

Mr. Straub of Pennsylvania said that Mr. Walbridge told the truth about the price of coal, but forgot to mention that every other necessary of life has been correspondingly increased. (Laughter.)

Mr. Walbridge—Everything except members of Congress. (Renewed laughter.)

Mr. Witte resumed, saying that the abrogation of all duty, under the present circumstances, would not affect the price of coal.

The House went into Committee on the Invalid Pension bill.

The committee rose. The Invalid Pension bill passed.

Mr. Robbins of New York presented a memorial from the American Philosophical Society, asking for an outfit to search for Dr. Kane's Arctic expedition. Adjourned.

NOTICE.—All persons are hereby forbid harboring or trusting my wife Hannah Todd, on my account, as I shall pay no debts of her contracting after this date.

DR. CARL V. MEYER'S

GERMAN

HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thoro' scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. Medical properties of these waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owning to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,

LIVER COMPLAINT,

Piles, Costiveness, and

WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,

SUCH AS

Scrofula, White Swellings, Scorbutive Eruptions, Ulcers, Erysipelas,

Paralytic and Nervous Affections,

CANKER,

AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,

PILES,

PIMPLES ON THE FACE,

Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,

AND ALL

RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS,

COUGHS,

SORE THROAT,

AND ALL AFFECTIONS OF THE

THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE

SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

HERTS BROTHERS

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S

Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE OF Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered extremely, and at last was *entirely disabled from attending to my usual pursuits.* . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Morning Chronicle.

A GERMAN PHILOSOPHER ON FEMALE STUDENTS.—Kant, the German philosopher, says: "It is a peculiar characteristic of beautiful actions, that they appear to be accomplished without effort. Great exertions and difficulties, surmounted, on the contrary, excite admiration, and belong properly to the sublime. Deep reflection, long and continued meditation, are noble, but difficult, and do not properly belong to those whose natural charms for the most part, excite in us no other idea than that of beauty. Exhausting studies and painful researches, to whatever extent a woman may pursue them, have a tendency to deface the advantages which are peculiarly her own. She may, indeed, on account of the rarity of the fact, become an object of cold admiration, but she thereby compromises the charms which give her so much power over the other sex. A woman who has had her head full of Greek, like Madame Dacier, or who writes learned dissertations on mechanics, like La Marquise du Chatelet, would do well to wear a beard, for that would express better the profound knowledge in which it is her ambition to excel. The elegant mind chooses objects which touch the most delicate of the feelings and emotions, and leaves abstract speculations, and useful but dry studies to the laborious, solid and profound mind of man. Thus woman never need study geometry, and need no more of the 'sufficient reason' or of the nature of monads, than would be necessary to feel the attic salt that spices the satires of the small orities of our sex. The fair sex may safely neglect the vortices of Descartes, even when the able Fontenelle offers to accompany them through the starry regions of space."

DEATH OF A FEMALE MISER IN NEW YORK.—The Journal of Commerce says that a woman by the name of Jeanne de Sax, recently died in that city, who had lived for years past in the attic story of a twenty five thousand dollar house which she owned, and the various apartments of which she rented for a handsome sum. She lived like a poor mendicant, receiving alms in the street. She had been prosecuted before the criminal court for larceny of a cap. She was at last run over by an omnibus, which fatality occasioned her death. The Public Administrator finds that she owned bonds to the value of $80,000, making her entire property at least $100,000. She is not known to have had any relative in this country, except a nephew residing in Cincinnati. She died without leaving any will, though often urged to prepare one.

YOUNG MEN'S CHRISTIAN UNION.—The use of the Mount Vernon (Rev. Mr. Kirk's) and the Essex street (Rev. Dr. Adams's) Churches was refused this society, for the lecture by the Rev. Rufus W. Clark, pastor of the Maverick (Orthodox) Church in East Boston. The pastor of the former is reported to have informed the young men of the committee who called upon him in reference to the subject, "that he respected Unitarians and Universalists *as gentlemen*, but could not associate *with them as Christians.*" Some of the Essex street Parish Committee were said to be in favor of the use of the church, but the pastor's objections were so decided that the refusal was made. The lecture was held in the Pine street (Orthodox) Church.—*Tran.*

LAND SPECULATION IN NEBRASKA.—The Cleveland Leader says that Senator Douglas, Mr. Forney, one of the editors of the Union, Bird Chapman, ex-mail agent, and two or three other enterprising gentlemen of that ilk, are interested in a grand land speculation in Nebraska, from which they expect to realize immense profits. They are said to have bought a large tract of what is known as the Indian Missionary Reservation, and are using their influence to have Secretary Cumming appointed Governor, for the purpose of securing the location of the seat of government at Belleville' on the lands of the company. The cost of the land is stated ar $50,000.

Two burglars were recently sentenced in New York to Sing Sing for ten years and six months. They were convicted by the identification of a little stocking, worth only a few cents, which was among the stolen goods.

The Granite Farmer, published in Manchester, N. H., says:—We are told that 80 tons of the 'back numbers' of Gleason's Pictorial have been purchased by the paper mill in this city, to be reworked into white paper.

FRIDAY, DECEMBER 15, 1854.

NEW HAMPSHIRE POLITICS.

The Manchester American comes near the truth, when it speaks of the three political parties in the Granite State as also in the *State of Stupor*. The Whig party—where is it? Who has seen it lately? The great, lately the overmastering Democratic party, has held some conventions, which the American characterises as the skeletons or ghosts of their former living assemblages. And the Freesoilers, too, warm and confident as they used to be, are now, like their old opponents, standing still and wondering what will happen next Spring.

Our columns to-day contain a letter from a lively and intelligent correspondent at Concord, whose sympathies the reader will perceive not to be with the old line democracy of this State, and some of whose statements in the letter seemed strange; but the strangest of them are confirmed by the Manchester Mirror of Tuesday, which has an article of news from the Know Nothings, obtained by "Hook and Lobby Express." The postcript reads thus:

P. S. We have just learned from one of our Messengers that a certain Candidate for Governor withdrew from the Order at Concord last night.

Having read the postscript, some people will like to read the whole article. We copy it with the remark that we do not vouch for its statements, but at the same time there is such an appearance of truth about it, as commends it to our belief, and to the public attention.

Whatever politician in New Hampshire sees fit to know nothing about the Know Nothings here, will wake up some morning next spring, greatly surprised at the posture of affairs generally, and his own position in particular.

MANCHESTER, Dec. 12, 1854.

It takes some time for a New Express to get news in 'ship-shape,' but when our Messengers, whose routes thread the chief towns in this State, get used to the 'drag ropes,' we shall be able to give full details of all the movements of the American Party within the limits of our 'Lines.' Standing on our independent ground, we compromise the dignity of no 'backers' by keeping our readers posted up in all matters political, that they may see to it that the Commonwealth receives no detriment. New Hampshire till last year has been called the 'Gibraltar of Democracy,' when the opposition came so near grasping the reins of government that they felt sure of success in the coming campaign. The K. Ns. have stepped in between both, and are in a fair way of spiking the guns of both, and becoming victorious upon the field, if the numerous political hacks and Arnolds that got into their camps at the start don't betray them into the hands of their enemies, and if they have got back-bone enough to cut loose from all other political organizations. Of these two things they are in great danger, as the statistics our Messengers are collecting, a part of which have been sent in, will show in some future paper.

Our returns thus far show that 249 'Dispensations' for Lodges have been granted in this State, and in all towns but just four there have been organizations of Lodges under them, or the initiatory steps have been commenced, and will probably be completed. There are only about 230 towns in the State, and the reason of so many 'Dispensations' is, that in each city every Ward has a Lodge.

It is so in this city, and in addition to that they all meet together in the Granite Hall each Friday evening, at which meeting Hon. Jacob F. James, former Mayor of this city, is understood to preside.

The great event among the K. N.s of this State, and the one about which there is great 'wire pulling' just now, is a meeting of the Grand Sachems in this city on the third Tuesday of next month for the nomination of Candidates for State Officers and for Representatives to Congress. Of that and the talked-of Candidates, we shall speak hereafter.

The K. N.s of Ward One, this city, held their weekly meeting last evening, as usual. The chief business of the evening was the choice of four Delegates to the State Convention. Those chosen, it is understood, will favor the nomination of a candidate for Governor from this vicinity. This is the only Ward here that has yet chosen its Delegates. The election of Congressional candidates is becoming a fruitful theme of discussion.

In District No. 1, it bids fair to become a 'cut and thrust game.' The two opposing claimants for 'mysterious' support are an Exeter lawyer and a New Market doctor. Both belong to the order, but the former came in regularly, the latter by the back door. It is urged against the former that he has made several secret journeys to Concord. The latter must abandon the position given him by his political friends last week, or his chance is 'no where.'

DR. BEALE.—There being no regular work carried on in the Philadelphia county prison at which Dr. Beale could be employed to advantage, he officiates as an assistant in the apothecary's department, and performs all the dental operations required by the prisoners.

THE ALLEGED SEA-FIGHT OFF SAN FRANCISCO.—The cannonade reported by a vessel which arrived at San Francisco, as having been heard about an hundred miles or so west of that port, was subsequently ascertained, as the last California papers inform us, to have been the practice of gunnery on board the Amphitrite, French steamer.

QUITE A CIRCUIT.—So circuitous is the present line of the Eastern Railroad, that a person in the cars can see the *four* sides of Bunker Hill Monument in the route between Causeway street and North Chelsea.

Correspondence of the Chronicle.

AFFAIRS AT CONCORD.

CONCORD, Dec. 14, 1854.

Messrs. Editors:—Besides the political scandal, which is always a current commodity in this notorious *locus* of a certain peculiar "Clique," nothing is transpiring worthy of note, except the decisions of the Superior Court which is now in session. The petition of Wm. J. Laighton *vs.* Augustus Lord has been dismissed; and the defendant is allowed judgment *vs.* Kinnear for the original *ad damnum* alleged in his writ, to wit: the sum of $2000. The "nonsuit" in the case of Geo. Janvrin *vs.* John J. Scammon *et al.* is "set aside." The weather is "bitter" cold; mercury down to zero. Snow averaging a foot and a half deep, and folks busily astir. In our visit to the State Prison this morning we observed one Jacob L. Dennett, formerly of Portsmouth, at work in the Cabinet shop, in the capacity of "turner." In all his various "turnings" it seems at last he has turned into the very best place for him, and he is now "right side up *with care*." There is one other celebrity we noticed in the Shoe shop "pegging away," who hails from Rye, and, on a time, suddenly "turned up" on Rye Beach, under the name of Joseph Locke. At present there are 92 prisoners in all, including 6 females.

Wendell Phillips, Esq. gave a very interesting lecture before the Lyceum last evening, on "Street Life in Europe." We did not notice a single "giggler" present! Lucy Stone, *Esq.* is announced for the next lecturer. The subject of Know Nothingism is here, as might be expected, vehemently discussed by the ——"Know Somethings." There is trembling and trouble in the administration camp. Poor Butterfield of the Patriot looks very sick, walks with a slow and solemn step, feeling along with his cane like a blind man; it seems as if his energies were entirely wasted in the columns of his paper, on "self-constituted secret Societies," &c. From a certain reply made the other evening to the question of a friend by a "Know Something," to wit: "Improving your mind, sir?" "No! I'm treading the N. H. Patriot," We are of opinion that there is a mighty struggle against the fates in the Patriot's attempt to shed light in certain exceedingly *ignorant* places. The Ides of March are drawing near, and "*Give 'em Massachusetts!*" is the Know Nothing rallying war cry.

There is a report, very generally believed here, that Gov. Baker, not being able to outwit the order of Know Nothings, in which he had cunningly insinuated himself, (no matter for what) has within a few days withdrawn himself in great dudgeon, and that he ever declares he now shall accept no nomination whatever, for the March election! If this be true, Nat. has an eye, sharp and wide open, on the Senatorship, in case discordant elements operate in the next House, as they did at Baltimore, when his friend Frank Pierce was made "illustrious in an hour!"

In haste, Yours, Truly, O. P. Q.

DETECTION OF A COUNTERFEITER IN THE CARS.—HIS FLIGHT AND CAPTURE.—On Monday last, as the train from Boston for Portland was leaving Salisbury, Mass., a passenger, who got in at that station, offered, for his fare, a five dollar bill on the Merchant's Bank, Burlington, Vt, which looked so bad that the conductor, Mr. Towle, started to obtain a detector, when another passenger spoke up, and said that the bill was perfectly good, and gave other bills for it. Some time after, he told the conductor that the bill was bad, and the conductor gave him other bills, and, at the same time, made up his mind to keep an eye upon the original offerer of the bill, who seemed to perceive that he was suspected, for at the junction he suddenly left the Eastern cars and took the train for Dover. The next morning, however, conductor Towle being again in the train, the same individual in a different dress, made his appearance at South Berwick, and took the cars for Portland. A close watch was kept upon him and when the cars were nearing the depôt in Portland, he was seen to jump from the train. Mr. Towle followed him and exciting race followed, Mr. Towle calling upon the people in the streets for help. After a chase of about two miles, during which the fugitive threw away a bundle in his hand, he at last took refuge in a wood shed, which he closed against his pursuers, and, as it is supposed, hid away some of his counterfeit bills. When arrested about $30 of the counterfeit money was found on his person. His bundle, which was picked up, contained $80 more. He gave the name of McKensie, and was committed to jail. It is stated further, that a person supposed to be an accomplice of the prisoner, put up at the Franklin House, Portland, on Monday, saying that he expected a friend from Boston. This person passed off two five dollar counterfeit bills upon the same bank, to the clerk, before he left.—*Traveller.*

FROM HAVANA.—*New York, Dec.* 14.—The steamship Crescent City arrived this morning with dates from Havana to the 8th inst.

H. B. M. brig Espeigle arrived at Havana on the 7th inst, and reports that when at Jamaica, a letter was received from the British Consul at Carthagena, dated Oct. 10, stating that the U. S. sloop-of-war Albany was then at that place, all well.

Don Ignazu Gonzales de Chivareo, the newly appointed Regent of the Real Audencia Pretorial had arrived from Spain.

Planters feared the stock of sugars would prove deficient; sales were inanimate, the late news from Europe had exercised an unfavorable influence. About 40,000 boxes of the old crop remained on second hands, and was firmly held. Assorted quoted at 6 1-2 a 8 1-2 rs, browns 5 1-2 a 5 3-5. Muscovado 4 a 5.

LOCAL.

☞ The lecture before the Mercantile Association, on Thursday evening, was by Rev. Theodore Parker, of Boston, on the Office of the Beautiful in the Development of Man.—The lecturer's conception of the subject was good, and many of his illustrations apt, yet the lecture was not acceptable to all, as it lacked the graces and beauties of elocution, and was disfigured by some indegant mannerisms.

The listlessness of the assembly was so apparent that Mr. P. remarked to a bystander at the close of the lecture, that the Portsmouth audiences were the least attentive of all he had addressed. The inattention doubtless arose in part from the dryness of the topic to many auditors, and also to some accidental interruptions for which neither speaker nor hearers were accountable.

The lecturers grand idea was, that the love and pursuit of beauty elevates the soul; but he did not succeed in infusing much enthusiasm into his hearers on the subject, because he himself evinced no enthusiasm.

☞ In the Board of Aldermen, on Thursday evening, an ordinance on shoveling snow from the sidewalks, was read a first time.

OLD FOLKS' CONCERT.—This musical entertainment came off on Wednesday evening at the Temple, with gratifying success in every particular.

The exercises were opened precisely at 1-4 past 7, by an appropriate prayer, offered by Rev. Dr. Putnam, formerly of this place, but now of Middleboro', Mass.

Then commenced the Music, by exactly one hundred performers, vocal and instrumental, who filled the crowded platform. They comprised all ages from the men and women of seventy and over, down to youth; and they poured forth a mighty tide of harmony and spirit, giving to the old American fugues their true expression, and to a few plain old chorals the weight of sound, without which their nobleness cannot be appreciated.

The house was filled in every part with an intelligent and genteel auditory, who were highly gratified with the performances.

The programme was sung through without omission or substitution; and two or three tunes only were repeated: the whole closing at 9 o'clock, by singing Old Hundred, in which the audience united.

The second concert, announced as "probably to be given on Friday evening," is postponed for a little time. A meeting of the "Old Folks" is called at Exchange Hall on Saturday evening at 7 o'clock, to take the matter into consideration.

☞ The well remembered notes of the Old North bell on the square were heard on Thursday afternoon, for the first time since last April. The workmen, as they were engaged in putting it up in its new belfry, treated us with a few peals, which sounded natural and pleasant. A central bell is seen to be more valuable now than ever before, as we have been without it all summer.

The afternoon trains on the Eastern Railroad, were delayed three hours Wednsday, by the breaking of the axle of the tender of the 3 o'clock down train from Boston, about a mile this side of Ipswich, which threw the cars from the track, but without damage.

CARRYING PAPERS.—We find it a very difficult matter to get the Chronicle delivered to our patrons as it should be done. Any neglect or tardiness of delivery, of which we have notice, we will try to provide against.

8 DAYS LATER FROM CALIFORNIA.

New Orleans, Dec. 13.—The steamship Prometheus, from San Juan, has arrived. She brings California dates to the 24th ult.

The Northern Light left San Juan, 8th inst for New York, with 300 passengers, and $1,000,000.

We learn from the Great Falls Journal that the small pox has appeared at Rochester.—Two cases, both children, are reported. Ample means have been taken by the board of health to prevent further spread of the disease.

NOTICES TO MARINERS.

Newburyport Bar.—Official notice is given that the main channel across the bar having changed so that the two Lights on Plum Island no longer serve as a range for crossing in the deepest water, the outer light will be extinguished January 1 next, and the inner light, (bearing W from the Bar) only will be kept up until the necessary structures can be erected to restore the proper range for crossing the Bar, of which notice will be given.

The light vessels off Upper and Lower Cedar Points, *Potomac River*, will be removed 17th inst., for repairs.

AYER'S CATHARTIC PILLS.

PILLS THAT ARE PILLS!

PROF. HAYES, State Chemist of Massachusetts, says they are the best of all Pills, and annexed are the men who certify that Doct. Hayes knows, viz:—

LEMUEL SHAW, Ch. Justice Supreme Court of Mass.
EMORY WASHBURN, Governor of Mass.
W. C. PLUNKETT, Lieut. Gov. of Mass.
EDWARD EVERETT, Ex-Sec. of State and US Senator.
ROBERT C. WINTHROP, Ex-Speaker House Rep't U.S.
ABBOT LAWRENCE, Minister Plenipo. to Gt. Britain;
†JOHN B. FITZPATRICK, Catholic Bishop of Boston;

MEN WHO ARE MEN.

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to once to know it.

EIGHT DAYS LATER FROM EUROPE.

ARRIVAL OF THE PACIFIC.

The steamship Pacific, Capt. Nye, from Liverpool, Thursday, Nov. 30, arrived at New York Wednesday forenoon, with 164 passengers. The Arabia, from New York, Nov. 16, arrived out on the 26th.

The commercial news is not of great interest. Cotton had again slightly declined, and the business continued dull, as well as trade in Manchester. Breadstuffs remained about as before reported, and consols in the London market were a shade lower.

THE WAR NEWS.—The Pacific brings nothing decisive from the seat of war in the Crimea. No general action had been fought since that on the 5th of November, of which it is now said—

The Russian losses at the battle of Inkerman are confirmed at 15,000 in killed and wounded. The allies had buried 5,000 Russians, left dead on the field.

The Paris Moniteur affirms that there were 70,000 Russians engaged at Inkerman.

The Russian accounts come down to Nov. 18. A despatch from St. Petersburg of Nov. 26, says:

Menschikoff writes on the 18th that the seige operations had been suspended, and that the cannonade had gradually relaxed. On the 18th it had almost entirely ceased.

A Paris letter says, a despatch from Gen. Canrobert, dated Sebastopol Nov. 13th, states that the operations of the seige were progressing well, and that the health and spirits of the armies were good. 1,800 men, of Gen. Maynard's advanced guard, had landed on the 13th.

DREADFUL LOSSES IN THE BLACK SEA. A despatch from Constantinople of Nov. 20, has the following brief account of a most disastrous gale on the 14th of November:—

Thirty-two English transports were lost in the Black Sea on the 14th inst. The Prince and the Sea Nymph *foundered with all on board*. Three mail steamers have been stranded.—The Sarspereil was driven ashore and set on fire. The Britannia had five feet water in her hold. The Agamemnon was stranded, but got afloat again. The Samson's machinery is damaged. The Retribution was saved by throwing her guns overboard. The Terrible escaped without injury. The Henry IV. and Paito are lost.

From Odessa, Nov. 22, it is reported that three ships-of-the-line and eighteen transports were greatly damaged in the gale of the 14th.

Further accounts say—

The hurricane of the 14th did not extend beyond the Black Sea, and supplies and reinforcements were constantly arriving, in spite of the stormy weather. Constantinople dates of the 20th state during the previous ten days at least 15,000 men, to reinforce the allies, had sailed for the Crimea, and passed the Bosphorus on their way thither.

THE DANUBE.—It is now stated that the French and Turks are to invade Bessarabia, and that Louis Napoleon has announced that the allies will be powerfully supported.

It is reported that the command of the troops to be sent to Bessarabia has been conferred upon Gen. Baragnay d'Hilliers. The movement upon Bessarabia had already commenced.

PEACE NEGOTIATIONS.—The Austrian, Prussian and German diplomatists are active in endeavoring to get up new negotiations, but France and England have notified them that they will not now treat on the basis of the four conditions.

A despatch from Berlin of the 28th says:—The Russian answer to the Prussian note expresses the willingness of the Emperor to treat on the following terms: 1st. Upon the guarantees of the five powers of the rights of the Christian subjects of the Ottoman Porte without distinction as to profession. 2d. A common protectorate of the Principalities to be exercised by the five powers on the terms of the now existing treaties between Russia and the Porte. 3d. A revision of the treaty of 1841. 4th. The free navigation of the Danube.

GREAT BRITAIN.—Parliament is summoned to assemble on the 12th of December, instead of the 14th. Ominous rumors are prevalent of a ten millions sterling loan, and a 10 per cent income tax. Increased powers will also be asked for the embodiment of the whole militia of the kingdom, by compulsory ballot if required.

At a meeting of the creditors of James McHenry at Liverpool, the accountant represented that the creditors might expect one shilling and sixpence on the pound, but hopes were still entertained of two or three shillings. Bad debts in the United States are said to have created a deficiency of £307,850.

M. Ivanhoff, ex-Secretary of the Russian embassy, has been ordered to quit France, as also are all other Russians in the empire.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clap boards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

THE BALANCE OF POWER IN EUROPE.—Dr. Solger, in his recent lecture on the Eastern question, in our opinion put the *casus belli* in the East on its true footing. The war with Russia has for its principal object the maintenance of that somewhat fanciful theory, "the balance of power." This also was the ostensible ground for the great Thirty Years' War, which exhausted the resources of all the powers engaged in it; and it may not be out of place now to revive the recollection of the couplet of the wit, on its termination,

"Now Europe's balance'd, neither side prevails,
For nothing's left in either of the scales."

"DOSTICKS."—"Cudgel thy brains no more about it." Mr. Dosticks's name when at home is Mortimer Thompson. J. Sterling Morton is probably one of his aliases. It is a matter of small consequence perhaps. Dosticks's correspondence displays considerable humor, though we think if he wrote less he would secure a more lasting popularity.—*Chicago Journal.*

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has long been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists call for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all conscientiously and while honestly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give all reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

AMERICAN AND FOREIGN OFFICE.

Agency for business with US Patent Office, Washington,
73 State st. oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to pursue a careful investigation in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted to him in the case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can have all themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the great great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in stating to those that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not corrode nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Morning Chronicle.

PHILADELPHIA, Dec. 12.—PROCEEDINGS RELATIVE TO THE FUGITITE SLAVE LAW.—The Supreme Court of Pennsylvania, Justice Lewis presiding, gave a decision this morning that in the following case the Circuit Court had no jurisdiction, and the Sheriff was guilty of contempt of court:

The attachment is not granted because of the ignorance of the sheriff. Last year, at Wilkesbarre, the officers who attempted to capture Bell Thomas, a fugitive slave, were arrested on an indictment for assault and intent to kill, found by the court of Luzerne county, but Judge Kane of the U. S. District Court discharged them. They were re-arrested by order of the Supreme Court, and while in custody of the Sheriff were taken before the U. S. Circuit Court on a writ of habeas corpus. Judge Grier, on hearing the testimony, ordered the Sheriff to discharge them. The Sheriff obeyed the mandate. The present action was for an attachment against the Sheriff for contempt of Court.

THE SHIP GREAT REPUBLIC.—This ship which was taken into the Naval Dry Dock at Brooklyn, on Saturday, came out yesterday afternoon. While in the dock, a favorable opportunity was had of viewing her proportions below the water line. Her keel, lines, &c., which remain unaltered, are as perfect as when she was first launched, and she has been rebuilt and improved in the most effective manner, making her a far more serviceable vessel than before. She is 304 feet in length, although erroneously stated to have been 325; 48 feet 4 inches in breadth, and will register about 3,380 tons,—having one deck less than before. She will be at her dock, foot of Dover street, E. R., in a few days, when her destination will be fixed.—*N. Y. Journal of Commerce, Dec.* 12.

A MURDERER AND HIS JURY.— Wm. A. Jackson was tried at St. Louis last week for the murder of J. B. Laidlow, and on the 7th the jury in this case returned a verdict of not guilty. The result was received with much astonishment, which was not lessened when immediately after the rendering of the verdict Jackson invited the jury around to his cell in the jail to take something to drink, and *they went.*

ABSQUATULATION.—T. P. Kippa, a Western Missouri merchant, recently eloped from his creditors and a destitute family, taking with him all his substance and another man's wife. He owed $6,000 or more in St. Louis, and several thousand in his own neighborhood, and what appears most singular in his case is the fact that he was so much in debt elsewhere that he assumed another name, and this was known to those who gave him credit in St. Louis.

At the time of the earthquake in 1811, major K. was amusing himself at a game of euchre, in which he delighted, with some of his friends. The shock, at this moment, was so severe as to cause his friends to spring to their feet and make for the door. "Play out the hand—play out the hand,"—cried the major. "Earthquake, Major, Earthquake!" replied some one. "Well," was his cool advice, "let it quake—you can't stop it."

SUFFERING OF IMMIGRANTS.—A family of German emigrants recently landed at New Orleans, have been discovered in a dreadful state of destitution at a lodging house there. Four of their children were found dead in a room, having died of cholera, brought on or aggravated by destitution and neglect.

DENTISTRY.—The St. Louis Democrat announces a triumph in the art of dentistry, an operation by Dr. Forbes of that city, for the substitution of an artificial jaw bone for a natural one. The patient was the Rev. J. H. Hertzell, of Quincy, Ill.

SWEEPING STREETS BY MACHINERY.—The streets of Philadelphia are about to be swept by machinery, the necessary apparatus, Whitworth's patent, having arrived at New York in the Baltic on her last trip.

A large public meeting has been held at Montrose, Pa., at which resolutions were adopted proposing the formation of a Republican Party," based upon opposition to Slavery Extension and the Fugitive Slave Law.

Bowler's Rock light boat, *Rappahannock River*, was removed from her station 8th inst.

Official notice is given that the Ledge light ship, *Delaware Bay*, will be removed for the winter on or about 15th inst.

SATURDAY, DECEMBER 16, 1854.

ANOTHER DIALOGUE.

Boston Mail.—This apologist for treason can see no difference between rebellion against King George by Yankee revolutionists, who periled their own necks, and treason against the laws and constitution of the United States, enacted by cowardly incendiaries, who send their fanatical dupes to commit riot and murder, while *they* sneak off to their comfortable homes, protected by the very laws which they outrage.

Portsmouth Chronicle.—We have yet to learn that Parker or Higginson are cowards, or that they are greater incendiarics than Hancock and Adams. Both were rebels, and if the Mail pleases, both traitors. There is some difference, however, which we think we see, although the Mail asserts that we cannot see it.

Adams and Hancock and Warren plotted treason and incited mobs against a tax on tea and paper, which afflicted their pockets and offended their pride of independence. Parker and Higginson preached their treasons and lifted their hands in rebellion against a bill which treats human beings as property, and which calls upon freemen to do the dirty work of slavery.

Tyranny remains tyranny, and wickedness is only wickedness, when they are put into the forms of law by a body of men called a British Parliament. And when worse enactments are made by another body called an American Congress, the case is not altered for the better. The cloven foot and tail of injustice are visible beneath the cloak of pretended liberty and the sanctity of pretended law. Indignant freemen trample on this tail, and the great moral patriot of the Mail shouts Treason! treason!

Mail.—We pity the stupidity of the Portsmouth editor, and would advise him to pack up his traps and remove a little further east, into the British Provinces.

Chron.—We are much obliged by the advice, but do not quite comprehend the force of the compliment. It is much easier, sometimes, to accuse an opponent of stupidity, than it is to refute his positions.

Mail.—Should he happen to make a journey to Boston first, some of our school boys will teach him that the Boston Massacre happened some five years before the American Revolution.

Chron.—Well, sure enough it did, if by the Revolution he means the War,—but whatever he means by it, we said not one word to the contrary.

Mail.—He allows his willingness to "strain at a gnat and swallow a camel;" but from his present confusion of ideas, we doubt not his ability to "strain at a *gate* and swallow a *saw-mill*," as some booby, probably kindred to himself, once rendered the text.

Chron.—This remarkable combination of wit and courtesy is of course quite unanswerable in our columns, and is here introduced, partly for the sake of copying the whole rejoinder of the Mail, but chiefly to exhibit a fair specimen of the new editor's style of writing, which is surely as much of a model in its way, as he is of a model man in all the moral and social virtues.

ORDINATION.—Mr. Alexander Plummer, of South Berwick, was ordained to the work of the Gospel Ministry on Wednesday last. The very interesting services took place in the Congregational Church in South Berwick, in the following order:

Introductory prayer and reading of Scriptures, by Rev. Mr. Thornton; prayer by Rev. A. W. Fiske; Sermon, by Rev. S. L. Pomroy, DD. of Boston; Ordination Prayer, by Rev. A. Tobey; Charge, by Rev. Mr. Atwater. Right hand of Fellowship, by Rev. Henry D. Moore; concluding Prayer by Rev. B. F. Parsons; Benediction, by the Candidate. The services were very solemn and impressive.

Mr. Plummer has been accepted by the A. B. C. F. M., as a Missionary, and will sail during the next week for the Armenian Mission in Turkey. A young wife, sister and brother-in-law, accompany him. Dea. Plummer thus gives up a son and daughter to this interesting work.

DEMOCRACY IN BOSTON CUSTOM HOUSE. The Democracy of Ward twelve held a meeting on Wednesday evening, Jesse Batchelder presiding, for the purpose of discussing the subject of "Whigs in Office." Resolutions were presented which set forth that a majority of the persons employed in the Appraisers' office of the Custom House were Whigs or Anti-Administration men, who, according to party rules, had no business there at the present time, inasmuch as they were doing all they could to pull down the present national government. They further represented that the Ward and County Committee waited on the Principal Appraisers, by whom these men are employed, and desired them to remove the obnoxious persons. This request, however, was refused. The resolutions, then, in the name of the true Democracy, call for the speedy removal of the principal Appraisers, and the appointment of men who will retain only such as are true Democrats and real Administration men. Speeches were made by Samuel R. Spinney, Isaac Adams, and Joshua Jenkins, and the last named gentleman advocated the removal forthwith of Messrs. Allen, Crocker, and Fletcher Webster. The resolutions were passed and the Chairman instructed to act in behalf of the meeting in representing the matter to President Pierce.

LOCAL.

ADDRESS

Of the County Temperance Convention to the people of Rockingham County.

Fellow Citizens:—When the abolition of any custom or usage which has been long permitted among us is proposed, a reason for such proposition may be demanded by those who are called upon to participate in the performance of such an act of abolition.

For a long period the people of New Hampshire have permitted intoxicating drinks to be made an article of trade, and, under certain restrictions, to be supplied to those who have desired their use.

Under the laws now existing in the State, and in accordance with the provisions of those laws, it has been found extremely difficult to accomplish what those very laws seem to admit as the judgment of those who passed them, namely, that the State might of right, and ought in duty to its citizens, to abolish entirely, the commerce of rum, as a trade of wrong and ruin.

The question of suppressing the sale of intoxicating drinks is a question of more or less magnitude, to be advocated or opposed, according to the consequences involved and the interests at stake. In favor of the continuance of the traffic, two interests, and two only, are found to plead. The first of these interests, and that which influences the greatest number of persons, is the indulgence of the appetite, which is gratified by the use.—The second interest, and that which affects a smaller number of persons, is the hope of profit to the trader from the trade. Beyond these two interests there are none.

We admit the right of every man to eat and drink what he pleases, so long as his liberty does not become a cause of oppression to others, by abridging their right to life, liberty, or the pursuit of happiness; or by limiting or destroying their right and privilege of religious, moral, social and physical pleasure or progress. But when any custom or practice is found to be subversive of these common and exalted rights of a people, we hold it to be among the first duties of government to use power sufficient to remove such custom entirely, and deliver the people from the oppressions consequent upon them.

The people of New Hampshire have for a long time protracted the custom of trafficing in intoxicating drinks, and have now sufficient evidence in the case to judge of the consequences which follow. It would seem superfluous to write them, for who has lived among us for the last quarter of a century and has not read the story written in lines of blood? Who among us has been so fortunate, that he has had no occasion to weep in silent anguish for a father, or a brother, or a son, doomed to deep disgrace, to deathless dishonor, or perhaps to that dreadful disease under which the subject is tortured with terrors more dreadful than man as a rational being ever knows, and makes a hurried passage to the grave through delirium tremens? What man can rise up from the ranks of a New Hampshire host and proclaim that his life has never been saddened by the fact that a mother, a sister, a daughter, or some dear friend of his youth, has had occasion to covet the grave as a deliverer from the bonds that bound them to a living death, in the form of a marriage union to an intemperate husband?

Our ears have been saluted with the shrill screams of the maniac, made such by rum.—Our eyes have looked upon the mangled forms of the victims of malignant murder; and the murderer's fiendish fury has been traced to the tavern as the place of its growth and maturity. We have seen the eyes that looked with love and hope become red as blood with weeping for the sorrows that none had power to heal; and we have seen the cause in the simple fact that the river of rum rolled on. We have heard the wailing of widows, whose heads had grown gray from grief when they had hardly seen a score of years. We have seen the train of trembling orphans, ragged and homeless, and a terror to both old and young. We have seen the statesman staggering in disgrace; the politician plotting for party, at the expense of purity, and purchasing place by a plea for rum; and the Christian, for whom Christ has died, forgetting his high and holy calling, sinking his soul in shame, and leading his sons into the greatest snare of sin, by pleading an apology for a custom which can only curse the land.

Will the sons of New Hampshire again look upon the graves of the degraded dead, and then go and sell the future peace and prosperity of the people for the profitless success of some particular party? Will they thus pay tribute to wrong, and trifle with their most sacred rights and interests? If we *must* believe it, let us not believe until the last.—Let us hope, while we live to pray; and pray while we live to labor. There is justice in heaven, and the power of deliverance in the right arm of the Lord.

We have no bitter war with the rum-seller, as though he intentionally sought and *desired* the ruin of the thousands who are crushed beneath his car of destruction. His simple object is *gain*. For this object he sets at nought the common good of the community, and transgresses the laws of the land without restraint. It is certainly a matter of very serious concern to the people, that so large a number of persons should be found in our midst, who, merely for sake of gain, will set at nought the best interests and the proper rights of the mass, and bid defiance to all law which offers us protection from the giant evils of such a traffic.

From the thief and the highwayman, we have no offer of protection, except from the laws of the land. But the lawless seller of intoxicating drinks bids defiance to law, and prosecutes his business to the destruction of the most sacred rights and interests of the community, and makes the land desolate by his fearful power.

We have a right to demand freedom and exemption from all the dreadful consequences of his unlawful and destructive business; and the state has a right to break up entirely every such instrumental cause of oppression and corruption. The first great duty of government is to protect its individual citizens from every system and every kind of oppression and outrage. Upon this principle of political right we should stand, and maintain the conflict until the day is done. If we show ourselves indifferent to the common rights of a virtuous people, as we shall do if we neglect to contend against this great and desolating transgression, we shall cease to be worthy of the name of Christians, or even of Republicans. Those who transgress both the laws of God and man, and bring a desolating scourge upon the land, should be held deserving of punishment as severe as the evils which they inflict are aggravated and unmerciful. When this principle shall be applied, there is no crime which will be found crowded more full of awful desert than the one under consideration.

We desire not severity of punishment; but we have a right to demand deliverance from a most fearful and desolating scourge, under the influence of which every interest of the people is made to suffer; and if that deliverance can not be effected without the just severity of law, then let justice fall upon the guilty, until they relinquish their sinful business. And when the notes of triumph shall be heard from our hill-tops, then shall ascend an anthem of praise to the Most High for our deliverance, and the song of angels be sounded anew, "On earth Peace, good will to men."

A. G. COMINGS, WM. SAMSON, DAVID BURT, } *Committee of the Rockingham Co. Temperance Com.*

TEMPERANCE IN OUR CITY.

We understand that at a meeting of the Clergyman and other friends of the cause on Friday afternoon, the following plan of operations was proposed by Rev. E. W. Jackson, Cor. Sec. of the State Committee, and adopted with entire unanimity. Meetings are to be held in each church in the city on Monday of each week. The first will be Monday evening next, in the Methodist church—to be addressed by Hon. Neal Dow, of Portland and Rev. E. W. Jackson. And one week from Monday evening by Mr. Jackson. We sincerely hope that these meetings will be fully attended by our citizens generally.

For the Chronicle.

Messrs. Editors:—A certain class of persons are frequently remarking that "our clergymen are afraid to speak out on the subject of temperance." When therefore they do speak in behalf of the cause, they should have the credit of it. I noticed in the report of the temperance convention held the present week at the Temple, that the name of one of our clergymen who had the moral courage to speak before that august assembly, was omitted. I would also suggest that a more full report of the discussions that took place would be interesting and profitable to the public.

Dec. 15, 1854. —— Yours, A.

The omission of Rev. Mr. Moore's name was made accidentally, in abridging the account for the press. The memoranda of the proceedings by the Secretary, were correct and ample, but the editor shaved the matter down to save space.

☞ The alarm of fire was raised on Friday evening; and the fire proved to be in the attic of a house in State street, occupied by Mr. James F. Shores, Jr. It caught, probably, from the burning out of a chimney in the afternoon; and was extinguished with a few barrels of water.

We are requested to remind the Engineers, or other officers that have the matter in charge, of the duty of keeping the aqueduct stops clear of ice.

☞ Elder Moses How, formerly of this place, now of New Bedford, will preach tomorrow in the Pleasant street church.

"PROMISING" FELLOWS.—A "man" employed us to do a little advertising for him, last Fourth of July; and in the course of time we sent him a bill,—adding thereto another item which we supposed was to be charged to the same body. He replied that if we would take off the latter, he would pay the other. This was done, and then he said he would "call in"—which answer was returned at last three times. The fifth time the bill was sent, he returned us word that he did not wish it *sent* again—he would "cave in." Since then, he wants to know "if that's an honest bill!" and finally, he twice says, that if *we* will come to him, he will pay it. This notice is chiefly to inform him that when he wants more "Son's" celebrations advertised, he will pay for the work first.

☞ There is another younger fellow from the good town of G., who has just set out to be an "Ocean Rover"—left this vicinity for its good—a mere boy, who after sponging everybody who relied on his family property to make good his bills, has left many small creditors in the lurch. Such fellows ought to be "posted," or else have guardians—so that the public should not be gulled by placing in them the faith an *honest* man or boy merits.

Our black list is very small—and we will not give further extracts at present.

PILLS THAT ARE PILLS!

PROF. HAYES, State Chemist of Massachusetts, says they are the best of all PILLS, and annexed are the men who certify that Doct. Hayes knows, viz:—

LEMUEL SHAW, Ch. Justice Supreme Court of Mass.
EMORY WASHBURN, Governor of Mass.
W. C. PLUNKETT, Lieut. Gov. of Mass.
EDWARD EVERETT, Ex-Sec. of State and US Senator.
ROBERT C. WINTHROP, Ex-Speaker House Rep. U. S.
ABBOT LAWRENCE, Minister Plenipo. to Gt. Britain;
†JOHN B. FITZPATRICK, Catholic Bishop of Boston;

MEN WHO ARE MEN.

Among the diseases this Pill has cured with astonishing rapidity, we may mention:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

Agents in Portsmouth, W. R. PRESTON, J. H. THACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m n30d&w

New Light and more Light.

PATENT SMOKE-BURNING

OIL LAMP!

THIS newly invented Lamp, so differently constructed from anyother, is believed to be the BEST LAMP ever offered to the Public, for the following reasons:—

It requires only The Poorest Oil, Lard, Tallow or Grease; and with the same material, produced FOUR OR FIVE TIMES AS MUCH LIGHT As ANY other known Lamp. It is simple in its construction (consequently not liable to get out of order.) By its use, the danger from Fluid and other EXPLOSIVE COMPOUNDS is avoided; at the same time without the least odor, an amount of Light is produced truly astonishing. The economy with which it may be used makes it desirable for every one, while the price of it puts it within reach of all.

Hundreds of testimonials from those using them, may be seen at the Store of the subscriber, who is the only agent for the sale of them in this city.

Sagamore House,

FROST'S POINT, RYE, N. H.

THE Proprietor of the above named House has made arrangements so as to provide for the reception of parties, at short notice, through the coming winter.

The table will be furnished with all the delicacies the market affords, as well as the substantials which are necessary in a well ordered house.

This House is within thirty minutes' ride of Portsmouth, and having been favored with an extensive patronage for the past two years, is now well known to the public.

The above arrangement, which is a novelty in this section, the Proprietor hopes will be duly appreciated, and that a portion of the Winter Pleasure Parties may turn toward his house, from which a fine view may be had of our rock bound coast, against which the wintry blast hurls the lashing wave.

CONGRESS.

WEDNESDAY, Dec. 13.

SENATE.—Mr. Seward presented letters from various old soldiers, saying that a convention of the soldiers of the war of 1812, and other wars of the United States, will be held at Washington on the 8th of January, to urge upon Congress the justice of granting them bounty lands. The present letters were to apprise Congress of the meeting of the convention, in order that they might provide, at the public expense, for the reception, entertainment, and accommodation of the members at Washington. Referred to the Committee on Military Affairs.

The Invalid Pension Appropriation bill was received from the House.

Mr. Badger introduced a bill increasing the compensation of Judges of the Supreme Court and members of Congress fifty per cent.

The bill was laid on the table for the present.

HOUSE.—Mr. Murray of New York, from the Committee on Printing, reported a resolution for printing the recently arranged abstract of the census, 15,000 copies. The resolution passed.

The House went into Committee of the Whole, and took up the Indian Appropriation bill.

Mr. Mace of Indiana said he rose to discuss a subject of importance—to bring the House back to where they were before the passage of the Nebraska Bill. He should soon introduce a bill prohibiting slavery in Kansas and Nebraska. The bill is straightforward and to the purpose. It is an exact copy of the eighth section of the Act of March 6, 1820, for the admission of Missouri into the Union. He said Kanzas never could come in as a slave state.

Mr. Oliver of Missouri replied that under the professions of love of country, and desire of peace, the gentleman comes with a miserable scroll to prohibit slavery in Kansas and Nebraska—the very thing which, in 1820, threatened the safety of the Union. He denied that Mr. Atchison interfered in the late Kansas election, but said "What if he did? Did not Eastern men get up societies to send men into Kansas to vote against slavery?"

Mr. English of Indiana said that if he was not misinformed, his colleague, Mr. Mace, was one of the originators of anti slavery circulars. The motive is now developed. The gentleman having failed to prevent slavery by emigration, this bill is introduced to accomplish that effect in the territories.

Mr. Washburn of Maine, said that gentlemen should not be surprised at any attempt to restore the anti-slavery ordinance. The sentiment of the North was almost universally in favor of early, practical, persevering efforts to restore the principles of the Missouri Compromise.

Mr. Stephens of Georgia obtained the floor, the committee rose, and the House adjourned.

THURSDAY, Dec. 14.

SENATE.—Mr. Fish presented the memorial of the Chamber of Commerce of New York, praying for an expedition for the relief of Dr. Kane and his party. Referred.

Mr. Sumner offered a resolution that inquiry be made as to the expediency of abolishing the tax on merchant seamen known as hospital money, and of allowing them the use of hospitals free of tax. Adopted.

After some unimportant business, the Senate adjourned till Monday.

HOUSE.—Mr. Cutting of New York, introduced a joint resolution authorizing the President to adopt measures to procure the erection of a first class light house at Cape Race.

The House then went into committee on the Indian appropriation bill.

Mr. Stephens of Georgia, said he did not propose to reopen the discussion on the Nebraska and Kanzas bill. He considered the question settled then and now. The passage of that bill was a grand step in progress. He did not agree with Mr. Mace of Indiana, that the results of the late election demanded its repeal. Those results astonished everybody, but how did the gentleman from Indiana infer that they set the seal of condemnation upon the friends of the great popular movement of last session. Those elections had nothing to do with the Nebraska bill. He referred to Pennsylvania, which had sent to the next Congress men who had both voted for and against the bill. He said an anti-Nebraska Governor of Pennsylvania had been elected by only 37,000 majority, while a Canal Commissioner, with contrary opinions, was elected by 100,000 majority. In Massachusetts, those gentlemen who voted for the bill were left at home, falling by the destroying angel who was not seen in the night. He took Illinois for instance, where this issue was distinctly made a test; there were but three members who voted for the bill, but the people returned four. This shows that the measure was popular. The popular vote in Illinois was for sustaining the bill, and that was his point.

Mr. Washburn of Illinois, wished to disabuse the gentleman from Georgia, who had assumed that there had been a Nebraska triumph in Illinois. He was right that the issue had been fairly made in the State on the Nebraska Kansas bill, and Douglass discussed it over that State with a zeal worthy of the cause; but instead of the bill being endorsed by the people, it was repudiated by a popular majority of from 14,000 to 16,000 votes, taking the votes for Members of Congress. In his district the anti-Nebraska majority was 7000.

The debate closed by limitation, the committee rose, and the House adjourned.

FIRE IN PHILADELPHIA.—A despatch from Philadelphia, states that the chandelier factory of Cornelius & Co., on Cherry street, in that city, together with fifteen dwelling houses, were destroyed by fire Tuesday morning. The factory gave employment to four hundred workmen, and was filled with an immense amount of finished work, ready for shipment. The stock was valued at $150,000. The building cost $50,000. The whole insurance upon the establishment and contents is $137,500, divided among the city offices. The eastern wall fell during the conflagration, crushing several dwelling houses on Raspberry Alley, but the occupants had previously left on account of the fire.

Hill, Carpenter & Co., of Providence, have failed for half a million of dollars.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to change this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

Patents.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, FIFTEEN DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them a speedy and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

HERTS BROTHERS'
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not rather nor cut the thinest paper. and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF FLOODING; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

TERMS.—$1 GALL, 33 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Sch Caroline, of and from Machias for New York, was discovered to be on fire in Rockland harbor, evening of the 9th inst., and as she lay some distance from the shore, she was burnt to the water's edge, afr. Before the fire was extinguished her masts were cut away, and a portion of her sails and rigging saved in a damaged state. The Caroline was loaded with lumber under deck, and spars on deck, and had put into Rockland with one man sick with small pox, a few days ago. The man died on board, and it is supposed the fire caught in smoking the cabin out; there were three men on board in the forecastle, and when they first discovered the fire the cabin was all in flames. The deck load of spars were badly burnt, and the vessel lies at anchor full of water.

CASE OF SEDUCTION.—The New Haven Journal says that a young man residing in Westville, who has been employed in the factory of Wales French & Co., is reported to have seduced under promise of marriage, *four* young ladies, two of whom reside in Woodbridge and two in Seymour. He has now decamped, and was followed to Bridgeport, but has eluded the vigilance of the officers, having escaped, as was supposed, to New York.

The rogue is described as a fine looking fellow, with fair features, and curly hair—rather tall, and has a prepossessing appearance. His name is withheld for the present.

DANIEL WEBSTER'S PROPERTY.—The winding up of the affairs of the late Daniel Webster, it is said will result in a dividend of some 20 per cent. to his creditors. The real estate is reported to be worth $35,000, on which there is an encumbrance of $30,000. The personal property is valued at $20,000. The debts and expenses of settlement will amount to $137,750.88, which does not include claims contigent on the final disposition of the estate.—*N. H. Patriot.*

THE SLAVE TRADE.—The New York Evangelist states, from the authority of Capt. Smith, now in custody on a charge of being a piratical slaver, that New York is the chief port in the world for the slave trade, and that, neither in Cuba or the Brazils is it carried on so extensively. Quite a large number of shipping houses in that city are interested in the trade.

THE WORLD'S FAIR AT PARIS.—The grand *Exposition Universelle*, as our French neighbors call it, and which is to be opened in Paris, in May next, promises to be fully equal in interest to the London Exhibition, and to surpass it in the richness and beauty of the works of art.

A NEW PLACE FOR A YOUNG LADY.—The Boston watchmen Thursday evening fished a young woman named Margaret Sprague out of Long wharf dock. She seemed to be under the influence of liquor, and the only wearing apparel upon her body was a shabby calico dress. She was conveyed to the nearest station house.

The throwing of the lead in approaching the shores of Long Island and New Jersey, which are inclined planes, is the most effective guard against going ashore, and in most cases of shipwreck has been sadly neglected.

Pride is as loud a beggar as want, and a great deal more saucy. When you have bought one fine thing, you must buy ten more that your appearance may be all of a piece; but it is easier to suppress the desire than to satisfy all that follow it.—*Franklin.*

IMPORTANT IMPROVEMENT —IN— Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots.*

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing* the *thin edge.*

Applications for rights and machines, or for further particulars, can be made to the Patentee,

MONDAY, DECEMBER 18, 1854.

MORE OF N. H. POLITICS.

The Hook and Lobby express of the Manchester Telegraph, Dec. 14, gives us some more intelligence from the Know Nothings, from which we make the following extracts:

Gentlemen long versed in the secret "ways and means" of the Democracy, and others equally adroit in managing for the Whigs, and not a few others of the Anti-Slavery School, took each other by the buttonholes, at various times, at Portsmouth, Great Falls, Concord and this city, and other sections of the State, for the purpose of raising a superstructure, by the aid of the dear people, upon which these "Ins" might remain *in*, and the aspiring "Outs" be gratified with a nibble at the public spoils. For a time the work went on briskly; mutual confidence among the leaders, A., B. & Co., led to a quiet augmentation of numbers from all the parties. Things thus continued till the Order had extended over one-third of the State, when mutual distrust took the place of confidence, and the leaders were found to be all by the ears.—Another power which they had hoped to mould to their wishes, I mean the *dear people*, were found to protest against being sold in the market. * * * * This induced the leaders to change their tactics, and seek each for his individual aggrandizement, at the expense of solemn stipulations, each to the other. Distinguished Democrats saw that their only hope was to institute Orders in different places under their auspices; the same law of necessity seemed to control the movements of some of the wirepullers of other parties. Here was clashing, and anything but harmony resulted. The consequence now is that the three old parties in the State are arrayed against each other inside of the Order, distrustful, hoping, doubtful. True, the Whigs and Free Soilers are inclined to amalgamate in order, at the State Convention to be held in this city next month, to secure the nomination of Candidates of their political faith, leaving only a few dry bones for the Democrats to pick—enough to get some of their votes. Such is the condition of the *fuglers*,—the mass of voters not being let into the secret.

Another expressman of the same date says:

The introduction of the Know Nothings into this State has opened a wide margin for political ambition. Men now aspire to be Governor, Congressmen, and even U. S. Senators who a year ago would have regarded a seat in the Representatives' Hall at Concord as the height of their expectations.

The open and undisguised fact that our present able and popular Chief Magistrate has recently withdrawn from the Order, elicits much discussion. His best friends say that his joining was the most inconsiderate act he ever committed. "It exposed him to the keenest shafts of his opponents, who, otherwise could not have said a word against him. The Editor of the Freesoil paper in this city seized upon the Governor's antecedents in 1852, and with all the zeal which an old grudge could inspire, placed them before the public. The old, undaunted Democracy were indignant, and the State Central Committee are said to have told the Governor that he must withdraw from the secret organization, or be *Atwoodised*. As he had accepted the nomination of the Democrats, perhaps he was in duty bound so to do.

This result has left the Gubernatorial ring open to a large number of candidates. * * * * Last, but not least in his chances, is the unobtrusive but most worthy Mayor of Portsmouth, who would do honor to the station should he be called to fill it.

The New Hampshire Gazette of Dec. 16, denounces the K.-N.'s and advises all true democrats to leave their ranks. The same paper contains two columns of apology for slavery and the fugitive slave law.

No paper, so far as we see, has denied the statement that Gov. Baker did join the Know Nothings. We suppose it to be true, therefore, that he did join them;—and also true that he has now left them. If these things are so, his defeat in the coming election is rendered pretty certain.

HARD DEMOCRACY.

With regard to Representatives to Congress, the Concord Reporter (Hard Democratic) asserts that Messrs Kittredge and Morrison were renominated for Congress in New Hampshire as the most certain way of defeating them, and adds:—

"The managers supposed that by nominating them and placing them upon a platform of *approval* or *acquiescence* in this Kansas-Nebraska measure, they would thereby detach from them the votes of the opponents of that measure, and let them fall to the ground. Then they would proclaim that their opposition to the repeal of the Missouri Compromise was the cause of their defeat."

The Reporter calls upon Messrs. Kittredge and Morrison to define their position in the Nebraska question, as they are in an anomalous position, in being presented as candidates by the Nebraska party, when they had both voted against the Nebraska bill.

MAYOR SMITH.—The Albany Argus refers to the re-election of Mayor Smith as "a noticeable feature in the history of the times," and adds:—"He was the anti Abolitionist candidate—as such opposed, and as such elected. He saw that the Fugitive Slave law was executed, and sided in the enforcement of it so far as lay within his jurisdiction. His success is an event in the annals of Boston; and he is the first Mayor of whom Boston can boast for many years as being a National man." The election is not, however, so palatable to Fred Douglas's paper, which rails at Dr. Smith in good set terms, and calls him "the miserable tool of the slave power."

VERY TRUE.—A poor Irishman who applied for a license to sell ardent spirits, being questioned by the Board of Excise as to his moral fitness for the trust, replied, "Ah, sure, it is not much character a man needs to sell rum."—*Portland Adv.*

SLAVE TRADE.

Capt. Smith, recently convicted for being concerned in the slave trade, made a long statement to the editor of the New York Evangelist, in regard to that traffic, which he published. Among other things, he is reported to have said that New York is the chief port in the world for this traffic, and that from thirty five to forty slavers are fitted out there every year. He now flatly denies having made any such statement. Yet the public will, notwithstanding, be very likely to believe there is much truth in his ugly looking statements about the slave dealings of the commercial metropolis. If true, what a lesson do they convey! The crime of capturing men, crowding them like cattle into vessels for an ocean passage, during which one third of them die, and finally selling the survivors into slavery, is a crime of the deepest dye. No other of the cruelties of slavery will compare with this; and yet it is not done by the *slave holding south*. The anti slavery men of the north, might, it would seem for the present, at least, find ample work to do, *this side* of Mason and Dixon's line.

There was a deeper sarcasm than was at first apparent, in the letter of Hon. Howell Cobb of Georgia, in which, after stating his opposition to the slave trade, and recounting the long continued efforts made by his State to suppress it, he expressed the hope that New York had been equally *sincere and determined in her efforts to break it up.*—*Eastern Argus.*

The facts above stated, are important, and worthy of the gravest consideration. The semblance of argument, which is attempted and designed to bear against anti-slavery men at the north, is neither strong nor just. All intelligent anti-slavery men consider the slave trade, foreign and domestic, and slavery itself, to be part and parcel of the same system of oppression and outrage, wickedness and folly.

Some features of the picture may be worse than others, but all are so bad that they abhor the whole. By the way, this may be a fit opportunity for saying, that some of our patriots who are zealous for the honor of the slave hunting edict, and indignant at all who presume to disregard it, would do well to vindicate the majesty of the law, by punishing a few of the pirates who carry on the African slave trade.

MRS. SWISSHELM says:—"If any woman has the gift of public speaking, she has a right to speak; but we have never yet heard one who displayed any more than ordinary ability in this line. We have never yet heard a woman deliver a speech that would have been more than tolerated from a man, and it does appear to us that, in a proper distribution of the world's work, there would be very few women to spare for public speaking. There is a particular propriety in women lecturing to persons of their own sex on subjects of health; but quite a number of men deliver very good lectures on general subjects, and are good for very little else. We would be in favor of leaving the profession to them until some woman appears who is so gifted as to take a high position. We would like to see the new dispensation of woman's right to the forum established by a female John the Baptist. It is painfully humiliating to see a woman place herself in this position and then fail to sustain herself triumphantly. We thought less of ourself and less of our sex, and less hopefully of the future, when listening to Miss Stone, and were compelled to acknowledge that if a man had said the same things in the same way, and in the same place, he would have been hissed."

NEW GOVERNOR OF UTAH.—It is reported in Washington that Col. Steptoe, of the U. S. Army, has been appointed to succeed Brigham Young, as Governor of Utah. Col. Steptoe is of the U. S. Artillery, and is well known as a military man; but what his qualifications for the civil duties of a Governor of a territory are, we are not informed. The appointment of an U. S. Army officer to the governorship of a territory, is an unusual step, and contains an intimation that a knowledge of military tactics may be as necessary in the government of a territory as civil qualifications.—*Traveller.*

THE CASE OF DR. BEALE.—It is reported that twenty-five thousand dollars have been raised in Philadelphia and New York, among the Presbyterians and dentists, to procure the pardon of Dr. Beale, but it is said that Governor Bigler will not pardon him, and that the feeling in Philadelphia is entirely against a pardon.

CONFISCATION OF A BRITISH PROPELLER. The New York Commercial Advertiser publishes the decision of Judge Ingersoll, of the United States District Court, declaring the British propeller Alps forfeited in consequence of goods having been smuggled by the steward. It is expected that the President will remit the penalty.

PRINTED WOOLEN CARPETING.—We were shown a beautiful sample of printed woolen carpeting (a new thing,) manufactured at the factory of Col. E. E. Rice, of Hallowell. The carpet is woven plain and thin; the figure is printed by his patent printing press with great rapidity. His press is capable of throwing off 200 yards per day, of any design that may be wanted. The fabric is beautiful and cheap.—*Augusta Ave.*

DOUBLE TRACK ACROSS THE ATLANTIC.—Lieutenant Maury, of the National Observatory, proposes a "double track" across the Atlantic for steamers, or, in other words, that steamers bound to Europe shall invariably take a particular course, and those bound to the United States another. This, he thinks, would lessen the liability to collision.

SALE OF A CHURCH.—The First Baptist Society in Hartford, Conn., have sold their present church edifice to Bamberger & Rozenblatt, importers and dealers in laces and fancy goods. The price paid is $48,000. It is the intention of the proprietors to make it the most magnificent store in the State.

The streets of Philadelphia are to be swept by machinery. This will no doubt take the place of *long dresses.*

LOCAL.

A NEW TEMPERANCE MOVEMENT.

A meeting of several of the clergymen of this city, and a few other gentlemen, was held a few days since to consult upon the present condition of the temperance cause among us. The Rev. Mr. Jackson, who is in the employ of the State Central Committee to labor in this State, was present, and made some cheering statements of his success in other portions of the State. At that meeting it was decided to hold a series of weekly meetings at the different churches in this city. The first of the series is to be holden at the Methodist Church this evening, and the speakers are to be Neal Dow and the Rev. Mr. Jackson.

Now, fellow citizens, let it be understood that these meetings are to be of such a character as to *deserve* the countenance of all the friends of temperance. No effort will be spared to secure speakers of known ability and character. There is to be no demand up on your purses, no contribution to pay for lecturers or for the house. The meetings are free to all, and all are earnestly invited to be present and listen to the facts and arguments presented. It is emphatically a great cause, and demands the thoughtful consideration of us all. If any thing can be done to arrest the desolating progress of intemperance, we wish to know it. We have seen its miseries. We know what it has done, is doing, and will ever do while it continues. Our children, our young men, our neighbors, nay, we ourselves are exposed to its solicitations and liable to become its victims. No man is safe beyond the possibility of falling by this enemy.

But what can be done? That is precisely the question which it is hoped will be answered by this new movement. We hope before this series of meetings close that every man and woman who attends will see what can be done, what ought to be done, what with the blessing of Heaven, shall be done. We hope the sceptical will be convinced, the indifferent aroused, the desponding strengthened, and all will be united in one grand effort. Let us then have your presence at the contemplated meetings. Give to this cause, for a few weeks to come, an hour or two out of each week, and if, having listened to all which shall be said, you think the subject unimportant, or are convinced that effort is hopeless, then dismiss the subject. But give it a hearing. W.

MEETING TO-NIGHT.—We hope none of our friends will forget the meeting to-night at the Methodist church. It will be a rich treat to hear Hon. Neal Dow, of Portland. As this is the first of a series of meetings appointed by advice of all our clergymen, we hope to see a great outpouring of the people. Services commence at 7 1-2 o'clock.

☞ Mr. Amos Trott, assistant marshal, was seriously injured on Saturday evening, by being struck on his head with a bottle, by a drunken man, whom the officer attempted to take to the watch house for causing a disturbance. This is the third brawl that has occured in as many evenings, in front of Congress Block. It is about time that something was done, so that the police, who now feel uncertain of the tenure of their office by the acts of a part of the Aldermen, should be sustained in the performance of their duties.

NAUTICAL MEMORANDA.—An old gunner of the U. S. Navy, has shown us two memorandum books, which contain many items of interest. One of them is a complete list of the officers and crew of the frigate Constitution, at the time she captured the Guerierre; and the other an accurate account of all the salutes fired at the Navy Yard on this station, from 1831 to 1853.

We are informed that the Great Falls Branch Railroad will be opened for public travel on Monday next, Dec. 25th.

☞ The City Missionary acknowledges the receipt of $10 for the poor.

☞ "Trim, jr." is in type and will appear to-morrow.

In Paris there are annually consumed 1,600,000 kid and lamb skins, for fabrication into gloves; in Brussels, 806,000; in Grenoble, 800,000; in Amonao, 3,200,000; making a total within these four cities of 6,400,000. To work into these gloves requires 12,800,000 eggs, at the annual expense of 630,000 francs.

WHO ARE THE NOMINEES?—It is a singular fact, says a contemporary, that, the nominees of the last Staunton Convention, Henry A. Wise, Elisha W. McComas, and W. P. Bocock, were all arrayed against the democracy in 1840! It is remarkable that the Virginia democracy could not find even one worthy old stager, but should thrust all the honors on those who were for the "Union of the Whigs for the sake of the Union" in the memorable canvass of 1840.—*Lynchburg Virginian.*

The London (Eng) Builder says, "Does it not strike you that vast quantities of the light produced by gas are wasted in the streets by the want of a reflector from the top of the lamp? Why not paint the outside of the upper panes of glass with white paint, so as to throw down a greater part of the light which is now wasted on the clouds and stars."

Ancient Sacred Music.

AN adjourned Meeting and Rehearsal for the "Old Folks' Concert," will be held at Exchange Hall, on Friday Evening Dec. 22d, at 7 o'clock. All who were invited at previous meetings—and all who have ever sung the old music, are invited to join on this occasion.

THE SELECTMEN of Ward 1 are requested to meet at the Chronicle Office this (Monday) evening at 6½ o'clock. FRANK W. MILLER, Dec. 18 Town Clerk, Ward 1.

MEN WHO ARE MEN.

Among the diseases this Pill has cured with astonishing rapidity, we may mention
Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

Splendid Furniture.

THOSE who have not had an opportunity of feasting their eyes by the rich display of Furniture at the World's Fair, or State Exhibition, may be in a measure compensated for the lose by visiting the

Daniel Street Furniture Rooms,

Under the Sign of the French Sofa. While they admire, they can have an opportunity, if they wish, of securing at a low price, the best of Furniture in the market for their own use.

Here may be found the EXTENSION DINING TABLES of different sizes; MARBLE TOP CENTRE TABLES; and a large assortment of FRENCH SOFAS AND CHAIRS, covered with plush or silk damask—or the BLACK WALNUT AND MAHOGANY SOFAS, with hair cloth—as well as some more common articles of the kind. Or you may be well rested in the CANE SEATED CHAIRS, with or without rockers.

These FYAGRAM, as the French call them, or WHAT NOTS as the Yankees say, are elegant articles—so are those UMBRELLA STANDS, so useful for the entry.

If you wish to complete the beauty of the chamber, just examine the varieties of EXCHANGE CHAMBER SETS, and also that necessary article and useful ornament of any room, the LOOKING GLASS, in frames of either Mahogany or gilt.

These are but few of the many additions which have recently been made to the Daniel street Furniture Rooms, which the public are invited to visit, and patronize.

CONGRESS.

FRIDAY, Dec. 15.

HOUSE.—Mr. Houston of Alabama, from the Committee on Ways and Means, reported a bill making appropriations for the civil and diplomatic expenses of the Government for the year ending in 1856. Referred to the Committee of the Whole.

The House went into Committee on private bills. The first on the list was for extending the Colt patent, which was passed by, as the select Committee on that subject is not ready to report.

The bill for the relief of the children and heirs of Major General De Kalb was discussed, and amended by appropriating $66,000 for the purpose. This, with four other private bills, subsequently passed.

Mr. Walbridge of New York, presented the memorial of Benjamin Price and others, in favor of the Homestead Bill.

Adjourned till Monday.

ANOTHER SLAVE RIOT CASE.—In the U. S. Circuit this morning, before Judge Sprague, Wendell Phillips, Esq., was notified of an indictment against him for alleged connection with the late Burns riot case in this city. He was required to give bail in $1500 for his further appearance on the first Monday of March next, and Messrs. George W. Phillips, Samuel May, N. Ingersoll Bowditch, Robert E. Apthorp, Francis Jackson and Charles M. Ellis, were, at Mr. Phillip's request, all taken as sureties by District Attorney Hallet. This makes the sixth case of this kind already "on the docket." The question of free speech in Faneuil Hall seems likely to be thoroughly tested in the U. S. Court Room.—*Boston Transcript.*

AN AMERICAN VESSEL LOST IN THE BLACK SEA.—Among the vessels lost in or near the Black Sea during the destructive gale in which so many transports were wrecked, was the American propeller William Penn. This vessel sailed from New York last summer, for the Mediterranean, and was taken up at Marseilles by the French government to transport troops and stores. She was last heard from at Constantinople, and was probably lost in the Dardanelles, although no particulars have been received. The following extract from a letter dated Constantinople, November 12, was placed on the Exchange Newsroom books:—

Intelligence has just arrived that the Jena, French-line-of-battle ship, is ashore off the Castle of Asia, in the Dardanelles, and that the William Penn, an American steam transport, chartered by the French, and full of troops, is also stranded. Of these events, however, you will probably have received the news by the last mail from Gallipoli.

The William Penn was formerly a packet between Boston and Philadelphia, and was under the command of Capt. John Codman of Boston, a young and energetic shipmaster. —*Courier.*

U. S. SHIP ALBANY.—We regret to understand that naval gentlemen here and at New York still fear that the Albany was lost in the October gale, notwithstanding the report that she was at Carthagena Oct. 16,—and letters are now in New York city, from the American consul at Carthagena, dated October 20, giving accounts of American vessels lying in port, and not a word is said of the Albany. She was there in September, previous to going to Aspinwall, and that fact has probably been the staple of the British Consul's letter, reported at Havana. The Navy Department has no faith in the rumored safety of the Albany.—*Boston Cour.*

FIRE AT MANCHESTER, N. H.—We learn from an extra Manchester Mirror, that a fire occured last evening in the Willow and Picker Rooms of Stark Mills, No. 1, in that city; which occasioned damage to machinery, stock and the building to the amount of $1,000, or more. Insured. Phineas Adams, Agent of the Mills, was hurt, by falling down stairs in escaping from a room filled with smoke.

PHILADELPHIA, 15th.—a great fire occured last night, occasioning a loss of $500,000. It commenced at No. 181 Chesnut street, and destroyed almost the entire block, including the Jefferson Wigwam, in which Jefferson wrote the Declaration of Independence.

Ten lives were lost by the burning of the steamer Gipsy, running on the Mississippi river. The vessel was also an entire loss, with a valuable freight. Fifty bales of cotton on the landing were also consumed.

New Light and more Light.

PATENT SMOKE-BURNING

'OIL LAMP!

THIS newly invented Lamp, so differently constructed from any other, is believed to be the BEST LAMP ever offered to the Public, for the following reasons:—

It requires only the Poorest Oil, Lard, Tallow or Grease; and with the same material, produced FOUR OR FIVE TIMES AS MUCH LIGHT As ANY other known Lamp. It is simple in its construction (consequently not liable to get out of order). By its use, the danger from Fluid and other EXPLOSIVE COMPOUNDS is avoided; at the same time without the least odor, an amount of Light is produced truly astonishing. The economy with which it may be used makes it desirable for every one, while the price of it puts it within reach of all.

Hundreds of testimonials from those using them, may be seen at the Store of the subscriber, who is the only agent for the sale of them in this city.

Sagamore House,

FROST'S POINT, RYE, N. H.

THE Proprietor of the above named House has made arrangements so as to provide for the reception of parties, at short notice, through the coming winter.

The table will be furnished with all the delicacies the market affords, as well as the substantials which are necessary in a well ordered house.

This House is within thirty minutes' ride of Portsmouth, and having been favored with an extensive patronage for the past two years, is now well known to the public.

The above arrangement, which is a novelty in this section, the Proprietor hopes will be duly appreciated, and that a portion of the Winter Pleasure Parties may turn toward his house, from which a fine view may be had of our rock bound coast, against which the wintry blast hurls the dashing wave.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

Patents.

AMERICAN AND FOREIGN OFFICE.

Agency for business with US Patent Office, Washington,

76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him of any thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and recent accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most faithful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———

"R. H. EDDY, Esq., Boston, MASS.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

THE GREAT STANDARD REMEDY
FOR ALL PULMONARY DISEASES.

Containing neither Prussic Acid, Tartar Emetic, nor any other deleterious drug. Extensively tested and approved in New England, Canada, and the British Provinces during a period of THIRTY YEARS by *Eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men,*—and, in fact by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. Dr. LYMAN BEECHER, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. LEONARD WOODS, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. DANIEL P. THOMPSON, Secretary of State of Vermont.—N. F. WILLIS, ESQ., formerly Collector of the Port of Baltimore, Md.—Rev. JOSIAH LITCH, Philadelphia,—and many others.

HOW ESTEEMED BY PHYSICIANS.—JOHN A. BERRY, M. D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope will be better known and more generally used."

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the difficulties for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIPIENT HEMORRAGE OF THE Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the URINARY CATHOLICON, I would respectfully state that I have for many years been in my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S URINARY CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

KITTERY POST OFFICES.

KITTERY POINT, ME., Dec. 14, 1854.

Dear Uncle Toby:—I was quite amused yesterday by the perusal of the letter published in your columns, written by "Down East;" and although the subject therein mentioned cannot interest all of your readers, it certainly does concern many of them. Relying, then, upon this, and upon the fact that you, dear Uncle, may have some local attachment to old Kittery and to whatever pertains to its prosperity, I feel constrained to say a word in regard to the establishment of a new post office here. Until recently, I knew nothing of what had been done in years past in regard to establishing a daily mail in this town. I knew that there was such a mail, and that Kittery, which is nearly or quite the smallest town in our county in extent of territory, was one of the largest in population, containing about 3000 inhabitants; and that while many other towns having a less number of people, were accommodated by two or more post offices—Sanford, for instance, with about 2300 inhabitants, has three post offices, and Eliot, with about 1900 has two; Kittery, with a much larger number, had but one.

Now this town is naturally divided by the waters of Spruce Creek, into two sections, each containing about one half of the inhabitants of the town. That the branch office at the toll bridge did accommodate several families and some of our most enterprising and thriving business men, is true; but that it gave *general* satisfaction to the Kittery Pointers, or that it was so situated that it could possibly accommode near a majority of the people residing in the eastern division of the town, is, I beg "Down East's" pardon, not the fact. Believing that the place where the new post office now is, which is within a few minutes walk of three stores, and near the residence of the masters and crews of from twenty to thirty vessels, making from one to two hundred men, many of whom frequently have occasion to write home to their families, and which place is, in fact, in *the* VILLAGE of Kittery Point, was the most central and most proper for the office to be, last spring a large number of the citizens of Kittery sent a petition to the P. M. General, praying him to establish a new office here—and many of the most prominent business men in Portsmouth who have occasion to do business with the Point people, joined in that petition.

Mr. Amee, the stage driver, generously offered to carry the mail daily, for three years, from Portsmouth to Kittery Point, via the Kittery office, for a trifling sum in addition to the price paid for transporting it to Kittery.

There was no *secresy* whatever, about the matter. It was then openly discussed, and, as I supposed, very generally agreed to. The answer of the P. M. General was, that if Mr. Philbrick, the mail carrier at that time, would withdraw in favor of Mr. Amee, we could have the office. At length, for certain good reasons, Mr. Philbrick did withdraw, Mr. Amee was appointed, and an order for the establishment of the new office came. No petition was, *at this time* sent, of course, for none was needed. Now look at the facts. Within four hours from the time when the new office was opened, thirty six different families had bought as many boxes in the office, and within ten days from that time, about 150 letters had been sent from the office and nearly the same number received, together with a great number of regular and transient papers, making between four and five thousand letters sent annually, and the same number received.—You will thus perceive that so far from being a tax upon the department, the revenue paid by this office to the government is three times its cost. I do believe that whatever one or two harmless opponents in our immediate vicinity may say, a great majority of the people in this part of the town rejoice at the establishment of this office, and are perfectly satisfied therewith.

In answer to the inquiry of "Down East," I would say that I and many others do honestly believe that Kittery and Kittery Point together *can* sustain a daily mail, and that it will be greatly to their convenience, interest and prosperity, and to the pecuniary interest of the government, for them to do so. I have further been assured by Mr. Seaward, the new postmaster, that an arrangement may at any time be made, by which the people residing near the toll bridge can have their mail matter delivered at the toll house, free of expense, or they can continue their old arrangement by having their letters directed to Kittery. In closing, I would assure my friend "Down East," for whom I have a high personal regard and esteem, and all others interested there, neither the new post master nor any of his friends have "any sectional jealousy whatever," or any disposition to do anything unfair or unjust, and that they have only done, and that they will continue to do, what they think will "promote the greatest good of the greatest number" of our citizens.

Yours, Truly, TRIM, JR.

Morning Chronicle.

TUESDAY, DECEMBER 19, 1854.

LIQUORARY EXTRACTS.—Some of the papers say that Bridgeport, Connecticut, is a very unhealthy place. The city agent for the sale of spirituous liquors there, reports that he has made 4718 sales for the past three months, of which 4621 were for medicinal purposes! This is a frightful state of the public health.

If we understand this paragraph, it means that the jugmen in Bridgeport tell a great heap of lies for the sake of getting their drams; which on the whole we deem not unlikely.

The Boston Bee says—

A number of outrages have been committed lately upon the property of persons who have made themselves conspicuous in the enforcement of the liquor law.

It does not appear whether these outrages were in Massachusetts or Connecticut. We suppose the latter. But wherever they occurred, they go to show that the outrified and infuriated jugmen, will not only lie for their jugs and their grog, but also fight for them, and if needful, "die in the last ditch."

WOULD RATHER BE IN SLAVERY.—In the Police Court, yesterday, a colored man named John Stewart was arraigned on charge of stealing a quantity of clothing from an elderly colored woman. Stewart plead guilty, and offered in mitigation that he was out of funds and food, and had taken this course to provide himself with the necessaries of life. He stated to the Court that a short time since he was a slave in Raleigh, South Carolina, and upon being informed of the kind treatment he would receive from the abolitionists in the North if he could become a free man, he concluded to purchase himself, and did so at a cost of $900. He left his master and came to Ohio. "Since I came here," continued Stewart, "I have been kicked about and abused by all classes of white men. Can't get work from no one, and to borrow money to get bread with, that it is out of the question. I wish I were a slave again. I did a great deal better there than I ever did here." Here the defendant took his seat to await the sentence of the Court, which was to be sent to the chain gang at hard labor for one month and pay the cost of prosecution. Stewart said he did not mind the hard labor, and was thankful for the prospect of getting something to eat in jail. He declared that as soon as he got out, he would go South and become a slave again.—*Cincinnati Gazette, Tuesday.*

A pitiable case truly, for an honest man, not afraid to labor, to covet slavery and not be able to get into it,—to steal, and rejoice at the jail. There is something queer about the whole story, though, that a man who could earn and save $900 in slavery, to buy himself free, should not have *gumption* enough to earn his bread and pork in Cincinnati.

The Boston Journal could not have been aware of the character for falsehood borne by the editor of the abolition organ in this city, otherwise it would not have alluded to Fogg's report that orders had been sent on from Washington demanding that Gov. Baker should forthwith either cut himself adrift from the Know Nothings, or from the party whose candidate he is. The statement referred to is entirely false. No one ever heard of such rumor until it appeared in the abolition print, and no one believes it who knows its origin. —*Concord, N. H. Patriot.*

It may well be supposed that no such orders were received; or that if they were, they would be kept secret. It is nevertheless quite possible that a gentle *suggestion* to that effect may have come from President Pierce or his private Secretary, Mr. Webster, in a friendly and fraternal letter. Indeed it is quite obvious to politicians not half so shrewd as our President, that no man could sit on two such stools as the Patriot and the Know Nothing platform.

A GREAT COMPANY.—Not long ago, the Union Democrat, printed at Manchester, suggested that the Whigs and Pierce Democrats of that city should unite and pat down the Know Nothings by this coalition. In a notice taken of this article, the Manchester American says:

We think we see the bargain—the fusion—the coalition. After the Union has made up its fusion of all in this city who will not vote the American ticket at the next election, we should like to see them in solid array. They would somewhat resemble the "string bean" company which once defended Allenstown, which was composed of five members all told —Captain, Second Captain, Third Captain, and two soldiers, so that the Orderly Sergeant beat the bass drum, and the Ensign blew the fife.

THAT JOKE.—Perhaps the best joke of the season is the fact that after the election in Lynn it was discovered that one of the newly elected Aldermen, chosen by the Know Nothings, *was an Irishman, and had lately changed his name from Connelly!*—*Boston Journal.*

To this, the Boston Bee replies:

This "best joke of the season" turns out very much as we anticipated. The facts are these: The Alderman elected is Mr. Hiram West. He was born in Kingston, Mass., as was also his father. His name was formerly Hiram McLathlin, and was changed some twenty years ago to that of his mother. His forefathers were Scotch. He is highly esteemed as a man and citizen, and is a person of sound judgement and intelligence.

Victoria of Kent, mother to the Queen of England, is in her 69th year, (born in 1786,) while the Duchess of Gloucester is nearly 80. The royal family in England are long-lived.

CIRCUMSTANTIAL EVIDENCE.—Mr. H. B. Sibley, landlord of the Naquag Hotel, in Barre, recently missed his port monnaie, containing $50 in money and several hundred dollars in notes. He blamed a respectable mechanic named Herrick, who, with his wife, was lodging in the house, and the iron of a portmonaie having bee discovered amongst the ashes of the stove in his room, caused him to be arrested.

Things were in this state when the lost port monnaie appeared. It was brought by one of the Worcester stage drivers, who at an early hour in the morning, before Mr. Herrick had risen, took the pocket book, in order to practice a joke on the landlord. Upon these discoveries, Mr. H. was released, after a day of mental anguish on the part of himself and wife, such as they never before experienced.—*Traveller.*

This practical joke proved to be a great injustice — and distressing cruelty to an innocent man. Such jokes are rarely innocent; and commonly they are the meanest of lies and cheats.

ELECTION IN KANSAS.—On the 29th ult., the election of a Delegate to Congress took place, and resulted in the triumph of Gen. Whitfield, the southern pro-slavery candidate, by a very large majority. This is just what we expected, and goes to prove what we have always predicted, that Kansas would be a slave State. In spite of the efforts of the Emigrant Aid Society, and the influence at the North to encourage emigration from the free States, the slave-holders are already there in greater numbers than their opponents.—And why should it not be so? Bordering upon the slave States of Missouri and Arkansas, the slave-holders have only to step across an imaginary line, to occupy and possess the country—whilst the northern emigrant must travel hundreds of miles, subjected to all the dangers and disasters incident to the settlement of a new country, in a climate to which he is unaccustomed. If the Southern States desire to make Kansas a slave State, they can easily make it so. They have triumphantly carried the first election which has taken place, and this *significant fact* goes further to prove the correctness of our anticipations, than columns of speculation, based only upon the hopes of the writers. The *design* of the repeal of the Missouri Compromise, was to make Kansas a slave State, and this election proves conclusively that such will be the effect.—*Old Guard.*

SEBASTOPOL N'EST PAS PRISE!—No, Sebastopol has not fallen, though half the allied army have! To bury their dead, nurse their wounded, and condole with one another against the hour of further terrible punishment, would seem to be the fitting task of the riddled legions of Canrobert and Raglan. If a deluge of blood could have shattered the walls of Sebastopol, the allies had been conquerors ere this. On the crimson current wrung from English and French hearts a navy might ride. The star of the Russ is in the ascendant, and the flower of the allied strength is withered, though the war is only begun. When the Czar's great ally, winter, shall retire, there will be heard such a blast of trumpets, and rushing of mailed hosts as will shake

The firm foundations of the world.

The *great* Napoleon fell before the descendants of Ivan and Vladimir, and the lesser "nephew of my uncle," though backed by all the force of Britain, will fall ere this struggle is ended. Even a revolution of the people, if resorted to, will only bring more ruin and dismay to those who excite it. Russia is invulnerable, because her numbers are almost inexhaustible. It *snows Russians* day and night in the Crimea.—*New York Mirror.*

THE ESCAPED FUGITIVES.—The Detroit Enquirer of Tuesday says:—"Fourteen fugitives from slavery—most of them from the city and neighborhood of St. Louis—passed over the river yesterday into Canada. Some others went over on Saturday. Some of these are the 'chattels' about which they tried to make a fuss in Chicago last week. They are safe now, and out of the reach of fugitive laws." The Detroit Tribune says that 482 have crossed the river at that point since the 6th of May last.

DEPARTURE OF FUGITIVES.—The Chicago Tribune of the 11th says that "on Sunday evening, about 9 o'clock, the 17 fugitives from Missouri, whose attempted arrest created such an uproar in our city last week, marched to the depot of the Michigan Central Railroad in a body, took a car especially provided for the purpose, and arrived safely at Detroit on Monday morning. By this time, we suppose, they are under the protection of Queen Victoria and the British Constitution."

THE HARD TIMES.—The Haverhill, Mass., Gazette, in reference to the money stringency, observes that the business men of that place have generally stood the reverses very well. "The shoe business is very much depressed, and our manufacturers manifest no disposition to do much. For the last few years, the business has been very good, and those engaged in it have probably laid up something to fall back upon, and been thus enabled to meet their engagements promptly. The shoemakers, too, have likewise had a chance to save something for a season of depression, and a portion of them have done so, but we fear there will be a great deal of suffering this winter among a portion of those who always live fully up to their income."

Mary Austin, the girl who last week was let off with a nominal fine, for larceny of a dress from a room-mate, on her promise to go to Nashua, N. H., was found in a house of ill fame in Nashua street, Boston, on Thursday night, and identified as the person who in September last obtained four pairs of pants from J. L. Smith & Co., under pretence of wishing to make them, but had not since been heard from. She was arrested and held in $100 for examination.—*Boston Tel.*

A few days ago, a little fellow of about seven summers, went up to a fruit stand, and rising on tip-toe peered over at the fruit, remarking, as he extended a dime, "I think I will buy a few apples to take home to the *children.*"

LOCAL.

☞ With a letter from Trim, jr., (outside) we close the controversy about the new P. O. in Kittery. The only awkward thing about the matter, was the taking away the name of the old private office, to fasten it upon the new one established by government. This, for the present leads to some mistakes, in the same way as naming a son for his father causes some blunders between old John and juvenile Jack.

By a blunder of this kind, the other day, we think at Baltimore, the votes, which were intended to place a smart fellow in the Common Council, suddenly elevated to that office his old father, unthought of and probably unfit, merely for lack of the little word Jr.

Now that the Kittery Point post offices, Senior and Junior, have got fairly under way, we wish them both as good voyage, many letters and much money, and as little *botheration* as may consist with the general ups and downs of human affairs.

☞ Rev. E. H. Chapin, of New York, gives the lecture this evening, before the Mechanics' Lyceum. We expect his lecture will be one of the very few good ones we have had or shall have this season. All will go, of course. G.

The Portsmouth Chronicle wants to get ahead of us on Sam Houston, by saying "Uncle Toby predicted his election before Texas got into the Union." If Uncle T. expects anything, he must nominate, not predict.—We're ahead of him on the nomination, and he will have to take the second slice.—*Charlestown Adv.*

Uncle Toby's expectations are but moderate; he makes no nominations and pulls no wires. But on the score of *nominations* the Advertiser cannot claim the precedency.

The Concord, N. H. Reporter & Old Guard, nominated Samuel Houston for the Presidency, several months since.

☞ Dr. Folsom of this city, delivered a lecture before the Lyceum in Elliot, Maine, a few evenings since, on the Eye and Ear. The lecture is a good one, judging from a private hearing of it, and displays considerable attention and research, in this department of medical and surgical study. His notices of near sightedness, far-sightedness, strabismus and cataracts,—diseases to which the human eye is incident, are exceedingly interesting; as are also his notices, of the peculiar organism of the ear, and the remedies, surgical and otherwise, necessary for the removal of deafness, &c. *

☞ The Head man of the Boston Mail let fall the other day some eloquent and beautiful remarks, over the left, in which he alluded to "that puny little cur, the Portsmouth Chronicle." Uncle Toby not knowing any better use to make of the paragraph, read it aloud to his dog, a puny canine quadruped, who has not yet made any reply. Whether its beauties were above or beneath the notice of his puppy brain, we shall not presume to say.

For the Chronicle.

Messrs. Editors:—For the purpose of bringing out the oldest collection of music that may be found in Portsmouth or vicinity, I will state that I have a small collection of about fifty tunes, with words in French, published in the year 1686, or one hundred and sixty eight years ago. Yours, SEMIBREVE.

SHOOTING SLAVES.—At New Orleans, week before last, some white workmen were discharged by the Jackson Railroad Company, and negro slaves were employed in their places. There were threats of vengeance, thrown out in consequence, and a few nights afterwards, as some of the slaves were returning home, they were fired upon in the street, and two of them badly wounded.

SMALL SWINDLE.—Mr. William Mann of Brooklyn, N. Y., son of the Hon. Abijah Mann of Buffalo, has been indicted for obtaining under false pretences upwards of $3000 in the notes of the late banking house of Smithson and Shham, in Washingron, D. C.

INSURANCE ON MISSING VESSELS.—The underwriters of New York have recently paid $440,000 insurance on the following missing vessels:—Ship Dauntless, of Boston, insured in Ney York for $200,000, and the ships Leviathan, Waterloo, Robert Hooper, and Warner, all of New York.

ANOTHER DEFAULTER.—The late collector of taxes in Concord, N. H., is supposed to be a defaulter to the amount of $2,000 or $3,000, but his bond, which was signed by some of his political friends, has been either lost, mislaid, or purloined, and cannot now be found.

FINANCIERING.—John M. Lee, a New Orleans broker, has been bound over in the sum of $40,000 for trial, for overdrawing his amount at the Canal Bank of that city to the amount of over $38,000. Lee drew against worthless checks on other banks, which he had that day deposited in the Canal Bank.

New Stoves, &c.

J. E. CHAPMAN, No. 18 Daniel Street,

Ancient Sacred Music.

AN adjourned Meeting and Rehearsal for the "Old Folks' Concert," will be held at Exchange Hall, on Friday Evening Dec. 22d, at 7 o'clock. All who were invited at previous meetings—and all who have ever sung the old music, are invited to join on this occasion.

Notice.

SOMETIME in November the undersigned were appointed by the Society worshiping at the Old South, to solicit subscriptions for the support of the Gospel in that church.
They have ascertained that an individual not authorized, and not attending that meeting, has also been soliciting money for the same object, and they hereby give notice that if the individual above alluded to, does not make over the funds thus fraudulently obtained, before the first of January, his name shall be given to the public.
Citizens disposed to aid in supporting preaching at the Old South, are hereby informed that funds may be handed to the Mr. Abbott, City Missionary, or to either of the undersigned. No other persons have been authorized.

MEN WHO ARE MEN.
Among the diseases this Pill has cured with astonishing rapidity, we may mention
Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

NEW YORK, Dec. 17.—In the U. S. Circuit Court yesterday morning, James Fitzgibbon was found guilty of robbing the mail, during his employment as a night clerk in our post office, a few weeks since. He was remanded for sentence, which cannot be less than ten years imprisonment.

The Board of Directors of the New York and Erie Railroad have decided to reduce the pay of most of their employees. An order to this effect was sent up the road, and last night the laborers at Piermont refused to work at the reduced prices, 80 cents per day. It is supposed the example will find a plenty of imitators up the road. It is rumored that the mechanics in the company's shops are to be included in the reduction.

It is stated that the sudden closing of the canals has locked up about 190,000 bushels of corn and wheat in the Welland Canal. Added to this, a larger number than usual of canal boats, laden with flour and grain, are frozen in the canal between Albany and Buffalo.

NEW YORK, December 17.—FROM HAVANA.—The United States mail steamship Cahawba, Captain Shufeldt, from New Orleans 9th inst., and Havana 12th, arrived this morning.

From Havana we learn that on the 8th inst. Captain McCullock, his mate and four men, belonging to the American schooner J. G. White, had arrived at that port in the Spanish steamer Francis de Arisvar, which had the schooner in tow. The vessel was captured some time since, at Baracoa, by the Spanish authorities, with arms and munitions of war on board.

The advices by the Cahawba confirm the previous report that the missing sloop-of-war Albany was at Carthagena, Spanish Main, on the 10th of October last.

The weather at Havana was very warm, and the health of the city excellent. The Cahawba had very heavy weather during the entire passage.

There is no political news of importance from any part of the island.

NEW YORK, Dec. 17.—Judge Dean, of the Supreme Court, now in session at Poughkeepsie, N. Y., has forbidden his clerk to take proofs of citizenship and grant naturalization papers, and has directed that all those who wish to become citizens hereafter must apply to the court. After hearing the proofs of applicants to-day, he rejected nearly all of them, and has given a written opinion holding that admitting an alien to the rights of citizenship is a judicial act, and requires an examination by the court in each case.

QUEBEC, Dec.16.—The government recovered their sectional majority last night, and carried the amended feudal tenure abolition bill by a majority of twenty-one. To-night both houses passed the valedictory address to Lord Elgin, who will assent to clergy reserves, secularization, feudal tenure abolition, and other bills on Monday, when Parliament will adjourn till February.

PHILADELPHIA, Dec. 16.—Yesterday afternoon the engine Wisconsin, attached to a coal train on the Reading railroad, exploded near Manayunk tunnel, killing Geo. Long, engineer, from Baltimore; John Lynch, fireman, and Chas. Miller, of Dauphin County. A passenger residing at Reading, a brakeman, and a lad, were seriously injured.

FAILURE AND DEFALCATION.—This afternoon it was reported on 'Change that the Glendon Rolling Mill, located at East Boston, had failed, and as it was well known that a large amount of their paper was in the market, the excitement was consequently somewhat extended. This rumor had scarcely gained circulation, when it was also stated that Henry Brevoort, the superintendent of the mill, was a defaulter, and had left for parts unknown. Upon enquiry we ascertain that both the reports are correct. The notes of the corporation laid over to-day. Brevoort left on Monday last, and since then has not been seen. On Wednesday the company received a letter from him, in which he states that he is a defaulter, that he has sold iron and has not accounted for the funds, but that the coal account is correct. He also stated that it would be useless to pursue him, for he would not be taken alive. We have heard the defalcation estimated as high as $200,000, but we are without authority for this last statement. It is probably, as yet, a matter of surmise. The notes of the company have not been in good repute for some time, though the stockholders are men of wealth.—*Boston Saturday Evening Gazette.*

FIRE.—The Freight Depot of the Boston & Maine Railroad, at Lawrence was burnt on Friday evening. Loss $5000—no insurance. The building contained a large amount of freight, including considerable flour, but the loss will not fall upon the company.—*Post.*

SOUTH CAROLINA.—Hon. A. P. Butler has been re-elected Senator from South Carolina. It is reported that Mr. Durer, a cotton factor of Charleston, has failed for half a million of dollars. The Committee on colored population in the Legislature, reported a bill to amend the law against colored seamen who come into the ports of that State. It provides that instead of being imprisoned, they shall give bonds and be permitted to remain on board the vessels in which they arrive. The Committee on the Judiciary has reported against giving the election of Governor and Lieut. Governor to the people. In the Rutland Senatorial District, at the late election, one of the candidates, Mr. Preston, spent $40,000, and the other, Mr. Adams, $30,000, Preston being $10,000 ahead of his competitor, was elected by a hundred majority.

A correspondent writes us a rather curt note to the effect that;—It is not true that Miss Mudge's husband "has expressed the decided opinion" imputed to him, that Dr. Beale was innocent. The newspapers have circulated an authorized item to this effect; but it is untrue.—*Boston Post.*

SIXTEENTH DECEMBER, 1773.—About seventeen persons, disguised as Indians, this day emptied 342 chests of tea into the sea, from ships lying at what is now Liverpool wharf, in Boston.

PRESENTATION BOOKS
FOR THE HOLIDAYS.

JOSEPH H. FOSTER respectfully invites the attention of all who intend making CHRISTMAS or NEW-YEAR GIFTS, to his assortment of

ILLUSTRATED BOOKS—ANNUALS,

English Editions of Standard Authors,

JUVENILE BOOKS, &c. &c.

which will be found to embrace the best NEW PUBLICATIONS of the Boston, New-York and Philadelphia booksellers; and books adapted to every age and of every price, from 1 cent to $10,00.

Among which may be mentioned.

THE REPUBLICAN COURT, or American Society in the days of Washington, with 21 Portraits of distinguished Women. Engraved in the highest style of art from original pictures by Copley, Stuart, Trumbull and others. 1 vol. 4to, Antique Morocco. $12

"The most original and elegant American illustrated volume ever issued from the press."

THE QUEENS OF ENGLAND.—A series of Portraits of distinguished Female Sovereigns. A new edition with 29 splendid Engravings. 1 vol. Royal 8vo, full Morocco, gilt. $10.

LONGFELLOW'S POEMS.—Illustrated with very numerous and beautiful Engravings by the first English Artists. Beautifully printed on tinted paper and bound in panneled sides, extra gilt. 1 vol. small 4to. $6.

THE GOLDEN LEGEND.—By H. W. Longfellow. Illustrated edition, in the same style as above.—Small 4to $4.

(To be continued.)

Daguerreotypes.

EVERY body and their friends are now having their Pictures at

Boutelle's Saloon on Hanover street,

And that all may have a chance, he will stop a short time longer. To parents he would say—bring in their little ones and get a type of them that shall show in after years the tiny features of childhood days; and to the beaux and sweet hearts who have exchanged vows a token and merry glance—come now and exchange faces and have something to wink at when alone. A fine assortment of CASES and LOCKETS, all of which will be sold cheap. o16

Splendid Furniture.

THOSE who have not had an opportunity of feasting their eyes by the rich display of Furniture at the World's Fair, or State Exhibition, may be in a measure compensated for the loss by visiting the

Daniel Street Furniture Rooms,

Under the Sign of the French Sofa. While they admire, they can have an opportunity, if they wish, of securing at a low price, the best of Furniture in the market for their own use.

Here may be found the EXTENSION DINING TABLES of different sizes; MARBLE TOP CENTRE TABLES; and a large assortment of FRENCH SOFAS and CHAIRS, covered with plush or silk damask—or the BLACK WALNUT and MAHOGANY SOFAS, with hair cloth—as well as some more common articles of the kind. Or you may be well rested in the CANE SEATED CHAIRS, with or without rockers.

These FIXAGERAS, as the French call them, or WALK NOTS as the Yankees say, are elegant articles—so are those UMBRELLA STANDS, so useful for the entry.

If you wish to complete the beauty of the chamber, just examine the varieties of ELEGANT CHAMBER SETS, and also that necessary article and useful ornament of any room, the LOOKING GLASS, in frames of either Mahogany or gilt.

These are but few of the many additions which have recently been made to the Daniel street Furniture Rooms, which the public are invited to visit, and patronize.

New Light and more Light.

PATENT SMOKE-BURNING

OIL LAMP!

THIS newly invented Lamp, so differently constructed from any other, is believed to be the BEST LAMP ever offered to the Public, for the following reasons:—

It requires only Fluid and Lard, Tallow or Grease; and with the same material, produced FOUR OR FIVE TIMES AS MUCH LIGHT As ANY other known Lamp. It is simple in its construction (consequently not liable to get out of order.) By its use, the danger from Fluid and other EXPLOSIVE COMPOUNDS is avoided; at the same time without the least odor, an amount of Light is produced truly astonishing. The economy with which it may be used makes it desirable for every one, while the price of it puts it within reach of all.

Hundreds of testimonials from those using them, may be seen at the Store of the subscriber, who is the only agent for the sale of them in this city.

Sagamore House,

FROST'S POINT, RYE, N. H.

THE Proprietor of the above named House has made arrangements so as to provide for the reception of parties, at short notice, through the coming winter.

The table will be furnished with all the delicacies the market affords, as well as the substantials which are necessary in a well ordered house.

This House is within thirty minutes' ride of Portsmouth, and having been favored with an extensive patronage for the past two years, is now well known to the public.

The above arrangement, which is a novelty in this section, the Proprietor hopes will be duly appreciated, and that a portion of the Winter Pleasure Parties may turn toward his house, from which a fine view may be had of our rock bound coast, against which the wintry blast hurls the dashing wave.

WHAT CONSTITUTES A GREAT MAN.—An old doctor, who lived in the days of Washington and all the old patriots, used to tell the following about one of his neighbors:—The neighbor was a great admirer of Hancock, and upon one occasion told the doctor that he thought John Hancock was the greatest man in the country. The doctor ventured to say in reply that though Hancock was a man of note and influence, he was not in reality a man of great talents, and that many men of his day—Samuel Adams for instance—was much his superior in that respect. "Why, doctor!" said the other, "I am surprised to hear you say so! John Hancock not a man of talent! I can tell you I've been to his house, and have seen three spits going at once—one for the roast pork, one for the beef, and one for the wild fowl, and *I know he's a man of talent!*"

DR. CARL V. MEYER'S
GERMAN
HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thoro' scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are put on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health.

Medical properties of these waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason, have become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owning to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,
SUCH AS
Scrofula, White Swellings, Scorbutive Eruptions, Ulcers, Erysipelas,
Paralytic and Nervous Affections,
CANKER,
AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,
AND ALL
RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS, COUGHS, SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief.—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchaser of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

HERTS, BROTHERS'
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the finest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 58 South street, Boston.

I feel it my duty to make known to those afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

CHANGE IN HORSES.—From time to time, says the Boston Telegraph, we have published various facts showing the improvement in morals and business in Connecticut since the passage of the prohibitive law, but now we hear that even the horses are beginning to improve, and are growing fat and sleek. We learn from the New Haven Advocate that Elder Swan, in a late meeting in New Haven, in speaking of the great change for the better in some of the worst rum-cursed districts in New London and Norwich, said that even the horses seen in those districts had changed in their appearance since the first of August. Previously, hitched to posts in front of the groggeries in Water street, might be seen horses with ribs protruding from under the skin, like hoops on a barrel, hanging their heads as if conscious of their forlorn condition, waiting for owners spending their time within. All hours of the day found these poor, half-starved, "ringbone and spavin" animals, waiting for those less human to get drunk enough to start for home.

But now they had disappeared, and so had their owners—and in passing through the same streets, quite a different class of animals might be seen. The grog-shop horses had gone, and in their place were those that told as plainly as did the improved moral condition of everything around, that the Maine Law was in force, and the groggeries closed up.

The Advocate says the same may be noticed in New Haven:

"In those parts of it noted in the annals of rum, horses that looked as if "spoken for by crows," with harnesses to match, were always seen, while the owners were lounging about, drinking up the proceeds of the little raised upon some "poverty-struck" plot of ground, in the neighborhood of the city. But now, these establishments have disappeared. The "carcass" is gone, and there is nothing to call these emblems of the grog-shop together. As men become sober, horses, harness, wagon, house and land—all partake in the change. What was good enough for a drunkard, will not answer for a sober man. If horses could speak, we do not believe that any stronger advocates of the Maine Law could be found, than the horses in our State, which have felt the abuses and cruelties of intemperate and thriftless owners."

THE WILL OF THE REV. JOHN BRADY. The will of the Rev. John Brady, late of Hartford, has just been proved. Besides bequests to his various relatives, his housekeepers and nurses, &c., he bequeaths to the Right Rev. John Fitzpatrick, or his successor, two thousand dollars for the intended new Cathedral of Boston, Mass. Also, one thousand dollars for a Chapel over the remains of Benedict Fenwick, Bishop of Boston. He bequeaths to the new Catholic Orphan Asylum of Hartford, one thousand dollars, stating that he would have granted five thousand, but for the way that he has been treated by the B[illegible] of the diocese; he also bestows one thousand dollars as a corner-stone for a Catholic Orphan Boys' Asylum; and to Mary Nolan of No. 220 Harrison Avenue, five hundred dollars. He bequeaths to Catholic poor but deserving widows, five hundred dollars, coupled with the proviso that it shall be distributed by five lay members of the church, "as they know the good from the bad, better than any priest who will come after me for many years." Five hundred dollars is left to the Right Rev. Bishop Fitzpatrick for his burial, and masses to be said for the repose of his soul.—*Traveller.*

Dr. William H. Eshuestock of Bordentown, N. J., died on Friday morning, in the Pennsylvania Hospital, Philadelphia. He was frightfully injured, on Monday last, by a fall down a flight of stairs. He was immediately taken to the Hospital, where every possible aid was rendered to him, but in vain.—He was a highly accomplished physician, and a most estimable man.

The Female Sharper, who figured last summer at Baltimore and other places as a fugitive from a Shaker community, and at one place called herself the neice of David Parker, has been at Niagara, N. Y., recently. She first appeared at Mr. E. Hulett's house in the garb of a Shaker, pretending she was a fugitive from some Shaker community, was readily taken in, and found employment,—being a young lady of uncommon intelligence and of very prepossessing appearance. She passed by the name of Lizzie Crossburn.—Last week she disappeared in the cars for the eastward, taking with her stolen property worth $40.—*Boston Courier.*

Morning Chronicle.

WEDNESDAY, DECEMBER 20, 1854.

TESTIMONY AGAINST THE LAW.

The Boston Chronicle informs us, that "the Hartford Times keeps a vigilant watch over the workings of the Maine Law in Connecticut, and it furnishes from day to day and from week to week a crushing weight of arguments and reasons in the shape of facts and figures against the adoption of this most unsuccessful of sumptuary laws."

The Hartford Times says:

"Since the passage of the Maine Law there has been an unusual amount of drunkenness in this city. The county jail has been crowded with convicts—this law sending the rum cases to the jail instead of the workhouse.—The jail is constantly crowded—overrun. Its inmates have greatly increased under the law. Drunkenness has evidently increased, too.—The law fosters club houses. It is the parent of club houses, and they grow luxuriantly under its complete cultivating influences. Club houses generate drunkenness; make drunkards by scores. In this way the Maine Law makes drunkards—makes it fashionable for young men to gather in private rooms and drink intoxicating liquors."

We are not acquainted with the Hartford Times, and so are not able to weigh its statements, until we see some reliable statistics from official authority, giving the exact amount of commitments, at jail and alms-house, the crimes and causes, &c., for corresponding quarters before and after the operation of the law.

Some of these statements, however, are almost exactly like those of Mr. John Neal, in regard to Portland, a year or two ago, which were afterwards proved to be quite fallacious.

Here we have some statistics, from the report of the Hartford town liquor agent, for the last four months:

Whole number of sales of all liquors	6,825
Cash received	$4,272
No. of sales for sacrament 19—No. of galls	17
No. of sales for medicines 8405—No. of galls	2,226
No. of sales for chemical uses 63—No. of galls	34
No. of sales for mechan. use 336—No. of galls	880½

Purchases and Sales.

No. of galls bought	3386½	—value	$4,597 76
" sold	2868½	"	4,272 26
" on hand	768	"	1,071 60

The amount of confiscated liquor received, consisting of brandy, wines, gin, cider, lager beer, &c., is 79 gallons—none of which has been sold. On this table the Boston Chronicle says:

"Let the reader look at the enormous and laughable disproportion, in the above table, existing between the purchases of spirituous liquors in Hartford, for sacramental, mechanical and chemical uses, all put together, and the purchases of the same article for medicinal use."

This remark is correct; the disproportion is enormous, and it would be laughable, were it not that the hypocrisy or self deception of the poor dram drinkers is too melancholy a subject to be laughed at.

But let us look at the statistics a little more closely. Hartford contained 15,500 people in 1850. Calling 15 persons a family, we have 1550 families; the 2200 gallons above mentioned, would give about 6 qts. to each family, to be used in four months, for real or feigned sickness.

Ten persons to each, however, is too large a number to allow in dividing families. In Portsmouth, at two periods, 20 years ago and 15 years, we found about 7 to a family. At this rate, there would be about as many families in Hartford as there were gallons of liquors sold for medicine. This would amount to the great quantity of a quart per month, or something less than half a pint per week. Is this a very great quantity?

If spirits are really valuable as a medicine, then this quantity is not wonderful, especially as baths are included. It is not likely, however, that the liquor is bought by all the families in Hartford, probably not by more than a quarter of them. No doubt many persons believe that the medical use of spirits is indispensable, and we might expect such a family of 7 or 10 persons to buy a quart per week.

No doubt there are quite a large number of persons, perhaps hundreds, in Hartford, who, deprived of their usual resorts, feel such a longing and hankering after their daily or semi-daily drams, as to cause a faintness and sinking at the stomach, making them artificially, but really, sick. Who has not seen and pitied a poor infant, mourning and pining away for its mother's milk, as the process of weaning went on? And who has a heart so hard, as not to pity a grown man, as he tries to wean himself from the bottle, or as he undergoes the weaning per force or constraint? We pity all such sick people.

FUSION OF THE DEMOCRACY IN NEW YORK.—On Saturday evening, the Hard and Soft Democrats held a meeting to perfect the organization of the "Fusion Democracy" in the city. Mr. John Cochran, (Soft) United States Surveyor, was chosen President of the Association and Conrad Swackhammer, (Soft) United States Navy Agent, Treasurer. It was voted to hold a public meeting in Tammany Hall at an early date. All the wards except the 19th, were represented, but the meeting is said to have principally been composed of Soft-Shell office holders.

There is a man in New York so opposed to Catholicism, that he won't travel on cross-roads. He is the same man that won't eat beef for fear that it might be a portion of the Pope's last Bull.

A NEW BOOK.

Reynold's & Co. of Boston, have sent us, via Mr. J. H. Foster, of this city, an excellent book, entitled "Salt Water Bubbles; or, Life on the Wave," by Hawser Martingale, (Capt. J. S. Sleeper, late Editor of the Boston Journal,) in one large 12 mo volume of 436 pages: fifty-five engravings.

"It consists of tales of ocean life, told in a plain, off-hand manner, by one who for years had his home in the forecastle; of sketches, sometimes drawn from the imagination, but generally founded on fact; sometimes grave, sometimes humorous, and sometimes descriptive; and all illustrating, in a greater or less degree, the amusements, superstitions, perils, vices and virtues of the sailor; and sprinkled with tempests, shipwrecks, hair-breadth-scapes, piracies and battles; with occasional glimpses of scenes of another sort, life in the rural districts of New England."

The author, Mr. Sleeper, was a first rate sailor, and is a first-rate writer. He has been favorably known of late years, as editor of the Boston Journal. The book will be a favorite at sea and on shore.

PUTNAM'S MONTHLY for December, contains, among other interesting matter, a Southerners' View of Our Parties and Politics. It is one of the most able and thorough defences of slavery which we have ever read. The author does not forget to quote the case of Orasimus, and commends Paul most heartily as a returner of fugitives. Every northern man who wishes for a feast of the conscience and the logic of slavery, should buy Putnam and read the article.

A former article, giving the other, viz: the darker side of slavery and the policy to which it is wedded, was so offensive that some chivalrous papers at the South denounced Putnam, and advised its Southern *patrons to stop* it. Some of the meanest papers at the North did the same thing. We shall see now, whether these same cringing journals will advise every body to take it.

There are 12 Articles beside; and the interest of the work is well sustained. A new volume begins with January.

Fetridge & Co., Boston, and J. F. Shores, Portsmouth, will supply the work to subscribers or purchasers.

BOSTON ALMANAC, 1855.—*Multum in parvo* is this little book, most truly. It contains engravings of the new Boston Theatre, Model Lodgings, &c. and Vignette ornaments for the Calendar pages. Also, Almanac, Business Directory, and various tables. The whole is in a volume so small as to be within the compass of every man's pocket. Damrell & Moore, publishers, Boston. For sale in this city by J. F. Shores, Jr.

For the Chronicle.

"DECEMBER 15, 1774."—The following historical scrap, published in olden times in Boston, and versified by some Bard of the "City of Notions," eighty years ago, may amuse some of your readers.

"1774, Dec. 19.—Cheering information was received from Portsmouth, N. H., that a body of their people had attacked the Fort at Newcastle, on the 15th of December, scaled its walls, disarmed the commander and his men, and taken off 97 barrels of powder, 60 stands of muskets, and 16 pieces of cannon, and conveyed the whole to a safe retreat in the country. This acquisition made a gratifying offset to the loss at Cambridge. The Governor of N. H. Colony proclaimed the act to be open hostility and direct oppugnation to His Majesty's Government."

A BALLAD.

"In a stormy, wintry, midnight hour,
Full many a year ago,
Seventeen hundred and seventy-four,
Some Portsmouth boys* we know,
Scaled the great tower—Newcastle's fort—
Chained there the leader foe,
Took sixteen cannon from their port,—
Guns sixty, thro' the snow!
Gunpowder, too, was for them there,
Full barrels—ninety seven,—
All trotted off securely, where
They could not them replevin:
No blood was shed—no wife's dismay
Or children wrapt in woe,
They simply seized—the power to slay—
Full many a year ago.
The Granite chaps with truth relate,
The daring of its scions,
T' achieve and elevate their State,
Or beard the British Lions."

* The "Portsmouth Boys" were led by Major John Sullivan and Capt. John Langdon.

Newcastle, Dec. 15, 1854.

THE WIDOW OF BATCHELDER.—A correspondent says:—Some reminiscences are painful yet profitable. "The Burns affair" we do not like to recall, yet it may quicken conscience to duty, and the heart to sincere sympathy. The widow of Batchelder, of this city, was assured of wide spread sympathy throughout the South as well as from Government. The fact is, that she has received from the South only three tokens of sympathy and aid. The citizens of Jacksonville, East Florida, contributed one hundred dollars. The citizens of Savannah, and persons connected with the office of "the Daily Morning News," in that city, sent on one hundred and thirty-three dollars and eighty-nine cents. One citizen of Fayetteville, N. C., remitted twenty dollars. Total, $253 89. Of Government, Mrs. Batchelder has not received one cent; not even her husband's wages for services rendered on that fatal night. Now, if this is Southern sympathy and Government pay, let it be understood.—*Bunker Hill Aurora.*

LOCAL.

TEMPERANCE.

On Monday evening the Hon. Neal Dow discoursed on this subject to a full and most attentive audience for an hour and a half, at the Methodist Church. Mayor Walker presided at the meeting, introducing the services by a few earnest, well-spoken words, in which he uttered his conviction of the importance of the subject, and of the need of more stringent legislation. Prayer was then offered, after which Mayor Walker introduced to the audience the Hon. Neal Dow. It is seldom that we are willing to listen to any speaker on any subject more than one hour at a time. We consider it therefore a singular triumph where a man holds our attention and that of a large audience, without weariness, for more than an hour and a half. Mr. Dow accomplished this with the greatest apparent ease on the hackneyed theme of Temperance. It was a noble effort, and we only wish it could have been listened to by all our citizens. By a rapid review of the history of the Temperance movement, it was shown that there had been a constant progress down to the present time—and that now, in the new and more stringent legislations, the last step was reached. The right and obligation of communities to protect themselves and their children, by efficient laws, from the rum traffic, were clearly and forcibly presented—presented, as it seemed to us, unanswerably. Every point was fortified by solid argument, and the most plausible objections were fairly stated and refuted. We congratulate the friends of Temperance on so successful and promising a commencement of the contemplated series of meetings. We welcome the proof, that, notwithstanding the apathy which has for so long existed among us in regard to this subject, the right kind of an effort will secure the attendance and the interest of the people. A succession of such meetings as that of Monday evening cannot fail of the happiest results. Let them have the countenance of all who wish well to the community—of all who desire to see it relieved from the greatest evil with which it is afflicted. W.

☞ Rev. E. H. Chapin's lecture before the Mechanics' Lyceum on Tuesday evening, was on *Modern Chivalry.*

The lecturer maintained, not that chivalry was the salient point of the present age; but that the best elements of chivalry existed in and abounded among the other elements of our modern civilization; and that while the present age was stigmatized by some as one of mere material and mechanical progress, and by others as an age of increasing knowledge but diminishing virtue—truth compelled him to deny and refute these positions.

Having laid this foundation for his lecture, he electrified and delighted his audience with a series of brilliant and beautiful illustrations, exhibiting on the one hand most of the prominent defects and unchivalrous traits of the age; and then on the other, by a bold and striking contrast bringing out the chivalry and glory of some noble men of our own day, who dare to speak out the truth against gigantic error, and to strike against colossal wrong, without waiting to calculate the chances of recoil.

His lecture, for the first half hour, was listened to with careful attention, and for the latter half with admiration and applause, by the entire assembly.

☞ We learn that CHARLES W. MARCH of this city has been appointed by His Excellency the Governor, Commissioner on the part of this State, to the Industrial Exhibition at Paris in May next.

☞ Bark Mary Annah came off the rocks at high water on Tuesday morning, being floated by casks. She is now at Commercial Wharf. A steamer came round from Boston to aid her, but she floated off without help.

☞ The Committee appointed by the Ship Carpenters at the Navy Yard to go to Washington to settle their difficulties, have returned, and reported to their constituents on Tuesday afternoon. The men will probably return to their work soon, and all the difficulties be removed.

☞ The ladies of the New North Church propose having a Social Gathering, at Jefferson Hall, on Wednesday afternoon and evening, and Thursday evening, of Christmas week. Particulars in relation to it will be shortly given.

At New Albany, Ind., last week, a man named Jones took a quantity of wet powder into his house to dry by the stove. An explosion followed, blowing his wife through a window into the yard, killing her instantly.

SOUTHBRIDGE, Dec. 18.—A girl named Bridget Ryan had her shoulder dislocated on Sunday evening, as she was returning from church, by the shaft of a cutter driven by a man named Fitzpatrick.

ALBANY, Dec. 18.—The steamer Norwich is frozen in the basin, and from present appearances will remain there for the balance of the winter. The thermometer is down to within ten degrees of zero.

Ancient Sacred Music.

AN adjourned Meeting and Rehearsal for the "Old Folks' Concert," will be held at Exchange Hall, on Friday Evening Dec. 22d, at 7 o'clock. All who were invited at previous meetings—and all who have ever sung the old music, are invited to join on this occasion.

Notice.

SOMETIME in November the undersigned were appointed by the Society worshiping at the Old South, to solicit subscriptions for the support of the Gospel in that church.

They have ascertained that an individual not authorized, and not attending that meeting, has also been soliciting money for the same object, and they hereby give notice that if the individual above alluded to, does not make over the funds thus fraudulently obtained, before the first of January, his name shall be given to the public.

Citizens disposed to aid in supporting preaching at the Old South, are hereby informed that funds may be handed to the Mr. Abbott, City Missionary, or to either of the undersigned. No other persons have been authorized.

AYER'S CATHARTIC PILLS.
PILLS THAT ARE PILLS!

PROF. HAYES, State Chemist of Massachusetts, says they are the best of all PILLS, and annexed are the men who certify that Doct. Hayes knows, viz:—

LEMUEL SHAW, Ch. Justice Supreme Court of Mass.
EMORY WASHBURN, Governor of Mass.
W. C. PLUNKETT, Lieut. Gov. of Mass.

ROBERT C. WINTHROP, Ex-Speaker House Rep. U.S.
ABBOT LAWRENCE, Minister Plenipo. to Gt. Britain;
†JOHN B. FITZPATRICK, Catholic Bishop of Boston;

MEN WHO ARE MEN.

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

CONGRESS.

MONDAY, Dec. 18.

SENATE.—Mr. Shields reported a bill to increase the efficiency of the army, and said he would call it up at an early day.

The Senate took up the bill, establishing the Department of Law, instead of the Attorney-Generalship, amended it, and the bill was then postponed.

The Bill establishing a Board of Commissioners to examine and adjust private claims against the United States was taken up. The matter was referred to a select committee of five, to be appointed by the chair. Adjourned.

HOUSE. — Mr. Robbins of Pennsylvania, offered a resolution instructing the Committee on Naval Affairs to inquire into the expediency of placing the officers, seamen, and marines who served during the last Mexican war, on the same footing, as to bounty land, extra pay, &c., as those who served in the Pacific during the same period. Adopted.

Mr. Phillips of Alabama introduced a bill authorizing the construction of six ships of war. Referred to the Committee on Naval Affairs.

Mr. Clingman, of North Carolina, made an ineffectual effort to introduce a joint resolution, that it might be referred to the Committee on Foreign affairs, requesting the President to tender the mediation of the United States between the powers engaged in the Eastern war.

Mr. Bennett of New York moved to reconsider the vote by which the bill for the relief of Betty Marsh was referred to the Committee of the Whole, with a view to disconnect it from the appropriation of $3,000 for the relief of the widow of Batchelder, who was killed in the Burns riot at Boston, which appropriation was tacked on this bill by the Senate. The bill was made the special order for Friday three weeks.

The House went into Committee of the Whole on the Military Academy bill.

Mr. Barry of Mississippi devoted an hour to a speech in condemnation of the *Know Nothing organization*, dissecting their movements and purposes, and stigmatizing it not only as illegal, but as a combination to take away the rights of citizens. It was, in his opinion, a child of the alien and sedition laws, and anti-republican in its tendencies.

Mr. Banks of Massachusetts replied, contending that men have a right to conceal their political views, and the government which undertakes to trammel them in that right strikes at the basis of republican institutions, and for that ought to be wiped from the face of the earth. He explained why men should combine to acquire rights denied them by corrupt political influence and the monied aristocracy, and took occasion to condemn in severe terms the claim of the Roman Catholic Church to interfere with and control secular affairs.

Both gentlemen were listened to with marked attention.

The Military Academy and Indian Appropriation bills were passed. Adjourned.

DECAMPED.—A young man, calling himself Rev. L. R. Smith, who arrived in this city some six weeks since, left suddenly one day last week for parts unknown, taking with him a young girl who was to have been married yesterday to a gentleman residing in Newburyport, and also $75, which the Newburyport gentleman had sent her to buy the wedding garments. Smith had opened a store on Commercial street, where he employed a large number of girls, and among them was the one he carried off. The gentleman who was thus ruthlessly plundered of his ladylove, was to have put an end to his existence yesterday, but whether he postponed that part of the performance or not we cannot say. The $75 is really a greater loss to him than the girls Smith, who is a finished rogue, has left parties in this city minus about $1000.—*Atlas.*

John W. Shrock, treasurer of Holmes county, Ohio, who has absconded with $30,000 of the public money, leaving his wife and family destitute, is a gray haired man and has been a prominent member of the church; besides that, if we can believe a whig paper in Cleveland, he has been a democrat. T. S. Gilbert, a young federal lawyer, who has been in the Legislature, has gone off with Shrock, and probably seduced him.—*Boston Post.*

LOUISVILLE, Dec. 18.—The extensive rolling mill of Messrs. Chonteau, Harrison & Valle has been destroyed by fire at St. Louis, together with 500 tons of unfinished, and 1200 tons of iron undergoing the process of finishing in the building. The total loss has not been ascertained. The building, machinery, &c., were insured for $110,000.

It is estimated that only 280,000 hogs will be killed around the Falls this year.

TROY, Dec. 18.—A fire broke out in Dr. Thomas's stables, on Albany's stables, on Albany street, last night, and consumed six or eight other barns and sheds. It also destroyed the French Catholic Church on Ferry street. Five horses perished in the flames. The loss on the church was about $10,000, of which only $2,500 was covered by insurance. The other losses were not heavy.

NEW YORK, Dec. 19.—The packet ship Underwriter, which arrived this morning, reports forty-three deaths during the passage from Liverpool, out of a total of six hundred and three emigrants on board.

New Light and more Light.

PATENT SMOKE-BURNING

OIL LAMP!

THIS newly invented Lamp, so differently constructed from any other, is believed to be the

BEST LAMP

ever offered to the Public, for the following reasons:—

It requires only the poorest Oil, Lard, Tallow or Grease; and with the same material, produced

FOUR OR FIVE TIMES AS MUCH LIGHT

As ANY other known Lamp. It is simple in its construction (consequently not liable to get out of order.) By its use, the danger from Fluid and other EXPLOSIVE COMPOUNDS is avoided; at the same time without the least odor, an amount of Light is produced truly astonishing. The economy with which it may be used makes it desirable for every one, while the price of it puts it within reach of all.

Hundreds of testimonials from those using them, may be seen at the Store of the subscriber, who is the only agent for the sale of them in this city.

d16 G. N. CARLETON, 15 Daniel st.

Sagamore House,

FROST'S POINT, RYE, N. H.

THE Proprietor of the above named House has made arrangements so as to provide for the reception of parties, at short notice, through the coming winter.

The table will be furnished with all the delicacies the market affords, as well as the substantials which are necessary in a well ordered house.

This House is within thirty minutes' ride of Portsmouth, and having been favored with an extensive patronage for the past two years, is now well known to the public.

The above arrangement, which is a novelty in this section, the Proprietor hopes will be duly appreciated, and that a portion of the Winter Pleasure Parties may turn toward his house, from which a fine view may be had of our rock bound coast, against which the wintry blast hurls the dashing wave.

[1md10] THOMAS R. CLARK.

TERRIBLE TORNADO.—The town of Marion, Mississippi, was entirely destroyed by a hurricane recently, which left but one house standing, carrying off trees, fences, and every thing else which was in its path. Two clouds —one traveling Northeast and the other in a Northwesterly direction—met immediately over the town, and the wind raged with such maddened fury as to blow down everything. No lives were lost, but several persons were injured.

DOWNFALL OF REAL ESTATE IN NEW YORK.—A splendid brown stone front house in Madison avenue, next door to the corner of Thirty-first street, one of those fine mansions with which that part of New York city abounds, and cost (exclusive of the price of lot) only a few months since over $21,000 to build, was sold on Friday at auction for $14,500. A house in Fifth avenue, in the vicinity of Thirtieth street, which cost $52,000, sold for $33,000.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local Interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

THE GREAT STANDARD REMEDY

FOR ALL PULMONARY DISEASES.

Containing neither Prussic Acid, Tartar Emetic, nor any other deleterious drug. Extensively used, tested and approved in New England, Canada, and the British Provinces during a period of THIRTY YEARS by *Eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men*,—and, in fact by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. Dr. Lyman Beecher, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. Leonard Woods, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. Daniel P. Thompson, Secretary of State of Vermont.—N. F. Williams, Esq., formerly Collector of the Port of Baltimore, Md.—Rev. Josiah Litch, Philadelphia,—and many others.

HOW ESTEEMED BY PHYSICIANS.—JOHN A. BERRY, M. D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope will be better known and more generally used."

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S Celebrated Catholicon,

FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLOOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

BARNUM ON TEMPERANCE.

The efforts of Mr. Barnum in the Temperance movement are among the experiences of his life which he will recall with greater satisfaction than many of his "strokes of genius." He became a convert to total abstinence through the instrumentality of the Rev. Mr. Chapin.

The following story is extracted from his autobiography.

In the fall of 1847, while exhibiting Gen. Tom Thumb at Saratoga Springs, where the New York State Fair was then being held, I saw so much intoxication among men of wealth and intellect, filling the highest positions in society, that I began to ask myself the question, what guarantee is there that *I* may not become a drunkard? I reflected that many wiser and better men than myself had fallen victims to intemperance; and although I was not in the habit of partaking often of strong drink, I was liable to do so whenever I met friends, which in my travels occurred every day. Hence I resolved to fly the danger, and I pledged myself at that time never again to partake of any kind of spirituous liquors as a beverage.

I now felt that I was out of danger, and the sensation was a pleasant one. True, I continued to partake of wine, for I had been instructed, in my European tour, that this was one of the innocent and charming indispensables of life. I, however, regarded myself as a good temperance man, and soon began to persuade my friends to refrain from the intoxicating cup. Seeing need of reform in Bridgeport, I invited my friend, the Rev. E. H. Chapin, to visit us, for the purpose of giving a public temperance lecture. I had never heard him on that subject, but I knew that on whatever topic he spoke, he was as logical as eloquent.

The gist of his argument, as applied to the moderate drinker, sank most deeply into my heart. I returned home and went to bed, but not to sleep. These arguments continued to ring in my ears, and though striving to find a reasonable answer to them, I spent a wretched and sleepless night. I had become fully conscious that I was pursuing a path of wrong doing, and one which was not only causing great wrong to the community, but was also fraught with imminent danger to myself.

I rose from my bed, and feeling that as a man I could not persist in a practice which I could not conscientiously and logically defend, I took my champagne bottles, knocked off their heads and poured their contents upon the ground. I then called upon Mr. Chapin, asked him for the teetotal pledge, and signed it.

God knows I am determined never to break that pledge, and my gratitude is so deep at being thus placed in a position to benefit my fellow-man as well as, perhaps, to save myself, that I trust there is little danger of my ever again being brought within the charmed circle of the cup. Upon informing my wife that I had signed the teetotal pledge, I was surprised to see tears running down her cheeks. I was afterward astonished to know from her that she had passed many a weeping night, fearing that my wine-bibbing was leading me to a drunkard's path. I reproached her for not telling me her fears, but she replied that she knew I was self-deluded, and that any such hint from her would have been received in anger.

WORD TWISTING.—Our lawyer who "filed a bill," "shaved a note, cut an acquaintance, split a hair, made an entry, raised a haul, got up a case, framed an indictment, im-pannelled a jury, put them in a box, nailed a witness, hammered a judge, chisseled a client, and bored a whole court"—all in one day—has since "laid down the law" and turned carpenter.—*Manchester Mirror.*

WHEELING, Dec. 18.—The navigation of the Ohio is still closed by ice. Weather cool.

CONSUMPTION OF LIFE DURING THE REIGN OF NICHOLAS.—The consumption of human life during the reign of the Emperor Nicholas has been enormous. He has carried on war with the Circassians uninterruptedly for 28 years, at a cost of 20,000 lives to the Russians, who have perished in attempting to subdue the independence of Circassia. In the two campaigns against Persia, as in the Hungarian campaign and the two Polish campaigns of 1831–'32, there are not sufficient data to enable me to form a correct estimate of the Russian loss, which was, in the Persian and Polish wars enormous. In the two campaigns against Turkey of 1828–'29, 300,000 fell, of whom, however, 50,000 perished by the plague. The loss of the Russians, in various ways, since the entry of the Danubian Principalities, is understood at 30,000. In these calculations it should be borne in mind that no estimate is attempted to be made of the sacrifices of human life on the side of those who fought for their liberties against the aggressions of Russia. If this calculation were attempted, it is probable that the result would prove that neither Julius Cæsar, nor Alexander, nor even Tamerlane, has been a greater scourge to the human race than the present Emperor Nicholas.—*The Emperors Alexander and Nicholas, by Dr. Lee.*

THURSDAY, DECEMBER 21, 1854.

COURTESY — ABOLITION.

We do not mean by this odd sort of a head, to intimate our desire or purpose to have courtesy abolished; on the contrary we earnestly desire that it may be preserved as far as possible, consistently with truth and simplicity. But we group the terms together, because we find the ideas which they represent, embraced in one editorial article, in that excellent newspaper, the Boston Courier. The article finds fault with the Evening Telegraph for its lack of courtesy, and says:

We are disposed to live on good terms with professional neighbors, and notwithstanding the various differences which arise from politics in election times, manage to jog along comfortably, taking joke for joke, and giving hit for hit, without thinking or harboring malice.

All this we approve and adopt, fully. But a few sentences further on, in the same article, we read the following remarkable passage, viz:

We are inclined to dodge no assault of the Abolitionists, come it in what shape it may. As *writers*, they can only be classed as *liars, knaves, hypocrites*, and everlasting grumblers. They disregarded all the *courtesies* of language and custom, for *not one* of them knows the difference between a *clown* and a *gentleman*, and not one of them ever supposed that *truth* was a *virtue*, rather than falsehood.

Now it strikes us that this sentence, read in close connexion with the former, has the semblance of incongruity, which needs a little explanation.

An Abolitionist is one who wishes, or labors, to abolish something. Thus, Jefferson and Franklin wished to abolish slavery in this country; Wilberforce and others wished to abolish the African slave trade; and Charles Spear wishes to abolish capital punishment. These men are or were all Abolitionists. But were they all therefore, uncourteous? all liars and knaves?

In this country at the present time, the term Abolitionist is chiefly applied to those who desire, seek or labor, to abolish slavery. Not a few of those people write more or less; for example, Whittier and Mrs. Stowe, Chapin and Starr King. Does no one of those regard courtesy of language or custom? are they all liars? knaves? hypocrites?

Still further, is it certain, is it true that the *writers* who seek by their pens to *abolish* American slavery, are less courteous or less honest, than those other writers who seek by their pens to *preserve* and sustain it? Is it true, that those who attack slavery are less fair or less honest than those who defend it? If so, let us know and understand it, that we may govern ourselves accordingly. There are but few neutrals on this subject now, and we certainly do not belong to these few. But if any one will convict us of discourtesy, we will repent and be converted forthwith.

THE SECOND ADVENTISTS.—We copy the following from "The World's Crisis" newspaper, of the 13th Dec.:—

The Christian Register (Unitarian) of Nov. 4th, after giving a synopsis of the argument published in the Crisis of Oct., closes with remarks, which we can but regard as paying us the highest compliment possible, inasmuch as it is acknowledging that our position results from our close adhesion to the doctrines of the Bible.—*Crisis.*

The Register says:

"The argument is its own refutation. Language is wasted on such absurdity. We commend it to those theologians who have been teaching that the coming of Jesus is to be in clouds and whirlwinds:—neglecting the truth that he begs that we will let him come gently into our hearts. We commend it to those who have been preaching that the woman or the beast, was Rome on her Seven Hills, or that there is any historical warning to be drawn from Daniel or the Apocalypse. The absurdity of "the World's Crisis," is *the legitimate result of the Deification of the letter of Scripture.*"

REV. BARON STOWE of Boston preached the annual sermon in aid of the Baptist Female Charitable Society, in the First Baptist Church at Concord, N. H., on Sunday evening. There was a large audience, and the very liberal collection of $2,201 was made after the sermon, which was an able production.

There seem to have been *two* able productions on this occasion.

A late South Carolinian has an account of an address at Abbeville, S. C., before a Bible Society, by R. A. Fair, Esq., of which the main proposition was the duty of slaveholders to teach their slaves to read, and place the Bible in their hands. This position was supported *by pro slavery arguments!* For example: "the Bible sanctions slavery," "Heaven itself instituted the system," "ability to read the Scriptures is not incompatible with the perpetuation of the system, on the contrary would strengthen and sustain it." The Independent Press adds: "If the premises be correct, his conclusions would appear just. If slavery be a Heaven-instituted system, it would seem that the light of Heaven, however effulgent its beams, could never undo its own work." *Verily, there is something "new under the sun."*

NEW ORLEANS, 18th.—W. H. Wilder, Esq., a lawyer of this city, and a prominent sympathizer with the Cuban filibusters, has been convicted for forging land warrants.

GODEY FOR JANUARY.

We have already received, *via* Mr. Morse of this city, Godey's Lady's Book for Jan., 1855. On opening it the following embellishments meet the eye, and attract the attention:

John proclaiming the Messiah; the Floral Offering, a beautiful vignette title; Godey's Unrivalled Colored Fashions; Sac de Voyage, and Sac de Ouvrages, a brilliantly colored plate; the Sevastopol, and other dresses.

One article, The Cosmetic, is worth a year's subscription. Mrs. S. J. Hale continues to be editress—L. A. Godey editor and publisher. This number begins a new volume; and therefore this is the time to subscribe. The January No. contains 100 pages, 68 engravings, 60 contributions, and 10 full page plates.

Terms.—One copy, one year, $3; two copies, one year, $5; five copies, one year, and an extra copy to the person sending the club, $10; eight copies, one year, and do, $15; eleven copies, one year, and do, $20. Godey's Lady's Book and Arthur's Home Magazine will both be sent one year for $3,50, by L. A. Godey, No. 113, Chestnut Street, Philadelphia.

LINES TO A BACHELOR.

BY EMILIE BANBORN.

You say you're going to be married soon—
I hope it may prove true;
But I very much doubt the story you tell—
For who would wed with you?

I know you're pretty good looking,
Can swell with a foreign air;
Sing serenades by moonlight,
And compliment the fair.

You say you're in love—but who would believe
A word that a Bachelor said?
When every one knows as a *secret* of course,
That you're strangely out of your head.

I would wager a dollar this lady of yours
Is a phantom that flits through your brain;
For to think of her marrying such an 'old bach'
Fairly makes *my heart* throb with pain.

When I think of the maid who *refused you* that night,
Whatever her troubles in life;
I rejoice then to think she is spared from the fate
Of being a *Bachelor's wife.*

But about this last engagement,
I believe it's all a pretence;
And I'm sure you can't get married,
For you don't know how—to commence.

EXETER, N. H., Nov., 1854.

SHOCKING AND FATAL ACCIDENT ON THE READING RAILROAD—THREE MEN KILLED. A locomotive left Richmond on Friday afternoon for Pottsville, with one hundred empty cars, and when the train was approaching the Manayunk tunnel the boiler exploded, blowing out the end over the fire box, and rendering the engine a complete wreck. George Long, (formerly an engineer on the road,) was on the engine at the time, and was so badly scalded that he died in a short time John Lynch, the fireman, did not survive many minutes after the accident. Charles Miller, brakeman, was killed instantly. The bodies presented a shocking spectacle. A lad living in Reading was badly scalded, and James Kepple, had a leg broken by jumping off from the engine to escape the scalding steam. Samuel Clark, engineer of the train, escaped without injury. He was at his post on the top of the engine, and jumped off. It was one of Ross Winan's anthracite engines. The explosion occurred from the fire-box end of the engine, throwing the fragments and scalding water into the tender, where those killed and injured were sitting.

THE CHURCH TROUBLE IN NEWARK.—The difficulty in the German Lutheran church at Newark, caused by the minister turning Catholic and claiming the control of the building and establishment, is said to be growing more and more aggravated. On Sunday the priest denounced the Protestant portion of his congregation in the most scandulous terms. They heard him through patiently, but in the afternoon assembled at an earlier hour than usual, and removing the lock upon the door, of which the priest had the key, put on another of their own, and took possession of the church. They then proceeded to listen to the sermon of a Protestant minister, whose services they had secured for the occasion. In order to preserve order they called in the aid of the marshal and a strong body of police. In the mean time, the priest and his friends hearing of the proceedings of their opponents, assembled outside and endeavored to enter the building, but though the people generally were admitted, their spiritual leader was carefully excluded Everything passed off quietly, the Protestants remaining in full possession at last accounts. Further trouble is anticipated.—*Boston Journal.*

WASHINGTON, 19th.—The publication of the trust deeds, and the statement of the assets of Messrs. Selden, Whithers & Co., has caused great astonishment here, and brokers are to-day buying Exchange Bank notes at sixty cents on the dollar, which is a decline of thirty cents since yesterday. More than two thirds of a million of their assets are believed to be worthless.

PHILADELPHIA, Dec. 19.—Augustus Bastay was arraigned here to-day, charged with extensive forgeries committed in Quebec, and was held to await a requisition under the extradition act. Six hundred dollars in gold and a large quantity of baggage were found with the prisoner at one of our principal hotels.

LOCAL.

THE CONCERT THIS EVENING.—Mr. Pearson announces a varied Entertainment at the Temple. His class of about seventy-five ladies and gentlemen, have just closed a term of lessons—and most of them, it is expected, will take part in the Concert, where they will be accompanied by a good Orchestra and the Grand Piano. The programme is a fine one, and will be well executed. The Cantata announced as a finale, has been several times given for the entire programme at Concerts. The "Old Folks" have established *their* reputation—let us see what "the dear young folks" can do.

EVENING SCHOOL.—The number of scholars in the evening school has considerably diminished since its commencement. This was owing principally no doubt to the rude behavior of young men who have every year been in the habit of hanging about the school and insulting the scholars on their way home.

A stricter discipline of the school has also driven away a number of the more restless spirits among the scholars. The school is now quiet, and not subject to annoyances outside, and affords a good opportunity for improvement, to those for whom the school is established. And it is sincerely hoped that those who left the school on account of the rudeness of the outsiders, will now return and avail themselves of the full benefits of the school.

LECTURE AT RYE.

On Sunday evening next, Dec. 24, *Deo Volente*, Rev. T. H. Miller will deliver his Biographical Lecture on Rev. Joshua Moodey, at the Congregational Church in Rye, commencing at six o'clock.

☞ Fancy articles for the Social Gathering can be sent to the house of Mr. John Stavers, No. 121 State street, on Friday and Saturday of the present week. Refreshments to be sent to Jefferson Hall on Tuesday afternoon, Dec. 26th.

PROGRESS IN THE SOUTH.—Gov. McRae, of Mississippi, says in his address:—"There are but two great ideas worthy of life—GOD and LIBERTY. They embrace all of value here—all of importance hereafter. But, to appreciate these, man must be intelligent; to be intelligent he must be educated; to be educated the means must be provided—and this is the duty of the State."

The Legislature of Alabama last winter emancipated, by enactment, John Bell, the body servant of Wm. R. King, V. P. U. S., then recently deceased. It was declared that "emancipation on the soil was the highest boon of governmental favor."

LIBERATED SLAVES.—Messrs. M. M. and F. T. White, of Cincinnati, recently inherited an estate in North Carolina, a part of which was eleven slaves. They were offered $10,000 for the slaves, which they refused, and the slaves recently passed through Cincinnati on their way to Indiana, where they will settle as agriculturalists.

Individual, paves the way for general emancipation.

CALIFORNIA.—California is the living wonder of the world. Governor Bigler says, that during the past season, California has produced the astonishing yield, in one instance, at least, of *eighty-two and a half bushels of wheat to an acre.*

WHITE RIVER JUNCTION, Dec. 19.—A locomotive engine, named the Claremont, exploded to-day, near West Lebanon, N. H., slightly injuring the engineer, J. G. Moore, and scalding and otherwise injuring a fireman named David Warren, who will, however, probably recover. The engine was blown to atoms, and scattered in all directions. The windows of a house in the immediate vicinity were completely demolished. The explosion shook the buildings at the distance of half a mile.

PHILADELPHIA, Dec. 19.—FIRE IN THE HOUSE OF REFUGE.—The new House of Refuge, beyond Fairmount, was almost wholly destroyed by fire this morning, together with a large quantity of materials for making cane seated chairs, whalebone for umbrellas, &c., belonging to different individuals. Loss about $30,000; mostly insured. None of the boys, except one, escaped from custody. No lives were lost.

Ancient Sacred Music.

AN adjourned Meeting and Rehearsal for the "Old Folks' Concert," will be held at Exchange Hall, on Friday Evening Dec. 22d, at 7 o'clock. All who were invited at previous meetings—and all who have ever sung the old music, are invited to join on this occasion.

Notice.

SOMETIME in November the undersigned were appointed by the Society worshiping at the Old South, to solicit subscriptions for the support of the Gospel in that church.

They have ascertained that an individual not authorized, and not attending that meeting, has also been soliciting money for the same object, and they hereby give notice that if the individual above alluded to, does not make over the funds thus fraudulently obtained, before the first of January, his name shall be given to the public.

Citizens disposed to aid in supporting preaching at the Old South, are hereby informed that funds may be handed to Mr. Abbott, the City Missionary, or to either of the undersigned. No other persons have been authorized.

LUTHER PARKER,
JOHN LAMBERT,
d19 HENRY PEARSONS.

"THE Committee of the South Church," appointed to solicit funds to sustain their cause, can have all their just dues from the "Hanover street Church" at any time when they produce the least evidence that any person connected with the F. W. B. Church on Hanover st. has used any fraudulent means to "pick the pockets" of those connected with the "Old South" institution. That individual to whom the committee refer, will come hard on the pockets of the committee, should they fail to prove that funds belonging to them have been fraudulently collected as they have reported. It is well known by the most prominent citizens of this city, (the clergymen included, and more particularly the Rev. Dr. B.) that during the last three years, the Collector of the Hanover street Church has approached them, and, in a very specific manner, so that the donors could not be misinformed as for what purpose their donations were given, the specific object always being set forth in the Collector's Book. W.

P. Y. M. C. Association.

ABBOT LAWRENCE, Minister Plenipo. to Gt. Britain;
†JOHN B. FITZPATRICK, Catholic Bishop of Boston;
MEN WHO ARE MEN.
Among the diseases this Pill has cured with astonishing rapidity, we may mention
Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nauses, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

CONGRESS.

TUESDAY, Dec. 19.

SENATE.—A message was received from the President transmitting the correspondence with our minister at Constantinople.

Mr. Rockwell of Massachusetts presented a petition from David Sears, Abbott Lawrence and others, asking an appropriation for the Massachusetts Humane Society, on behalf of shipwrecked mariners on the eastern coast.

Mr. Cass gave notice that on some future day he should move that the Senate adopt Mr. Underwood's resolutions, and call the attention of the President thereto. He eulogized Napoleon I. for his sentiments in regard to religious freedom, quoting certain remarks of his, at the time of his coronation, upon the subject.

Mr. Brodhead made an eloquent appeal in behalf of his resolution for sending a steamer to the Arctic Seas in search of Dr. Kane and his party, and it was passed.

Mr. Petit made a report from the Committee on the Judiciary, that the House bill concerning United States lands in Cincinnati pass. It was agreed to, and the bill was passed.

Mr. Brodhead reported a bill in favor of the claim of General John E. Wool, and recommended its passage. Passed.

Mr. Brodhead moved that so much of the President's Message as relates to naval affairs be referred to the Committee on Naval Affairs. Agreed to. Adjourned.

HOUSE.—Mr. Phelps of Missouri, from the Committee on Ways and Means, reported a bill making appropriations for the naval service for the year ending June 30, 1856.

Mr. Houston of Alabama, from the same committee, reported a bill making appropriation for fortifications and other works of defence, and the repair of barracks and quarters for a like period. Both bills were referred to the Committee of the Whole.

The House then went into Committee of the Whole on business pertaining to the District of Columbia.

Various bills concerning the District of Columbia were considered, but without final action. During the consideration of one of the bills,

Mr. Giddings of Ohio offered an amendment, that no person shall be imprisoned unless charged with crime. He then alluded to the law imprisoning free colored men, and argued his amendment, which was rejected—yeas 30, nays not counted.

Mr. Bayly of Virginia gave notice of his intention to move the taking up of the French Spoliation bill on the 16th of January. Adjourned.

New Light and more Light.

PATENT SMOKE-BURNING

OIL LAMP!

THIS newly invented Lamp, so differently constructed from any other, is believed to be the **BEST** LAMP ever offered to the Public, for the following reasons:—

It requires only the Poorest Oil, Lard, Tallow or Grease; and with the same material, produces **FOUR OR FIVE TIMES AS MUCH LIGHT** As ANY other known Lamp. It is simple in its construction (consequently not liable to get out of order.) By its use, the danger from Fluid and other EXPLOSIVE COMPOUNDS is avoided; at the same time without the least odor, an amount of Light is produced truly astonishing. The economy with which it may be used makes it desirable for every one, while the price of it puts it within reach of all.

Hundreds of testimonials from those using them, may be seen at the Store of the subscriber, who is the only agent for the sale of them in this city.

d16 G. N. CARLETON, 15 Daniel st.

Sagamore House,

FROST'S POINT, RYE, N. H.

THE Proprietor of the above named House has made arrangements so as to provide for the reception of parties, at short notice, through the coming winter.

The table will be furnished with all the delicacies the market affords, as well as the substantials which are necessary in a well ordered house.

This House is within thirty minutes' ride of Portsmouth, and having been favored with an extensive patronage for the past two years, is now well known to the public.

The above arrangement, which is a novelty in this section, the Proprietor hopes will be duly appreciated, and that a portion of the Winter Pleasure Parties may turn toward his house, from which a fine view may be had of our rock bound coast, against which the wintry blast hurls the dashing wave.

FIRE AND LOSS OF LIFE.—The house of Capt. James Wyman, situated a mile and a half from Lexington Common, was entirely destroyed by fire on Monday afternoon, at about 4 o'clock. Mr. Wyman's mother, an old lady aged 80, was in the house, and perished in the flames. The remainder of the family were absent. The cause of the fire is unknown. Old Mrs. Wyman was nearly helpless.

RACINE, Wis., Dec. 18.—The schooner Whirlwind has arrived at this port with part of the crew of the propeller Westmoreland, which sunk in twenty five fathoms of water, about eighteen miles this side of the Sleeping Pear. Seventeen lives were lost.

DR. CARL V. MEYER'S
GERMAN
HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thoro' scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for restored health, are cut on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees - all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. The medical properties of there waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with any long lasting or hereditary Humor. They range in temperature from tepid to boiling hot, and are pleasant to the taste.

This Balsam—owning to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any other ointment, for it acts DIRECTLY ON THE PART affected, and on no other, just in proportion to the part is affected.

Use of this Balsam every second or third hour just before going to bed, will supersede the use of pills, (which generally leave the bowels in a costive state,) and relieve those affections called

DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,

Diseases engendered by two close confinement in workshops, counting rooms and stores, where little time is allowed for meals and recreation.

LOW OR CHRONIC DISEASES,
SUCH AS
Tumors, White Swellings, Scorbutics Eruptions, Ulcers, Erysipelas,
Chronic and Nervous Affections,
CANKER,
ALL DISEASES OF THE SKIN,

The Balsam is exceedingly efficacious.

SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,

Cured by using the Medicine according to the directions.

DISEASES OF NEURALGIA,
AND ALL
RHEUMATIC AFFECTIONS,

The Balsam will prove a sure remedy.

COLDS,
COUGHS,
SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,

The Balsam is the most effectual and lasting remedy presented to the public. If you should have a paroxysm of coughing, take some of the Balsam, and it will afford immediate relief.—IF YOU EXPECTORATE EASILY, AND NEVER TIGHT COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE!

Find relief by taking a dose of the Balsam. In any time there is a tendency to sick stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief. It also acts powerfully as an ALTERATIVE and will prove effective in

PURIFYING AND REGULATING THE
SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metallic Cases, containing about one pint, and accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF FLOODING; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 57 Mill street.

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., FRIDAY, DECEMBER 22, 1854. VOLUME 5. NO 123.

THE DAILY MORNING CHRONICLE

is published by

FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,

At No. 4 Exchange Buildings,

Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.

TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.

For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated.

Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.

Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping; on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.

☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found, 50 cts. if found.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

Splendid Furniture.

THOSE who have not had an opportunity of feasting their eyes by the rich display of Furniture at the World's Fair, or State Exhibition, may be in a measure compensated for the loss by visiting the

Daniel Street Furniture Rooms,

Under the Sign of the French Sofa. While they admire, they can have an opportunity, if they wish, of securing at a low price, the best of Furniture in the market for their own use.

Here may be found the EXTENSION DINING TABLES of different sizes; MARBLE TOP CENTRE TABLES; and a large assortment of FRENCH SOFAS AND CHAIRS, covered with plush or silk damask—or the BLACK WALNUT AND MAHOGANY SOFAS, with hair cloth—as well as some more common articles of the kind. Or you may be well rested in the CANE SEATED CHAIRS, with or without rockers.

These FIXTURES, as the French call them, or WHAT NOTS as the Yankees say, are elegant articles—so are those UMBRELLA STANDS, so useful for the entry.

If you wish to complete the beauty of the chamber, just examine the varieties of ELEGANT CHAMBER SETS, and also that necessary article and useful ornament of any room, the LOOKING GLASS, in frames of either Mahogany or gilt.

These are but few of the many additions which have recently been made to the Daniel street Furniture Rooms, which the public are invited to visit, and patronize.

Morning Chronicle.

FRIDAY, DECEMBER 22, 1854.

FOREFATHERS' DAY.

The twenty second day of December, be it remembered, is the anniversary of that day, when the Pilgrim Fathers, who came to Plymouth in the May Flower, landed on that stern and rock bound coast—where with a good share of firmness and stability, they planted themselves and laid the foundations of independent churches, free schools, democratic towns and republican States.

Let their posterity and successors emulate their virtues, and preserve their institutions, not by a mere servile copying of what they did—but by discharging the duties of to-day, as faithfully as they did those of two hundred years ago.

The pilgrims were then in advance of the world; but the world has moved on during these two hundred years. The true copy of the pilgrims, to-day, must be about as far ahead of his times, as they were of theirs.

CHRISTMAS DAY A HOLIDAY.—On Monday next the custom house, post office, banks, &c., will be closed, and all public business suspended. Why should not the holiday be made universal? We are glad to learn from an esteemed correspondent, that the respectable portion of the fancy goods trade in the city intend to close their stores, and we trust that their example will be followed in all other branches of business. Apart from the religious sancity of the day, we are sure that most employers are at this period sufficiently harrassed to render grateful any extra period of rest, whilst their employees, whom it is always their interest to foster into zeal by little acts of favor and all rational indulgence, may almost claim the holiday as a right. We need not repeat the trite and obvious proposition that to those closely confined, periods of recreation are absolutely essential to health; but, morally considered, who can doubt that there will be less sleighing in the country on Sunday next, if it be known that Monday will be disposable for the purpose. But our correspondent goes a step further, and asks why New Year's Day should not also be kept a holiday, as in New York? Well, why not? —*Boston Traveller.*

We keep Christmas as a holiday, so far as our publication is concerned, and would have it kept by all as a holiday, in the highest and best sense possible.

We would also be glad to see New Year's Day kept as a holiday for social purposes, and to see an imitation of New York so far as friendly intercourse is concerned. But if we must have such a general license for tippling, and convert every wife and daughter into a tempter to drunkenness, then rather let every man work, and forget if he can, that it *is* New Year's Day, so that he may go soberly to bed at night, and wives and children have no cause to weep over the "glad New Year" as a curse and not a blessing.

Let us have the holiday,—out not the excess and folly.

EDUCATION OF SLAVES.—The Right Rev. Bishop Meade has written a letter to the Southern Churchman, proposing a plan for the Christian instruction of the slaves in the Southern States. He considers that a commentary on the most important parts of the Bible, for the use of masters and mistresses in the instruction of servants, at family prayer and other times, is one of the things most needed in the South, and suggests that some qualified person should prepare such a work. —*Boston Traveller.*

When this book is published, we hope the publisher will not forget to send us a copy. We like to get all such things from the first hands.

A BREACH OF PROMISE CASE AND ITS RESULT.—About a year since, it will be remembered, the circumstances relative to a suit brought against William K. Hall, at that time Superintendent of the Harlem Railroad, for a breach of promise of marriage, by a young lady from Washington, were published; and it was subsequently stated that she had obtained a verdict of $13,000 damages against him. Since that time he has applied for the benefit of the insolvent act, submitted to imprisonment in the Hudson county jail, and recently obtained a discharge from his debts, by means of which he escapes the penalty and leaves the young lady to take care of herself. —*Albany Transcript.*

She made a happy escape when he backed out. His escape is by the skin of his teeth; —not much to be envied, as we look at it.—To be a poor insolvent is misery enough for one day;—but to be a convicted covenant breaker, an exploded railroad man, and a collapsed speculator, is rather too much.

HARPER'S MAGAZINE, for December, contains an interesting chapter of Virginia Illustrated, and an equally interesting part of Abbott's History of Napoleon. Also a good account of San Juan or Greytown, with descriptive views.

Received from Fairdige & Co., Boston, via J. F. Shores, Jr., of this city.

THE PORTSMOUTH CHRONICLE.—It seems by the showing of this paper that the editor is more of a puppy than Uncle Toby's dog, for the former noticed our "eloquent and beautiful remarks," though the latter did not.—*Boston Mail.*

Query, whether this last card is intended for wit or logic?

COLD WEATHER.—The thermometer in this city on the 20th, at sunrise, stood at 5 deg. below Zero.

At the Half-way House, on the Troy Road, the mercury indicated eighteen degrees below zero. Teams are now crossing the Hudson River on the ice, which is thick and firm.

THE COAL MINING commenced in this country twenty-five years ago, and in 1835 it only reached a half million tons. Many can remember its introduction into these parts, and the strange experiments that were tried with it. Several tons of it, which the owner was unable to ignite, are now buried in a yard in this city; and we know a man who carried a piece home in his pocket, and kept a wood fire over it for a week, and then threw it out of doors, refusing to believe that it would burn, or give heat any more than granite.—These things should not astonish us, when we know that an eminent philosopher would not credit, that coal gas could ever light the streets of London; and another, equally distinguished, affirmed that a steamer load would not propel the ship carrying it, across the Atlantic. But uniformly and rapidly has its consumption increased, till we produce a thousand million tons per annum, which cost the consumers some sixty or eighty millions of dollars this year.—*Newburyport Herald.*

NEW TEMPERANCE MOVEMENT.—A movement in the reformatory world somewhat resembling the Washingtonian enterprise, has just commenced in Boston. Two or three weeks since several individuals were drinking at the bar of the so-called "Dover House," near Williams Hall, when one of them said to the others—"Let's us stop drinking, and form an abstinence society." This sudden proposition was favorably received, and the party immediately adjourned to commence operations as a society. We learn that those addicted to drink only are admitted, and that the number of members is now quite large. Nearly all the regular patrons of the "Dover House" bar were the first converts. Mr. John Hawkins, the well known Washingtonian lecturer, will address the new society. A more suitable speaker could not be elected for the occasion.

SEND ALONG THE DOCUMENTS.—We are indebted to Mr. E. R. Nuttle, agent of the Philadelphia Almshouse, for the following statement of admissions in the house for the month ending Nov. 30, 1854.

Ireland furnishes 275, Germany 101, and the rest are divided among other nations.—*American Banner.*

At a meeting of Irish exiles held in New York, Friday evening, three cheers were given for the Emperor of Russia. Is Siberia, then, so much more plesant than Van Dieman's Land? For had those gentlemen aired their patriotism as rebels against Nicholas, they would have been fortunate in getting off with a through ticket to the Siberian mines. None of them would have made their escape, like Meagher and Mitchel; and most certainly none of them would have been pardoned, like Smith O'Brien.

A SCIENTIFIC ROGUE.—The local editor of the Petersburg Express relates the experience of a Norfolk lady at the State fair.—She had entered one of the crowded omnibuses of Maine street, in order to meet her friends at the Fair Grounds, and as numbers were there anxious to get seats in the same vehicle, it was pretty close work:

A fashionably attired gentleman, very *distinque* looking, took his seat by the side of the lady. He was dressed in the best black, with a most religious looking neck tie. A handsome Talma cloak swung gracefully over his shoulder, while his hands of most noble blood symmetry, encased in spotless and delicate colored "kids" rested tranquilly on his lap. The ladies present could not help admiring the aristocratic model of those hands.

On drawing near the Chinese entrance to the Fair Grounds, our fair informant felt something stirring her dress near her pocket. It surely could not be the hands of her genteel neighbor, for they were tranquil in his lap. Again she felt something fingering near her sash, where her watch was fascinatingly lodged. She put down her hand, and grasped the warm fingers of an unknown hand, belonging evidently to the genteel personage by her side. The idea of a three handed man so terrified the lady that she shrieked and swoned —right off! With a bold swing of his "Talma," the aristocrate "kids" disappeared, and their owner, amid the confusion, said he'd run and get some water to restore the lady. He did so, but we presume he went very far to fetch it, for he has not yet been heard of in connection with said "water."

When the lady found herself in speaking condition, she told the cause and perceived that her port monnaie and pencil case were gone, and the marks of a pair of nippers on her watch chain.

The pair of neatly gloved hands were sham, merely "decoy ducks;" while, from beneath the facilitating constructed folds of the Talma, the real flesh and bone were wandering insidiously in search of the fair lady's valuables.

Great fears are entertained respecting the fate of the Spanish line of battle ship Saberana, which left Havana on the 23d of August, with five or six hundred souls on board, and has not since been heard from.

The Washington correspondent of the Evening Post intimates that Capt. Gibson's claim upon the Netherlands government is not in a situation to be further pressed by our government, and will probably be dropped where it is.

GEN. HOUSTON.—The Brenham (Texas), Enquirer of the 28th ult., has the annexed announcement extraordinary: "We learn that a number of persons were baptized by immersion on Sunday last, at Independence, among whom was General Sam Houston."

LOCAL.

CITY COUNCIL.

In the Board of Aldermen, on Thursday evening, the use of Jefferson Hall was granted to the Ladies of the Middle street Church for a Levee.

The usual resolution for issuing summonses to delinquent tax payers, passed both boards; also the following

SNOW ORDINANCE.

Be it ordained by the City Council of the City of Portsmouth, as follows: SEC. 1. The occupants, or if unoccupied, the owners of all buildings and lands situate within the city, shall keep the sidewalk adjoining their respective premises, in all cases where a sidewalk has been or may be constructed, free from snow by causing the snow to be removed, into the street, and evenly spread, within six hours after the cessation of every fall thereof, or when the snow shall have been blown or drifted upon the sidewalk by the wind,—the time herein allowed for the performance of the work to be computed from sunrise the succeeding morning whenever the fall of snow shall have ceased in the night time.

SEC. 2. Any person disregarding or offending against the provisions of this ordinance, shall, upon conviction thereof, forfeit and pay a fine not exceeding ten dollars for each and every offence, with costs of prosecution; and it shall be the duty of the Street Commissioner, under the counsel and direction of the Mayor, to cause this ordinance to be enforced.

☞ Mr. Pearson's Concert, by his advanced class of singers, was given at the Temple on Thursday evening with fine effect; and the choir made a beautiful appearance. With such an orchestra and such a chorus, our musical treats need not be few nor far between.

☞ The second Meeting of the series, on the subject of Temperance, will be held on Monday evening next, in the Middle street Church. The attention of the public is invited to this meeting, and to the rest of the series.

☞ Mr. Abbott, the City Missionary, desires us to state that while he is a friend to all christian churches in this city, yet for reasons connected with his office, he does not wish to receive subscriptions for any church. Donations for the Poor, without regard to sect, gratefully received, as ever.

☞ Fancy articles for the Social Gathering can be sent to the house of Mr. John Stavers, No. 121 State street, on Friday and Saturday of the present week. Refreshments to be sent to Jefferson Hall on Tuesday afternoon, Dec. 26th.

The N. Y. Courier and Enquirer says the 93d Highlanders, the regiment which has already so admirably distinguished itself in the Crimea, has volunteered to extinguish itself by leading the storming party at Sebastopol.

The old battle concerning the erection of a bridge over the Hudson at Albany, is to be fought over again in the coming session of the New York Legislature, and the Troy indefatigables are making preparations to fend off.

The New York Councilmen have repealed the ordinance opening a street through Trinity Church Yard, by a three fourths vote. The Aldermen sometime ago repealed the act by a vote of 13 to 7.

A man named Walker, who inherited eight thousand dollars a short time since, soon lost six thousand in gambling at Cincinnati.

Ancient Sacred Music.

AN adjourned Meeting and Rehearsal for the "Old Folks' Concert," will be held at Exchange Hall, on Friday Evening Dec. 22d, at 7 o'clock. All who were invited at previous meetings—and all who have ever sung the old music, are invited to join on this occasion.

Notice.

SOMETIME in November the undersigned were appointed by the Society worshiping at the Old South, to solicit subscriptions for the support of the Gospel in that church.

They have ascertained that an individual not authorized, and not attending that meeting, has also been soliciting money for the same object, and they hereby give notice that if the individual above alluded to, does not make over the funds thus fraudulently obtained, before the first of January, his name shall be given to the public.

Citizens disposed to aid in supporting preaching at the Old South, are hereby informed that funds may be handed to Mr. Abbott, the City Missionary, or to either of the undersigned. No other persons have been authorized.

LUTHER PARKER,
JOHN LAMBERT,
d19 HENRY PEARSONS.

"THE Committee of the South Church," appointed to solicit funds to sustain their cause, can have all their just dues from the "Hanover street Church" at any time when they can produce the least evidence that any person connected with the F. W. B. Church on Hanover st. has used any fraudulent means to "pick the pockets" of those connected with the "Old South" institution. Them the individual to whom the committee refer, will come hard on the pockets of the committee, should they fail to prove that funds belonging to them have been fraudulently collected as they have reported. It is well known by the most prominent citizens of this city, (the clergymen included, and more particularly the Rev. Dr. B.) that during the last three years, the Collector of the Hanover street Church has approached them, and, in a very specific manner, so that the donors could not be misinformed as for what purpose their donations were given, the specific object always being set forth in the Collector's Book. †JOHN B. FITZPATRICK, Catholic Bishop of Boston;

MEN WHO ARE MEN.

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritality, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

CONGRESS.

WEDNESDAY, Dec. 20.

SENATE.—Mr. Stuart reported a bill in favor of extending the California Land Commission. Passed.

Mr. Sumner presented the memorial of the Baptist Free Mission Society of New England, praying for the repeal of the Kansas-Nebraska bill and Fugitive Slave Law. He moved that they be laid on the table, as Mr. Chase will soon call up his bill for prohibition of slavery in the territories.

Mr. Bayard of Delaware moved the consideration of the act of last session for the naturalization of children of American parents born abroad. Passed.

Mr. Sumner of Massachusetts presented a resolution that a committee of conference be directed to consider whether further legislation is necessary with regard to the fisheries, especially by amending the system of licensing, altering the terms of bounty in the bank and cod fisheries, and extending this bounty to the mackerel fisheries.

The bill reported by Mr. Fish of New York last session, for the better preservation of life and health on board emigrant ships, was recommitted to a select committee.

The Pension Appropriation bill was taken up. A motion was made to amend so as to place the widows of officers of the navy on the same footing as the widows of the officers of the army.

Mr. Fisk's bill relative to emigrant ships was referred to a select committee of five, to be appointed by the President of the Senate *pro tem.*

Adjourned.

HOUSE.—General Whitfield, delegate from Kanzas, was announced, and took oath to support the Constitution of the United States.

The House went into Committee on the bill to suppress the circulation of small notes as currency in the District of Columbia. After some discussion it was laid aside to be reported to the House. The bill visits manufacturers, for the issue of notes under five dollars, with a fine of five dollars for every offence, and imposes penalties on parties possessing them, &c. The act takes effect in November next. The bill, together with that authorizing the extension of the Metropolitan Railroad with Washington and Georgetown, and the bill to discharge the indebtedness of the District Penitentiary, were passed.

Adjourned.

NEW YORK, Dec. 21.—The ship St. Patrick, which left Liverpool Nov. 15th, for New York, with four hundred passengers, is ashore at Barnegat. The passengers were all saved, and four lighters, filled with them, have arrived at Quarantine. The St. Patrick is about 850 tons burthen, built at Newburyport. She is insured for $50,000. The insurance on the cargo, which was a full one, has not yet been ascertained.

The St. Patrick went ashore at 6 o'clock on Tuesday evening, two miles south of Barnegat, the weather being very foggy at the time. It was thought the vessel would prove a total loss. She had bilged and had seven feet of water in her hold. A portion of her cargo had been thrown overboard.

TERRIBLE EFFECTS OF THE STORM OF SUNDAY NIGHT.—The train on the Hudson River Railroad, which left Albany on Sunday evening, had an experience on the journey of the most trying kind. When about half way to Hudson, the snow was so deep that the conductor was obliged to send back to Albany for a snow plough, and in some places was piled upon the track eight feet deep. While the train was waiting, the sufferings of the passengers from cold were severe in the extreme. The train was literally embedded in the snow, with a piercing cold wind from the northwest, and John Boyle, a brakeman, was frozen to death. Two passengers were badly frost bitten.

MAN DROWNED.—On Sunday afternoon, three men went out in a boat from Jeffries' Point, East Boston, to catch some eels, and when returning to the shore the boat upset, and one of them, named Wm. Cumings, was drowned. His body was recovered Tuesday afternoon. Coroner Rice held an inquest on the body, and the jury returned a verdict of accidental drowning. Cumings leaves a wife and three children, residing in Everett street, East Boston.

THE CHIEF GRAIN PORT OF THE WORLD. The Chicago Press of the 14th inst. says that a thorough investigation establishes the supremacy of Chicago as a grain port over all other ports of the world. According to its calculation the grain exports of Chicago exceed those of New York by 4,296,393 bushels, those of St. Louis by more than two hundred and fifty per cent., those of Milwaukie nearly four hundred per cent. Turning to the great granaries of Europe, Chicago nearly doubles St. Petersburg, and exceeds Galatz and Ibraila, combined, 5,406,727 bushels.

THE NEW GOVERNOR OF NEW YORK.—Myron H. Clark, Governor elect of New York, who has been spending some time in Albany, left for his home in Canandaigua, on Saturday. His message, it is said, is pretty well prepared, and the leading feature of it will be a recommendation for a prohibitory law, but not of the character introduced by him in the State Senate last winter, and which was vetoed by Gov. Seymour.

NEW ORLEANS, Dec. 20.—The ship carpenters of this city struck in a body to-day, on account of their employers attempting to reduce their wages to two and a half dollars per day, and wanting to lengthen the day's labor by an hour and a half.

On Monday morning, John Sullivan, about 24 years of age, was found dead in bed, at the Albion House, New Bedford. The deceased had drank freely during the day, and retired to bed at about 9 o'clock. A Mr. Burke also retired to the same bed, about an hour later, and upon awaking in the morning, attempted to rouse his bed fellow, whom to his astonishment he found to be a corpse.

AN UNPROFITABLE RIVER.—The Wellsburg Herald expresses the opinion that the Ohio River above Wheeling, is an unprofitable one for steamboat men. One half the year it is dried up, and the other half frozen up.

New Light and more Light.

PATENT SMOKE-BURNING

OIL LAMP!

THIS newly invented Lamp, so differently constructed from any other, is believed to be the

BEST LAMP

ever offered to the Public, for the following reasons:—

It requires only the Poorest Oil, Lard, Tallow or Grease; and with the same material, produced FOUR OR FIVE TIMES AS MUCH

LIGHT

As ANY other known Lamp. It is simple in its construction consequently not liable to get out of order.) By its use, the danger from Fluid and other EXPLOSIVE COMPOUNDS is avoided; at the same time without the least odor, an amount of Light is produced truly astonishing. The economy with which it may be used makes it desirable for every one, while the price of it puts it within reach of all.

Hundreds of testimonials from those using them, may be seen at the Store of the subscriber, who is the only agent for the sale of them in this city.

d16 G. N. CARLETON, 15 Daniel st.

Sagamore House,

FROST'S POINT, RYE, N. H.

THE Proprietor of the above named House has made arrangements so as to provide for the reception of parties, at short notice, through the coming winter.

The table will be furnished with all the delicacies the market affords, as well as the substantials which are necessary in a well ordered house.

This House is within thirty minutes' ride of Portsmouth, and having been favored with an extensive patronage for the past two years, is now well known to the public.

The above arrangement, which is a novelty in this section, the Proprietor hopes will be duly appreciated, and that a portion of the Winter Pleasure Parties may turn toward his house, from which a fine view may be had of our rock bound coast, against which the wintry blast hurls the dashing wave.

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and country. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give the latest reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above mentioned works is $1 per year.

Patents.

AMERICAN AND FOREIGN OFFICE.

Agency for business with US Patent Office, Washington,

75 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS.—The Subscriber (late Agent of the U. S. Patent office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements for obtaining specifications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Models, Drawings, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

SAMUEL COOPER,
Late Chief Examiner in the United States Patent Office.

Procures Patents in this and Foreign Countries.

References—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

IMPORTANT IMPROVEMENT
—ON—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane *very much faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines *for side work*, or planing very *thin, cross-grained or knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots.*

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without *sorting* them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge.*

Applications for rights and machines, or for further particulars, can be made to the Patentee,

JAMES A. WOODBURY.

HERTS BROTHERS'
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unremitting attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, and usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or FLOODING; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 58 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

. . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Splendid Furniture.

THOSE who have not had an opportunity of feasting their eyes by the rich display of Furniture at the World's Fair, or State Exhibition, may be in a measure compensated for the loss by visiting the

Daniel Street Furniture Rooms,

Under the Sign of the French Sofa. While they admire, they can have an opportunity, if they wish, of securing at a low price, the best of Furniture in the market for their own use.

Here may be found the EXTENSION DINING TABLES of different sizes; MARBLE TOP CENTRE TABLES; and a large assortment of FRENCH SOFAS AND CHAIRS, covered with plush or silk damask—or the BLACK WALNUT AND MAHOGANY SOFAS, with hair cloth—as well as some more common articles of the kind. Or you may be well rested in the CANE SEATED chairs, with or without rockers.

These FRAGERAS, as the French call them, or WHAT NOTS as the Yankees say, are elegant articles—so are those UMBRELLA STANDS, so useful for the entry.

If you wish to complete the beauty of the chamber, just examine the varieties of ELEGANT CHAMBER SETS, and also that necessary article and useful ornament of any room, the LOOKING GLASS, in frames of either Mahogany or gilt.

These are but few of the many additions which have recently been made to the Daniel street Furniture Rooms, which the public are invited to visit, and patronize.

SATURDAY, DECEMBER 23, 1854.

RUSSIA AND TURKEY.

The old question which the little urchin Peterkin put to his grandfather Caspar, when he found the soldier's skull on the field of Blenheim, is no less pertinent to-day, than when we first read it.

"He came to ask what he had found,
That was so large, and smooth, and round.
'Twas some poor fellow's skull, quoth he,
That fell in the great victory.
Now tell us all about the war,
And what they killed each other for.
Why, 'twas the English, Caspar cried,
Who put the French to rout;
But what they killed each other for,
I could not quite make out;
Great praise the Duke of Marlboro' won,
And our good Prince Eugene——
But what good came of it at last?
Quoth little Peterkin.
Why that I cannot tell, said he,
But 'twas a famous victory."

We have not got far enough along yet to put Peterkin's last question, about the results of the victory, and the benefits of the war; though the evils are palpable, many and great.

The other question, as to the origin of the war, and to the reasons for it, if any, is quite seasonable.

An answer is given in a late lecture by Dr. Solger, which may interest many readers and instruct not a few.

According to him, the present contest in the East was not confined between Russia and Turkey; but was much more a question of European war and diplomacy. With regard to the pretext for the Russian invasion, he said there could be no doubt in the mind of any one, who had bestowed upon the subject the least reflection, that the question of the Holy Sepulchre was merely a pretence, got up by Russia, in order to force Turkey into submission. There are in Jerusalem, Latin and Greek Christians, and these two had been contending ever since they had been there for certain rights and privileges—the principal one being the privilege of entering through the chief door of the church built over the Holy Sepulchre, and as to who should possess the key of that door. The Latins originally possessed it, but it passed to the Greeks in course of time. When Napoleon became President, with a view of popularity in the East, he bullied the Sultan to transfer the privilege from the Greeks to the Roman Catholics.

The moment the Sultan had conceded that point, Prince Menschikoff appeared in Constantinople, and demanded that the privilege should be restored at once. This was done, the French giving way; but this did not suit Menschikoff's purpose, and he said as the privileges of the Greek church had been violated once they might be again, and asked for a guarantee from the Sultan for the protection not only of the Greek Christians at the Holy Sepulchre, but throughout the Ottoman Empire. The Sultan replied that he had never violated them, and never would; and then came out the ultimatum. This, in the first place, was a demand that the Patriarch of Constantinople was to be installed by the Czar, with the exclusion of the Sultan; and in the second place that the Czar was to exercise a protectorate over all the Greek Christians through all the Ottoman Empire.

The lecturer detailed the events which transpired down to the Turkish declaration of war, showing clearly enough three things—first, that Russia was actuated in the invasion of the Danubian principalities by a desire to get possession of Constantinople; secondly, that England and France united against the Czar for no higher virtue than the maintenance of the "balance of power" in Europe; and thirdly, that Prussia, Austria, Sweden and Denmark remained neutral because their personal interests dictated that course as the wisest to be pursued on their part.

NEW PAPER.—We have just received No. 1, of a Campaign paper, printed at Concord, N. H., and called The Voice of the Stockholders. It purports to be independent, and to support the causes of Education, Temperance and Freedom—causes ever dear to the many, as they elevate whatever is good, and depress whatever is overbearing, tyrannical and wicked."

BROWN'S ALMANAC, for 1855, fit for the pocket, with an excellent pocket Memorandom, just published by Brown, Bain & Co., Boston,—received from J. F. Shores, Jr., Portsmouth.

ANECDOTE OF MR. CHOATE.—At the trial of the salvage case of the barque Missouri, at Boston, last week, the case in which a part of the cargo was embezzled by the masters of the two vessels on the coast of Sumatra, one of the masters was examined as a witness, and disclosed the plan of embezzlement, and stated the inducements that were offered to him by the other master. He said that he objected at first, and told his comrade they would be found out and convicted, but was overborne by the assurances given him. Mr. Choate cross-examined him strictly, and particularly as to what the inducements and assurances were. The witness had the appearance of holding back a little, but at last he said: "Well, sir, he told me that if we were found out, he could get Mr. Choate to defend us, and he would get us off *if we were caught with the money in our boots.*" It was not five minutes nor ten minutes that it required to bring the audience back to a sober countenance. The counsel on the other side paid a tribute, in his closing argument, to the genius of Mr. Choate, the fame of which, extending to the antipodes, was relied upon as stronger than the law and the evidence.—*New York Evening Post.*

CONGRESS.

THURSDAY, Dec. 21.

SENATE.—Mr. Badger of North Carolina moved that the Senate meet to-morrow, and then adjourn over to Tuesday, on account of Monday being Christmas.

Mr. Brodhead of Pennsylvania called up the bill to establish a Court for the investigation of claims. The Bill passed.

After a short executive session, the Senate adjourned.

HOUSE.—The Judiciary Committee was instructed to inquire whether any further legislation is necessary for the protection of officers of the United States engaged in the execution of the laws.

Mr. Vansant of Maryland introduced a bill for regulating the right of suffrage in the territories of the United States.

The bill authorizing the Corporation of the city of Georgetown to impose special taxes to enable it to subscribe to the Metropolitan Railroad stock, light the streets, and supply the inhabitants with water, was passed.

Mr. May of Maryland, from the Judiciary Committee, reported a bill reorganizing the Courts of the District of Columbia, and reforming and improving the laws thereof. He explained and urged the importance of the measure.

Mr. Eliot of Massachusetts opposed the measure.

By means of the previous question the bill was hurried through the preliminary stages to the point of passage without being read.—Pending the question of its passage the House adjourned.

For the Chronicle.

SEMI-BARBARITY.—As I passed along one of the public thoroughfares of Portsmouth, a few days since, I chanced to meet a beautiful little girl, an acquaintance of mine. She gave me a cheerful salutation, and extended her hand, when I discovered to my amazement that her arms were bare. The day was a very cold one, and the boys—who are generally supposed to be quite as hardy as the opposite sex—were glad to button their overcoats close about them. The sight of the miss was so frigid, that the fluid which circulates through my veins was nearly congealed;—in other words, "my blood ran cold." On inquiry, I ascertained it was the *fashion* for *very* young ladies to go about with no sleeves to their dresses. Now if their mothers or marriageable sisters choose to go half naked, I say—let them do so; but the practice of rigging *children* up in the manner described, I regard as barbarous in the extreme. I say this more particularly, because I expect a few years hence to come into possession of some one of these little half frozen creatures; and consequently wish to see them at least *civilized*—if not enlightened—before that period arrives.

YOUNGSTER.

THE SULTAN'S FIRMAN AGAINST THE SLAVE TRADE between Circassia and Georgia and Constantinople has excited considerable attention and remark in different quarters. If, as has been suggested, there is a very essential difference between the promulgation and the execution of law, in Turkey, as there undoubtedly is, and as there is to a considerable extent in all countries—still the publication of the Firman, expressly condemning and forbidding the continuance of the slave trade between Constantinople and Circassia and Georgia, is a mark of progress in the Turkish Government. It shows that the sublime Porte is beginning to be affected by the opinions of Christian governments and to be swayed very much by the advice of its Allies. The Circassians will not thank the Sultan nor his advisers for this Firman.

DAVID CROCKETT'S FAMILY.—The Hickman Argus of Friday last says, that the wife and daughter of the distinguished patriot and eccentric genius, David Crockett, passed through Hickman lastweek, on their way to Texas, to get possession of a portion of the land donated by the State of Texas, to the heir of those who fell at the battle of the Alamo, during the struggle for independence. It says the widow is a plain, sensible woman, about sixty-five years of age, and the daughter is a woman of similar appearance, except in age, she being about thirty-five. Davy Crockett had three sons, two of whom died lawyers and politicians of some distinction, one of whom was Hon. J. W. Crockett, who died in Memphis about two years ago, and who had obtained a brilliant reputation as a man of remarkable ability, popular manners, and sterling worth. He at one time represented his father's district in Congress, and was spoken of as a Whig candidate for the Vice Presidency.

GUNS FOR BOTH SIDES.—The California papers state, that on the 16th of November a salute of 21 guns was fired fom the English frigate President and French flag ship Forte, in honor of the reported fall of Sabastopol. On the 21st when the intelligence was ascertained to be premature, a salute was fired from the American ship Zenobia, under the direction of the Russian Consul, "in honor of the defeat of the Allied French and English fleet at Petropolvski and of their not having taken Sebastopol."

PHILADELPHIA, Dec. 21.—LIQUOR CASES. Justice Black, of the Pennsylvania Supreme Court, gave a decision to day on several cases originating in Alleghany county, where an Alderman had fined different tavern keepers $50 each for selling liquor on the Sabbath. The defendants claimed the right of trial by jury, denying the jurisdiction of the Alderman. The Judge, in his decision, however, affirmed the judgment of the Alderman, and said such cases were not suits at common law, but criminal proceedings, under a special act. All the other judges agreed with the decision except Judge Lewis, who contended against the whole principle of summary convictions, as invasions of the right of trial by jury.

LOCAL.

CHRISTMAS.

Messrs Editors:—We have not, as a people, so many holidays that we can afford to let one of them pass, without making the most of it; and it was for this reason that a paper was circulated this morning among the dry goods dealers, for the purpose of closing their stores on Christmas, to have a day of recreation for themselves as well as for those in their employ. About all the dealers signed their names, and their stores will be closed upon that day; but there are one or two who never were known to agree with the others in these matters, and who consider it a duty to keep open. R.

Fortunately, we have no one to consult with; therefore be it resolved that we keep Christmas. We intend to print the Chronicle as usual on Monday morning, but to issue no paper on Tuesday.

END OF THE STRIKE.

It will be seen by the following proceedings, that the way is open for the workmen to return to their places on the Navy Yard. We are glad to record it.

We stated last week that a committee of three had been sent to Washington to represent the matters connected with the recent strike of the mechanics at this Navy Yard, to the Secretary of the Navy. We are now glad to state that the committee have returned with a report of their interview with Secretary Dobbin and its results, which has proved highly satisfactory to the mechanics whom they represented, as will be seen by the following proceedings of a meeting held at Kittery on the 19th inst.

KITTERY, ME., Dec. 19, 1854.

At a meeting of Mechanics holden at Hayes' Hall to hear the report of Messrs. Young, Stimson and Rowe, Committee to represent their grievances at Washington. M. W. Post called the meeting to order, and James Trefethen was chosen Secretary, *pro tem.* The proceedings of the last meeting were then read. The committee then made their report which was accepted.

Voted, that the former committee on resolutions be requested to draft a new set of resolutions, which were subsequently reported as follows, and unanimously adopted.

Whereas, being fully convinced from the report of the committee from Washington, that had the Mechanics continued at work, and represented their case to the Secretary of the Navy, that justice would have been done in the premises, therefore

Resolved, That we, having full confidence in the Secretary of the Navy, should have submitted our case to his hands.

Resolved, That the thanks of this meeting be tendered to Messrs. Kittredge and Hibbard, members of Congress from New-Hampshire, for their kind interest in our behalf.

Resolved, That the thanks of this meeting be tendered to the committee to Washington, for their faithful services.

Resolved, That the proceedings of this meeting be published in the Portsmouth papers.

MARSHALL W. POST, Chairman.
JAMES TREFETHEN, Sec'y *pro tem.*

P. Y. M. CHRISTIAN ASSOCIATION.—At a meeting of this Association, on Wednesday evening, Dec. 20, the following officers were chosen for the ensuing year:—H. G. Tanton, President; J. S. Leverton and D. H. Spinney, Jr., Vice Presidents; H. Works, Recording Secretary; H. Webster, Corresponding Secretary; W. Seavey, Librarian; J. C. Words, Asst. Librarian; Joseph Pettigrew, Amos S. Foster, John G. Thompson, John H. Lowd, Charles H. Grant, David Tooke, George Ham, Directors.

☞ Rev. Mr. Rines will deliver a Lecture on Slavery and its connexion with the government of this country, on Sunday evening, at 7 o'clock, in the Old South Church.

☞ Rev. H. Whicher of Concord, will preach at the F. W. B. Chapel, on Hanover street, to-morrow; and lecture to the P. Y. M. Christian Association in the evening, at the Middle Street Church, at 7 o'clock.

PRESENTS.—We have already given several dealers' catalogues of beautiful articles "for the holidays"—and this morning Messrs. Harvey & Son occupies an entire page, outside, with a list of a portion of their books and fancy articles. We don't think it necessary to "draw attention" to it; it shows for itself.

SABBATH SCHOOL CONCERT.—The Scholars of the Sabbath School connected with the Old South Church, are to give a Concert on Tuesday evening next, Dec. 26, at the Church; the proceeds to be devoted to replenishing the Library and otherwise supplying the wants of the School. Tickets 10 cents, children half price.

A NOBLE AND HEROIC DEED OF AN AMERICAN SEAMAN.—Mr. J. S. Peduzzi, of Portsmouth, first mate of the "Louisiana," at New-York, whilst enjoying with some friends, before the vessel left New-Orleans, the pleasures of a sail, on their return from their trip saw a boat capsized and all on board immersed in the water. Mr. P. at the risk of his own life, nobly swam to their assistance, and was so fortunate as to rescue from a watery grave a mother and two children. They were all much exhausted when taken on shore.—*Jour.*

AYER'S CATHARTIC PILLS.

PILLS THAT ARE PILLS!

PROF. HAYES, State Chemist of Massachusetts, says they are the best of all PILLS, and annexed are the men who certify that Doct. Hayes knows; viz:—

LEMUEL SHAW, Ch. Justice Supreme Court of Mass.
EMORY WASHBURN, Governor of Mass.
W. C. PLUNKETT, Lieut. Gov. of Mass.
EDWARD EVERETT, Ex-Sec. of State and US Senator.
ROBERT C. WINTHROP, Ex-Speaker House Rep. U.S.
ABBOT LAWRENCE, Minister Plenipo. to Gt. Britain;
JOHN B. FITZPATRICK, Catholic Bishop of Boston;

MEN WHO ARE MEN.

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

d19 HENRY PEYSER.

An "Exciting Trial," says a correspondent of the Concord Patriot, took place last week at Plymouth, N. H., in which T. J. Sanborn was plaintiff and John Morrill defendant.—The cause arose from the changing of two colts, which had run together in a field, one belonging to each of the parties, and which had been changed. The trial occupied nearly a week; the jury visited the mares and colts; the counsel, Messrs. Bryant and Sargent, consumed two days each in attack and defence; Judge Bartlett made an "appropriate" charge, and after an hour's deliberation the jury returned a verdict for the plaintiff for the immense sum of $33,79.

A beautiful young girl, 18 years of age, named Weaver, belonging to Schoharie county, was operated upon in the hospital here today, for a tumor in the neck. Ether was administered and she fainted, when stimulants were given so as to revive her. More ether was then resorted to, and the operation was proceeded with. She was completely stupefied, and in a short time died. Dr. Marsh, assisted by Dr. Ormsby and others, performed the operation.

ALBANY, Dec. 21.—FAILURE.—Messrs. Owen & Co., extensive produce dealers in Oneida County, are reported to have failed yesterday for a heavy amount.

NEW YORK, Dec. 21.—The cargo of ship St. Patrick was valued at $60,000, and is insured in Wall street.

WASHINGTON, Dec. 21.—Mark Izard, late Marshal of Nebraska, has been appointed and confirmed as Governor of that territory.

Alcohol was first invented and used to stain the cheeks of the ladies of Arabia nine hundred and fifty years ago. Now-a-days it performs the same office for gentlemen's noses.—*Portland Argus.*

Near Ambarstburg, Canada, a few days ago, a man was eloping with a young woman, when their sleigh was overturned. The girl's neck was broken, causing her instant death; the man suffered a fracture of the leg, and was taken to a hotel in Amherstburg, where his wife is now kindly attending him, in fulfilment of her marriage vow.

At the Bellair market in Baltimore, a lady richly dressed, while bargaining with a huckster woman for a pair of fowls, slipped one of them under her mantilla, and went off; the woman started in pursuit, and in the presence of a crowd of spectators, seized the chicken by the leg, and pounded the lady on the head with it until she was rescued by a bystander.

The quantity of copper ore arriving in Savannah, from the mines of Upper Georgia and Tennessee, is becoming quite an item.—During the month of November 1,597 boxes were received from Dalton, and nearly or quite as much from mines in Tennessee. New mines are almost daily discovered, in various localities, in the mountainous regions of Georgia and Tennessee.

The wife of Mr. Harry Tuttle, of Cheshire, Ct., committed suicide in that town on Tuesday, 12th inst., by jumping into the well on the premises. She was deranged at the time. She was an estimable woman, aged about 57 years.

The matron of the Cincinnati Orphan's Home found a burglar in the house a few nights since. She fired a pistol at him, and hit him; but he was carried off by some of his accomplices, leaving a stream of blood behind him.

At Watertown, N. Y., on Tuesday, Peter Martin was convicted of the manslaughter of his wife, in September last.

VESSEL ASHORE.—There is a ship ashore on the south side of Long Island. Her name is unknown, but she hails from Brunswick, Me., and it is thought she may be the Masonic, from Rotterdam, now due at this port.

A Mass Meeting of the unemployed laboring men of this city was held in the Park this afternoon, for the purpose of petitioning the city government to bring forward the projected public works, and thereby give employment to large numbers now doing nothing. The attendance, we regret to say, was large.

Sagamore House,

FROST'S POINT, RYE, N. H.

THE Proprietor of the above named House has made arrangements so as to provide for the reception of parties, at short notice, through the coming winter.

The table will be furnished with all the delicacies the market affords, as well as the substantials which are necessary in a well ordered house.

This House is within thirty minutes' ride of Portsmouth, and having been favored with an extensive patronage for the past two years, is now well known to the public.

The above arrangement, which is a novelty in this section, the Proprietor hopes will be duly appreciated, and that a portion of the Winter Pleasure Parties may turn toward his house, from which a fine view may be had of our rock bound coast, against which the wintry blast hurls the dashing wave.

[1md16] THOMAS R. CLARK.

Daguerreotypes.

EVERY body and their friends are now having their Pictures at

Boutelle's Saloon on Hanover street,

And that all may have a chance, he will stop a short time longer. To parents he would say—bring in their little ones and get a type of them that shall show in after years the tiny features of their infant days; and to the beaux and sweet hearts who have exchanged many a token and merry glance—come now and exchange faces and have something to wink at when alone. A fine assortment of CASES and LOCKETS, all of which will be sold cheap. o16

New Light and more Light.

PATENT SMOKE-BURNING

OIL LAMP!

THIS newly invented Lamp, is differently constructed from anyother, is believed to be the BEST LAMP ever offered to the Public, for the following reasons:—

It requires only the Poorest Oil, Lard, Tallow or Grease; and with the same material, produced FOUR OR FIVE TIMES AS MUCH LIGHT As ANY other known Lamp. It is simple in its construction (consequently not liable to get out of order.) By its use, the danger from Fluid and other EXPLOSIVE COMPOUNDS is avoided; at the same time without the least odor, an amount of Light is produced truly astonishing. The economy with which it may be used makes it desirable for every one, while the price of it puts it within reach of all.

Hundreds of testimonials from those using them, may be seen at the Store of the subscriber, who is the only agent for the sale of them in this city.

December, 1854.

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., MONDAY, DECEMBER 25, 1854. VOLUME 5. NO. 125.

THE DAILY MORNING CHRONICLE

is published by

FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,

At No. 4 Exchange Buildings,

Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $1 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.

TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.

For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated.

Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.

Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping; on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.

☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found, 50 cts. if found.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

Splendid Furniture.

THOSE who have not had an opportunity of feasting their eyes by the rich display of Furniture at the World's Fair, or State Exhibition, may be in a measure compensated for the loss by visiting the

Daniel Street Furniture Rooms,

Under the sign of the French Sofa. While they admire, they can have an opportunity, if they wish, of securing at a low price, the best of Furniture in the market for their own use.

Here may be found the EXTENSION DINING TABLES of different sizes; MARBLE TOP CENTRE TABLES; and a large assortment of FRENCH SOFAS and CHAIRS, covered with plush or silk damask—or the BLACK WALNUT and MAHOGANY SOFAS, with hair cloth—as well as some more common articles of the kind. Or you may be well rested in the CANE SEATED CHAIRS, with or without rockers.

These FIXGERS, as the French call them, or WHAT NOTS as the Yankees say, are elegant articles—so are those UMBRELLA STANDS, so useful for the entry.

If you wish to complete the beauty of the chamber, just examine the varieties of ELEGANT CHAMBER SETS, and also that necessary article and useful ornament of any room, the LOOKING GLASS, in frames of either Mahogany or gilt.

These are but few of the many additions which have recently been made to the Daniel Street Furniture Rooms, which the public are invited to visit, and patronize.

Morning Chronicle.

MONDAY, DECEMBER 25, 1854.

PAY THE BILLS.

The widow of the late Mr. Batchelder, who lost his life in sustaining the laws of his country, has yet received no remuneration from Congress for the sacrifice her husband made. This delay is unjust, shameful—and if no one else will make an active effort in her behalf, we hope Mr. Giddings, himself, will shame those from whom we have a right to expect such a movement, by advocating a pecuniary relief for the poor widow at the hands of government.—*Boston Post.*

Mrs. Batchelder should have some material aid from Congress, exactly on the same ground, and about to the same amount, as the widow of a private in the army who was killed in battle.

Her husband, poor fellow, was one of the Marshal's hired watchmen to prevent the escape of the slave Burns from the Boston Court House—and was killed by some unknown hand, in the struggle for Burns's rescue.

On the impulse of the moment, somebody in Congress moved to give his widow $3000 as a present, and to tack this provision upon a bill for the relief of the widow of an army surgeon, which relief ought to have been given long ago.

If $1000 or even $500, had been given promptly, it would have been something; but the great sound of $3000, which may never be realized, resembles rather the brazen trumpet of fanatics, than the proper golden ring of statesmen.

We hope, with the Post, that Mr. Giddings will take the matter in hand, and place Mrs. B. on the list of pensioners, exactly equal to the widow of a soldier who fell in battle.

Her husband fell in defence of slavery, with which our readers need not be told we have no sympathy; but he fell in the service of the United States, the government of which is bound to remember the widow whose support is cut off by a most atrocious and villainous act.

MAINE LAW IN CONNECTICUT.—The jails tell the story. The record of commitments to New Haven jail and the city watch house for drunkenness and offences resulting therefrom, for one month *before* and one month *after* the law went into operation—show a decrease from 123 to 31; or just *ninety two* in favor of prohibition.

The Norwich Examiner brings records of commitments to the New London County Prison, as follows:

For August and September, 1853,	32
For June and July, 1854,	25
For August and September, 1854,	15

Showing a deduction from the corresponding months of 1853, in favor of the first two months of prohibition, of more than one hundred per cent.

N H REGISTER.—The N. H. Register, No. XXXIV, for the year 1855, is out in first rate style. Mr. G. PARKER LYON, its compiler and publisher, is faithful in the execution of this work, and contrives to collect a vast amount of useful information within a small space. In the present number, he has introduced a new and important feature—a Business Directory of New Hampshire. One of these Registers should be in every New Hampshire house.

Received from Mr. Shores, bookseller, of this city.

LITTLE FOLKS' OWN.—This is a new book for the Holidays, just published by Fetridge & Co., Boston, and for sale by Mr. Shores of this city. It consists of stories, sketches, poems and paragraphs, designed to amuse and benefit the young. The author is Mrs. L. S. Goodwin. It is embellished with a number of good cuts, and contains not less than fifty pieces in verse and prose, embracing a variety of subjects, and having a favorable moral tendency.

SOUTH CAROLINA.—The Legislature of South Carolina has rejected a bill to prevent the sale of intoxicating drinks by itinerant traders. A section of the bill imposed a fine of not more than "one thousand dollars, nor less than two hundred dollars," and imprisonment for not more than "one year, nor less than one month." There appeared on the part of Senators an indisposition to place the entering wedge of legislation to this subject, though the evil was admitted to exist.

The Legislature adjourned without passing the bill which was before it in relation to colored seamen.—*Boston Courier.*

THE FIRST BABY IN A NEW CITY.—In one of our letters from Kansas, dated Lawrence, Nov. 25th, it is stated that "at a meeting of the Association, a few evenings since, it was voted to present to the child of Mr. and Mrs. Carter, a first class city lot, the Association to have the privilege of naming the first child born in Lawrence. It was also voted to name him Lawrence, and his name now stands LAWRENCE CARTER." We wish the little pioneer long life, prosperity, and a fame equal to that of Peregrine White.

At a ball in Columbus, Georgia, a son of Judge Whitefield was talking to a lady in the room, which roused Joseph Nash's anger, and he caught Whitefield by the hair, and cut his throat, killing him immediately.

THE RUSSIAN SIDE.

A writer in the Boston Courier on the Turco-Russian War, speaks thus, of some singular provocations inflicted by the Turks, on those Christian dogs, the Greeks. He asks, in regard to the War—

WHAT IS ITS PRETEXT?—The thousand human hecatombs, causelessly, a mere wantonness, cut down by the cimeter of the savage and remorseless Turks, and left unburied on the Scio rocks, sank deep into the youthful heart of Nicholas, and since his elevation to the throne, the mystic voices of the victims, calling for atonement and vengeance, have incessantly rung in his ears, till he conceived himself commissioned from above as a protector and defender of Greek Christians, his brethren in faith, so cruelly oppressed. It may be well imagined what he must have felt when fresh accumulated outrages, in some respects worse than the soul-appalling massacre at Scio, broke upon the sense of his responsibility to God, and urged the prompt fulfilment of his solemn duty. A lawless Turk stabbed a Greek in Aleppo without a shadow of provocation. The friends and countrymen of the deceased, galled beyond all endurance, were aroused to vengeance on the murderer (confined to the attempt alone) and three thousand of them were in a moment butchered in the streets and in the presence of the Governor, who looked out of a window, and to all the prayers and remonstrances on the part of the Russian Consul General, vouchsafed no other favor than imperturbable silence and the incense of tobacco!! The Greek Church in Moldavia was robbed of all its possessions, and its priests, with pistols to their breasts, were forced to sign the false receipts for the pretended purchase!! One hundred boys, the pupils of a school under the special care of the Bishop of Smyrna, while enjoying a holiday walk in the suburbs, were seized by Turkish troopers, and subjected to personal violence, too horrid and too brutal to be named, some, not a few, resisting unto death!! One Easter morning, so dear to the Christians in Jerusalem, a number of the filthy Harem women, clubbed together for the nonce, and stationed on a height that overhangs the church, poured down upon the congregation as it issued from the portals in a solemn train, the full contents of certain to-be-guessed-at portable reservoirs, with such aim and precision that the greatest weight fell on the Bishop and the Russian Consul, neither of whom, nor indeed any one else, could ever have dreamed of such a visitation! Of course all these enormities were laid before the Czar, with earnest prayer for protection, which he was most willing to afford at any sacrifice short of the last resort of nations. His admonitions, threats, expostulations, demonstrations of good will, were all alike in vain! In the last case of insult and indignity, at all times less endurable than wrongs and injuries, he even condescended to address an autograph petition for redress, as a personal favor, to the weak ungrateful son of one so much indebted to his forbearance—still in vain! Apologies followed apologies, and promises were piled on promises, but not a speck of satisfaction or of justice in a single instance! Irritating evasion, putting a saint's patience to the proof, was all that was obtained, and Nicholas, if not a saint, was more than man, to have so long sustained the trial. At length the sanctuary privileges, long enjoyed and duly stipulated for, were forcibly transferred from the Greek to the Latin Church, and this ended all further proceedings. Hesitation was now a crime, and hence Menschikoff's mission to Constantinople!

This mission, wherein all designs on the integrity of the Ottoman Porte were solemnly disclaimed, was simply a demand for a more formal and satisfactory guarantee of the immunity of the Greek Christians in particular, and of Christ's followers in general; and, therefore, it was strictly, *bona fide*, a religious isolated question. That it was such, no one better know than the allies themselves, whose own official agents were participating witnesses to its heart-rending antecedents. Under these circumstances, what has been their conduct? They carefully concealed this knowledge from the public. They gave the integer demand a sinister interpretation, and made it a political question. They stepped between the Turkish will and Turkish deed of justice. They caused alarm, fears, and distrust, where confidence entire was due, seduced the imbecile ABDUL to make war on the friend and tried defender of his worthy sire; eagerly joined it to ensure its prizes to themselves; and thus involved whole nations in the noxious odor of the rotten cause, to whose morbific produce no one will dispute or envy their pretensions. As they sowed so they needs must reap; and to disclaim the faithful likeness of the portrait here presented, something better than mere words, however noisy, is required.

Thus, secretarian bitterness and religious hate, are mingled with the quarrels of crowned heads and the national jealousy of foolish nations.

LOSS OF A SOUTHERN EDITOR.—The editor of the North Carolina Argus, in his paper of the 16th, reports that five little negroes belonging to him were burned to death in the kitchen of his plantation, in Richmond County, on Thursday evening of last week; and the occurrence was the more afflicting to him, because, by proper precaution, it might have been prevented. In disregard of his instructions, the nurse who had charge of them was sent off in the evening, together with a small boy, while the hands were at a distance at work, to drive up the cattle—leaving six children under five years of age in the house.—The smoke was soon discovered; but before relief could be brought, the roof of the house fell in, consuming five of the children! The eldest made his escape.

After reporting the above facts, the owner of the little negroes says:

It is hoped that this calamity may be a caution to those who are in the employment of others, when they think of disobeying the instructions given to them.

Dr. Adams, in his spicy south-side view, remarks—"The truth is, this subject of slavery has been the occasion of more fanaticism than almost anything since the crusades."

LOCAL.

MUSIC IN PORTSMOUTH.

Rather more interest seems to be manifest in music, in our good city, the present season, than for several years previous. The fact that a greater portion of our population were singers, thirty years ago, than now, was proved to us more conclusively than ever, in making arrangements for the late "Old Folks' Concert," when we found nearly all of the older people to have been singers. A part of this decline must be attributed to the discontinuance of the old parish schools, wherein singers were trained for choirs, so that instead of one on a part, and scarcely that, as we have in most of our churches now, a respectable chorus filled every gallery.

A part of the loss of interest in music is also attributable to the want of attention latterly paid this important branch of the public worship, by our ministers of most denominations. Formerly the ministers were singers, and took active part in the musical exercises of the choir, congregation and parish; but now they only allow the choir to sing as they may—noticing them only by selecting hymns for them.

There are praiseworthy exceptions, however, and we have an incident respecting this, which will interest those of our readers who have "the soul of music" in them. Elder Howe was and is a good singer, though now quite advanced in years; and on the occasion of his occupying the pulpit of the Pleasant street church in this city, a week since, the choirister selected some of the fugue tunes sung by the "Old Folks." Portland was introduced as an opening voluntary; and so much gratified the venerable Elder, that on reading the next hymn, he stated that the third verse (in which occurred the line "Hosannas languish on our tongues,") should be omitted, as inappropriate after the fine singing just heard.

Rev. Mr. Comings also, who had been previously supplying the pulpit, and is a good singer, on being relieved for the day by Elder Howe, took a seat with the choir, and rendered services no less valuable or sacred than those of the desk. During evening service, other of the old tunes were sung, by a choir of about twenty singers, old and young; and the aged divine, on leaving the pulpit, sang a song—"Farewell, my christian friends, farewell"—thus beautifully closing the interesting services of the day. We deem these incidents worthy of especial notice, as it is our opinion that in no way can a pastor do more for his charge, than by cultivating and manifesting an interest in music.

Then, too, unfortunately, there has not been that sympathy and good understanding between our music teachers, which best promotes the general interests of music, and the community.

All these things, with perhaps others, have operated to produce the idea that singing in public is not so "respectable" as it was formerly considered—and hence our sad lack of good singers, for choirs and other needs.

The large singing class which has been attended with so much interest, this winter, and which closed so successfully with a Concert last week; with the Musical Convention to be held in this city in January,—must be conclusive to an increased interest in music in this vicinity, and so be productive of good.

THE "OLD FOLKS' CONCERTS."—At the time of giving the late concert of ancient sacred music, in this city, it was announced that a second similar entertainment would probably be given immediately after the first—the proceeds to be applied for the use of "The Portsmouth Musical Association," proposed to be formed in this city. By wish of some of the performers, the second concert was postponed—and the exact time for it is not yet decided, though probably it will take place about the middle of January. Another concert, under somewhat different management, and for a different object, (probably to aid the Howard Benevolent Society,) is talked of.

EVENING SINGING SCHOOL.—By an announcement in another column, it will be seen that Mr. Pearson commences another term of his Singing Class, this evening. The term which has just closed, was very fully attended; and the concert by the class evinced careful and able instruction. Mr. P. is a popular teacher.

SABBATH SCHOOL CONCERT.—The Scholars of the Sabbath School connected with the Old South Church, are to give a Concert on Tuesday evening next, Dec. 26, at the Church; the proceeds to be devoted to replenishing the Library and otherwise supplying the wants of the School. Tickets 10 cents, children half price.

TAKE NOTICE!—The Social Gathering at Jefferson Hall, will not open until 6 o'clock Wednesday evening, at the ringing of the old bell of the New North.

☞ As we intend to "keep Christmas" to-day,—we shall omit our Daily Chronicle of events on Tuesday.

TEMPERANCE MEETING.—*This Evening* at the Middle Street Church,—the second of the series to be held at the different churches in this city.

The address this evening is to be by Rev. E. W. Jackson, Cor. Sec'y and Gen'l Agent of the State Central Committee. Let there be a full house; the importance of the subject demands it.

WRECKS.—Two schooners went ashore at York, between Bald Head Cliff and the Nubble, on Friday morning, 21st inst. One woman was drowned; but the names of the vessels and other particulars we have not learned.

Mr Albert G. Allen, late navy agent for the district of Washington, has resigned his office, and Mr. Albert Greenleaf, formerly of Portsmouth, recently the chief clerk of the navy agent's office, has been appointed in his stead.

☞ Rev. Prof. Hitchcock will lecture on Tuesday evening, at the Lyceum, on Labor.

ABBOT LAWRENCE, Minister Plenipo. to Gt. Britain;
†JOHN B. FITZPATRICK, Catholic Bishop of Boston;

MEN WHO ARE MEN.

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

TEN DAYS LATER FROM EUROPE.

ARRIVAL OF THE AMERICA.

HALIFAX, Dec. 23.—Steamship America, from Liverpool, 9th inst, arrived this afternoon with ten days later news.

The news, although devoid of anything exciting from the seat of war, is of the utmost importance, inasmuch as it is announced that the most important negotiations were in progress, and that Austria had signed a treaty of alliance with France and England.

Nothing of consequence had transpired before Sebastopol.

The cotton market has been pretty active at the commencement of the week, but fell off towards the close.

Breadstuffs had undergone but little variation, and the demaud was quite moderate.

CONGRESS.

FRIDAY, Dec. 22.

SENATE.—Mr. Toombs of Georgia reported a bill in relation to the salaries of Judges of Courts in the District of Columbia.

The bill for the removal of obstructions from the southwest passage of the Mississippi was made the special order for the 9th of January.

HOUSE.—The bill making appropriations for the Post Office Department and Ocean Mail service for the year ending June 30, 1856, was reported and referred to the Committee of the Whole.

Mr Fuller of *Maine*, from the Committee on Commerce, offered a resolution directing the President to open a correspondence with the British government, with a view to the erection of a light house at Cape Race—the United States government sharing the expense. The resolution was favored by Messrs. Cutting of *New York*, and Chandler of *Pennsylvania*, and opposed by Messrs. Smith of *Virginia*, and M'Mullen of *Virginia*. It was passed, 78 to 62.

The House passed the bill reorganizing the Courts in the District of Columbia, and reforming and improving the laws thereof, by yeas 113, nays 35.

The House then went into Committee on Senate bills, passed one, and then adjourned until Tuesday.

VESSEL SEIZED FOR VIOLATING SLAVE LAWS.—Captain Michael McDonnald, the boarding officer of the port of Baltimore, yesterday seized, by order of collector Thomas, the ship Cheshire, Capt. Rainsey. This vessel belongs to Boston, and arrived at this port a few days since from New Orleans. The charge is a violation of the laws regulating the transportation of slaves from one State to another, he having conveyed a slave woman from New Orleans without first entering her and clearing her at the Custom House in New Orleans. The penalty for this act is the forfeiture of the vessel, and $1,000 fine on the captain. Had the slave been landed, which it happens was not the case, the fine on the captain would have been $10,000, and imprisonment until paid, instead of $1,000.—*Balt. Pat., Wed.*

AGED PERSONS.—According to the last census of Great Britain there were a hundred and twenty-nine thousand persons who had passed the age of 80;—nearly ten thousand passed 90 years; two thousand thirty-eight had seen 95 years, and three hundred nineteen were over 100 years old.

A CENTENARIAN.—Mrs. Pope, widow of the late Rev. Mr. Pope, who was for many years the pastor of the Congregational church in Spencer, completed her 100th year on the 9th inst. She enjoys most excellent health, reads without glasses, and converses freely upon the events of the Revolution, which she well remembers.

A PERFUMED DANDY SNUBBED.—Sitting on the piazza of the Cataract House, at Niagra Falls, was a young, foppish looking gentleman, his garments very highly scented with a mingled odor of cologne and musk. A solemn-faced, odd-looking man, after passing the dandy several times, with a look of aversion which drew general notice, suddenly stopped, and in a confidential tone, said, "Stranger, I know what'll take that scent out of your clothes; you—" "What do you mean, sir?" said the exquisite, fired with indignation, starting from his chair "O, get mad, now—swear, pitch round, fight, just because a man wants to do you a kindness!" coolly replied the stranger. "But I do know what'll take out that smell—phew! You just *bury your clothes—bury 'em* a day or two. Uncle Josh got afoul of a skunk and he—" At this instant there went up from the crowd a simultaneous roar of merriment; and the dandy very sensibly "cleared the coop" and vanished up stairs.

"Hooray!" screamed Ike, through the broken pane of glass, pushing, at the same time, the shingle and the fork that held it there into the floor. "Hooray! the know nothings have carried the day and Smith is mayor!" "Well, Isaac," said Mrs. Partington, "you needn't make such a noise about it—you couldn't make more noise if a horse had come in instead of a mare. Dr. Smith is a good man, and I dare say he hasn't forgot how to vaciliate either, though he has got to be the father of the city and dispenses with law rather than physic, only don't make such a noise about his election, because it aint any thing to brag about any how." She put up the shingle again and pinned it with the fork, whilst the turned his attention to snow-balling a "Mickey" who chanced to be going by, striving, in a small way, to carry out the principles of "the order."—*Post.*

Sagamore House,

FROST'S POINT, RYE, N. H.

THE Proprietor of the above named House has made arrangements so as to provide for the reception of parties, at short notice, through the coming winter.

The table will be furnished with all the delicacies the market affords, as well as the substantials which are necessary in a well ordered house.

This House is within thirty minutes' ride of Portsmouth, and having been favored with an extensive patronage for the past two years, is now well known to the public.

The above arrangement, which is a novelty in this section, the Proprietor hopes will be duly appreciated, and that a portion of the Winter Pleasure Parties may turn toward his house, from which a fine view may be had of our rock bound coast, against which the wintry blast hurls the lashing wave.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "American principles governing America." We do not feel inclined to resign this policy, merely because the know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $2.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

Patents.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS.—The Subscriber (late Agent of the U. S. Patent office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty), as paid back by others, will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure the grant early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE,
"E. H. EDDY, Esq., Boston, Mass.
"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

SAMUEL COOPER,
Late Chief Examiner in the United States Patent Office,
Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business for which he is about to engage.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, crossgrained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE WIVES OF THE DEAD.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 28 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

. . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

TEN DAYS LATER FROM EUROPE.

ARRIVAL OF THE AMERICA.

The most important item of intelligence by this arrival is the announcement that on the 2d of Dec., at Vienna, was signed a treaty of alliance between England, France and Austria. The exact terms have not been made public, but the following are surmised to be its conditions:—First, that Austria regards the violation of the Turkish territories as a declaration of war against herself. Second, that she will immediately augment her forces in the Danubian principalities, in order to enable the Turkish armies to resume their offensive operations against Russia. Third, that at the demand of England and France 20,000 Austrian troops will be sent to the Crimea for active service. Fourth, France and England guarantees that the territorial possession of Austria shall under all circumstances, remain undiminished and inviolate. Fifth, the conditions are secret. Sixth, Prussia shall be invited to join the alliance. Seventh, that the treaty shall come into operation on the part of Austria on the 2d of Jan., should not the Emperor of Russia come to acceptable terms of peace by that time.

There is also published a letter from Count Nesselrode setting forth the terms on which the Czar will consent to negotiate for peace, which are: First, a joint guarantee by the five powers of the rights of the whole Christian population of Turkey; second, a joint protectorate by the five powers over the Danubian principalities, governed by the existing Russian treaties; third, a revision of the treaty of 1841, to which Russia will assent should the Sultan do likewise; fourth, the free navigation of the Danube.

The speech of the King of Prussia to the Chambers is published, in which he says that the Prussian army shall be placed upon an active war footing, but he refrains from stating the course which Prussia may hereafter adopt in the great struggle.

In the meanfime, the Berlin papers publish the despatch of Baron Manteuceffel, dated Nov. 15, to the Prussian ambassador at Vienna, expressing the determination of the Prussian Government not to demand from Russia any concessions beyond those laid down in the four points which were offered some months since by the allies as the basis of peace, but which France and England have since repudiated by notice to their ministers at Vienna and Berlin. It is, indeed, stated, but the report is hardly reliable, and should be received with a great amount of caution, that at a council held on the 6th, the king of Prussia determined to unite with England, France and Austria in the treaty of alliance, in order to bring the war to a speedy close.

The deliberations of the Committee of the Germanic Diets are most important. The position of affairs seems to be that Russia insists on the declaration by the Germanic Confederation of an adherence to the policy of Prussia, or, at least, of neutrality, while on the contrary, Austria insists that the following point shall be decided, namely, whether the northeastern frontiers of Austria are not sufficiently threatened to warrant an immediate support from the Federal troops.

Most of the Germanic States are hastily putting their armies upon a war footing,

The present possible opportunity for peace is probably the last which will occur until the force of arms shall compel one or the other of the belligerents to sue for it. If it is rejected, we may prepare to see military operations take place upon as grand a scale as in the wars of the French Empire, but with a vastly different distribution of combats.

THE WAR.—Affairs before Sebastopol exhibit little change. There has been some fighting, but it has not been productive of important results. The garrison of Sebastopol continued to make frequent sorties.

During the night of the 14th of Nov., in the midst of a hurricane of wind and rain, the Russians made a sortie from the city against the French camp, but were promptly repulsed.

On the 15th of November, several men and horses died in the allied camp, from cold and exhaustion. The Russians remained quiet all day.

On the 15th, the fire on both sides was quite slack. The new redoubt was completed by the British, overlooking the Inkermann road.

On the 17th, the men and officers were engaged in constructing huts for winter quarters. Lord Raglan issued orders that no officer, unless sick or wounded shall leave the camp. The rain poured down in torrents.

On the 19th, the weather was more temperate. The Russians in the valley were observed to have received reinforcements, supposed to the extent of 20,000, under Gen. Librandi.

The French made a reconnoisance in force, and found the Russians busied in preparing the artillery damaged in the previous battle.

On the 20th, the British 97th regiment landed from the steamer Orinoco. The steamer Queen of the South arrived with various drafts of British troops, and the French were largely reinforced at Kameisch Bay.

The firing was very brisk from the town, and was warmly replied to from the French and English lines.

From the 21st to the 24th, the bombardment was weak on the part of the allies.—Their fire did but little damage, and that damage was speedily repaired by the Russians.—The allies were mainly engaged in strengthening their position against attacks by the Russians in the valley, and in establishing new batteries, the fire of which had not yet been opened. Menschikoff reports that the English attempted to establish themselves near the head of the dock yard, but were repulsed with loss. Further reinforcements reached the allies.

On the 25th, the Russians made a sortie against the British, but were repulsed, and in the pursuit the British captured and retained nine guns, which the Russians forgot to spike. Another account says the capture was two seven gun batteries.

On the 26th, part of the garrison attacked the French lines, but retired with the loss of 230 men. The French lost 75. The defensive works of the British between the right of their line of attack and Balaclava were nearly completed.

Nov. 28.—The following despatch is from Gen. Canrobert:—"The rain has ceased, and the weather is improving. Our reinforcements continue to arrive. The enemy still shows no signs of activity, but continues to prepare for the desperate defence of the city by retrenching and consolidating their fortifications.

It is stated that several hundred Russian wagons, with provisions and ammunition, had been overtaken by a snow storm and perished, and that Sebastopol was provisioned for 14 days.

THE DANUBE.—A despatch from Bucharest of the 6th, says that forty thousand Turks and one hundred guns will be embarked at Ballschik and Varna next week for the Crimea. One regiment remained at Bucharest.

Darnisk Pasha replaces Moussa Pasha as commander of the Turks on the Crimea, while Moussa superintends the embarkation.

It is rumored that Omar Pasha would leave Bucharest in a few days, but it is doubtful.

THE BALTIC.—Three more ships of the British squadron have been ordered home, and the remainder were to leave Keil about the 10th of December. Sir Charles Napier had obtained leave to return home direct.

RUSSIAN MOVEMENTS.—The Russian Gaurds and Grenadiers are advancing into Poland. The whole First Infantry corps, under Gen. Luders, is advancing and concentrating on the banks of the Vistula. Two additional battalions are added to each regiment of the army of Finland. Sixty battalions of sharp-shooters are being enrolled from among the peasantry. The state of seige at St. Petersburg has been suspended.

Political and commercial relations are now definitely resumed between Turkey and Greece

GREAT BRITAIN.—An augmentation of the army by forty-three battalions of the line, 1 of artillery, and 1 of rifles, in all 36,000 men, is to be submitted to Parliament.

The accounts of the immense Russian army now gathering on the Austrian frontier has had the effect of depressing the English funds, it being considered that the Czar will not succumb, except upon terms which, if granted, would cause the resignation of the ministry.

AUSTRIA. — Commercial letters say that Austria unwillingly entered into the treaty with the Western Powers, but preferred that course to cutting herself entirely from them. It is denied that the treaty contains any secret provisions.

DENMARK.—The Danish Ministry has resigned and a new Cabinet has not yet been formed.

SPAIN.—The Cortes have decided to retain the present dynasty on the throne.

On a trivial point, respecting the Octroi duties, the whole Ministry resigned, but the Cortes having passed a vote of confidence by a majority of one hundred, they resumed office.

M. Madez has been elected President of the Cortes.

Mr. Soule has arrived at Madrid.

ITALY.—Important debates had occurred in the Sardinian Chamber of Deputy. The Minister of Foreign Affairs stated that some regiments of French cavalry would pass through Piedmont, and that the sympathies of Sardinia are with the Western powers, but not to the extent of an immediate alliance.

The Convention of Prelates of the Roman Catholic Church, at Rome, had adjourned on the 2d of December, having decided almost unanimously on the subjects under discussion.

Morning Chronicle.

WEDNESDAY, DECEMBER 27, 1854.

For the Chronicle.

THE GUBERNATORIAL CHAIR.

Messrs. Editors:—In the Chronicle of last week, I noticed an extract from the Manchester American, by which it appears the Know Nothings think of nominating our present Mayor as their candidate for Governor. This would be a popular move, not only with the Know Nothings, but also with the Know Somethings, and the Know a Great Deal's. Whether he belongs to the Know Nothing party or not, I am unable to say; but as he is an active member of a protestant church, he is of course opposed to Romanism, and a friend of common schools. On the temperance question he is right; and would doubtless execute the Maine Law if the Legislature saw fit to pass it. He is opposed to the extension of slavery, and seems really to labor, politically, for "the greatest good of the greatest number."

A long period has elapsed since Rockingham County furnished a Governor; although some severe struggles for such a nomination have been made in Convention. Should Mayor Walker be nominated by the Know Nothings, or any other party, this County, and especially old Portsmouth, would roll up a tremendous majority for him. The more the public know of this gentleman, the more votes he commands, as will be seen by reference to the last two annual elections in Portsmouth:—at the last March election he gained 163 votes on the year previous; and this solely on account of the impartial and faithful manner in which he discharged the duties devolving upon him. There is no man in New Hampshire, in my opinion, more *available*, to say the least, than our worthy Mayor. His friends are numerous, and no valid objection can be brought against him. PERICLES.

PUTNAM'S MONTHLY, for January, has been received by Joseph P. Morse. This number commences the 5th volume of the Magazine, and the present is a favorable time for new subscribers; and if the merits of the work are duly appreciated, we are sure it will receive large accessions during the present season of subscriptions. It has taken the lead of monthlies in this country, and is in no respect below, while in many respects it excels, the best European periodicals. Our estimate of its value increases with every succeeding number.

Mr. Morse is also agent for Godey's Lady's Book, the new volume of which we noticed on Friday.

THE NEW YORK MUSICAL REVIEW enters upon its sixth year in January, 1855. It is a handsome journal, published every other Thursday, each number containing sixteen quarto pages, including four pages of new music. $1 per year, in advance. The Review is comprehensive in its character, aiming to take notice of every musical event which is worth recording; to convey information, instruction, and amusement, and to furnish an ever fresh supply of new music.

NEW BOOK.—We have just glanced over a new and valuable School Book, entitled "Human and Comparative Anatomy, Physiology, and Hygiene. By Mrs. Eunice P. Cutter.—With 100 engravings."

It is an easy, well arranged book for study, and must be useful.

Mr. A. W. Lovering of Exeter, is Agent for this State.

SUPPORT YOUR COUNTY PAPER.—We occasionally receive letters in which the writers express an intention to "stop" their county or village paper, and take one of our publication instead. We always regret to receive such intimations. We think a man ought to support his own paper *first*, and then if he can afford it take a paper published at a distance, let him do so, and we shall be happy to supply him with ours. The country press, in our opinion, is the most important in its effect on the enlightenment of the nation. It conveys, in three thousand rills, the intelligence of the age, from the various sources of intelligence, to nearly every home in the country. The country press ought to receive a cordial support. Every place should try to have its paper of such a character that the people could be justly proud of it. To this end, let them pay promptly, advertise liberally, recommend warmly, and in every way *stand by their editor* as long as they conscientiously can.—*New York "Life Illustrated."*

MR. MARSHALL'S READINGS.—The Portland Advertiser says, the attendants on the Mercantile Course had a rich treat Wednesday evening. Mr. Marshall read from Hamlet, the discription of Queen Mab, the Seven Ages, from William Tell, the general scene between Brutus and Cassius, and a few other noble selections from the drama. They were the best reading, all things being considered, we ever heard. Mr. M.'s voice is remarkably fine, deep, smooth and flexible. His gesticulation was easy, and he had just enough of it. The hearty applause of the audience testified to the electrical effect with which he gave the impressive passages. It was a good idea in the managers to vary the course with these Readings, and we hope they may occasionally do it again.

Mr. Marshall is to read in this city on Thursday evening next, in place of a lecture for the Mercantile course.

AIDING FUGITIVE SLAVES TO ESCAPE.—Mr. Benjamin Waterhouse was riding in August, 1853, in his wagon, and when he stopped at the town of Orland he had with him three colored persons. He stopped to get something to eat for himself and the negroes.—Cyrus Fillmore (a brother of ex-President Fillmore,) was present at the time, and asked him "if he was on the Underground Railroad." He replied in the affirmative, asked for the residence of an abolitionist, and then passed on.

He was indicted in March 1854, for aiding the escape of slaves, but the indictment being defective in several important particulars, it was quashed. The chief defects were, that the negroes were not known to have been slaves.

The Marshal, however, was determined to make an example of Mr. Waterhouse, and Cyrus Fillmore was engaged by him to go to Canada with Mr. Payne, of Lexington, Ky., the son of the alleged owner of the men, and try to discover the negroes.

Mr. Payne found his slave Tom at Windsor, Canada, sick; they recognized each other; Fillmore was with him. Tom was one of the negroes whom Mr. Fillmore supposed he saw at Orland, in the wagon with Mr. Waterhouse. Upon this evidence Mr. Waterhouse was again indicted, and was tried in Indianapolis last week. The trial lasted three days, and all the power of the Court was brought to bear against Waterhouse. The jury, after being out several hours, returned as a verdict that Mr. Waterhouse pay a fine of $50, and be imprisoned in the Court room *one hour*, and that the Government pay the costs. This is all they would do. It is stated, though the fact does not appear in the report of the trial, that the jury refused to impose the fine of $50 unless the Court would first agree to immiditely remit it, and that the fine was so remitted.

PAY OF MEMBERS OF CONGRESS.—The compensation bill of Senator Badger of North Carolina, to increase the pay of the Judges of the Supreme Court and the members of the two houses of Congress, does not meet with much favor, so far as the latter part of it is concerned. The members of Congress generally manage to wile away the greater part of the year, without performing much labor, at eight dollars a day. If anything can be judged from the experience of the past, the project to allow them twelve dollars a day is a project to have a quorum of the House of Representatives to make Washington their resting place from the first Monday of December, when their service begins, to the 3d day of March, a year and a quarter afterwards, when their service ends, and when all the members will assemble for the purpose of procuring the *compensation* for their valuable services. When it is considered that the *quality* of the persons employed as Members of Congress has fallen off perhaps a hundred per cent. in the aggregate, since the pay of the members was fixed, it is rather astonishing to have a proposition to pay fifty per cent. advance for such an interior article.—*Boston Courier.*

CATHOLIC PRIEST FINED $500.—A German Catholic priest, by the name of John B. Welcomb, was fined $500 in Chicago, on the 6th inst., for assaulting John Miller, a hunchback. The boy was accused of whispering at Mass in church, and as a penance was ordered by the priest to stand before the altar one hour with his arms uplifted. The cripple could not do, when the priest seized him by the ears, lifted him from his feet and threw him down with such force as to injure him so much that he could not stand. He was carried to his home where he was confined eight weeks. The Court decided the priest had no right to punish the boy for whispering at mass, and fined Welcomb $500.

FREE SUFFRAGE.—The *independent* ballot by which Santa Anna has been elected dictator in Mexico, was like this—

"A sergeant presents himself at the polls. 'Whom do you vote for?' is the question. 'I vote in the negative,' replied the sergeant, 'for I cannot sustain a government which does not offer the slightest individual guarantee.' Five minutes after this manifestation of independence, the honest soldier found himself in a dungeon."

HOTEL ACCOMMODATIONS.—The journals of Augusta and Bangor are boasting of the extensive Hotel accommodations of their respective cities. Augusta rejoices in eight houses, which, with two or three in a bed, will lodge 605 persons. Bangor figures up sixteen houses, which will accommodate 1125 persons (probably at the rate of two in a bed, as the number is not mentioned) without counting boarding houses. Pretty well, neighbors! With a little extra packing, your hotels will probably "accommodate" *the whole population of your respective cities!*—*Portland Argus.*

WHY SHE DREW THE GOLD.—The Boston Traveller states that on Monday "an Irish woman applied at the Webster Bank for gold for a few small bills on that institution, which she had drawn from the Savings Bank. When she was retiring, a gentleman who had seen her exchange the paper for gold inquired why she did so. 'Oh,' was her reply, 'I read in the newspapers that Mr. Webster died very poor, and of course I cannot trust his bank.'" The name of the 'gentleman' who 'inquired' is John Question, and that of the bould 'Irish woman' is Bridget Slygo. This story is now complete.

PRESENTATION.—Major Francis O. Wyse, U. S. A., who having been convicted of disobedience of orders, in refusing to embark with his command on board the steamer Falcon for San Francisco, was temporarily suspended from command, has been ordered to join his regiment, the Third Artillery, now in California. A day or two since, in the Astor House, a beautiful sword and a neat pair of epaulettes were presented to the Major by his friends and the admirers of his course in the Falcon affair. Quite a number of prominent military and civil gentlemen were present on the occasion.—*N. Y. Times.*

The bill giving one million of dollars and guaranteeing another million to the Blue Ridge Railroad has passed both houses of the South Carolina Legislature.

LOCAL.

☞ Prof. Hitchcock, of Brunswick, delivered the lecture on Tuesday evening, before the Mechanics' Lyceum, on the appropriate subject of Work.

This subject was ably and skilfully handled, and the lecture had scarcely any objectionable feature, except its too great length, for an audience, most of whom had already done a day's work.

We know not when we have heard a literary or professional man express so many valuable truths with so few fallacies, in a discourse on labor. The lecturer gave to useful work of all sorts, its true dignity, and its elevated office in a permanent, comfortable, manly civilization. He exhibited laziness, in a humerous quotation from Prof. Stuart, as *the* Original Sin, from which descended slavery and war as its proper offspring.

He showed the laziness of the savage as the parent of his injustice, his barbarism, his oppression of his wife, and his warfare with a neighbor tribe: He exhibited the larger industry of the Shepherd, as producing his better comforts and his higher life: And the still better industry of the Husbandman, as giving him a home worthy of his love, and a condition at once comfortable and improving.

The historical illustrations were generally well chosen; and some of them were admirable. With such abridgment by condensation of the latter part, as the author could readily make, this would occupy a high place among the most popular and useful lectures.

☞ Among the numerous performers, of varied standing in the community, who took part in the late "Old Folks' Concert," there were few to whom that interesting entertainment was more indebted for its complete success, than the Rev. A. G. Comings, who has preached some months for the Pleasant Street Christian Society in this city. Though a man of but middle age, he was perfectly familiar with the old music—while most those of his age had it to learn, and some of the oldest had to *re*-learn.

The interest which Mr. Comings has taken in musical matters here, both with old folks and young,—and in all reformatory projects—showing himself ever ready for any good *work*—has created a desire that circumstances might induce him to remain among us. We understand he is to leave Portsmouth the present week; but we hope he will be here at least to participate in the other concert of ancient sacred music, announced for the aid of "The Portsmouth Musical Association," to promote the general interests of music in this vicinity—by enlisting the sympathies of bright and joyous youth, mature and vigorous manhood, and venerable and venerated old age.

BELLS.—At the suggestion of several persons in the different parishes in this city, it is recommended that the Old North Bell be rung *this day* at one o'clock, for the *first time*; and it is understood, that if such is the case, the bells of the other churches in the city will join in a welcome peal to their time honored leader. This notice is given so that no alarm may be caused by such a well-timed and christian feeling of sympathy and fellowship.

☞ The Social Gathering holden by the ladies of the North Parish, will be opened *this evening at six o'clock*; and will be continued through Thursday afternoon and evening.

KITTERY POINT BRIDGE.—In the high wind of last Friday, the ice in Spruce Creek ran heavily against the bridge, and started one section a few feet. The needful repairs are now in progress, and will be completed in a few days. Foot travel is not interrupted.

☞ The ship recently launched by Messrs. Fernald & Petigrew, for J. M. Tredick and others, has been named the Colorado.

MAIL ROBBERY.—U. S. Deputy Marshal Dearborn, of Exeter, N. H., passed through this city Thursday, on his way to Concord, having in custody Oliver B. Howe, postmaster at Shelburne, N. H., who stands arrested on suspicion of extracting money from the mails passing through his office. Mr Howe has been postmaster at Shelburne about 8 years, during nearly all which time he has been suspected of the crime for which he is now under arrest, and proofs of which have been gradually and surely accumulating against him. He has been the Treasurer of Coos county, and was a man of property and standing.—*Portland Advertiser.*

A CONVICT ARRESTED.—The Manchester Mirror says that some three years ago Lucien Ayer, of Plaistow, this State, was tried in Rockingham County for forgery, or swindling, or setting fire to buildings, and being on bail, while the jury was out he cleared out. Some law points were raised in the trial of the case, which were carried up to the Superior Court, and found to be no weight. An order was sent down to the C. C. Pleas, to pass sentence on Ayer. But he kept out of the way until Sunday last, when he appeared in Plaistow with his wife, and early next morning was in the custody of Sheriff Tucker who committed him to Exeter jail to await his sentence. The Mirror states that he is President of a "Wild cat" bank in Kansas Bank, and that within a few weeks he has been getting rid of those worthless bills at a rapid rate in New York and Boston, to persons about starting for Kansas.

†JOHN B. FITZPATRICK, Catholic Bishop of Boston;

MEN WHO ARE MEN.

Among the diseases this Pill has cured with astonishing rapidity, we may mention Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

TWO WEEKS LATER NEWS.

ARRIVAL OF THE STEAMER GEORGE LAW.

NEW YORK, Dec. 26.—The mail steamship George Law, from Aspinwall, arrived last evening, with San Francisco papers of the 1st inst. She brings 200 passengers and about $1,000,000 on freight.

The want of water at the mines continues to be seriously felt. The season thus far has been unusually dry.

Considerable excitement was created in San Francisco on the 15th ult, by the issuing of a writ of habeas corpus to discharge certain Russian prisoners confined on board the Sitka, one of the vessels captured by the allied fleet at Petropaulovski. The writ was served upon the commander of the Sitka, and the prisoners were to have been brought before the Court on the 27th. On Sunday, the 26th, however, just at daylight, the Sitka sailed out of the harbor, probably for Vancouver's Island. Preliminary steps were taken on the following morning for issuing an attachment against the officer in command, should he again come within the jurisdiction of the Court.

Previous to the sailing of the Susquehanna from San Francisco, a musician attached to the vessel entered a complaint against Commander Buchanan, for ill-treatment. The Recorder, before whom the case was tried, decided that he had no jurisdiction in the matter. On the same day a civil suit was brought before a Justice of the Peace, and damages were assessed for $100.

The pilot boat Dancing Feather had returned from the wreck of the Yankee Blade, having succeeded in raising four boxes of treasure, amounting to $70,000.

Wheeler, the pedestrian, succeeded in walking one hundred and one consecutive hours.

Capt. Michael Powers, from Massachusetts, died recently at the American river, of starvation.

Business at San Francisco has undergone no material change. Every department of trade appears to be almost at a stand still, and the ruling prices for many of the chief articles of commerce are lower than ever before known. The importations have not been large, but the demand from the interior had almost entirely ceased. The money market has undergone very little alteration. Loans on real estate were made at 2 a 2 1-2 per cent. per month, and on the first class paper at 4 a 5 per cent. Flour — Gallego and Haxall $12.75.

Notwithstanding the great scarcity of water, the mines continue to yield abundantly, and it was believed that the total product of the year would considerably exceed that of any previous year. A monstrous lump was taken out by five men in Calaveras county recently, and weighed one hundred sixty-one and a half pounds, valued at $38,916. Platinum is being found in considerable quantities on the North Fork of the Trinity River, and is attracting much attention.

It is stated that a new and shorter route from Salt Lake to Carson River, by which the Humboldt is avoided, has been discovered. The road is well supplied with water and grass. It is 300 miles shorter than the Humboldt route.

We have dates from Valparaiso to Nov. 15, from Calleo to the 25th, and from Guayaquil to the 30th. The news is wholly unimportant. Parties of Americans were returning from the river Amazon in great distress, and all concur in stating that the reports about gold, &c., were without foundation.

The British brig Reward, with a cargo of guano, from Callao for Europe, sunk at Valparaiso. No lives lost.

☞ For Foreign News by the America, a notice of whose arrival we gave in our last issue, see firstpage.

LAWRENCE'S

CHERRY PECTORAL.

W. F. LAWRENCE: DEAR SIR,—

It gives me pleasure to state that your CHERRY PECTORAL has given utmost satisfaction wherever it has been used. Some of the most distinguished physicians of the state, are in the habit of purchasing it in bulk, and profess themselves highly gratified with its remedial effects. I can recommend it with confidence as a very superior medicine, and have no doubt that it will earn for itself an enviable reputation. E. H. ROLLINS.

CONCORD, Sept. 20, 1854.

Mr. Rollins is one of the most extensive dealers in drugs and medicines in New England. As the Cherry Pectoral was first introduced in Concord, we subjoin the certificate of John F. Brown, formerly bookseller and publisher, and now city clerk of Concord, N. H., our former agent:

This certifies that I have been an agent for the sale of the medicine, now extensively known as Lawrence's Cherry Pectoral; that so far as I know it has given good satisfaction; that I have repeatedly sold it to physicians in quantity; that I am acquainted with the manufacturer of the Pectoral; that he is a physician of good repute, and that I believe him qualified to conduct the complex operations necessary for the manufacture of this medicine. JOHN F. BROWN.

CONCORD, N. H. April 6, 1854.

The above are but few of the many testimonials in favor of Lawrence's Cherry Pectoral. It is used under the sanction and approbated at Dartmouth College by Prof. Dixi Crosby, and the most eminent of the Medical Faculty of the N. E. states. It is

Sagamore House,

FROST'S POINT, RYE, N. H.

THE Proprietor of the above named House has made arrangements so as to provide for the reception of parties, at short notice, through the coming winter.

The table will be furnished with all the delicacies the market affords, as well as the substantials which are necessary in a well ordered house.

This house is within thirty minutes' ride of Portsmouth, and having been favored with an extensive patronage for the past two years, is now well known to the public.

The above arrangement, which is a novelty in this section, the Proprietor hopes will be duly appreciated, and that a portion of the Winter Pleasure Parties may turn toward his House, from which a fine view may be had of our rock bound coast, against which the wintry blast hurls the dashing wave.

Mr. Willis of the Home Journal, states one of his reasons for pursuing the life of an editor, thus—

"To live as variedly, as amply and as worthily, as is possible to his human faculties, while upon this planet, has been his aim; and not to be remembered after he shall have left it. Literature—periodical literature—offered him the readiest means for this—the least confining mode of subsistence, the freest access to contemporary mind and society, the most influence and power, the best habits of mental exercise and enlargement. He chose it, therefore as a profession. In it, as an editor, he found a power—over and above all power of serving himself—and upon this alone, aside from the objects just named, he has endeavored to keep a fixed purpose, suitable to the trust with which, in that power, he was charged.

DR. CARL V. MEYER'S
GERMAN
HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thoro' scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery or health, are cut on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. All medical properties of these waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owing to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,
SUCH AS
Scrofula, White Swellings, Scorbutive Eruptions, Ulcers, Erysipelas,
Paralytic and Nervous Affections,
CANKER,
AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,
AND ALL
RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS,
COUGHS,
SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief.—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE!

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE
SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinnest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE OF Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. *I suffered extremely, and at last was entirely disabled from attending to my usual pursuits.* . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

A CAUTION TO LOVERS OF SODA BISCUIT. Soda biscuit is a favorite edible among the epicures of this vicinity, and we hasten to lay before our readers the following story published in the N. Y. Post—with the advice never to partake of soda biscuit in the house of a physician:

"A few evenings since a party of ladies were invited to the house of a physician, in this city, to sew for some benevolent object, and in the course of events, tea was served; some uncommonly palatable soda biscuits were among the attractions of the entertainment, and the guests all ate of them freely. Shortly after, the lady of the house was seized with a distressing nausea, and was obliged to retire. She had hardly made her hurried apologies, before her guests, one after another, complained of illness, and before their friends or carriages could be sent for, were all prostrate on the floor, vomiting in every direction. The police in the streets came in to know the cause of the rushing to and fro, and in and out, and the company were seized with fearful apprehensions of having been poisoned.—They all had finally to be transported to their respective homes in carriages. Upon an investigation it turned out that the cook had, by mistake, gone to the doctor's closet and taken some tartar emetic, instead of cream of tartar, for her biscuits, and had made them so very light that they would not stay upon the stomachs of any that ate of them."

A London letter writer, speaking of George Hudson, the railway king, says it is quite common to speak of him as a ruined man. It is quite true that he has quitted the palatial residence at Albert Gate, Knightbridge, at which, in his reign of railwayism aristocracy he used to entertain the aristocracy of England—eager to worship the man of gold—but he prudently parted with that, some time ago, to Count Walewski, the French ambassador, (clearing a good round sum by the bargain), and now lives, his iron diadem laid aside, in Half Moon street, like an ordinary mortal. But he has enormous wealth yet. He has sat in Parliament for the borough of Sunderland, since September 1845, and, though opposed at each election, (three); since then has always been returned at the head of the roll by a long chalk. He continues magistrate of York city, (of which he has thrice been lord mayor), of the east and north ridings of Yorkshire, and of Durham—of which last county he is deputy lieutenant. He retains the immense landed property called Newby Park, in the north of Yorkshire, and has large sumes invested in shares in the Great Western, London and North Western, and other paying railways. He has made very extensive purchases of land in Ireland, under the encumbered estates act, and spent £5,000 in a vain effort to get his son returned to parliament for an Irish borough. I sppose he is worth some £250,000.

"He's *so* full of life and animosity!" said Mrs Partington, in describing the good qualities of Ike, to a neighbor who had come in to complain of him for throwing stones at a favorite dog. "But there isn't no malice in him, and when he fastened old Mr. Blaze into his own house so that he could't get out to drive the boys away from coasting in his field, it wan't ugliness, though Mr. Blaze said he'd never live till he died because he did it. Depend on it, them boys isn't the worse for being a little mischevous, and mark it when you will," continued, she raising her finger gradually till it stood perpendicular as a lightning rod, "the stillest boys isn't always the best—the still sow eats the swill—and some boys who have always had good influenzas, never profits by them when they get so they can act out themselves. For my part I'd rather see boy or man show himself right out at the beginning, than find him a boy constructor at last that I have been warming in my bosom to sting it." The finger dropped to its wonted position, and the neighbor nodded, half convinced by her philosophy; and went away thinking strongly of a horsewhip as remedy for troublesome boys in a neighborhood. But there is a grain of truth in what she said.

A COMPETENT WITNESS.—In the Justices' Court yesterday, a case was called wherein a boy about eight years of age was a witness. Previous to administering the oath to the boy, the Court, as is customary in similar cases, questioned the boy in regard to his understanding the nature of an oath, and among other questions, the Justice inquired—"Do you know anything about hell?" The boy scratched his head for a moment, and looking the Justice in the face, innocently replied—"No sir! no! *I never was there in my life.*"—"Swear him, Mr. Clerk," said the Justice, and the oath was accordingly administered to the youngster, who gave his testimony clearly and distinctly.—*Boston Journal.*

George D Prentice, of the Louisville Journal, on his late visit to Little Rock, Ark., received a letter from M.B. Hewson demanding satisfaction for some remarks made in a newspaper. Mr Prentice disavowed any intention to offend Mr Hewson, and added:

"I would not call a man to the field unless he had done me such a deadly wrong that I desired to kill him, and would not obey his call to the field unless I had done him so mortal an injury as to entitle him, in my opinion, to demand an opportunity of taking my life. I have not the least desire to kill you or to harm a hair on your head; and I am not conscious of having done anything to entitle you to kill me. I do not want your blood upon my hands, and I do not want my own upon anybody's."

Morning Chronicle.

THURSDAY, DECEMBER 28, 1854.

SOUTH CAROLINA.—The following singular document has been brought to the notice of the South Carolina Legislature. It is a presentment of the Grand Jury of Williamsburg District:

We the Grand Jury of Williamsburg District, at fall term, 1854, do make the following presentment, viz: We present as our unanimous opinion, that the Federal law abolishing the African slave trade is a public grievance. We hold that this trade has been, and would be, if re-established, a blessing to the American people, and a benefit to the African himself. We would show further, that this trade is consistent with the true policy of the South; that slavery itself is authorized and sanctioned by holy writ, and experience has taught us that, by introducing African slavery into the United States, the African has been elevated from a condition of absolute barbarism, to one of comparative civilization; from a condition of heathen darkness, to one of Christian light; from a condition of despotic and chaotic misrule, to one of benign and regulated law. We hold that slavery is forbidden by no principle of policy or religion, except that which springs from the frenzied imagination of fanatic philanthropy, which arrogantly assumes to be purer and holier "than what is written," and we therefore recommend this subject to the consideration and action of the Legislature of this State, and trust that the evil complained of may be remedied.

We would respectfully commend this charge to the careful perusal of every apologist and advocate of slavery and the slave trade on either side of the water.

Will the reader please to consider that this learned and christian presentment gravely sets down Washington and Jefferson, Jay and Franklin, in the category of fanatical philanthropy.

We had supposed till now, that these men had some principles of policy or religion,—but we stand corrected by these modern Solomons, who maintain that slavery is a corner stone of the church as well as the State.

THE KANZAS ELECTION.—The Albany Argus observes that the idea begins slowly to make its way among the newspapers, that Gen. Whitfield's almost unanimous election was one of the results achieved by the new organization—the "American party"—of the territory of Kanzas. It certainly looks very much like it, as there was an administration candidate and an anti-slavery candidate also in the field.

BARNUM ON BIDDIES.—Great is Barnum on Shows. No matter whether the exhibition is of Jenny Lind, Tom Thumb or the Shanghais;—commend us to Barnum as an exhibitor.

A shower of circulars has just fallen over our great country, announcing that the Second Annual Show of the American Poultry Society is to be held at Barnum's American Museum, in New York, from January 15 to 20, 1855, inclusive. $500 are offered in premiums. The circular shows a large array of Officers and Managers; and at the head of the latter stands the name of P. T. Barnum.

DELAY IS DANGEROUS.—In the Newburyport Police Court, Tuesday morning, says the Herald, John Lockery was brought in on complaint for bastardy made by Mary Ann Sexton. He plead not guilty, but offered to marry the lady, to relieve her from her position. There being some difference of opinion as to who should perform the rites, the lady contending that she would consent to none but the priest, and the gentleman demurring, counsellor Gerrish was called in, and a defence to the charge made, which resulted in an acquittal.

THROWING OUT VOTES BY THE WHOLESALE.—The authorities of Piscataquis county, Maine, upon an examination of the votes of the towns of the county for Treasurer, threw out fourteen of the eighteen towns, from informalities, declaring the person elected who received the majority in the four towns, a result which would have been reversed had the whole vote been counted.—*Traveller.*

We think this county is in the District where Fuller is declared elected as a Member of Congress, over Milliken.

A TRACE OF THE "CITY OF GLASGOW."—A recent number of the Belfast (Ireland) Northern Whig, contains the following, which is probably one of the few traces that will ever be found of the lost steamship "City of Glasgow."

"*Wreck of the City of Glasgow.*"—A correspondent of the Mail, at Campbelton, states that on Saturday last, while a herd-boy was walking along the shore at Ballochgair, he picked up a portion of the bow of a vessel, which bears every mark of having belonged to the ill-fated steamer. It has on it, in large gilded characters, not much defaced—"City of Glasgow," and, in the corner, "Let Glasgow flourish." This memento, which is probably all that will ever be seen of the noble vessel, was taken to the office of Mr Waston from whence it was forwarded to the builders, Messrs Todd & McGregor, Glasgow, for identification."

THE FIRE IN SMITHFIELD.—The Providence Journal states that one hundred and fifty persons were thrown out of employment, by the burning of the Manchester print works, in Smithfield, R. I., on the 21st.

PROVIDENCE, Dec. 29.—A most atrocious and singular crime was perpetrated here on Monday evening. Charles Scott, a colored man, about 30 years of age, a barber, called in the morning at the clothing store of Mr. John H. Springer, North Main street, and selected a suit of clothes, saying he would call for them in the evening, and bring the money. He came at six o'clock, just as Mr. Springer was closing the store, and said he would take the clothes. Mr. Springer went back to the store, when Scott demanded his money, and, being refused, sprang upon him, knocked him down and cut his throat with a razor. He also cut his head and face badly. The neighbors came in, when Scott rushed out, and although closely pressed made his escape. Mr. Springer's wounds although severe, will not prove fatal. Scott had not been arrested this evening. A reward of $500 has been offered by the Mayor for his arrest and conviction.

THE LIQUOR LAW.—The Supreme Court gave an opinion to-day on the liquor law. The proceedings in the particular case tried were pronounced correct, but the clause that authorizes the seizure and detention of the liquors was declared unconstitutional.

SEIZURE OF A SUPPOSED SLAVER.—The schooner George H. Townsend, lying at a pier in East River, N. Y., was on Friday last seized by the U. S. Marshal on suspicion of being bound on a slave cruise to the coast of Africa. Her papers appeared to show that she was designed for the Sierra Leone and Gambia trade, but from the nature of her cargo, the style of fixtures, and other facts of a more private character, no doubt, it is said, can be entertained that she was in reality designed for the slave trade. She is valued, cargo included, at about $30,000, and will be confiscated to government should the grounds of suspicion be confirmed. She was cleared in the name of J. A. Mochade.—*Boston Journal.*

Henry Truogott, a Prussian, was brutally murdered in a rum hole, in Syracuse, on Sunday night Oct. 21. He got into a dispute with some of the company, (Germans) who fell upon him, knocked him down, and stamped upon him, inflicting injuries which resulted in his death, after a few hours of intense agony. Two Germans, George and Jacob Bronner were arrested, charged with the assault upon Trougott. This, says the Chronicle of that city, makes the *sixth* murder committed in Syracuse within about three months all of which were the direct results of rum.

REDUCTION OF WAGES AT THE CHARLESTOWN NAVY YARD.—An order has recently been received at this Yard for curtailing the wages of the mechanics employed about 11 per cent. The exact rates to be paid by the new scale are not yet known; first-class carpenters are to receive $2 50 instead of 2.75. "Hard times," and the general depression of the ship-building interest, are supposed to be the pretexts for this reduction, though why they should affect the workingmen's pittance, and not the bloated salaries of officials, it is hard to understand.—*Boston paper.*

JAPANESE COMFORT.—Around the bed of the sultan of Japan, is conducted a current of water, which at pleasure may be made to fall in transparent curtains of rain, completely encircling the royal couch, for the double purpos of keeping off the mosquitoes, and tempering the warm air to the delicious coolness, which, in a sultry climate, is the consummation of bliss to reposing listlessness.

SMALL NOTES PROHIBITED.—A bill to suppress the circulation of small notes as a currency in the District of Columbia has passed both houses of Congress, which bill prohibits all bank notes in the District under five dollars. It is penal to issue them, and equally so to pass them, or offer to pass them. Penalty ten dollars for each offence.

A COW CASE.—At a trial before the C. C. Pleas in East Cambridge, the present week, verdict was given for the defendant, in a case involving the value of a cow. One of the grounds of defence, on the part of the purchaser, was that the cow had only three teats, whereas he was entitled to four. The cost of the case is estimated as high as a thousand dollars, it having been proceeding five or six years.—*Eve. Telegraph.*

COASTING ACCIDENT.—On Monday, at noon, as Miss Charlotte Dana—daughter of Richard H. Dana, Esq, the poet, was crossing Boston Common, she was run down by a sled, and while prostrate a second sled came upon her. The runner struck her on the chin, and it is believed that the unfortunate lady has sustained fatal injury. She was conveyed to her father's house, and was insensible for four hours.

SIXTY YEARS AGO.—On Christmas Day, 1794, ship Betsey, 190 tons, was launched in Salem, thermometer 80° at noon. The grease ran down on the ways, and men and boys indulged in swimming, as in summer.

Capt. Stephen Nicholas and his wife Abigail Nichols, died at North Woburn, on the 16th ult., aged, respectively, 68 and 67 years. They had lived in the marriage relation 47 years.

Ephraim Littlefield, the chief witness in the trial for the murder of Dr. Parkman, has, it is stated, become insane, in consequence of a painful disease of the ear.

FAILURE IN BOSTON.—The suspension of Messrs. Rawson, Brigham & Co., dry goods jobbers, in Milk street, is announced in business circles. Their liabilities are reported to be about $300,000.

Miss Bunkley, the nun who recently escaped from the convent at Emmetsburg, is writing a long letter, in which she intends giving a narrative of convent life.

PROVIDENCE, 27th.—Ex-Governor Dorr died this morning, about 8 o'clock, at the residence of his father, on Benefit street.

LOCAL.

ALLEGED MAIL ROBBERY.—Dr. Oliver B. Howe, Postmaster at Shelburne, N. H., and his wife, were arrested last week by Deputy Marshal Dearborn, and taken to Concord, charged with taking money and postage stamps from letters passing through that office. The letters alleged to have been opened were decoy letters, put into the mail by Hon. Vergil D. Parris, special mail agent for the New England States, for the purpose of detecting the suspected culprits. The examination of Dr. Howe, on one complaint, took place on Friday and Saturday last, before U. S. Commissioner Horace Webster, of this city, assisted by U. S. District Judge Matthew Harvey; and resulted in his being held to bail in the sum of $3000. The examination of Mrs. Howe was finished on Tuesday, and resulted in her being discharged from arrest. U. S. Dist. Att'y George, and W. L. Foster, Esq., appeared for the Government; John S. Wells and F. B. Peabody, Esqs., for the respondents.

Dr. Howe is about 50 years of age, has enjoyed a large and lucrative practice, and is surrounded by an interesting family of grown-up boys and girls. Hitherto he has sustained the reputation of a man of accurate business habits and of the strictest integrity, and has filled many important and respectable offices, in his town and county.

THE REPUTED MAIL ROBBER.—We learn from a correspondent that Dr. Howe, of Shelburne, who has been arrested on a charge of robbing the mails at Shelburne, N. H., has been held to bail at Concord in the sum of $3000, to answer to the charge. He has heretofore sustained an excellent character for integrity and fair dealing, and is without doubt in comfortable circumstances as to money, with a very interesting family of children. He has been a physician in large practice in Shelburne and vicinity for many years. The evidence against him is said to have been not very conclusive as to his guilt. The wife of Dr. Howe has also been arrested and is under examination before the U. S. Commissioner for a similar offence. A daughter of the accused, an interesting girl of only fourteen, is also under arrest.—*Boston Journal.*

SUNDAY SCHOOL CONCERT.

Messrs. Editors: — The Sabbath School Concert, of the 2d Free Will Baptist Church of this city, at the "Old South," came off on Tuesday evening, before a crowded audience. It was a rich, interesting and praiseworthy entertainment. The youthful actors displayed not a little of that spirit of native eloquence upon the stage, that is so necessary to make such performances interesting. The scene of committing the little child "Moses" to his supposed watery grave among the "Bullrushes," and his rescue by "Pharaoh's Daughter," was truly affecting, and reminded us of the day when it was a reality.

They are, we understand, to give another concert in a few days, by request. Let them have a full house; for their object is a good one—to secure a library for the benefit of the school in that section of the city.

SPECTATOR.

☞ A large company of ladies and gentlemen were present at the Social Gathering at Jefferson Hall, last evening. The Hall is tastefully decorated, and the tables loaded to their utmost capacity, with useful and ornamental articles. Among other things for sale is an interesting Sketch of the North Church from 1712 to 1854, prepared for the occasion, and illustrated by a picture of the old Meeting House, as it appeared previous to the alteration in 1837. The hall will be open this afternoon and evening.

☞ Rev. James Rimes will lecture on Slavery at the South as connected with this Government, on Sabbath evening next, at the Old South Church—services to commence at 7 o'clock. This lecture was postponed last Sabbath evening, on account of other public lectures.

☞ The City Missionary hereby acknowledges the receipt of five dollars, through the post-office, for the poor.

Ancient Sacred Music.

A REHEARSAL for the Second "Old Folks' Concert" to aid in establishing the Portsmouth Musical Association—as announced at the time of the first Concert, will be held at EXCHANGE HALL, No. 4 Exchange Buildings,

ON SUNDAY EVENING, Dec. 31, at 6½ o'clock.

All who were invited to previous Rehearsals, and all others having a knowledge of the "Ancient Harmony," and an interest in the cause, are invited to be present.

ROBERT C. WINTHROP, Ex-Speaker House Rep. U.S.
ABBOT LAWRENCE, Minister Plenipo. to Gt. Britain;
†JOHN B. FITZPATRICK, Catholic Bishop of Boston;

MEN WHO ARE MEN.

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach; such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

CONGRESS.

TUESDAY, Dec. 26.

SENATE.—Mr. Brodhead of Pennsylvania submitted a memorial from the Philadelphia Board of Trade, praying for relief for Dr. Kane, and for improvement in Delaware Bay. He also gave notice that he would call up the bill for the relief of soldiers of the war of 1812 early next week.

On motion of Mr. Sumner of Massachusetts, the Committee on Commerce was directed to consider it any legislation was necessary for securing the wages of seamen in the merchant service in case of wrecks.

The annual report of the Superintendent of the Coast Survey was received and ordered to be printed.

The House bill for the erection of a light house on Cape Race was referred to the Committee on Commerce; and another for the reorganization of the Courts in the district of Columbia, was referred to the Judiciary Committee.

The Senate, without transacting any business of importance, adjourned.

HOUSE.—The House passed the Senate resolutions reappointing Rufus Choate and Gideon Hawley Regents of the Smithsonian Institute.

Mr. Whitfield of Kanzas introduced a bill to aid the territory of Kanzas in the construction of a railroad. Referred.

On motion of Mr. Bridges of Pennsylvania, the Judiciary Committee was instructed to inquire into the expediency of preventing by law the landing of immigrant paupers in the United States, and to report by bill or otherwise as early as possible.

The further consideration of the bill granting lands equally to the States for railroad and educational purposes was postponed for three weeks.

Mr. Goodrich of Massachusetts introduced a bill ceding that portion of Massachusetts known as Boston Corner to New York.

Mr. Haven of New York said that the two States had acted, but it required the assent of Congress. The bill was passed.

Mr. Cobb of Alabama introduced a bill amendatory of the law of last session graduating and reducing the price of public lands. Postponed to one week.

An ineffectual effort was made to adjourn till Friday, but at 2 o'clock the House adjourned until to-morrow.

LAWRENCE'S

CHERRY PECTORAL.

W. F. LAWRENCE: DEAR SIR,—

It gives me pleasure to state that your CHERRY PECTORAL has given utmost satisfaction wherever it has been used. Some of the most distinguished physicians of the state, are in the habit of purchasing it in bulk, and profess themselves highly gratified with its remedial effects. I can recommend it with confidence as a very superior medicine, and have no doubt that it will earn for itself an enviable reputation. E. H. ROLLINS.

CONCORD, Sept. 20, 1854.

Mr. Rollins is one of the most extensive dealers in drugs and medicines in New England. As the Cherry Pectoral was first introduced in Concord, we subjoin the certificate of John F. Brown, formerly bookseller and publisher, and now city clerk of Concord, N. H., our former agent:

This certifies that I have been an agent for the sale of the medicine, now extensively known as Lawrence's Cherry Pectoral; that so far as I know it has given good satisfaction; that I have repeatedly sold it to physicians in quantity; that I am acquainted with the manufacturer of the Pectoral; that he is a physician of good repute, and that I believe him qualified to conduct the complex operations necessary for the manufacture of this medicine. JOHN F. BROWN.

CONCORD, N. H. April 6, 1854.

The above are but few of the many testimonials in favor of Lawrence's Cherry Pectoral. It is used under the sanction and approbated at Dartmouth College by Prof. Dixi Crosby, and the most eminent of the Medical Faculty of the N. E. states. It is

THE GREAT REMEDY

Sagamore House,

THE Proprietor of the above named House has made arrangements so as to provide for the reception of parties, at short notice, through the coming winter.

The table will be furnished with all the delicacies the market affords, as well as the substantials which are necessary in a well ordered house.

This House is within thirty minutes' ride of Portsmouth, and having been favored with an extensive patronage for the past two years, is now well known to the public.

The above arrangement, which is a novelty in this section, the Proprietor hopes will be duly appreciated, and that a portion of the Winter Pleasure Parties may turn toward his house, from which a fine view may be had of our rock bound coast, against which the wintry blast hurls the dashing wave.

TOBACCO VS. WOMEN.—"We dare affirm," says M. LeMaout, in his *Botanique*, "that if tobacco had been known in the middle ages, chivalry, which arose under the influence of women, would never have existed. The French saloons have lost their charm, and the smoking-room and the coffee-house have been established in their neighborhood; gaseous narcotine and liquid alcohol, these are the terrible rivals of the female sex."

ARKANSAS INSECTS.—A citizen of Arkansas while on board of a steamer on the Mississippi, was asked by a gentleman, "whether the raising of stock in Arkansas was attended by much difficulty or expense?" "Oh, yes, stranger—they suffer much from insects."—"Insects! Why, what kind of insects, pray?" "Why, bears, catamounts, wolves and such like insects."

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S Celebrated Catholicon,

FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 58 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., NRIDAY, DECEMBER 29, 1854. VOLUME 5. NO. 128.

THE DAILY MORNING CHRONICLE

is published by

FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,

At No. 4 Exchange Buildings,

Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.

TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.

For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated.

Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.

Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping; in the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.

☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found, 50 cts. if found.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is our empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1. During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of both and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason of the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

MILLERS & GRAY,
Publishers Daily and Weekly Chronicle.

Splendid Furniture.

THOSE who have not had an opportunity of testing their eyes by the rich display of furniture at the World's Fair, or State Exhibition, may be in a measure compensated for the loss by visiting the

Daniel Street Furniture Rooms,

Under the Sign of the French Sofa. While they admire, they can have an opportunity, if they wish, of securing at a low price, the best of Furniture in the market for their own use.

Here may be found the EXTENSION DINING TABLES of different sizes; MARBLE TOP CENTRE TABLES; and a large assortment of FRENCH SOFAS AND CHAIRS, covered with plush or silk damask—or the BLACK WALNUT AND MAHOGANY SOFAS, with hair cloth—as well as some more common articles of the kind. If you may be well rested in the CANE SEATED CHAIRS, with or without rockers.

These FAGERAS, as the French call them, or WEAT NOTS as the Yankees say, are elegant articles—so are those UMBRELLA STANDS, so useful for the entry.

If you wish to complete the beauty of the chamber, just examine the varieties of ELEGANT CHAMBER SETS, and also that necessary article and useful ornament of any room, the LOOKING GLASS, in frames of either Mahogany or gilt.

These are but few of the many additions which have recently been made to the Daniel street Furniture Rooms, which the public are invited to visit, and patronize.

Morning Chronicle.

FRIDAY, DECEMBER 29, 1854.

MR. BALL'S MISSION.

Our former townsman, Mr. John Ball, now and for years a minister of charity in Salem, has just sent us a copy of his Annual Report. His experience agrees with our oft expressed opinions, on street beggary, viz., that it ought to be entirely discouraged; and that the more strictly this is done, the more likely it is that cases of real need will be relieved, and that cases of imposture will be detected and exposed. In this latter respect it is, that we set a high value on the experience and skill of a faithful and sensible city missionary, who knows how to catch the rogues in their own trap. It is as really a duty to expose these liars and cheats, as it is to relieve suffering who are in poverty and want. Every *stranger*, who seeks charity, should be sent to the City Missionary.

Mr. Ball gives some of his experience in the following paragraphs:

In the performance of duty I have attempted to guard against deception. There are to be found in every city a few individuals who will, if possible, live entirely on charity, and accomplish their end by the most barefaced falsehoods. One woman, who visited my office repeatedly in the winter, actually *demanded* assistance, stating that her husband was out of employment and very poor. Again and again I refused, as I knew that her husband had over thirty dollars in money. This she denied. I bade her send him to me. He acknowledged that he had just purchased a barrel of flour and half a cord of wood, and had plenty of money left! Another came with similar declarations, endeavoring to persuade me that her family was very destitute, which I doubted. Upon visiting them I found that the husband and three sons were daily at work, and the man talked of purchasing the house he occupied, having three hundred dollars in the Bank! They have not troubled me since. Information can be given at my office of nearly every family that is in the habit of soliciting aid, and communications made to me respecting any in want will always receive immediate attention.

Street begging is again being much practiced, and I would say to friends, satisfy yourselves by inquiry before giving to any one, that the unworthy may be detected. I will mention but one instance as a proof of the evil results of giving without investigation. A man called, one evening, at various dwellings, and stated that his wife lay dead, that I had given a coffin, and he wished for money to bury her, all of which was false. He thus obtained about five dollars, with which he purchased liquor, and drank freely for nine days; delirium tremens ensued and in two days more he died. The arrangements of the office are such that wherever any case of distress or sickness exists, it is early known, and receives the attention it merits.

Intemperance has been doing its deadly work the past year. It is surprising that no check can be put to the sale of intoxicating liquor, and that so many women sell it on the Sabbath, without detection. *More than half the misery* among the degraded is caused by the use of it. Men and women drink it, and also give it to their children. In one instance, a little girl of seven years was made drunk nearly every morning with *gin toddy*. Could those who sell it witness the misery caused by its use as I do, from week to week, they would abandon the disgraceful traffic at once. As I pen this, the cases of lying, theft, profanity, fighting, desertion of families, cruelty to children, insanity, &c., resulting from intemperance, which occur to me, are truly frightful. Will this community any longer suffer this abomination to exist? Cannot the laws be enforced by those entrusted with their execution?

HUMANITY IN THE CITY: BY REV. E. A. CHAPIN.—Being in Boston a few days ago, we obtained at the splendid store of Mr. Abel Tompkins, 38 and 40, Cornhill, a copy of the above named work. The perusal of it has given us so much pleasure that we cannot refrain from recommending it to others. It is hardly necessary for us to say of any work written by the gifted author of this volume of sermons, that it is marked by glowing feeling and deep sensibility. Few writers of the present day equal, and none excel Mr. Chapin in vigor of intellect, liveliness of fancy, or warmth of sympathy. Though a man of decided theological convictions, and, in the best sense of the term, a sectarian, his published sermons are devotional and practical, rather than polemical. Christians of every denomination can read them with profit and delight. The volume under notice contains eight sermons, bearing the following titles:—1, Lessons of the Street; 2, Man and Machinery; 3, The Strife for Precedence; 4, The Symbols of the Republic; 5, The Springs of Social Life; 6, The Allies of the Tempter; 7, The Children of the Poor; 8, The Help of Religion.

Had we room we might make numerous quotations from this book, which would abundantly justify our commendations. We content ourselves, however, with calling attention to it, and recommending every one who would read a good book, to get this. A.

☞ We should like to own the book.

FEMALE ENTERPRISE.—The gentlemen of Norwalk, Conn., lacking the spirit to get up a course of lectures, the ladies have taken the matter in hand and made all the necessary arrangements. They now have it in contemplation to furnish the gentlemen with free tickets, break the paths for them, and escort them to and from the lecture room.

HOME LIFE.

A new and neat volume of 250 pages, has just been published by Mr. Abel Tompkins, of Boston, entitled, Home Life, or a Peep across the Threshold. By Mrs. Caroline A. Soule. The contents are twelve distinct tales, viz: The Haunted Hearthstone; The Patient Hope; The Only Daughter; The Mother's Temptation; "I Haven't the Change;" The Anonymous Letters; The Thanksgiving Presents; Pride and Pity; The Children and the Novel; The Slattern Cured; "Company Every Day;" The Broken Windows. Of these we have read three, viz: the Haunted Hearth Stone, the Only Daughter, and I Haven't the Change, which we perceive to be works of delicate conception, touching incident, and artistic finish.

Every parent or friend who wishes to give a present, may feel safe as he gives this.

CRITICISING A DROP-SCENE.—'Doesticks,' the queer correspondent of the Detroit Daily Advertiser, having been to see a 'modern classic drama' in New York, remarked some of the incongruities of the drop-scene of the theatre, which have puzzled many other people before him, and in his peculiar style, gives his ideas upon the 'magnificent work of art,' as follows:

Admired the easy and graceful drapery painted on the 'drop,' which looks as if it was whittled out of a cross-grained pine shingle—took a perplex view of the assorted landscape depicted thereon—endeavored to reconcile the Turkish ruins with the Swiss mountains, or the Gothic castle with the Arab slaves—wanted to harmonize the camels and other tropical quadrupeds on the right with the frozen mill pond on the left—could'nt understand why the man on the other side of the same, away among the distant mountains, should be so much larger than the individual close to the shore, who is supposed to be nearer by several miles—tried to make out what the man in a turban is doing, with his legs crossed under him, on a raft, but gave it up—admired exceedingly the two rows of private boxes, which look like windows in a martin-house, but could not perceive the propriety of having them supported by plaster-paris ladies, without any arms, and their bodies covered up in patent metallic burial cases, (I was informed that the artist calls them *Carytides*,)—was impressed with the admirable proportions of the stage: a hundred and eleven feet wide, by four feet ten inches deep—reminding me forcibly of an empty Seidlitz powder box, turned up edge-ways—censured the indelicacy of the managers in permitting the immodest little cupids, who tacitly perform on the impassable flutes and fiddles, to appear before so refined an audience, 'all in their bare'—(my friend says the drapery was 'omitted by particular request'—was much chagrined about a mistake I made concerning a picture on one of the proscenium flats, which I mistook for a Kentucky backwoods girl, with a bowie knife in one hand, and a glass of corn-whiskey in the other; but I was told that in represents the tragic muse, with the dagger and poison-bowl—resolved not to be deceived about the match picture on the other side, and after an attentive scrutiny, I determined that it is either a female rag picker, with a scoop-shovel, or a Virginia wench with a hoe-cake in her hand; and I made up my mind that any one disposed to heathenism might safely worship the same, and transgress no scriptural command, for it certainly is a likeness of 'nothing in the Heavens above; the earth beneath, or the waters under the earth.'

MESSRS. EDITORS,—Believing that the following article from a recent number of the Daily (Concord) Patriot, embodies a subject deserving the serious consideration of those to whom it particularly refers, a subscriber requests you will give it a place in the Chronicle.

TRUE.—The Morning Star, a Freewill Baptist paper, published at Dover in this State, says that the little success which now attends ministerial labors is attributable, to a great extent, to a lack of Biblical preaching. The ministry has retrograded into a profession of essayists, philosophical speculators, moralizing upon topics of interest generally, but wanting that clearness, authority and divine power, which pertains to the word of God, when expounded and enforced. Numerous sermons are as barren of scripture as the desert is of flowers; indeed, the text seems to be regarded as a mere motto to introduce the subject, and the positions taken are made to rest upon the assertions or speculations of the preacher.

☞ An advertisement of an "important improvement in rotary planing, tonguing and grooving machines, patented November 21st, 1854," will be found on the fourth page of this paper. What the specification now claims is, combining the pressure-bar with the rotary cutters, so as to secure the same relative position of the inner edge of the bar and the path of the cutting edge, in holding and cutting the surface of a board, throughout its varying thickness.

Railroad cars should be well lighted in the night, to prevent the perpetration of thefts and robberies. A gentleman, travelling in a dimly lighted railroad car in Georgia recently, during a drowse, was thrown into a state of insensibility by a thief, who applied a sponge strongly saturated with chloroform to his nostrils, and robbed him of a large amount of money. When the gentleman recovered from his trance the thief was found to have disappeared.

A Boston paper states that an Irish woman who had received medicine gratis from a benevolent druggist during the past two winters, on her representation of utter destitution, called upon her benefactor to know whether the $320 she had in a Savings Bank was really secure.

LOCAL.

☞ Mr. Marshall's Readings of Shakspeare on Thursday evening at the Temple, took the place of a Lecture before the Mercantile Library Association. The reader fully sustained his reputation, and pleased the audience with his clear elocution and impassioned delivery.

On Thursday evening, Jan 11, B. P. Shillaber, Esq. of Boston, will read a Poem.

☞ We are requested to state that the Social Gathering at Jefferson Hall, will be open again this evening at 7 o'clock. Should the weather be pleasant, the Hall will also be open in the afternoon.

☞ We understand that orders have been received at the Navy Yard, from the Department, which will again set to work the large number of mechanics who have been lying on their oars for a fortnight.

We further learn that they will go to work accordingly, on Monday morning, Jan. 1.

LECTURE AT RYE.

The lecture on Rev. Joshua Moodey, which was advertised to be delivered by Rev. T. H. Miller, on Sunday evening last, was postponed by the storm,—and is to be delivered on Monday evening next, at the Congregational Church in Rye, commencing at 6 o'clock,—Providence permitting.

FIRE.—The dwelling house of Mr. Peletiah Hussey, at North Berwick, was destroyed by fire last Sunday forenoon. The chimney had been on fire in the morning, and though the neighbors saw it, the family was not aware of it. The fire broke out while the family were at meeting, and it is supposed originated from the burning of the chimney. Insured $1200.—*Saco Dem.*

The New York Tribune calls upon the ladies of New York, Brooklyn, and Williamsburg, to devote the money to the poor which is usually spent on the first of January for the expensive entertainment of their male friends who call upon them that day. A good suggestion.

An exquisitely dressed young gentleman, after buying another seal to dangle about his delic to person, said to the jeweler that 'he would-ah like to have-ah something engraved on it to denote-ah what he was.' 'Certainly, certainly, I will put a cypher on it,' said the tradesman.

A panther entered the dining room of a house in Ouachita parish, La., a few days ago, while the family were seated at their meal, and after upsetting the table and nearly killing two dogs, made good his retreat. He was followed, however, and finally killed.—He measured ten feet nine inches from tip to tip, and was two feet seven inches in height. So says the Ouachita Register.

As an indication of extravagance which has prevailed in the country for some time, an importing house in New York has written a letter stating that the amount of duties paid for French artificial flowers, for the first quarter of the current fiscal year, was almost double the amount of duties paid on railroad iron.

The Boonsville (Mo.) Observer tells of a great congress of bees on the farm of Mr. Noah Smith, in those parts. Thirty swarms have gathered in and about one cherry tree. The old women of the neighborhood regard it as a sign of the approaching destruction of the world.

FREE NEGROES IN ST. LOUIS.—There are 689 licensed free negroes in St. Louis county, Mo., of whom 210 are washers by occupation, 56 laborers, and 29 barbers. The remainder respectively follow various occupations, and one or two are put down as tradesmen.

John Hastings, the first white person ever executed in Bourbon county, Ky., was hanged at Paris on the 15th, for the murder of young Williamson. He said he killed the boy without malice, and advised the crowd to beware of intoxicating liquors.

In New York city, some persons, instead of keeping open house on New Year's Day, intend to expend the amount which such festivities would cost, in relieving the necessities of the poor.

The big drum of the band of every Austrian regiment is drawn by a dog in a neat little cart. Another curious fact in connection with this is—the Austrian soldiers are not allowed to eat sausages!

Local politics run high in the western country. A candidate for county clerk in Texas offered to register marriages for nothing. His opponent, undismayed, promised to do the same and throw a cradle in.

GOOD PRICE FOR OIL.—The New Bedford Mercury learns of a sale of eleven thousand gallons of sperm oil, in Fairhaven, to a house in New York, at $1.70 per gallon.

'Stand aside, my little boy, I want to pass.' 'Don't call me a little boy, sir, I have smoked and chewed these two years.'

Three hundred hogsheads of molasses were sold at Portland last week, *to go to France.*

MEN WHO ARE MEN.

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

CONGRESS.

WEDNESDAY, Dec. 27.

SENATE.—A petition was received from J. H. Brown concerning apparatus for the relief of wrecked vessels.

Mr. Badger of North Carolina moved that the Senate adjourn till Friday. During the debate on this motion several Senators would be in their seats. It was not right, therefore, to transact any important business, and he hoped the Senate would feel disposed to adjourn till Friday, and from Friday till Tuesday, when the Senators would be full, and the members would be prepared to despatch business correctly.

Mr. Rockwell of Massachusetts introduced a House bill giving the assent of Congress to the transfer from the State of Massachusetts to the State of New York of Boston Corners. Concurred in and passed.

Mr. Fisk of New York moved that the Committee on Foreign Relations be instructed to inquire whether any and what compensation should be paid to Commodore Perry for his services in relation to the achievement of the treaty with Japan.

The Senate, without transacting any other business, adjourned till Friday, with the understanding that it would then again adjourn till Tuesday.

HOUSE.—The Senate bill, authorizing the construction of a subterranean line of telegraph from the Mississippi or Missouri river to the Pacific ocean, was amended, and referred to the committee of the whole.

The army appropriation bill, and the bill making appropriations for the general post office, were passed.

A bill was introduced by Mr. Noble of Michigan, making appropriations for continuing the public works at Monroe, Michigan. Pending a motion for its reference, a debate sprang up in relation to river and harbor improvements, in the course of which a suggestion was made that the House should instruct the committee on commerce to report one hundred and forty bills, that being the number of items in the river and harbor bill, in order to obtain the reason why the President vetoed that bill. After considerable discussion, Mr. Noble's bill was referred.

Several bills in relation to Kansas matters were appropriately referred.

THE VALUE OF SHIPS IN LIVERPOOL.—Twenty-two ships were sold at auction in the Liverpool Cotton Sales-room, on the 9th inst. Seventy-two had been advertised for sale, but though the attendance was large, the bidding was very languid. Of the whole number sold, three were bought by cash purchasers and the remainder taken by bill-holders. The average price paid was at the rate of about seven dollars and a half a ton—some more and some less—and the vessels sold varied in size from fifty to twelve hundred tons. The total value of the vessels sold was £103,050, and the sale was generally considered satisfactory.

A gentleman of our acquaintence was travelling recently over a road which was new to him, the vehicle being driven by a loquacious Irishman. Coming to a spot where a frail bridge spanned a stream which flowed far below, Pat remarked that it was a dangerous place. "Is it," said the gentleman, "was any one ever lost here?" "No!" said Pat, "no one was ever lost here; two men were drowned here last year, but we found them."—*Boston Tel.*

MRS. PARTINGTON ON MATRIMONY.—"If ever I'm married," said Ike, looking up from the book he was reading and kicking the stove door to, energetically—"If ever I'm married"—"Don't speak of marriage, Isaac, till you are old enough to understand the bond that binds congealing souls. People mustn't speak of marriage with impurity. It is the first thing that children think of now-a-days, and young boys in pinafores, and young girls with their heads fricassed into spittoon curls, and full of love-sick stories, are talking of marriage before they get into their teens. Think of such ones getting married! Yet there's Mr. Spaid, when heaven took his wife away, went right to a young lady's cemetery and got another, no more fit to be the head of a family than I am to be the board of mayor and alderman." She tapped the new box that her friend, the colonel, had given her, with her eye resting upon the gold heart inlaid in the centre of the lid, as if hearts were trumps in her mind at the time, while Ike without finishing the sentence, kept on with his reading, accompanying himself with a pedal performance on the stove door, and a clatter upon the round of his chair with the handle of a fork in his left hand.—*Post.*

FANNY FERN is agonizingly pathetic in her fictitious writing—so soft, so tender and so angelic! But her little matter-of-fact notes, which she has got into the habit of writing nearly as frequently as the Duke of Wellington, are in quite another vein. They have a sharp, broomsticky snap that makes a man shiver, and perhaps, sets him thinking about the healthiness of certain kinds of popular lady literature. Here is her latest bulletin:

To the Editor of the Evening Mirror —

The Boston Olive Branch states that it "paid Fanny Fern for her first literary efforts $8 per week, that The True Flag paid her $5 per week, making $13 for her weekly labor in these two papers." I pronounce this statement *false.* FANNY FERN.

Sagamore House,

FROST'S POINT, RYE, N. H.

THE Proprietor of the above named House has made arrangements so as to provide for the reception of parties, at short notice, through the coming winter.

The table will be furnished with all the delicacies the market affords, as well as the substantials which are necessary in a well ordered house.

This House is within thirty minutes' ride of Portsmouth, and having been favored with an extensive patronage for the past two years, is now well known to the public.

The above arrangement, which is a novelty in this section, the Proprietor hopes will be duly appreciated, and that a portion of the Winter Pleasure Parties may turn toward his house, from which a fine view may be had of our rock bound coast, against which the wintry blast hurls the dashing wave.

[1md16] THOMAS R. CLARK.

Daguerreotypes.

EVERY body and their friends are now having their Pictures at

Boutelle's Saloon on Hanover street,

And that all may have a chance, he will stop a short time longer. To parents he would say—bring in their little ones and get a type of them that shall show in after years the tiny features of their infant days; and to the beaux and sweet hearts who have exchanged many a token and merry glance—come now and exchange faces and have something to wink at when alone. A fine assortment of CASES and LOCKETS, all of which will be sold cheap. o16

No Danger.

SOME crackers have been shaking their heads during last and this week, entertaining fears that I am

SELLING TOO CHEAP.

But I shall continue to sell all kinds of Fancy Goods, Embroideries, Trimmings, &c. at extremely low prices.

They were bought last week in New York at Auction, and are paid for.

I have One Hundred more of those splendid Embroidered Collars, at 25 cents; and sixty more of the Cashmere Scarfs worth $1.25, that I sell for 42 cents.

FOR BARGAINS,

LAWRENCE'S

CHERRY PECTORAL.

W. F. LAWRENCE: DEAR SIR,—

It gives me pleasure to state that your CHERRY PECTORAL has given utmost satisfaction wherever it has been used. Some of the most distinguished physicians of the State, are in the habit of purchasing it in bulk, and profess themselves highly gratified with its remedial effects. I can recommend it with confidence as a very superior medicine, and have no doubt that it will earn for itself an enviable reputation. E. H. ROLLINS.

CONCORD, Sept. 20, 1854.

Mr. Rollins is one of the most extensive dealers in drugs and medicines in New England. As the Cherry Pectoral was first introduced in Concord, we subjoin the certificate of John F. Brown, formerly bookseller and publisher, and now city clerk of Concord, N. H., our former agent:

This certifies that I have been an agent for the sale of the medicine, now extensively known as Lawrence's Cherry Pectoral; that so far as I know it has given good satisfaction; that I have repeatedly sold it to physicians in quantity; that I am acquainted with the manufacturer of the Pectoral; that he is a physician of good repute, and that I believe him qualified to conduct the complex operations necessary for the manufacture of this medicine. JOHN F. BROWN.

CONCORD, N. H. April 6, 1854.

The above are but few of the many testimonials in favor of Lawrence's Cherry Pectoral. It is used under the sanction and approbated at Dartmouth College by Prof. Dixi Crosby, and the most eminent of the Medical Faculty. Are you troubled with a cough, or cold, bronchial, or pulmonary complaint? try it immediately, and do not neglect your cough and cold. o51satf

THE GREAT REMEDY

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21ST, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a *very* superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,
JAMES A. WOODBURY.

AMERICAN AND FOREIGN OFFICE.

Agency for business with US Patent Office, Washington,
70 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS.—The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can save small themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———

"R. H. EDDY, Esq., Boston, Mass.

"SIR.—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully, Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of steel Pens; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1858," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF FLOODING; PAINFUL, SUPPRESSED, AND IRREGULAL MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 28 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 87 Mill street.

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., SATURDAY, DECEMBER 30, 1854. VOLUME 5. NO. 129.

THE DAILY MORNING CHRONICLE

is published by

FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,

At No. 4 Exchange Buildings,

Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning. TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.

For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated.

Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.

Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping, on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.

☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found, 50 cts. if found.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

MILLERS & GRAY,
Publishers Daily and Weekly Chronicle.

Splendid Furniture.

THOSE who have not had an opportunity of feasting their eyes by the rich display of Furniture at the World's Fair, or State Exhibition, may be in a measure compensated for the loss by visiting the

Daniel Street Furniture Rooms,

Under the Sign of the French Sofa. While they admire, they can have an opportunity, if they wish, of securing at a low price, the best of Furniture in the market for their own use.

Here may be found the EXTENSION DINING TABLES of differentkinds; MARBLE TOP CENTER TABLES; and a large assortment of FRENCH SOFAS and CHAIRS, covered with plush or silk damask—or the BLACK WALNUT and MAHOGANY SOFAS, with hair cloth—as well as some more common articles of the kind. Or you may be well rested in the CANE SEATED CHAIRS, with or without rockers.

These FTAGERAS, as the French call them, or WHAT NOTS as the Yankees say, are elegant articles—so are those UMBRELLA STANDS, so useful for the entry.

If you wish to complete the beauty of the chamber, just examine the varieties of ELEGANT CHAMBER SETS, and also that necessary article and useful ornament of any room, the LOOKING GLASS, in frames of either Mahogany or gilt.

These are but few of the many additions which have recently been made to the Daniel street Furniture Rooms, which the public are invited to visit, and patronize.

Morning Chronicle.

SATURDAY, DECEMBER 30, 1854.

LAST OF THE YEAR.—This is indeed the last week-day of the year 1854. We were hardly aware of the fact, that Time, with steady but noiseless tread, had stolen a march upon us, and travelled faster than our thought. But here we are at the close of the year, busy at our daily task, and as happy as busy. No one cheats us of our years, nor do we desire to cheat either time or our ourselves about the years, but would rather, as Watts says—

—"Spend them all in Wisdom's ways,
And bid them speed their flight."

We are not unmindful of the fact that not a few who began the year 1854 with us, stronger and younger than we, have fallen like grass before the mower's scythe—nor do we shut our eyes upon a future like the past in this respect—but we have learned, that a calm survey of these providential events, with a steady trust in their Great Ruler, can make the observation pleasant, and the reflections every way profitable.

The old year, in spite of its ills, has been happy: May the new be happier.

TEXAN DEBT.—Strange to say there seems to be a little reservation at Washington, as to giving two or three additional millions to the Texan creditors. There is one fact in relation to this debt which ought to be conclusive.—Most of the original advances to aid the Texan Revolution were made from the New York Custom House, by Swartwout and others, who "borrowed" the money from the United States, for which they subsequently became defaulters. The United States having been once "diddled" by the original leaders, what is more reasonable than that they should be diddled a second time by the present holders?—*Boston Telegraph.*

We have some recollections about the Texan scrip, which was said to abound in the pockets of some Congressmen, at the time when the Annexation took place.

It may be well to remind the reader that the Treaty of Annexation fell through, because it failed to be ratified by the Constitutional two thirds vote, which is required to make any treaty valid. But forthwith the treaty was put into the shape of an Act of Congress, driven through both Houses by the force of Texan scrip or other appliances, and signed by President Tyler in earnest haste.

The American people have paid for Texas two or three times over; and we are to do it two or three times more, as we understand it, and as we always understood it. The Act of Annexation, to be sure, says, that the United States shall pay the Texan Debt, *not exceeding* a certain sum. But then we (Uncle T.) knew and said at the time that this was a mere falsehood, told with intent to deceive and gull the flats.

It was said at the time, also, that there would be no war with Mexico—but History now gives this the lie also. In fine, the thing has been a cheat, a lie, and a swindle, from the beginning to—we were going to say, *the end*—but the end is not yet. We shall pay these three millions—and then,——

IMPORTANT DECISION.—A judge in Rhode Island has decided, in a liquor case, so the papers say, that the "seizure and detention" of liquor is unconstitutional. We suppose it means the seizure and *destruction* of the liquor. This, for the present, seems to be law in Rhode Island. It does not seem to be law in Maine. It is to be considered, however, that Rhode Island is hemmed in between those great liquor marts, Boston and New York, which circumstance may have some influence on her courts.

SECOND ANNUAL BALL OF THE GRANITE GUARDS, CONCORD.—The Granite Guards, Capt. J. A. Gove, will give a grand military and civic ball at Phenix Hall, Concord, on Thursday evening, Jan. 4th, 1855. The list of general and special managers is a sufficient guarantee of a brilliant festival. We return thanks for a complimentary ticket.

PHRENOLOGICAL JOURNAL, for January.—This number, which begins the new year, contains a beautifully illustrated page, entitled Two Paths of Life; heads of Benton, E. H. Purdy, and Sir Charles Napier.

Published by Fowlers & Wells, New York and Boston. They also publish the Water Cure Journal.

See Advertisement of Clubbing, with Weekly Chronicle.

THE SHIP BUILDERS' BANK.—The Rockland Advertiser sometime since announced that the difficulties of this bank had been removed, and that it would resume operations. The Bangor Journal understands that an over issue of $60,000 was discovered, which the directors determined to shoulder and carry the bank along; and that subsequently $40,000 more of the same kind of paper turned up—which made $100,000, involving the whole capital stock of the bank. The Journal remarks that it is "believed the bills will be redeemed; and holders had better not make too great a sacrifice upon them."

At a recent agricultural fair in Portland, Oregon, three apples were exhibited which weighed each upwards of two pounds.

INCIDENT OF THE LIQUOR LAW.

GREAT FALLS, Me., Dec. 27. 1854.

"There's many a slip," &c. To-day High Sheriff Marshall, with some of his deputies, made a descent upon the rum holes on the Berwick side, putting in force the "right of search," and making quite a haul of the "R. G." brand, when, upon entering Reed's tavern, which is situated on the bank of the river that divides Maine from New Hampshire, one who was "up to snuff" quietly slips over to the N. H. side on the ice, taking some half a dozen demijohns of the "critter" with him, leaving by the back door as the Sheriff entered the front.

The "solitary sentinel" stood in the rain, quietly "dreaming of the hour" when the animal could safely return to his den, and was bandying many witty sayings with the crowd which had gathered upon the bridge and banks of the river to see the sport, when an officer from the N. H. side quietly stepped down and took possession of the spoils, under a civil process for debt, much to the amusement of the crowd.—*Cor. Boston Journal.*

LIQUOR SEIZURE.—Last Wednesday, Sheriff Marshall, with some of his deputies, made a descent upon the liquor dealers of Berwick side of Great Falls village, and seized a four horse-load of liquor, and carried it to South Berwick. Reed, the landlord of the Maine Hotel, ran his liquors across the river on the ice to the New Hampshire side, where it was levied on and taken for dept.—*Great Falls Journal.*

"THE PURE JUICE OF THE GRAPE."—Many of our fashionable wine-bibbers, while drinking themselves into delirium tremens, hug the idea that they are enjoying the pure juice of the grape. Deluded souls! The shadow of a vine-leaf never cooled the fruit from which their beverage was pressed. So general, so well-nigh universal, are liquor adulterations at the present day, that, should this state of things continue, pure wine will ere long be considered as a *myth*, like the fabled nectar of the gods, which poets might blab about, but never drank, and every day mortals might covet but never saw. See what stuff is palmed upon our credulous tipplers from superintendom down to the broad domain of the undiscriminating million, under the name of "pure wines!"

The New York Herald declares that nine-tenths of the brandy and wine sold in that city, "should be spilt into the East River"—and that it is "a vile compound of poisons, in which camphene and other deadly drugs are mixed with vinegar and currant wine—the whole being sold with *authentic* French or other foreign labels!"

And this is the compound, a free imbibition of which constitutes one of the peculiar privileges of fashionable society.—*Prohibitionist.*

HOGARTH'S RED SEA.—Hogarth was once applied to by a miserly old nobleman, to paint on his stair case a representation of the destruction of Pharaoh's Hosts in the Red Sea. In attempting to fix upon the price, Hogarth became quite dissatisfied. The miser was unwilling to give more than half the real value of the picture. At last Hogarth, out of all patience, agreed to his patron's terms. Within a day or two, the picture was ready. The nobleman was surprised at such expedition, and immediately called to examine it. The canvass was all over red.

'Zounds!' said the purchaser,' what have you here? I ordered a scene of the Red Sea.'

'The Red Sea you have,' said Hogarth, still smarting at having his talents undervalued.

'But where are the Israelites?'

'They are all gone over.'

'And where are the Egyptians?'

'They are all drowned.'

The miser's confusion could only be equalled by the haste with which he paid his bill.

It is said of Gen. Jackson, that though a member of the Presbyterian Church, his success in life had been so identified with the democracy, that he regarded and complained of the clergy as aristocrats. Clergymen had called upon him to administer religious consolation, and to reconcile and prepare him to die, and he complained that "they do not come to pray *with* me, but *for* me, sir; as though I was afraid and not prepared to die, and did not know that I am at the very gates of death; their intentions are good, but they are aristocrats, sir."—*Boston Post.*

Referring to the reported treaty between the United States and St. Domingo, the Traveller learns that "such information has been received as renders it probable that the treaty will never be presented to the Senate for ratification."

The same paper also thinks that "a Maine Law regime in New York city, would rapidly diminish, if it did not entirely remove suffering from the working classes in the city."

PRESENTATION.—On Saturday last a beautiful Bible was presented by citizens of Ellsworth, Me., to Miss Eliza A. Thayer, who has taught a primary school in Bangor for fifteen years past, on account of her determination to retire from her charge rather than admit to her school the edition of the Bible approved by the Roman Catholics.'

In Paris, a rich American wrote to Mademoiselle de S——, of the opera, a tender epistle on the back of a bank note. The lady sent a verbal reply, with the apology that she was entirely out of note paper, and would be thankful to Mr. l'American to send her a quire or two of his.

At the marriage of the great chief Tungi to Anna Jane, the daughter of the king of the Friendly Isles, the feasting lasted the whole week. One thousand hogs were baked whole, with a proportionate supply of turtle, sharks, ray-fish, and every other fish that is caught in those waters.

Wooden huts are to be sent from England to the Crimea, and an experienced iron founder has submitted to the foreign office a plan to make them fire proof. One hundred of these buildings had been taken out in one screw steamer. Large orders for stoves and other iron work for the Crimea had been given.

An editor observes that "it is a solemn thing to be married." Another replies that "it is a great deal more solemn not to be."

LOCAL.

WHAT SHALL WE BURN FOR LIGHT?—Gas, by all means, for economy, safety and brilliancy, if you live where it can be obtained readily. But if you do not, then burn candles, if you wish to make the darkness visible, and not spend much money; and by all means go early to bed if you don't wish to damage your eyes.

If you wish to be smoked first, and then blown up or burned out,—burn fluid, as carelessly as possible, in glass lamps without the safety gauze.

If you are afraid of fire, wish for a good light, and have a large fortune, you can burn Sperm Oil; but not otherwise. But lastly, if you can only afford Whale Oil, Lard or Grease, you can find a cheap, simple, and useful Oil Lamp, which will give a good strong light for study or work, at the cost of one cent per hour.

A dozen or two of them stand on Mr. Carleton's counter, to be tried; and one stands on Uncle Toby's table, which has been tried; and it is seen to give its light within the cost of one cent per hour, and to afford no little heat beside. Just the thing for a standing light in Winter.

☞ The second "Old Folks' Concert," for which ample arrangements are now being made, is designed to take place in the third or fourth week of January. A rehearsal is to be held at Exchange Hall (and *not* at the Vestry in Fleet street,) this evening at 7 o'clock. See call of Committee, inviting *all* singers of the old music.

☞ The Board of Aldermen transacted no business on Thursday evening, for want of a quorum. On Friday forenoon a quorum was collected, a few bills approved, the jury box filled up, and some other matters of minor importance attended to.

PLEASANT STREET CHURCH.—The Rev. David E. Millard, son of the former pastor of the Pleasant Street Church, of this city, will preach at that Church to-morrow.

☞ Rev. James Rimes will lecture on Slavery at the South as connected with this Government, on Sabbath evening next, at the Old South Church—services to commence at 7 o'clock. This lecture was postponed last Sabbath evening, on account of other public lectures.

☞ Rev. John Moore, pastor of the Universalist Society in Concord, is announced to deliver the weekly lecture on Temperance, next Monday evening. Mr. Moore enjoys the reputation of an able speaker.

Musical Convention.

FRIENDS OF MUSIC in Portsmouth and the neighboring towns, will hold a Public Musical Festival

AT HANOVER STREET CHAPEL,
PORTSMOUTH, N. H.,

commencing on

TUESDAY, Jan. 2d, at 10 o'clock, A. M.,

to continue, day and evening, through Tuesday, Wednesday and Thursday—closing with

A Grand Concert
OF SACRED AND SECULAR MUSIC,
AT THE TEMPLE,
On THURSDAY EVENING, Jan. 4th.

The exercises during the Convention will be under the direction of

Prof. B. F. Baker, of Boston.

A Pianist and able Vocal assistance from Boston, will also be present and take part in the exercises.

Those having copies of the Handel Collection or the Union Glee Book, are requested to bring them—and these books will be on sale at the hall. Instrumental performers are invited to bring instruments with them, that an Orchestra may be formed.

Choirs and singers generally, and *all* having an interest in music, are invited to attend.

TICKETS to Gentlemen $1, to Ladies 50 cts. Clergymen are invited, gratuitously.

The mornings will be devoted to Lectures, Exercises on the Development and Cultivation of the Voice: the Afternoons to Choir Training, and the Evenings to exercises preparatory to the Concert. There will be Discussions upon musical subjects, practice of Church music, &c.

Mr. Editor:—I wish to make a very brief reply to an article that appeared in your columns under date of Dec. 25, and over the signature of W. Mr. W. commences his article with an attack upon the Committee of the Old South institution by saying they could have all their just dues from the Hanover street Chapel when they would produce evidence that any one connected with the F. W. Baptist Church on Hanover street had picked their pockets. It was foreign from the minds of that committee that W. would assume that he or the F. W. B. church was the accused party. There is nothing in their article that could give the public such an impression. Why not some one from the Methodist church, or Baptist, or Congregationalist church, come up and claim to be the guilty party. One of two things is certain; either W. has a spirit of antagonistic feeling towards the community of the south meeting, or that when that committee drew their bow at a venture, the arrow found way to a monitor that never sleeps. In regard to the first F W B church the committee and the second F W B church entertains the strongest feelings of christian respect and believe the majority of that church to be as good christians as any in the city. There is a very small number that we can't fellowship with.—They have the entire advantage over us at the south, from three considerations: 1st, their locality is far the best in their opinion; 2d, their register shows that they number 88 members, making three times as many as the 2d church at the south numbers; and in the third place they belong to a very wealthy association that is abundantly able to take care of them, while at the south the church numbers only 24 members. Standing independent and alone—disconnected with any religious body, with an object to benefit the moral and religious condition of the south part of the city, we hope to have the co-operation of the good people of this city in this enterprise.

†JOHN B. FITZPATRICK, Catholic Bishop of Boston;

MEN WHO ARE MEN.

Among the diseases this Pill has cured with astonishing rapidity, we may mention

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the Blood and stimulating the System, cure many complaints which it would not be supposed they could reach: such as Deafness, partial blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions. They are the best Purgative Medicine ever discovered, and you will but need to use them once to know it.

NEW YORK, Dec. 28.—Ship Irene arrived at this port this morning from Havre, with 680 passengers. There were fourteen deaths on the passage.

From Havana. — The steamship Empire City arrived at this port about 10 o'clock this morning, with Havana dates to the 23d inst. Nothing of importance had transpired at Havana.

The examination of Francisco Estampes, alias Mr. Lacoste, arrested at Baracoa on a charge of fillibustering, was progressing at Havana. In his declaration he unhesitatingly avers that his object was the liberation of his countrymen from the yoke of Spain.—Capt. Hawkins, of the American schooner Charles T. Smith, had been cited to appear and answer to the charge of having clandestinely brought arms into the island.

A new act for the registration of slaves had been promulgated, which, it is said, will be of great service to the importers of negroes. Several cargoes have lately been landed.

All the forts of the island had lately received heavy armaments.

NEW YORK, Dec. 28.—The annual report of the Commissioners of Emigration, published this morning, shows that 313,747 persons landed in this city from foreign ports during the past year, which is an increase of 30,415 upon the year 1853. One half of the entire emigration this year, 166,723, came from Germany, 79,400 from Ireland, and 30,016 from England.

The Crystal Palace has been placed in the hands of Mr. White, the President of the Association, as receiver, by the Supreme Court. The Tribune asserts that the liabilities of the Company are not over $200,000, and that its assetts are expected to realize at least that sum.

STOPPAGE OF MILLS AT TROY. — The Troy Whig says—"Neither of the three large iron establishments in the lower part of the city are to be in operation this winter. The suspending of these works alone would deprive not less, probably, than 500 persons of the means of support. The stopping of the carpet works on Ida Hill, will add to this at least 500 more. Indeed there is scarcely a manufacturing establishment in our vicinity that will not be obliged to reduce the number of their laborers this winter, and we have no doubt that from 7,000 to 10,000 in our city will be cut off from the means of support, which, in more prosperous times, is furnished by the demand for labor."

AN INCIDENT.—In Philadelphia, a widower died recently of a lingering consumption, leaving behind him, to the tender mercies o the world, a beautiful little daughter, eighteen months of age. A clergyman who had attended the dying man in his last illness was unwilling to send her to the almshouse, and wrote to a wealthy friend in the west, informing him of the case. The gentleman to whom he had written immediately resolved to adopt the little one as his child, and last week came to Philadelphia, and bore away his adopted daughter to his home in the West, where instead of becoming an inmate of a poorhouse, she will be reared in the most tender manner, and will probably become the heiress of a splendid fortune. Such are phases of life.

The following beautiful anecdote is from Graham's Magazine for January:

"We know a beautiful little blue-eyed girl, of some three years old, who was nestled in her mother's arms, at twilight, looking out upon the stars.

Mother, said she, it is getting dark.

And what makes it dark, Caroline? said her mother.

Because God has shut his eyes, replied the little poet.

Pursuing our researches in natural history, we find that at North Bridgewater a cat brought home her kitten a mouse with the trap in which it had been caught. No doubt this tender mother reasoned that, though she couldn't come at the mouse herself, some of "the folks" might be able to assist her.

On Wednesday, 27th inst., about 3 o'clock P. M., Samuel Graves, Jr., of Worcester, committed suicide, by hanging himself in the barn of Mr. Geo. R. Wesson. He was an unmarried man, about 50 years of age, of intemperate habits.

CONVENTIONS.—The democratic party of Senatorial district No. 2, will hold a Convention at Haymond, on Tuesday, January 24, at 12 M. They will also hold a Rockingham Convention at Epping, January 9th, at 10 o'clock A. M.

NOT ADMITTED TO BAIL.—Hodge, the accused murderer of William Maxwell, was taken before the Superior Court last week, for the purpose of petitioning for the privilege of being admitted to bail. The Court refused to grant his petition.

The strength of the American people lies chiefly in the number of their cannon and bayonets, and most in their schoolhouses, newspapers and books.

Sagamore House,

FROST'S POINT, RYE, N. H.

THE Proprietor of the above named House has made arrangements so as to provide for the reception of parties, at short notice, through the coming winter.

The table will be furnished with all the delicacies the market affords, as well as the substantials which are necessary in a well ordered house.

This House is within thirty minutes' ride of Portsmouth, and having been favored with an extensive patronage for the past two years, is now well known to the public.

The above arrangement, which is a novelty in this section, the Proprietor hopes will be duly appreciated, and that a portion of the Winter Pleasure Parties may turn toward his house, from which a fine view may be had of our rock bound coast, against which the wintry blast hurls the dashing wave.

LAWRENCE'S
CHERRY PECTORAL.

W. F. LAWRENCE: DEAR SIR,—

It gives me pleasure to state that your CHERRY PECTORAL has given almost satisfaction wherever it has been used. Some of the most distinguished physicians of the state, are in the habit of purchasing it in bulk, and profess themselves highly gratified with its remedial effects. I can recommend it with confidence as a very superior medicine, and have no doubt that it will earn for itself an enviable reputation. E. H. ROLLINS.

CONCORD, Sept. 20, 1854.

Mr. Rollins is one of the most extensive dealers in drugs and medicines in New England. As the Cherry Pectoral was first introduced in Concord, we subjoin the certificate of John F. Brown, formerly bookseller and publisher, and now city clerk of Concord, N. H., our former agent:

This certifies that I have been an agent for the sale of the medicine, now extensively known as Lawrence's Cherry Pectoral; that so far as I know it has given good satisfaction; that I have repeatedly sold it to physicians in quantity; that I am acquainted with the manufacturer of the Pectoral; that he is a physician of good repute, and that I believe him qualified to conduct the complex operations necessary for the manufacture of this medicine. JOHN F. BROWN.

CONCORD, N. H. April 6, 1854.

The above are but few of the many testimonials in favor of Lawrence's Cherry Pectoral. It is used under the sanction and approbated at Dartmouth College by Prof. Dixi Crosby, and the most eminent of the Medical Faculty of the N. E. states. It is

THE GREAT REMEDY

For the rapid cure of coughs, colds, influenza, croup, hoarseness, pulmonary and bronchial irritations about the throat and chest; and may be had of all apothecaries, and in at least one store in every town in N. H.

Reader, recollect that more than half of all those who die of disease, die of consumption. Here you have a remedy used and sanctioned by the most eminent among the Medical Faculty. Are you troubled with a cough, or cold, bronchial, or pulmonary complaint? try it immediately, and do not neglect your cough and cold. o5isetf

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to perfect the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

JAMES A. WOODBURY.

AMERICAN AND FOREIGN OFFICE.

Agency for business with US Patent Office, Washington,

70 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

THE GREAT STANDARD REMEDY
FOR ALL PULMONARY DISEASES.

Containing neither Prussic Acid, Tartar Emetic, nor any other deleterious drug. Extensively used, tested and approved in New England, Canada, and the British Provinces during a period of THIRTY YEARS by *Eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men*,—and, in fact by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. Dr. LYMAN BEECHER, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. LEONARD WOODS, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. DANIEL P. THOMPSON, Secretary of State of Vermont.—N. E. WILLIAMS, Esq., formerly Collector of the Port of Baltimore, Md.—Rev. JOSIAH LITCH, Philadelphia,—and many others.

HOW EXPRESSED BY PHYSICIANS.—JOHN A. BERRY, M. D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope will be better known and more generally used."

HERTS BROTHERS

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

DR. J. B. MARCHISI'S
Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, and usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.
